Another year
begins.

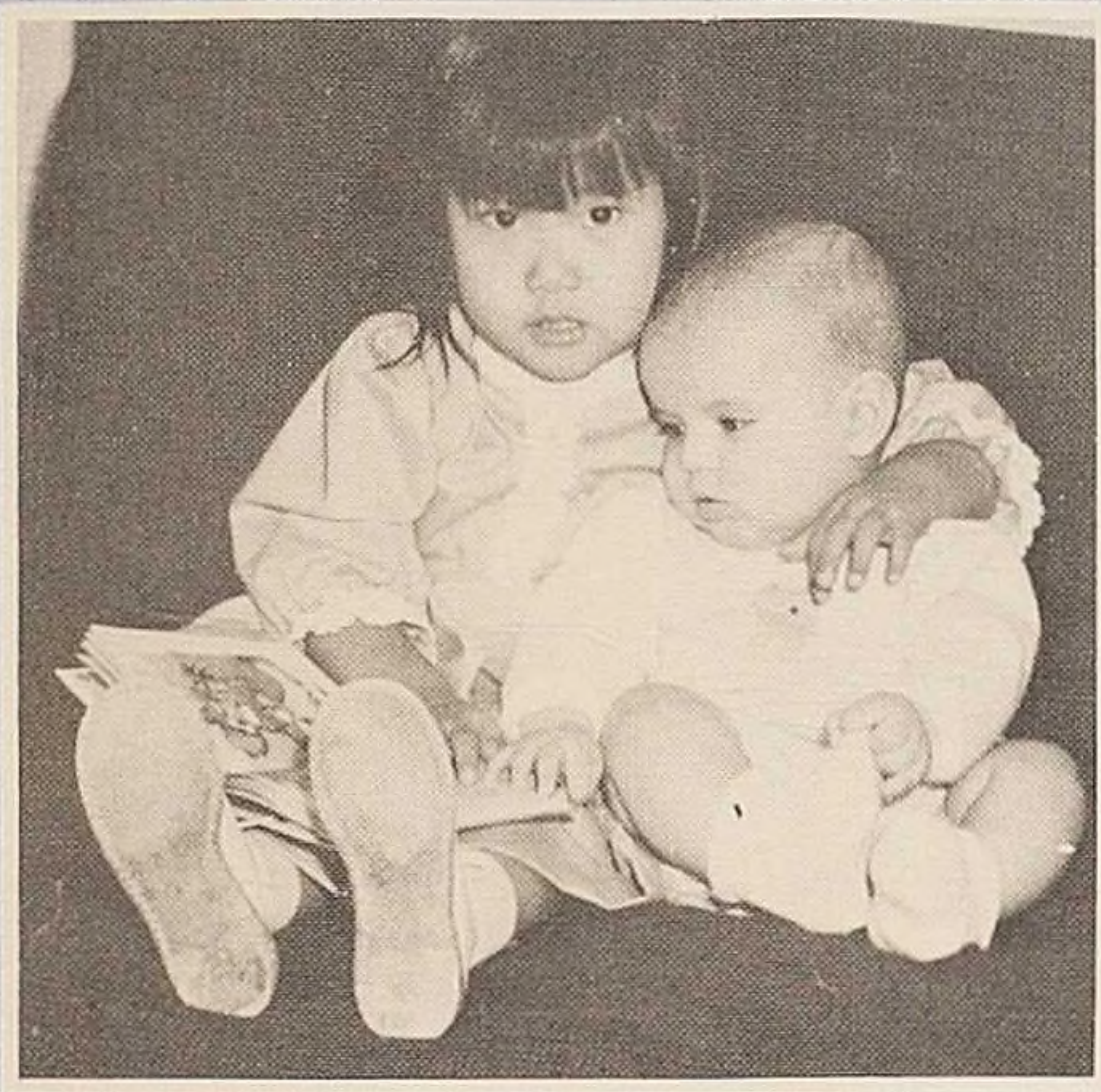

The end of summer; the beginning of school. For freshmen the first day is confusing and sometimes frustrating. To sophomores and juniors it's just routine--they've been through it before. Seniors, knowing this will be their last year, resolve to make this year a very special one.

Students readjust to school life.

The beginning of a new school year means new classes, new teachers, and new friends. With so much having changed around us, we too, have changed.

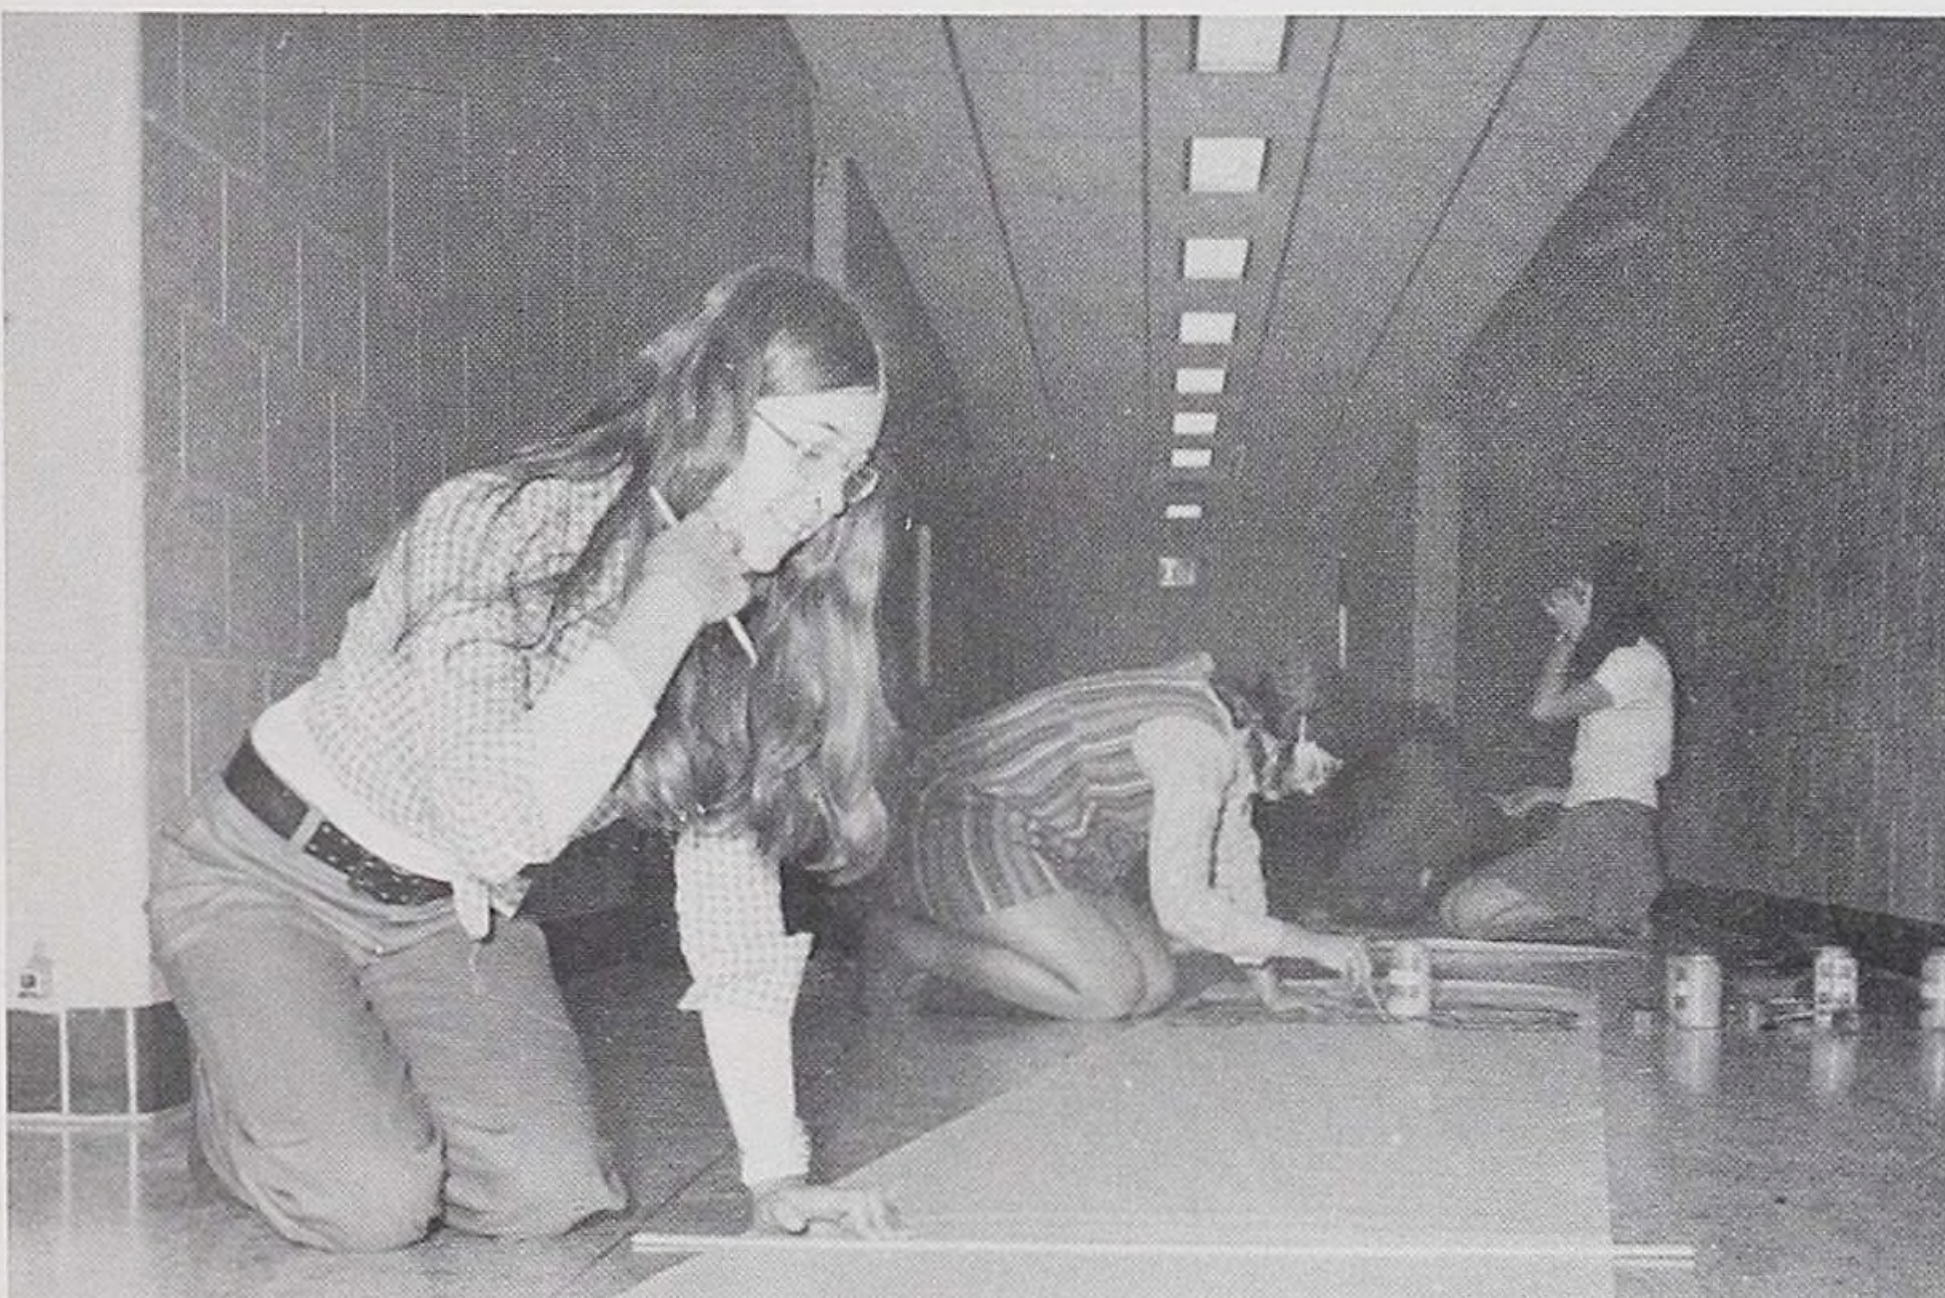

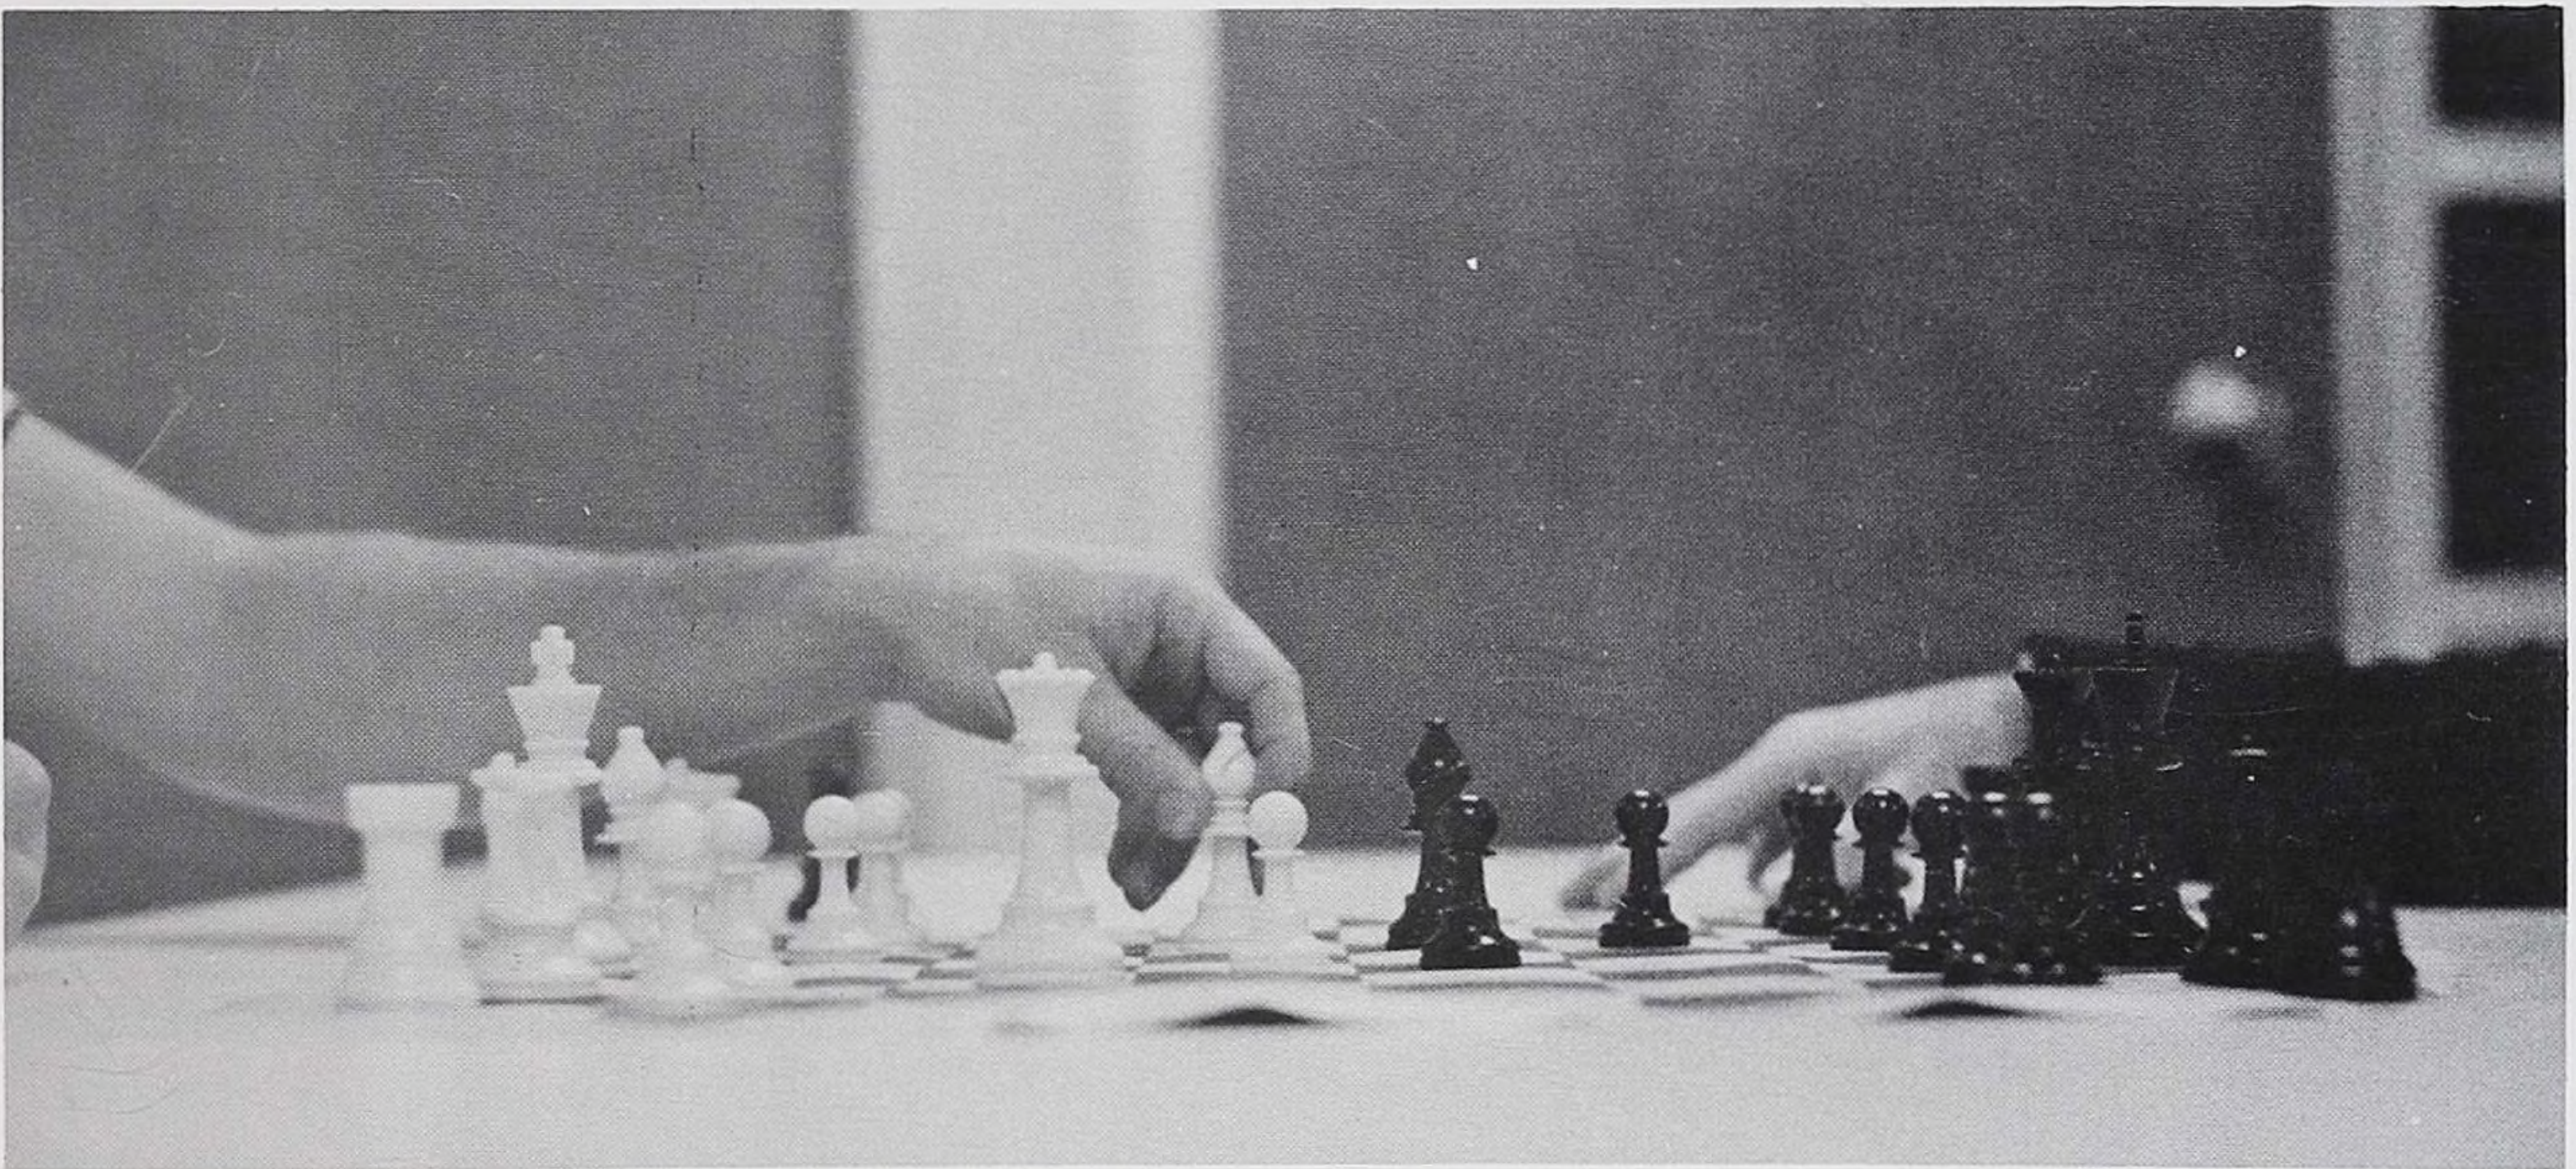

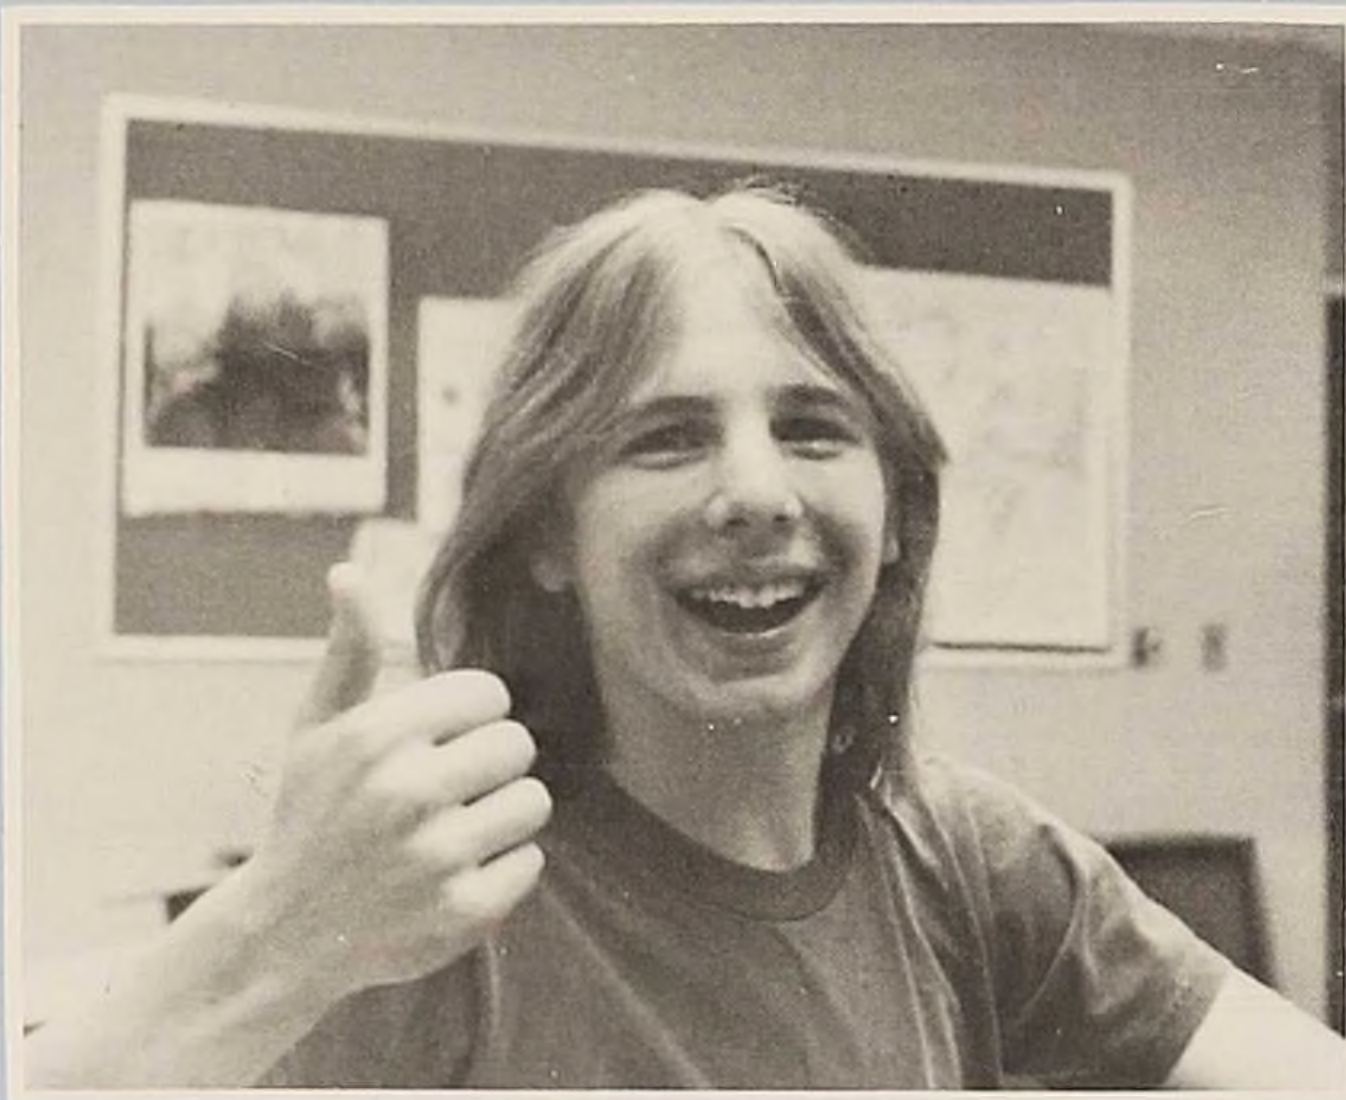

We all
belong.

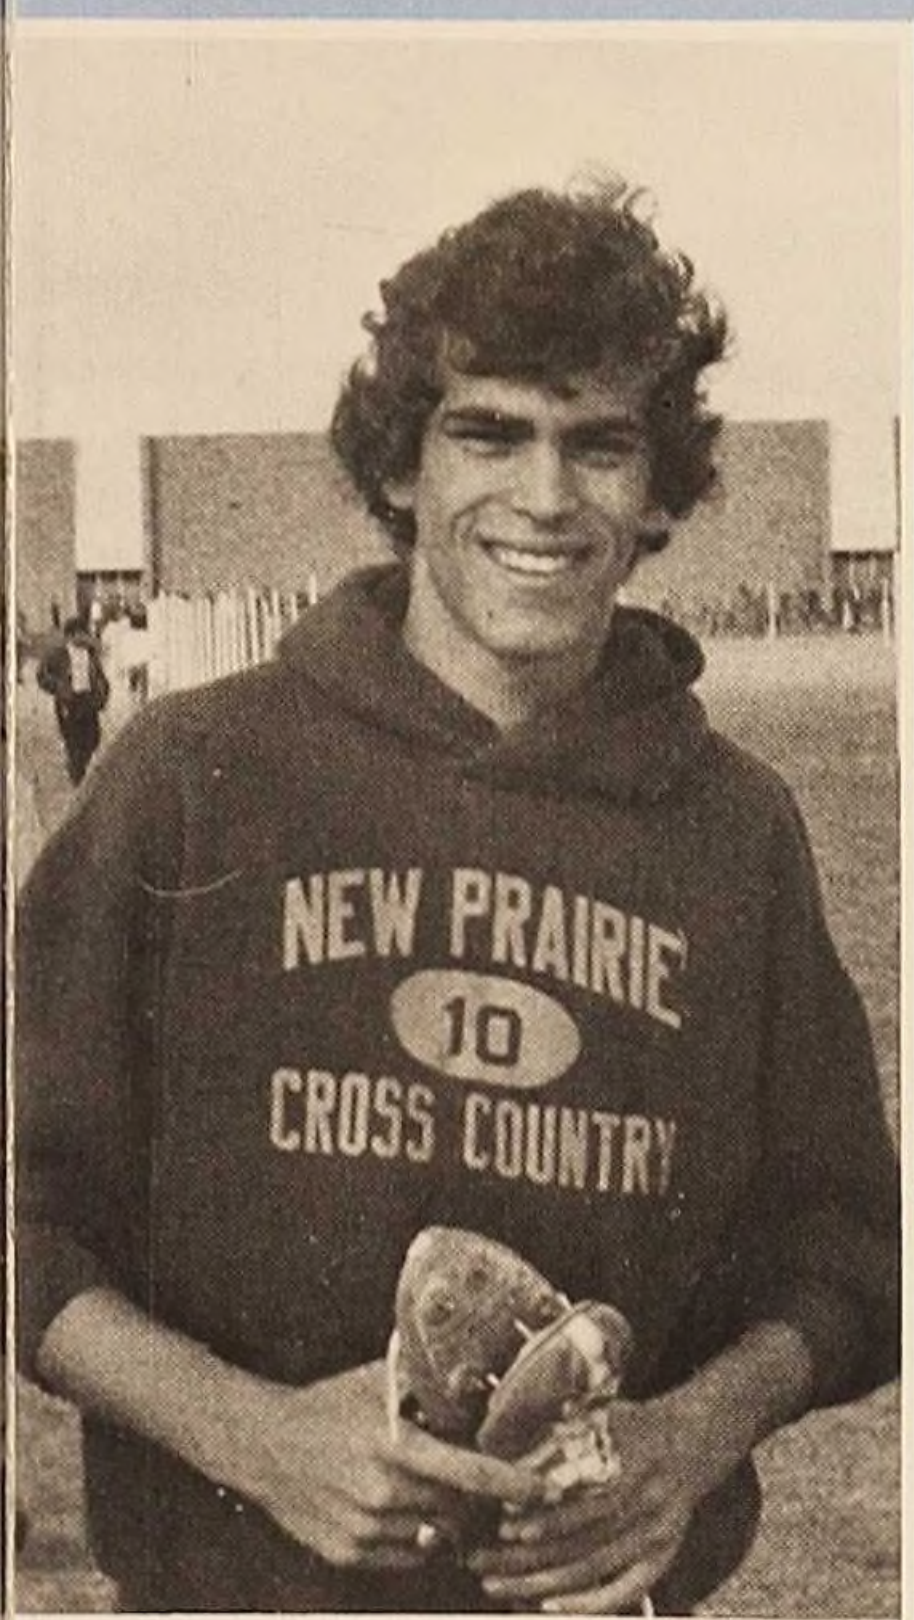

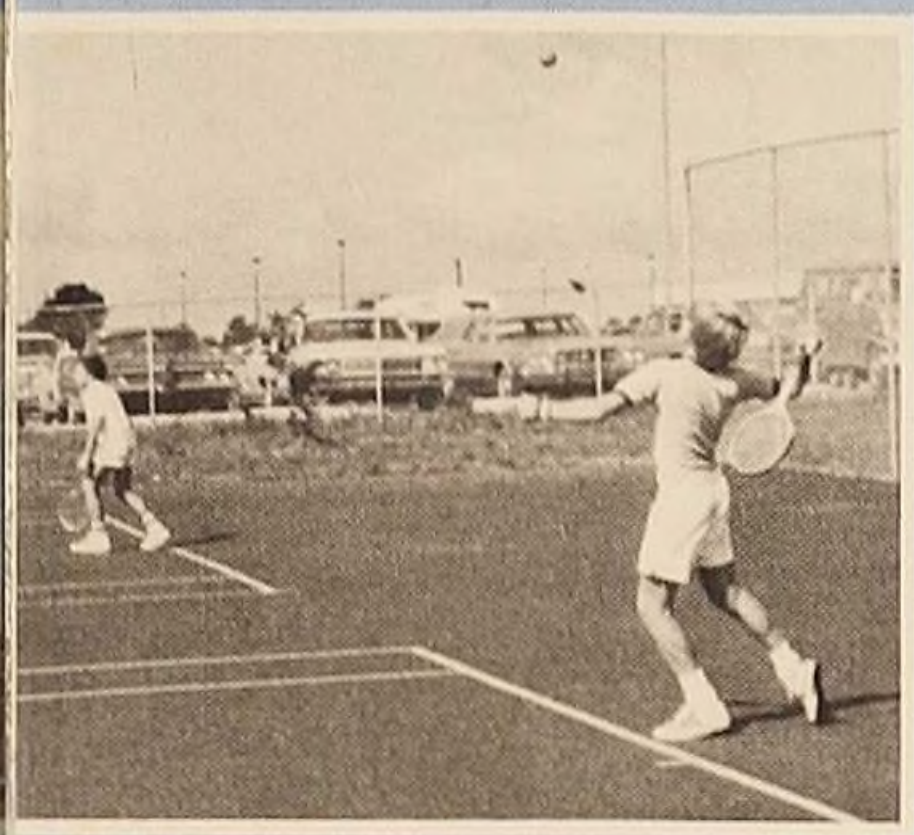

Clubs provide opportunities for learning.

Belonging--being one of the gang--is very important, especially in high school. Clubs and organizations give students a sense of purpose, worth, and usefulness.

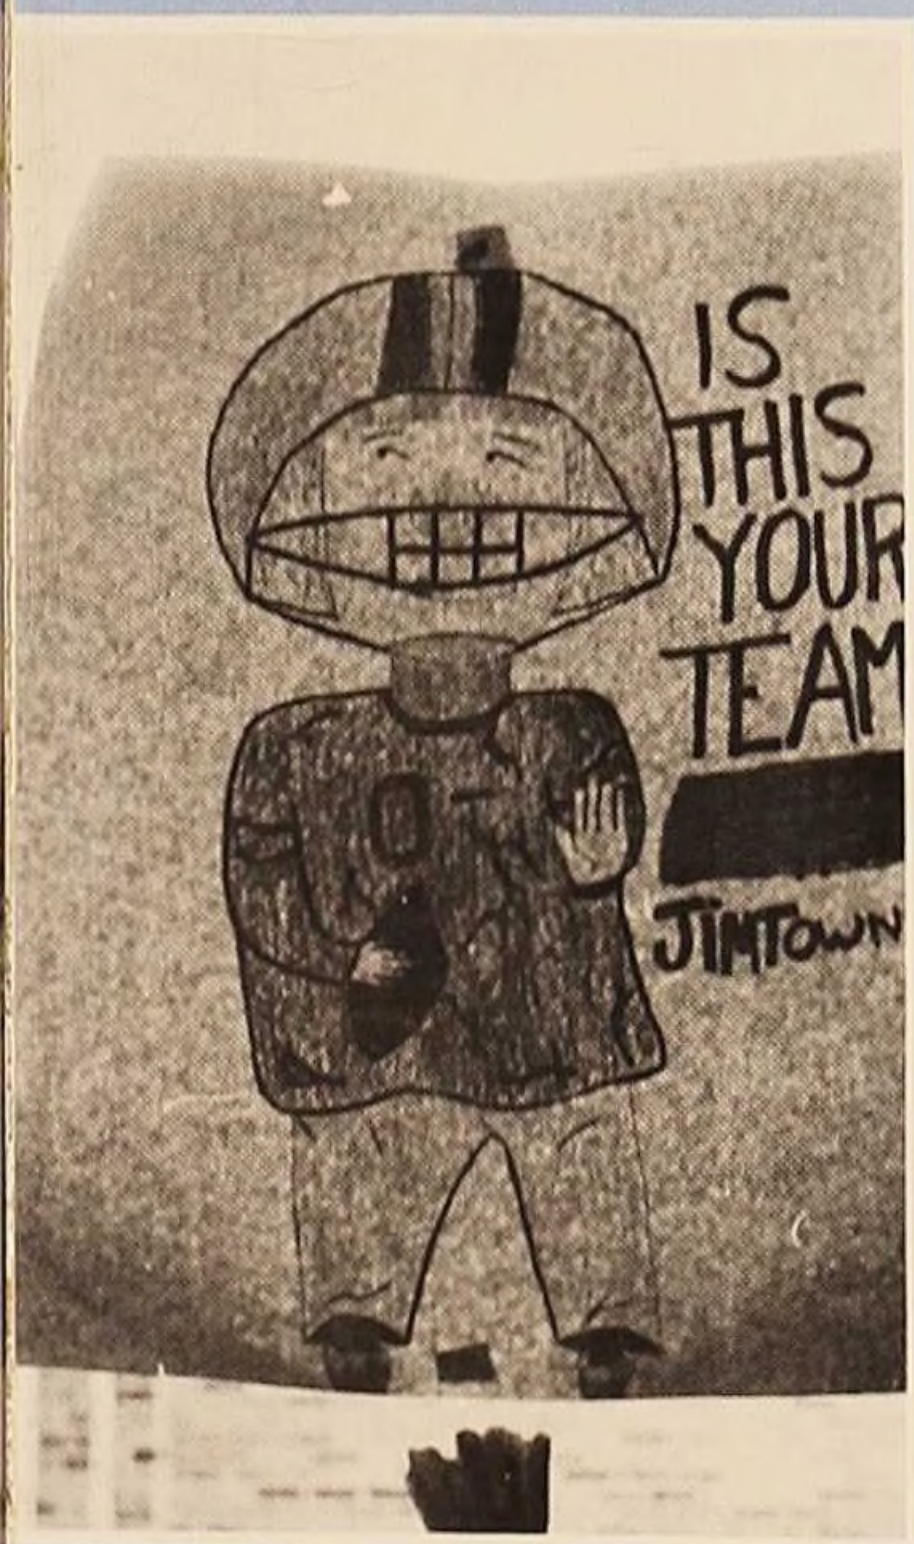

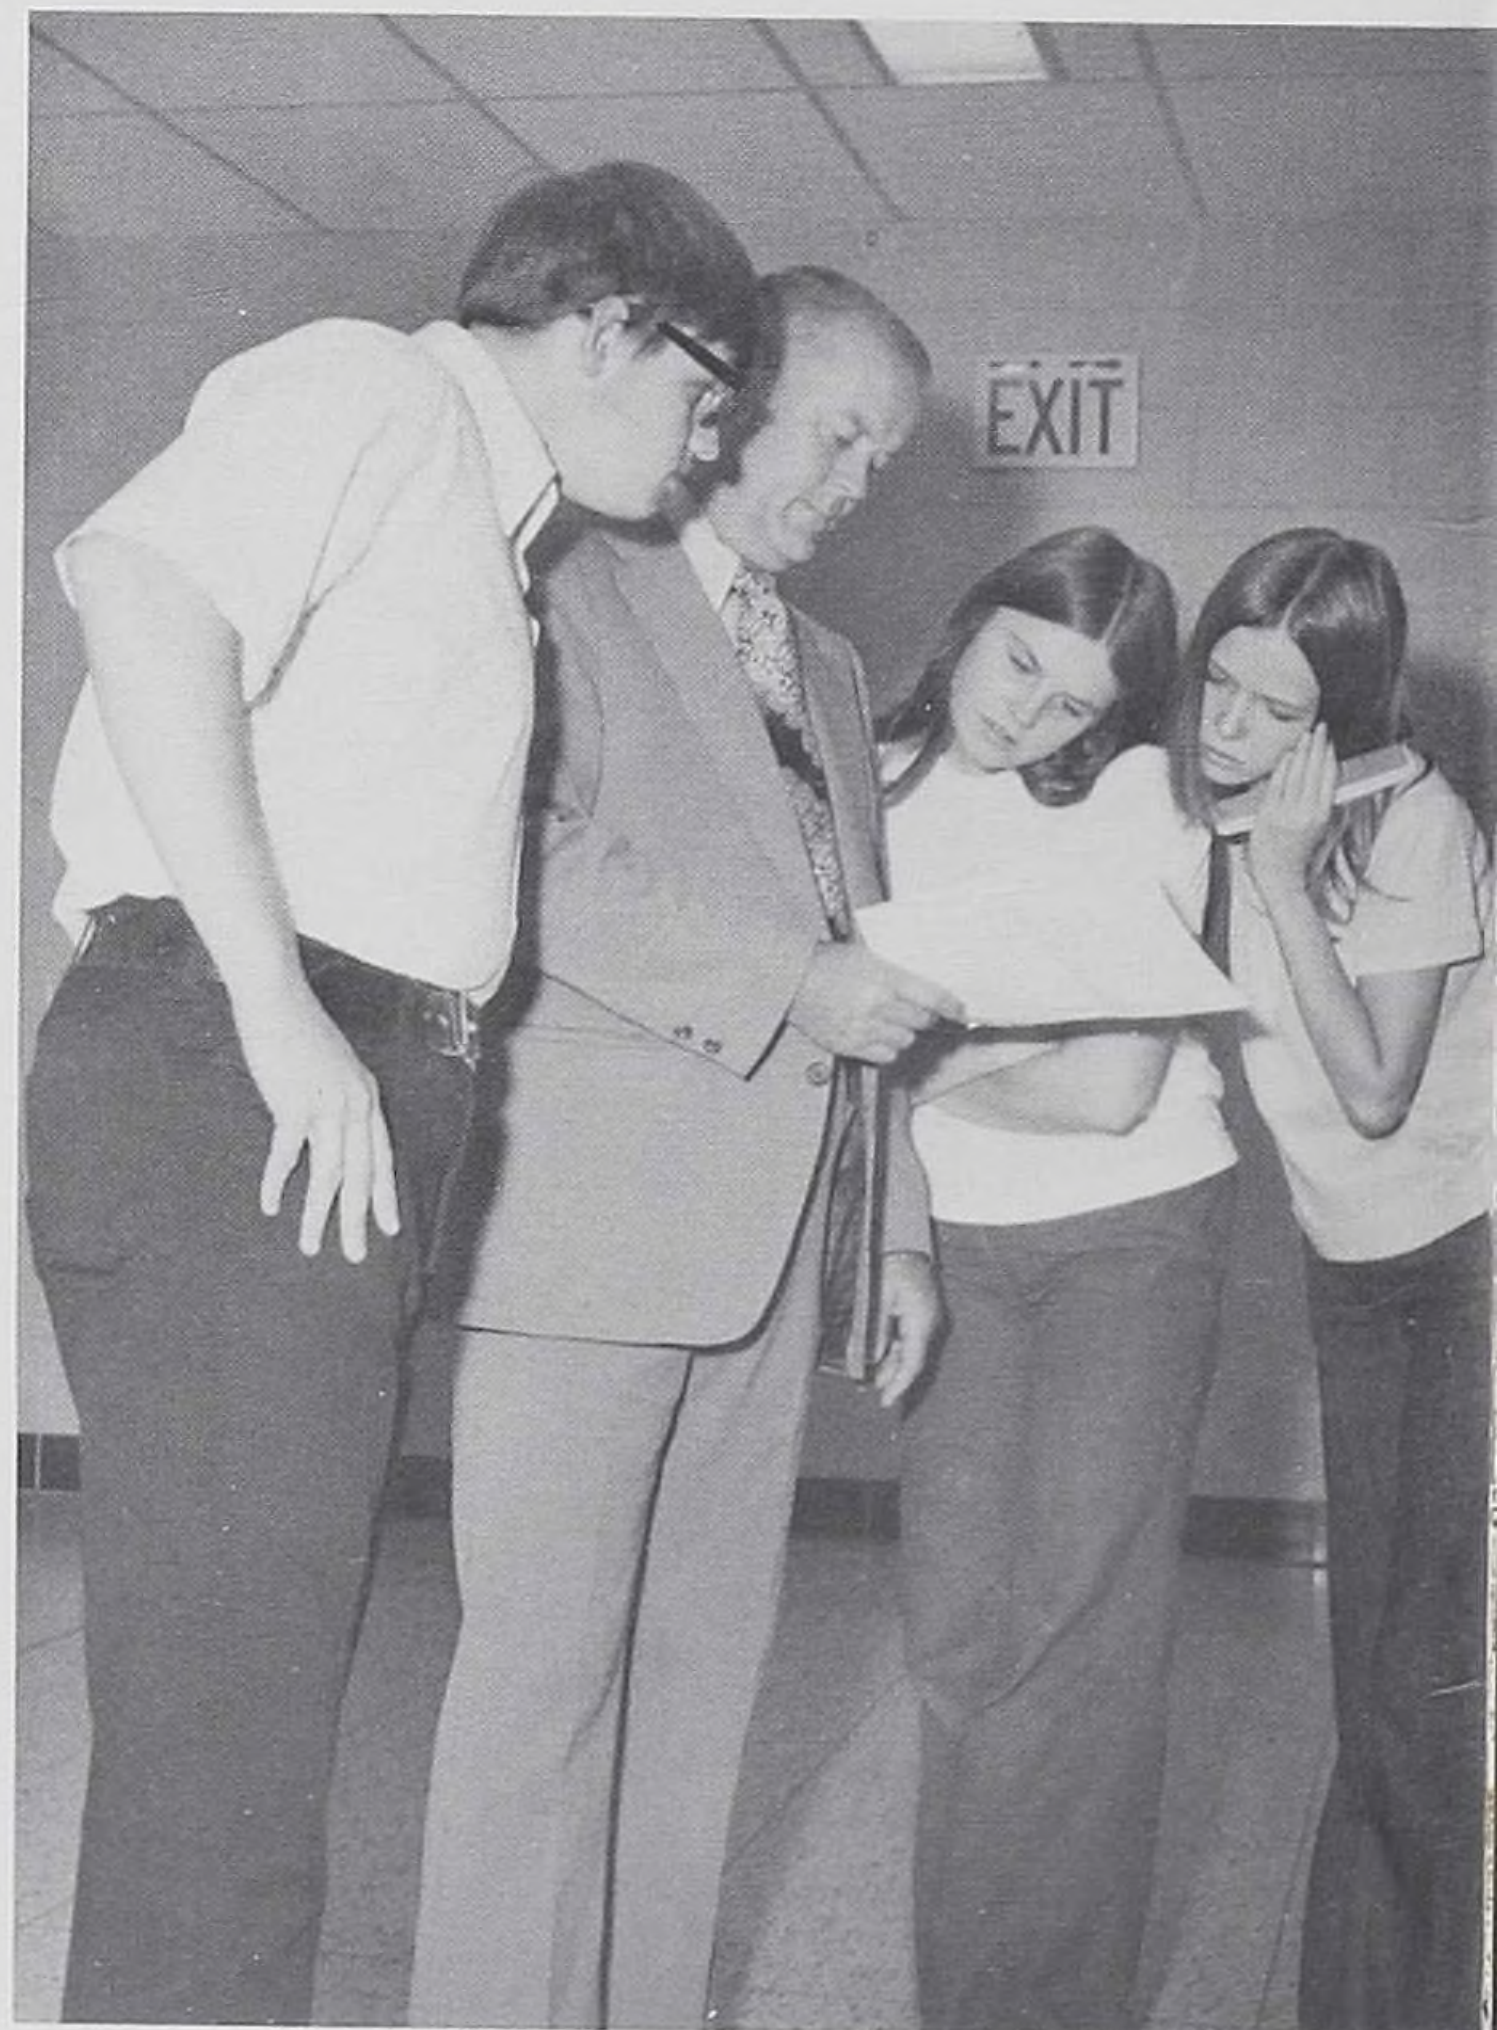

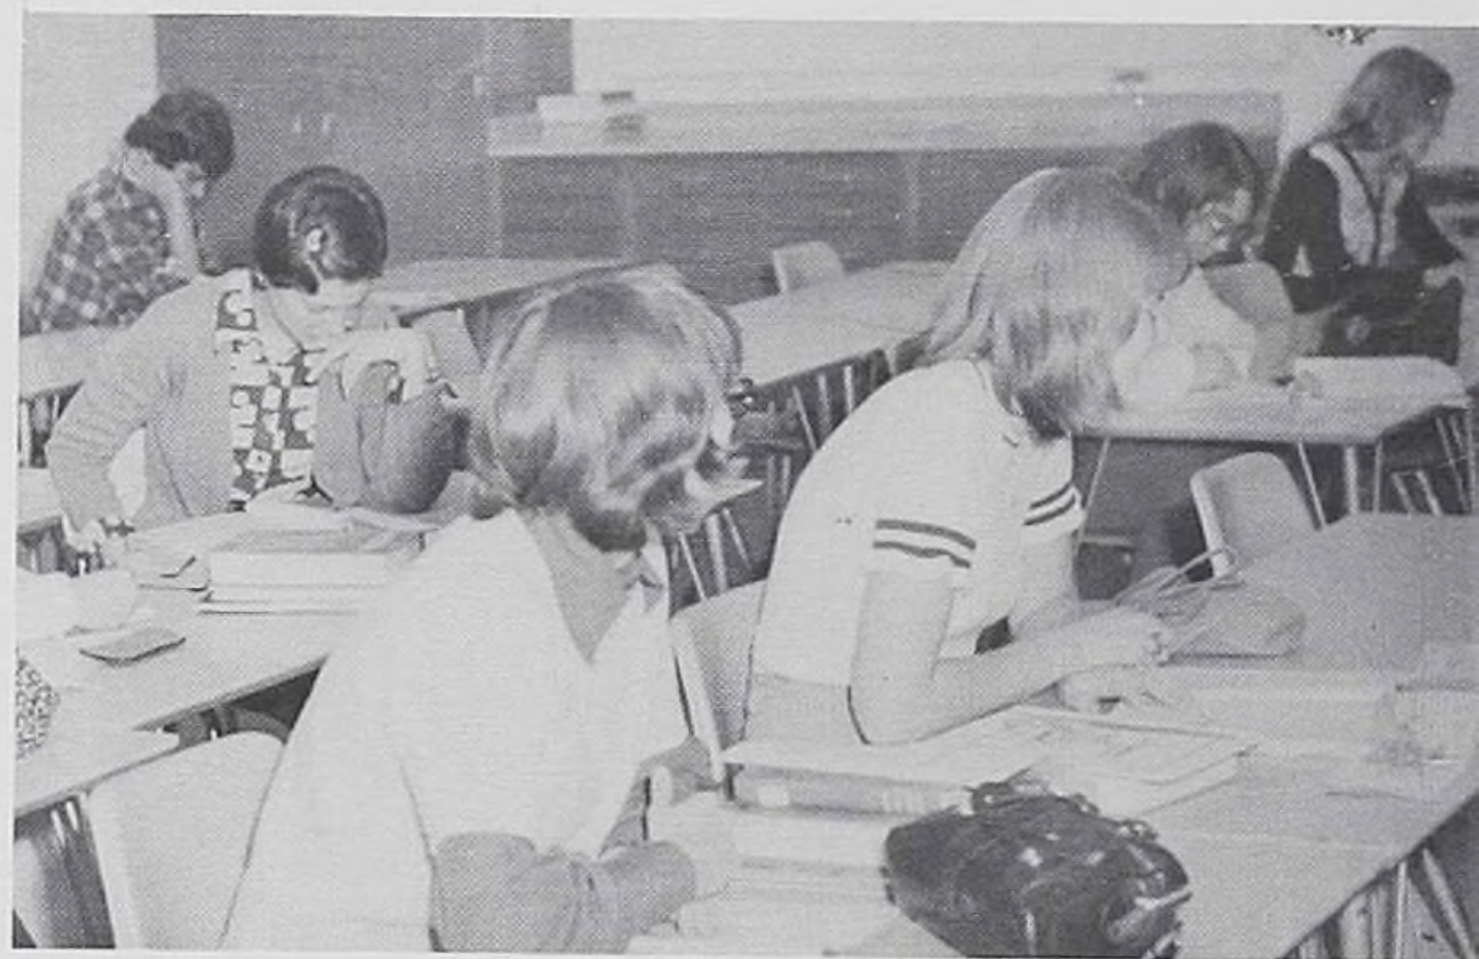

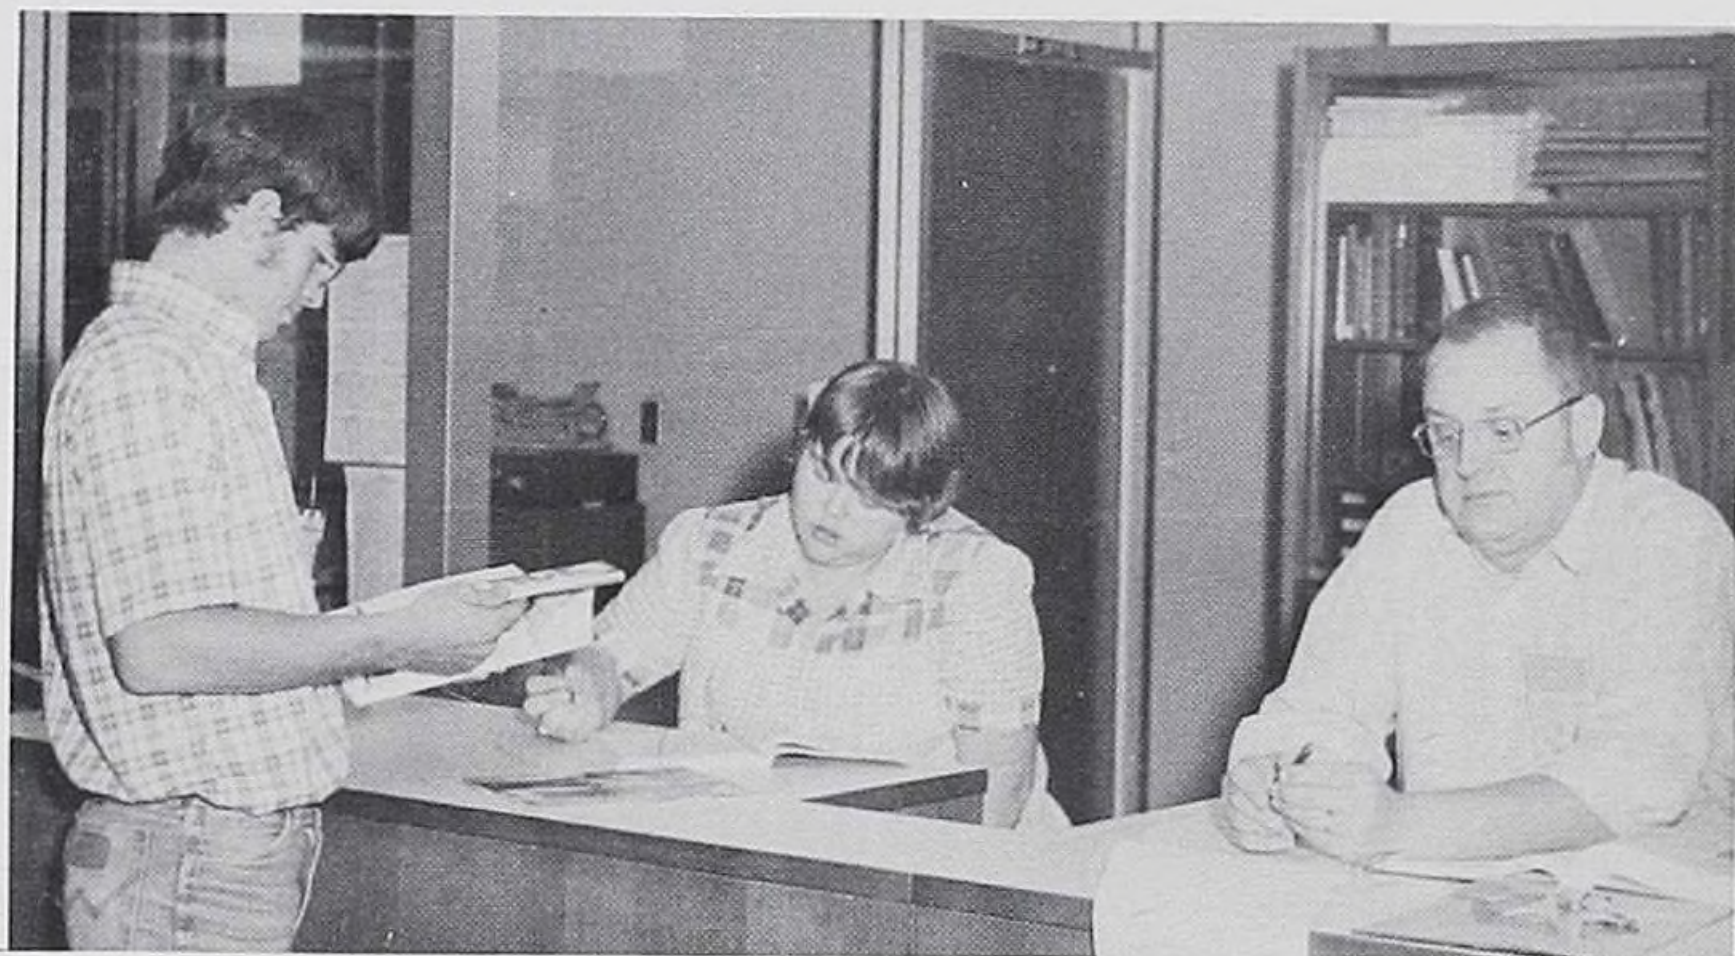

Spirit unites student body.

A new Cougar Pride has emerged this year. We are proud of our school...our students...our teachers...our athletes...our team.

Traditionally, freshmen have been the most spirited class. But this year the sophomores and the juniors have retained their underclass exuberance.

The dwindling number of seniors find themselves in an elite minority and continue to be just as proud and spirited as ever.

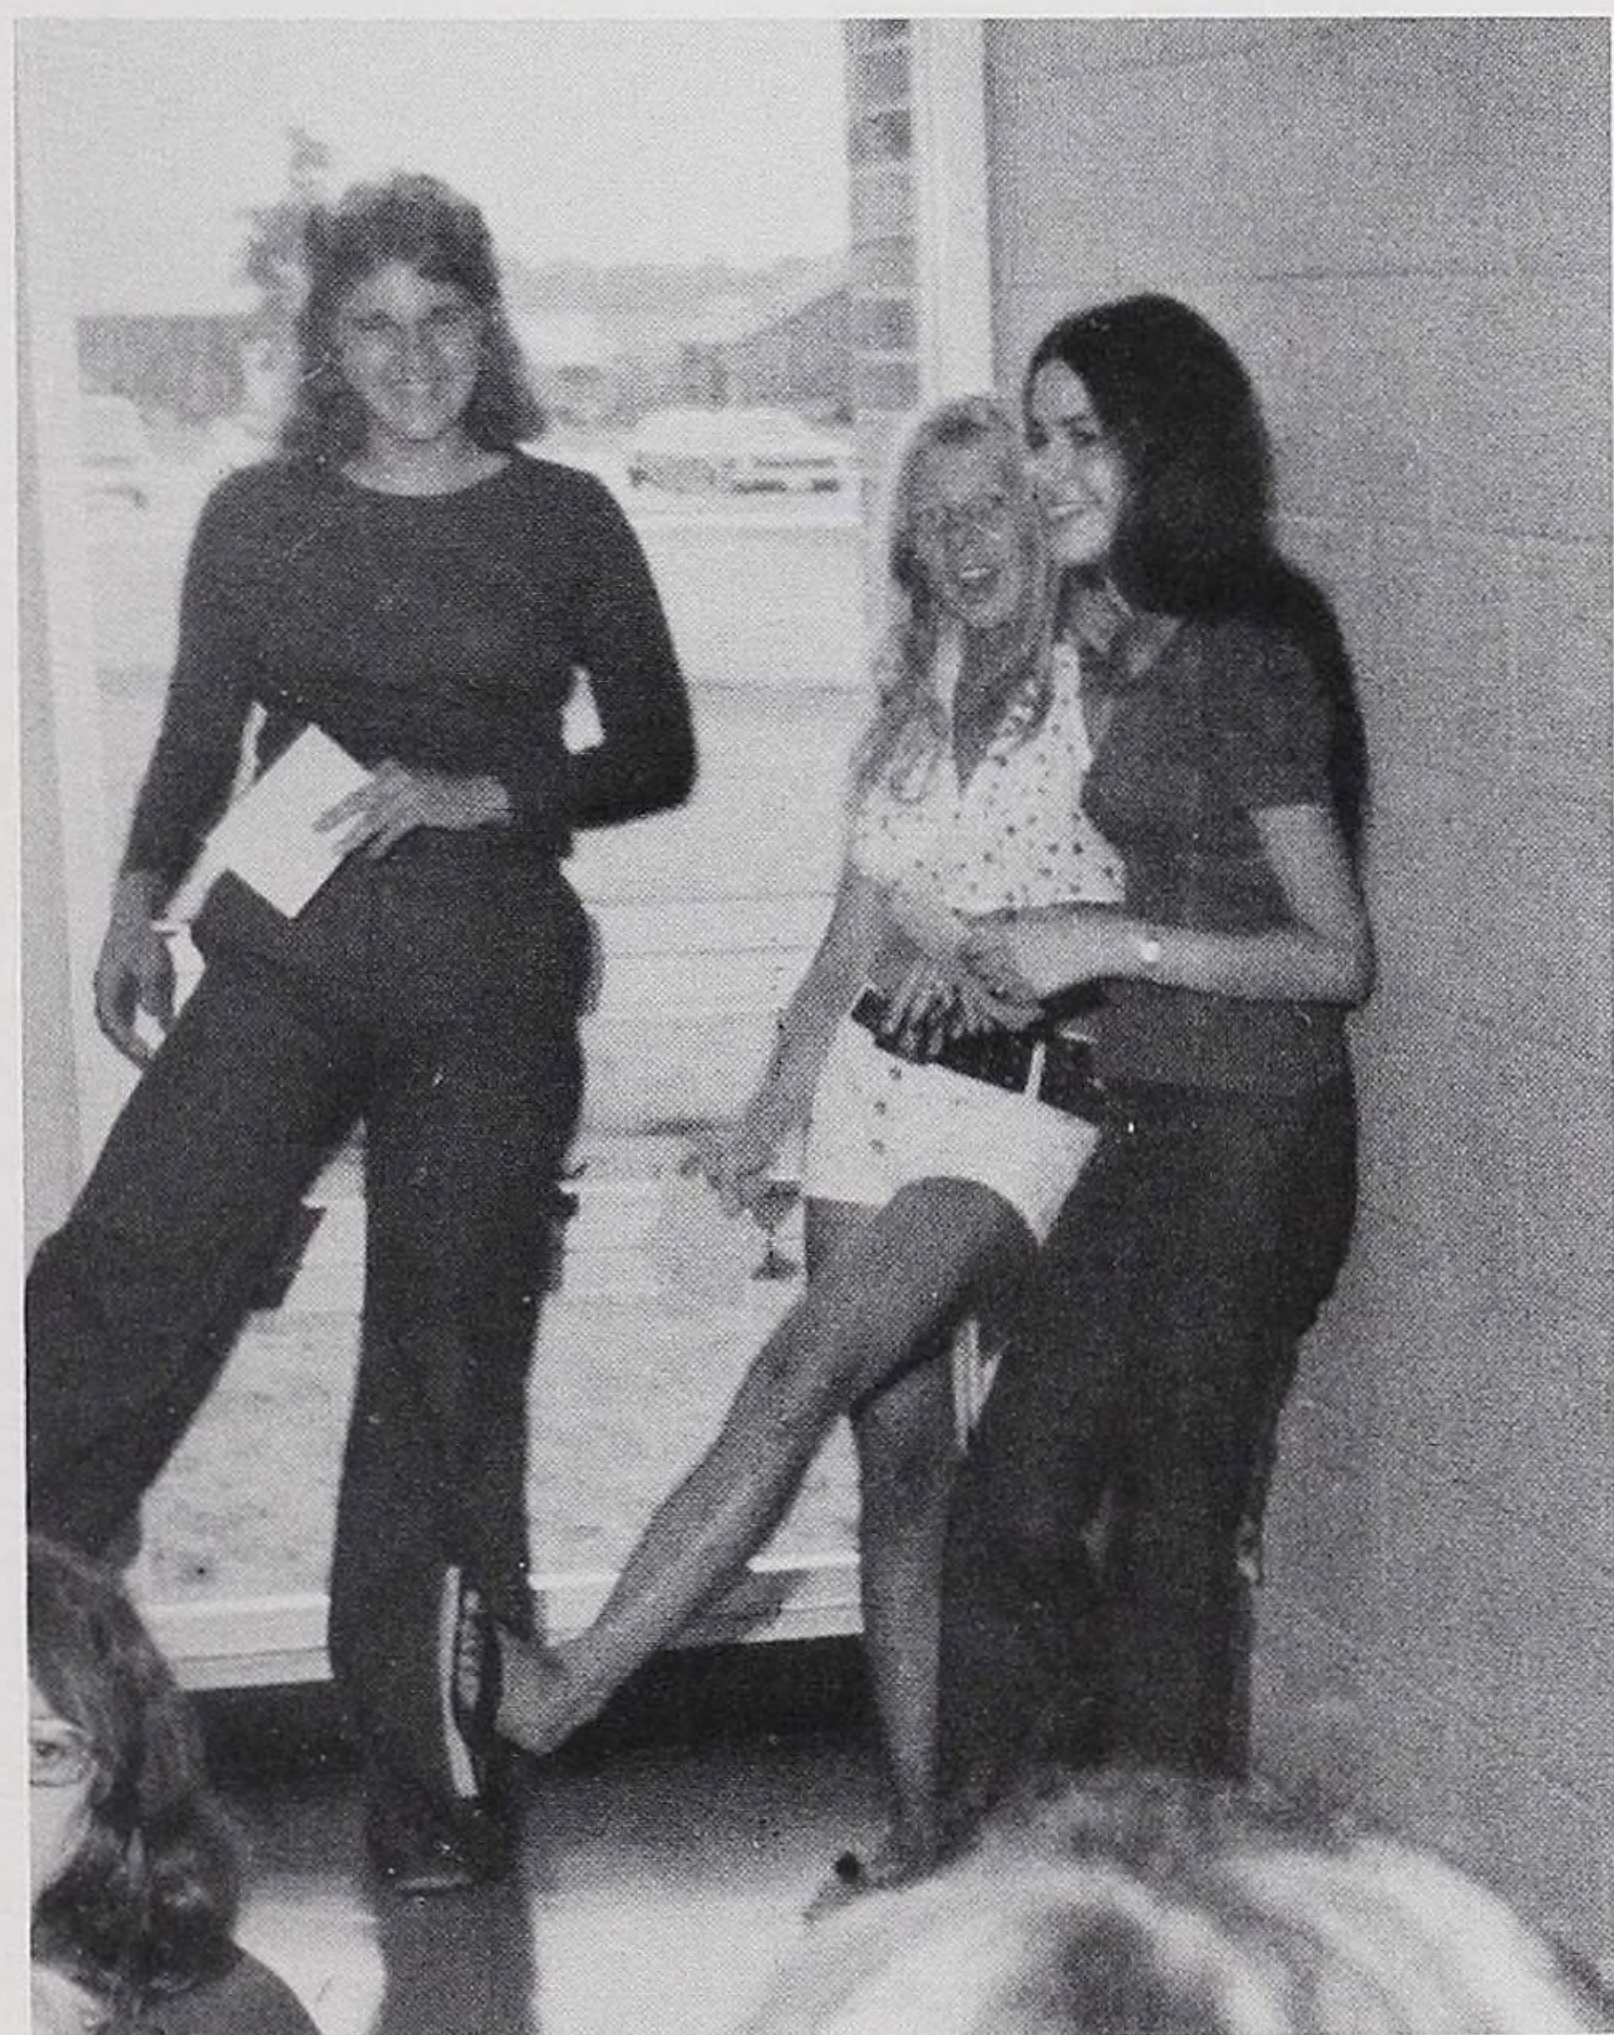

LEARNING

Learning is not just the acquiring of knowledge. It is also the ability to apply that knowledge successfully. An instructor can enlighten the minds of his students; however, an outstanding teacher shows his students how to use what he is learning, so that it becomes practical.

A teacher is not just a machine reeling information to be learned by rote. A teacher is inventive in exploring the skills of his subject and their practical applications to life.

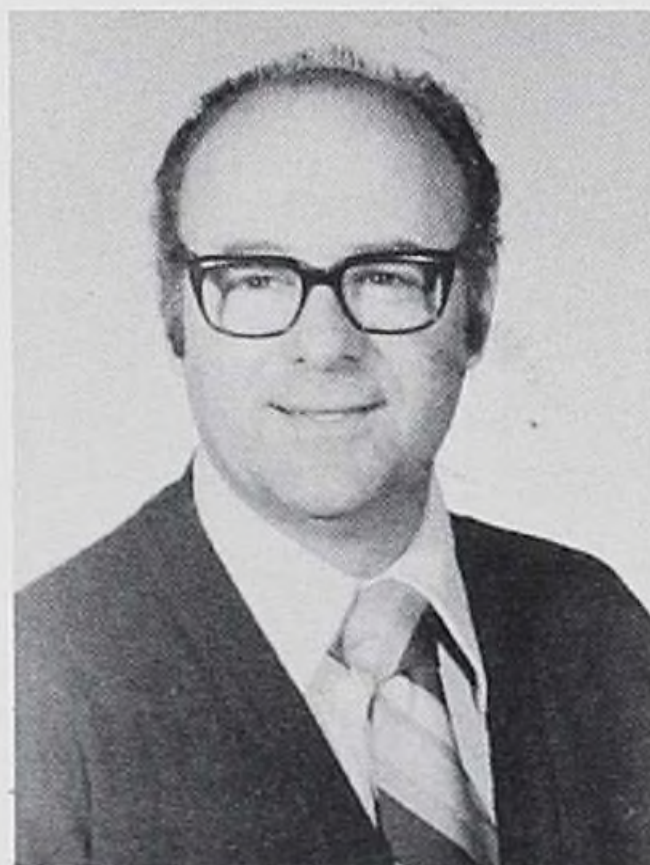

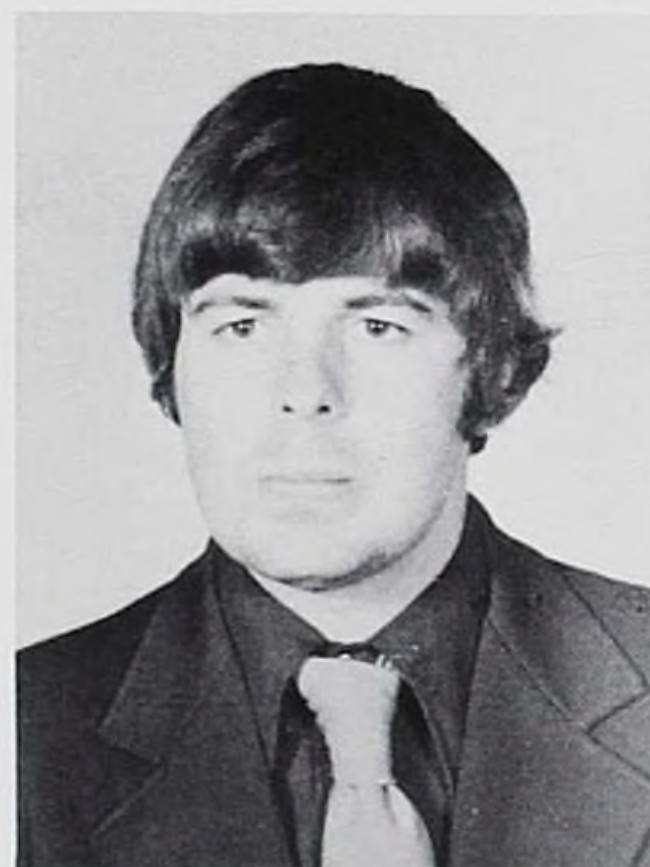

Besides teaching German, Lawrence Strick coaches freshman football and basketball, and sponsors the German Club. His last summer at college was spent at the University of Vienna, where he studied German.

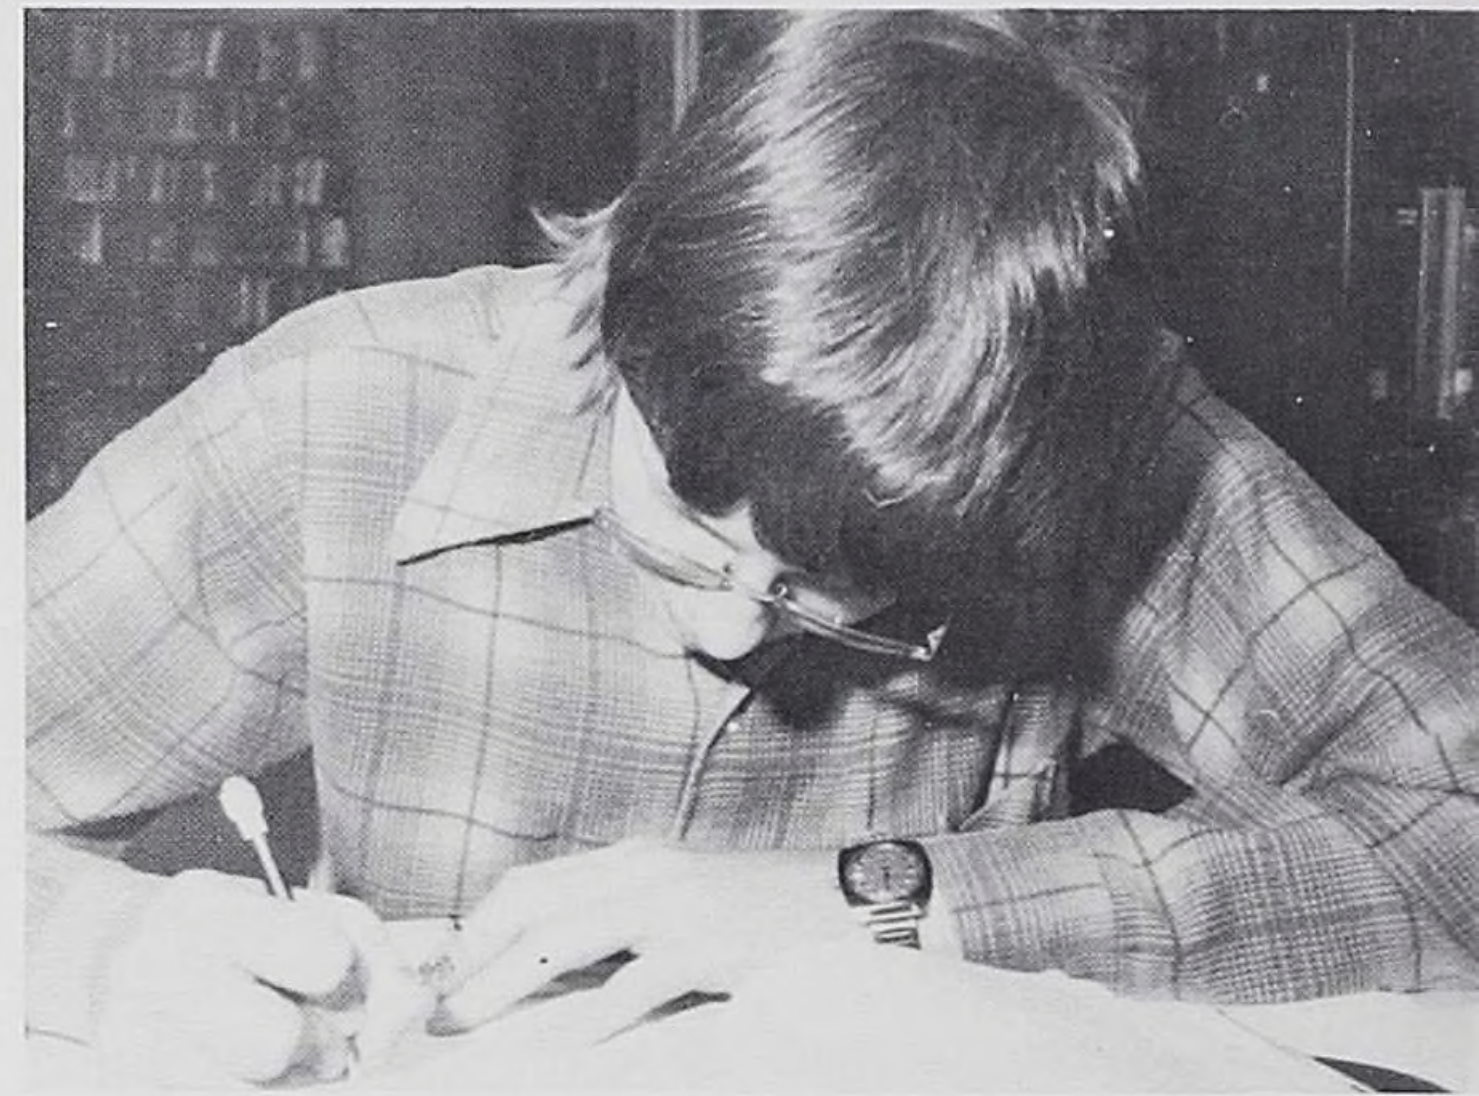

Dimitri Louis Gloss is the French teacher and sponsor of French Club. Mr. Gloss enjoys teaching and likes N.P.H.S. students, but thinks they are getting worse!

Gerardo Gonzalez, "Speedy", is the sponsor of the Chess Club and he won the 1974 N.P.H.S. teachers' chess tournament. The funniest thing that happened to him was he caught his necktie in a tape recorder.

Jim MacDonald is in his first year of teaching at N.P.H.S. He is the sponsor of the Spanish Club and he helps with the freshman football team. Mr. MacDonald is originally from New York City. He went to Notre Dame University and now lives in South Bend.

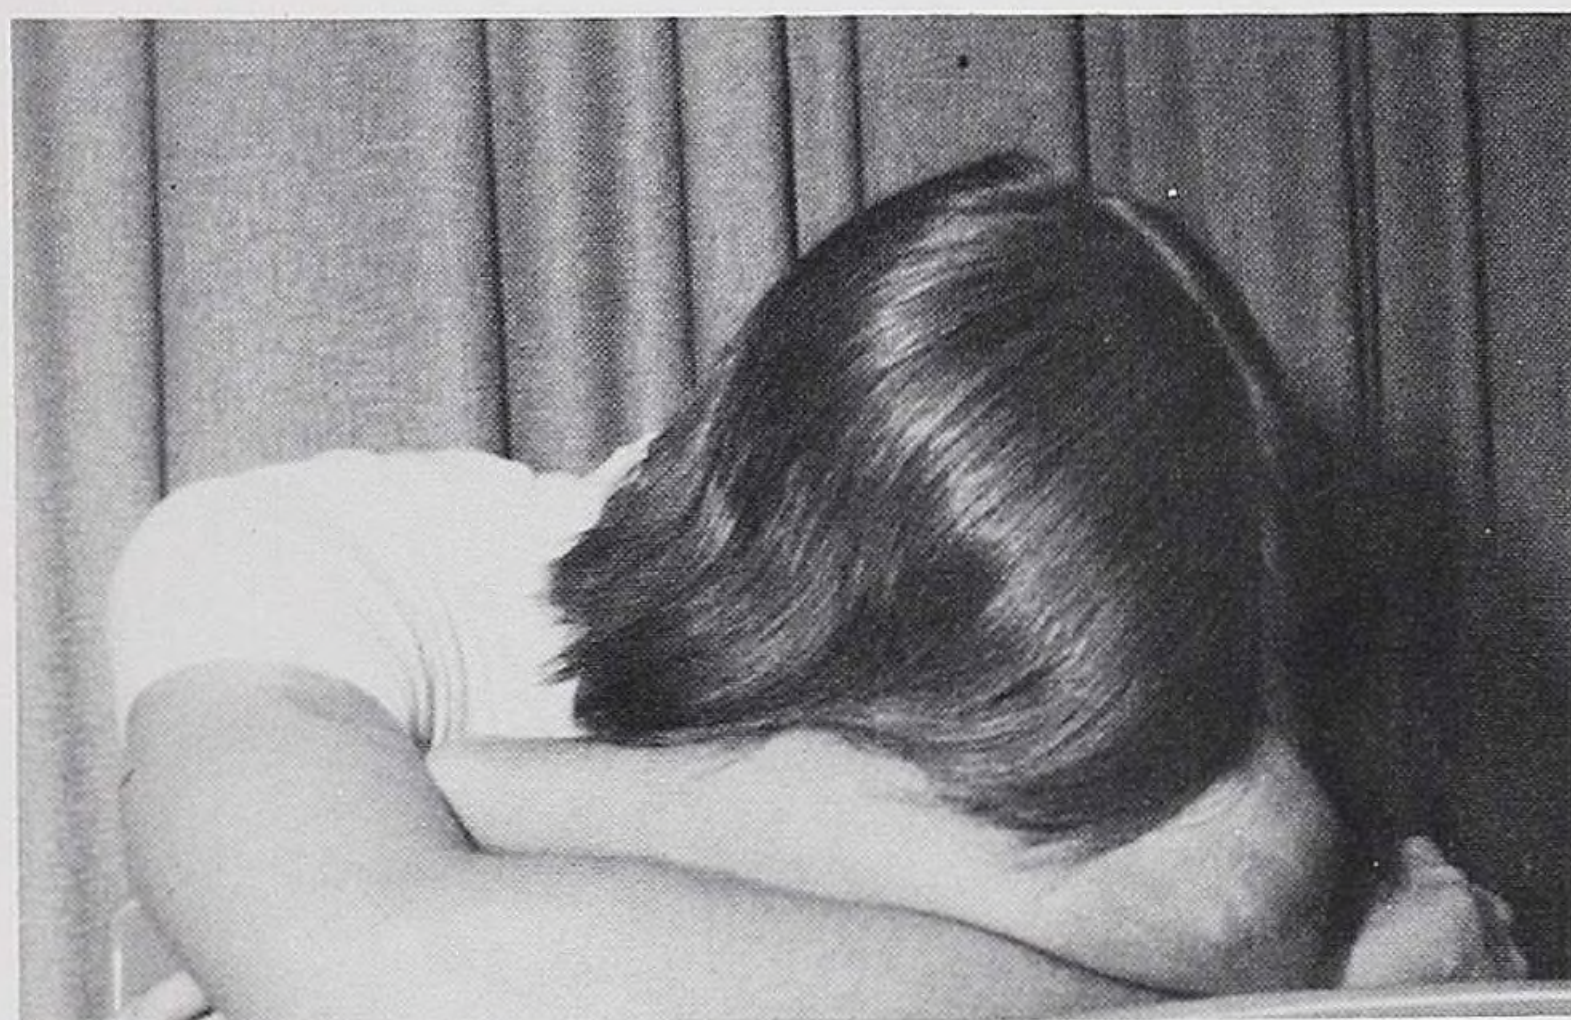

Some students work.

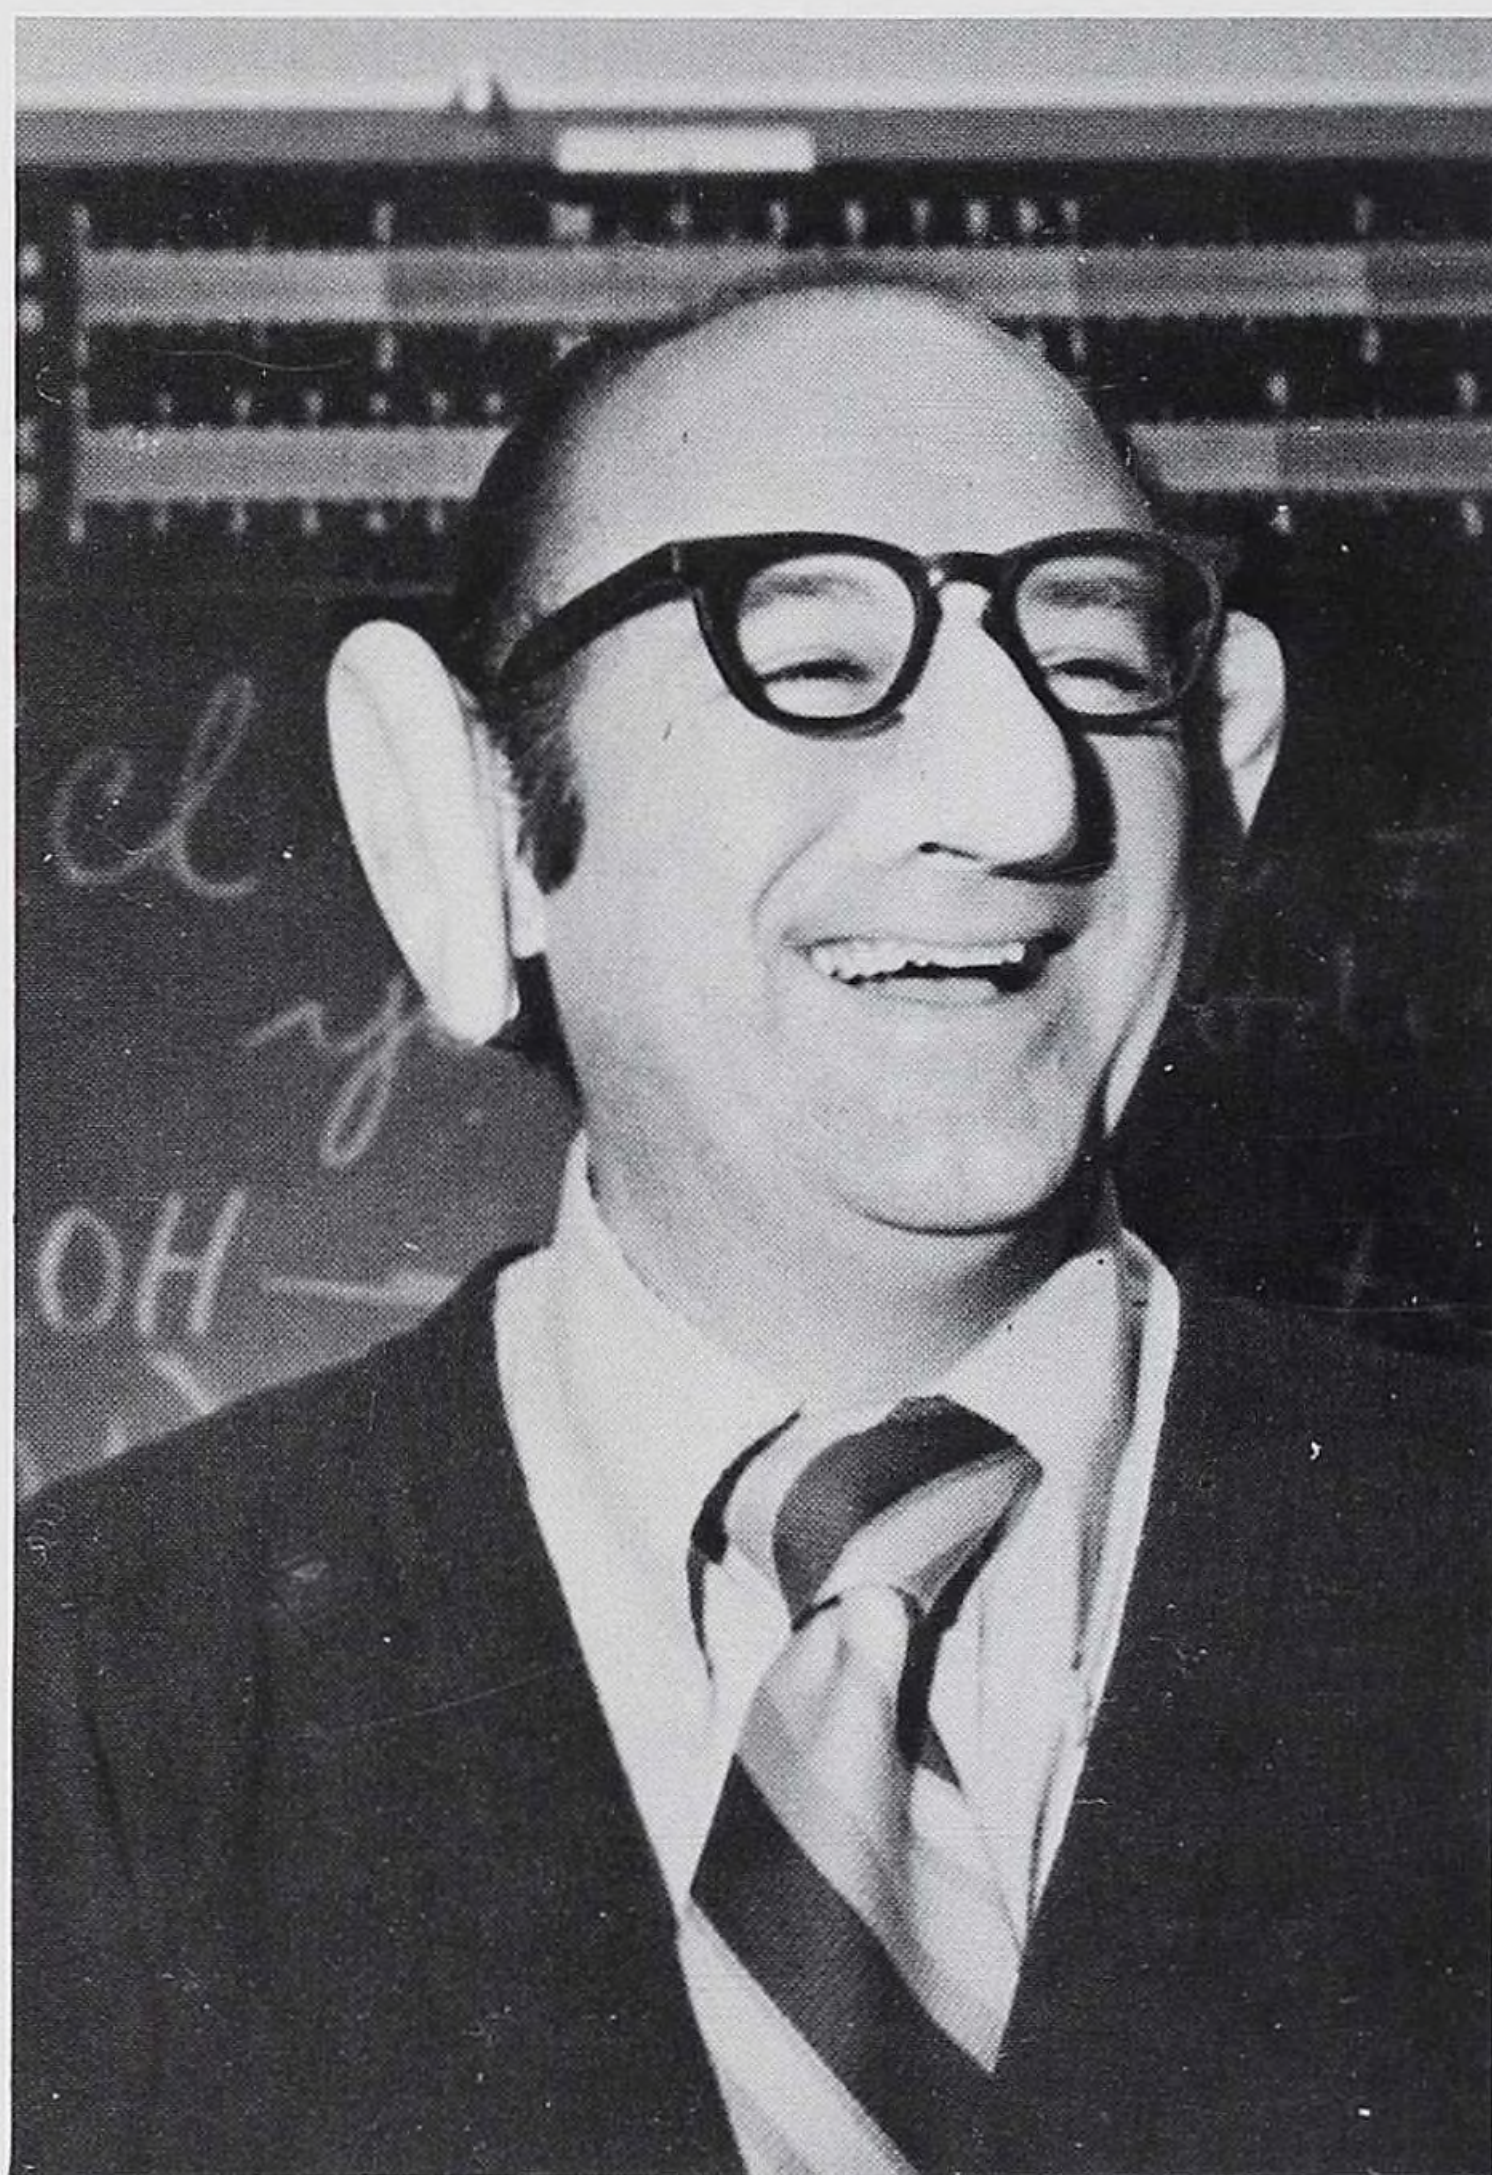

Avon calling?

La cosa mas dificil en aprender el Español es . . .
Der schwerste teil des Deutsch lernen ist . . .
La chose la plus difficile à apprendre eu
Fran cais est . . .

Foreign language students learn much more than fundamentals of Spanish, French, or German. They learn about the culture and customs of the European countries. Listening to taped conversations, watching movies, and reciting in class make learning fun and enjoyable. The climax of the year for a foreign language student is a trip to his country.

Some students sleep.

A smile is the same in any language.

Good grammar is the key to SUCCESSFUL COMMUNICATIONS

Many of the world's problems today are caused by break downs in communication. If any of these problems are to be solved, good communication is needed to get one's ideas across to others. The basis of good communication is needed to construct a language.

Proper grammar is the key to good usage of a language. Once good grammar is learned, one can begin to use language to communicate.

The job of the language department is to communicate with students, to give them the tools of good grammar and usage of language

It is our job to take these tools and use them to communicate, to share thoughts, and ideas with others, as a step to making this world a better place.

Mrs. Mary Brummitt has been teaching for twenty-three years. She went to Indiana University at Bloomington, where she received her B.A. Degree. Her hobbies are knitting, playing the organ, and reading.

Mrs. Chris Bromley is coach for the girls' volleyball, basketball, and track teams. She is presently working on her M.A. Degree. In her spare time, she likes to ride motorcycles.

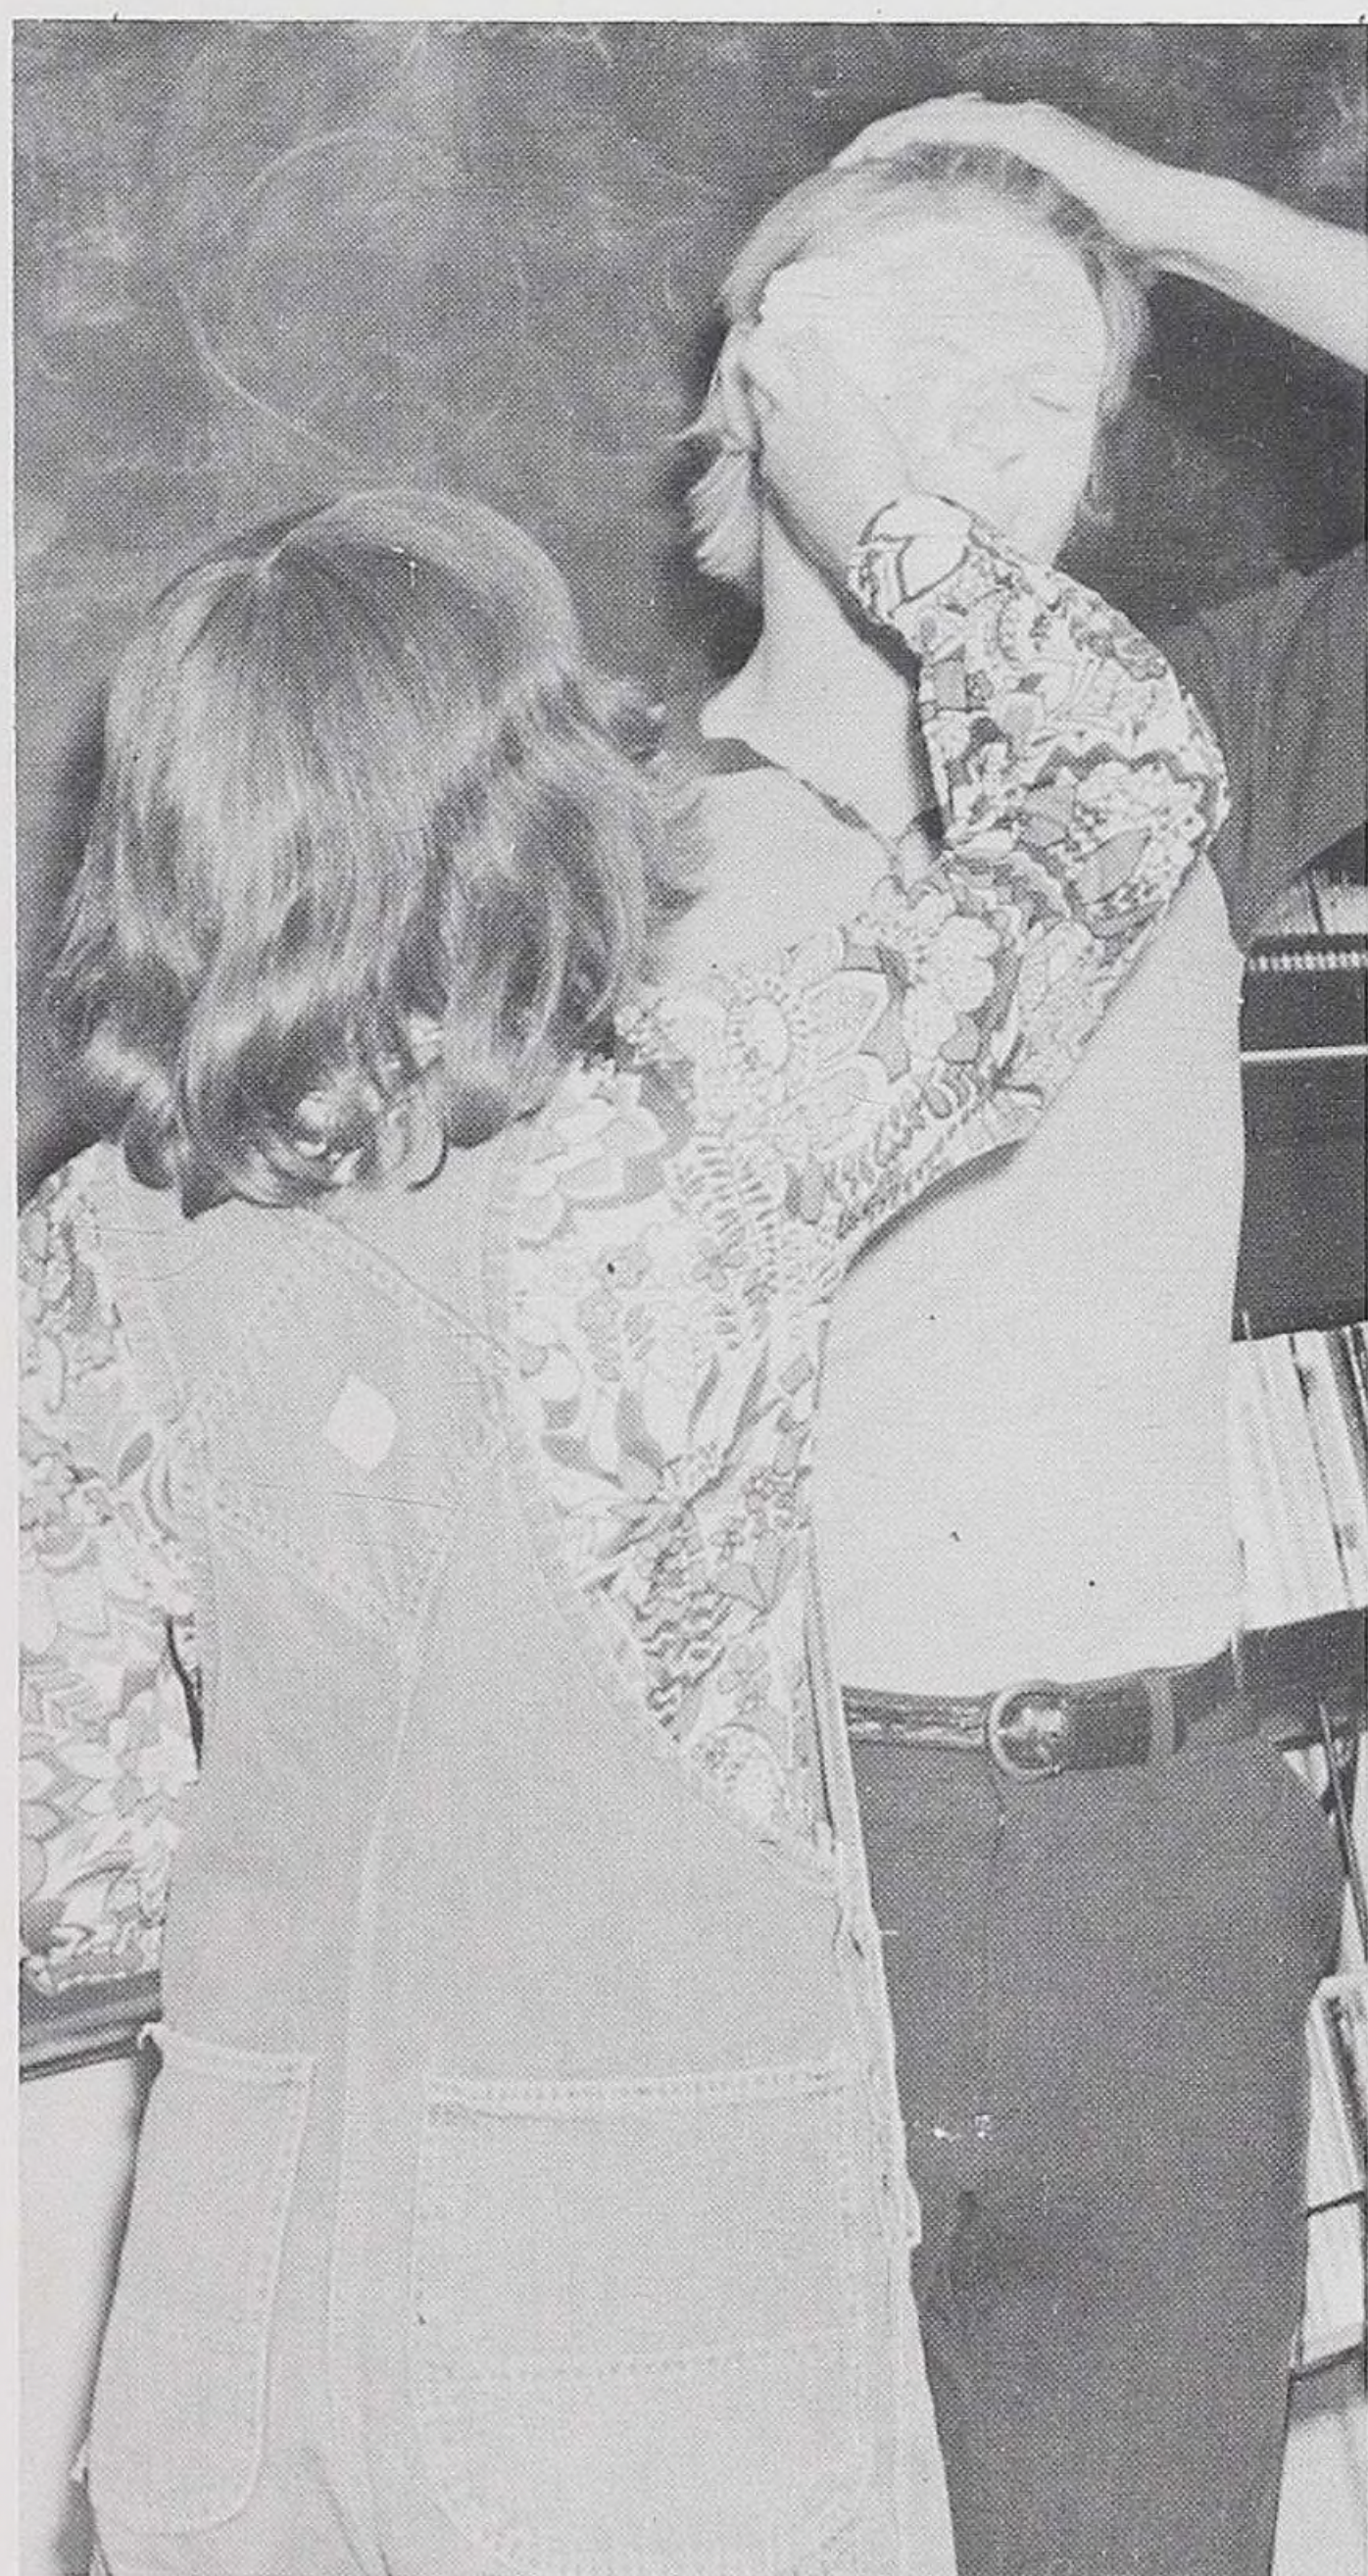

Mrs. Barbara Deer has been teaching English for ten years. She likes teaching young people, especially sophomores. She remembers that one time when she returned to her class, the students had all disappeared!

Someone is camera shy!

Even English teachers need nourishment.

Kim Loucks removing make-up after being a perfect clown.

William B. Haselton is the school's lighting equipment repairman. Teaching English and drama, and sponsoring the Drama Club keep him busy.

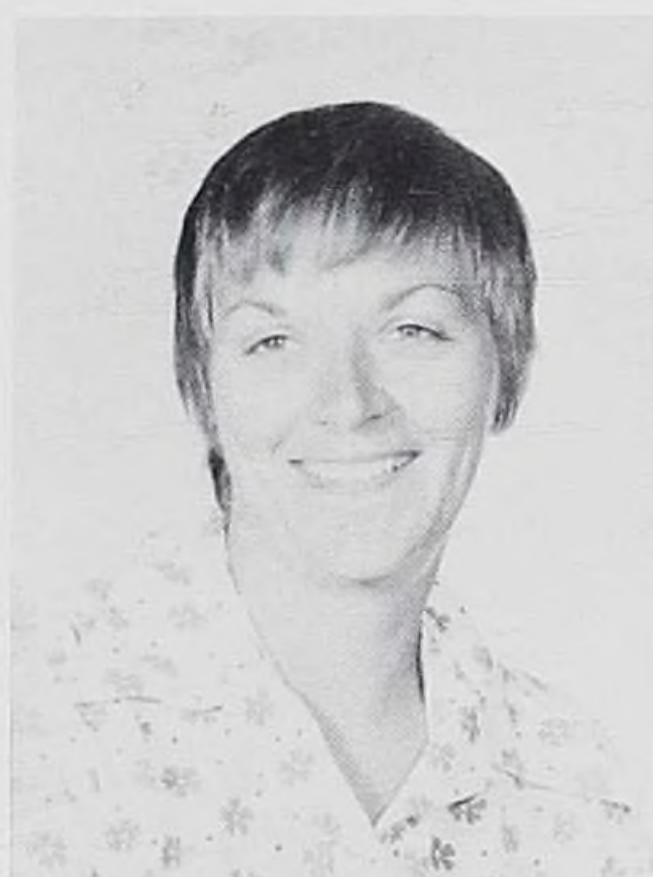

Frank Rokosz enjoys reading, traveling, numismatics, hunting, and fishing. He once skipped a half day of high school to go fishing. When he returned to school, he was asked by the school disciplinarian, "Well, how many fish did you catch?"

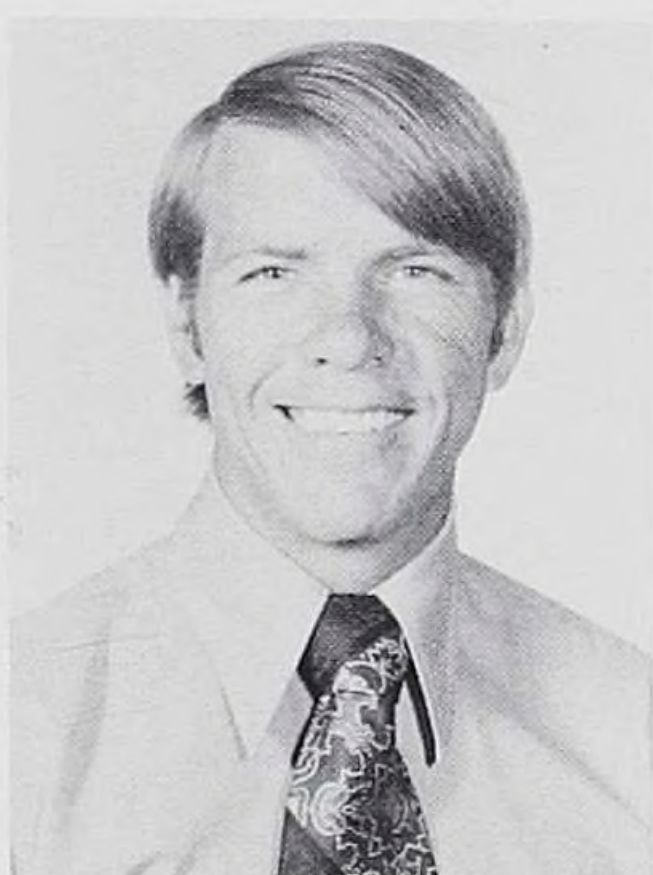

David Matthews has both his B.A. and M.A. Degree. He has a good sense of humor and enjoys being around young people willing to learn. He thinks that American education in general does not make most young people.

P.E. encourages sportsmanship and cooperation.

Miss Sue Keenan teaches girls' P.E. and sponsors the junior class, girls' volleyball, basketball, and tennis. Her favorite sports include volleyball, basketball, and biking.

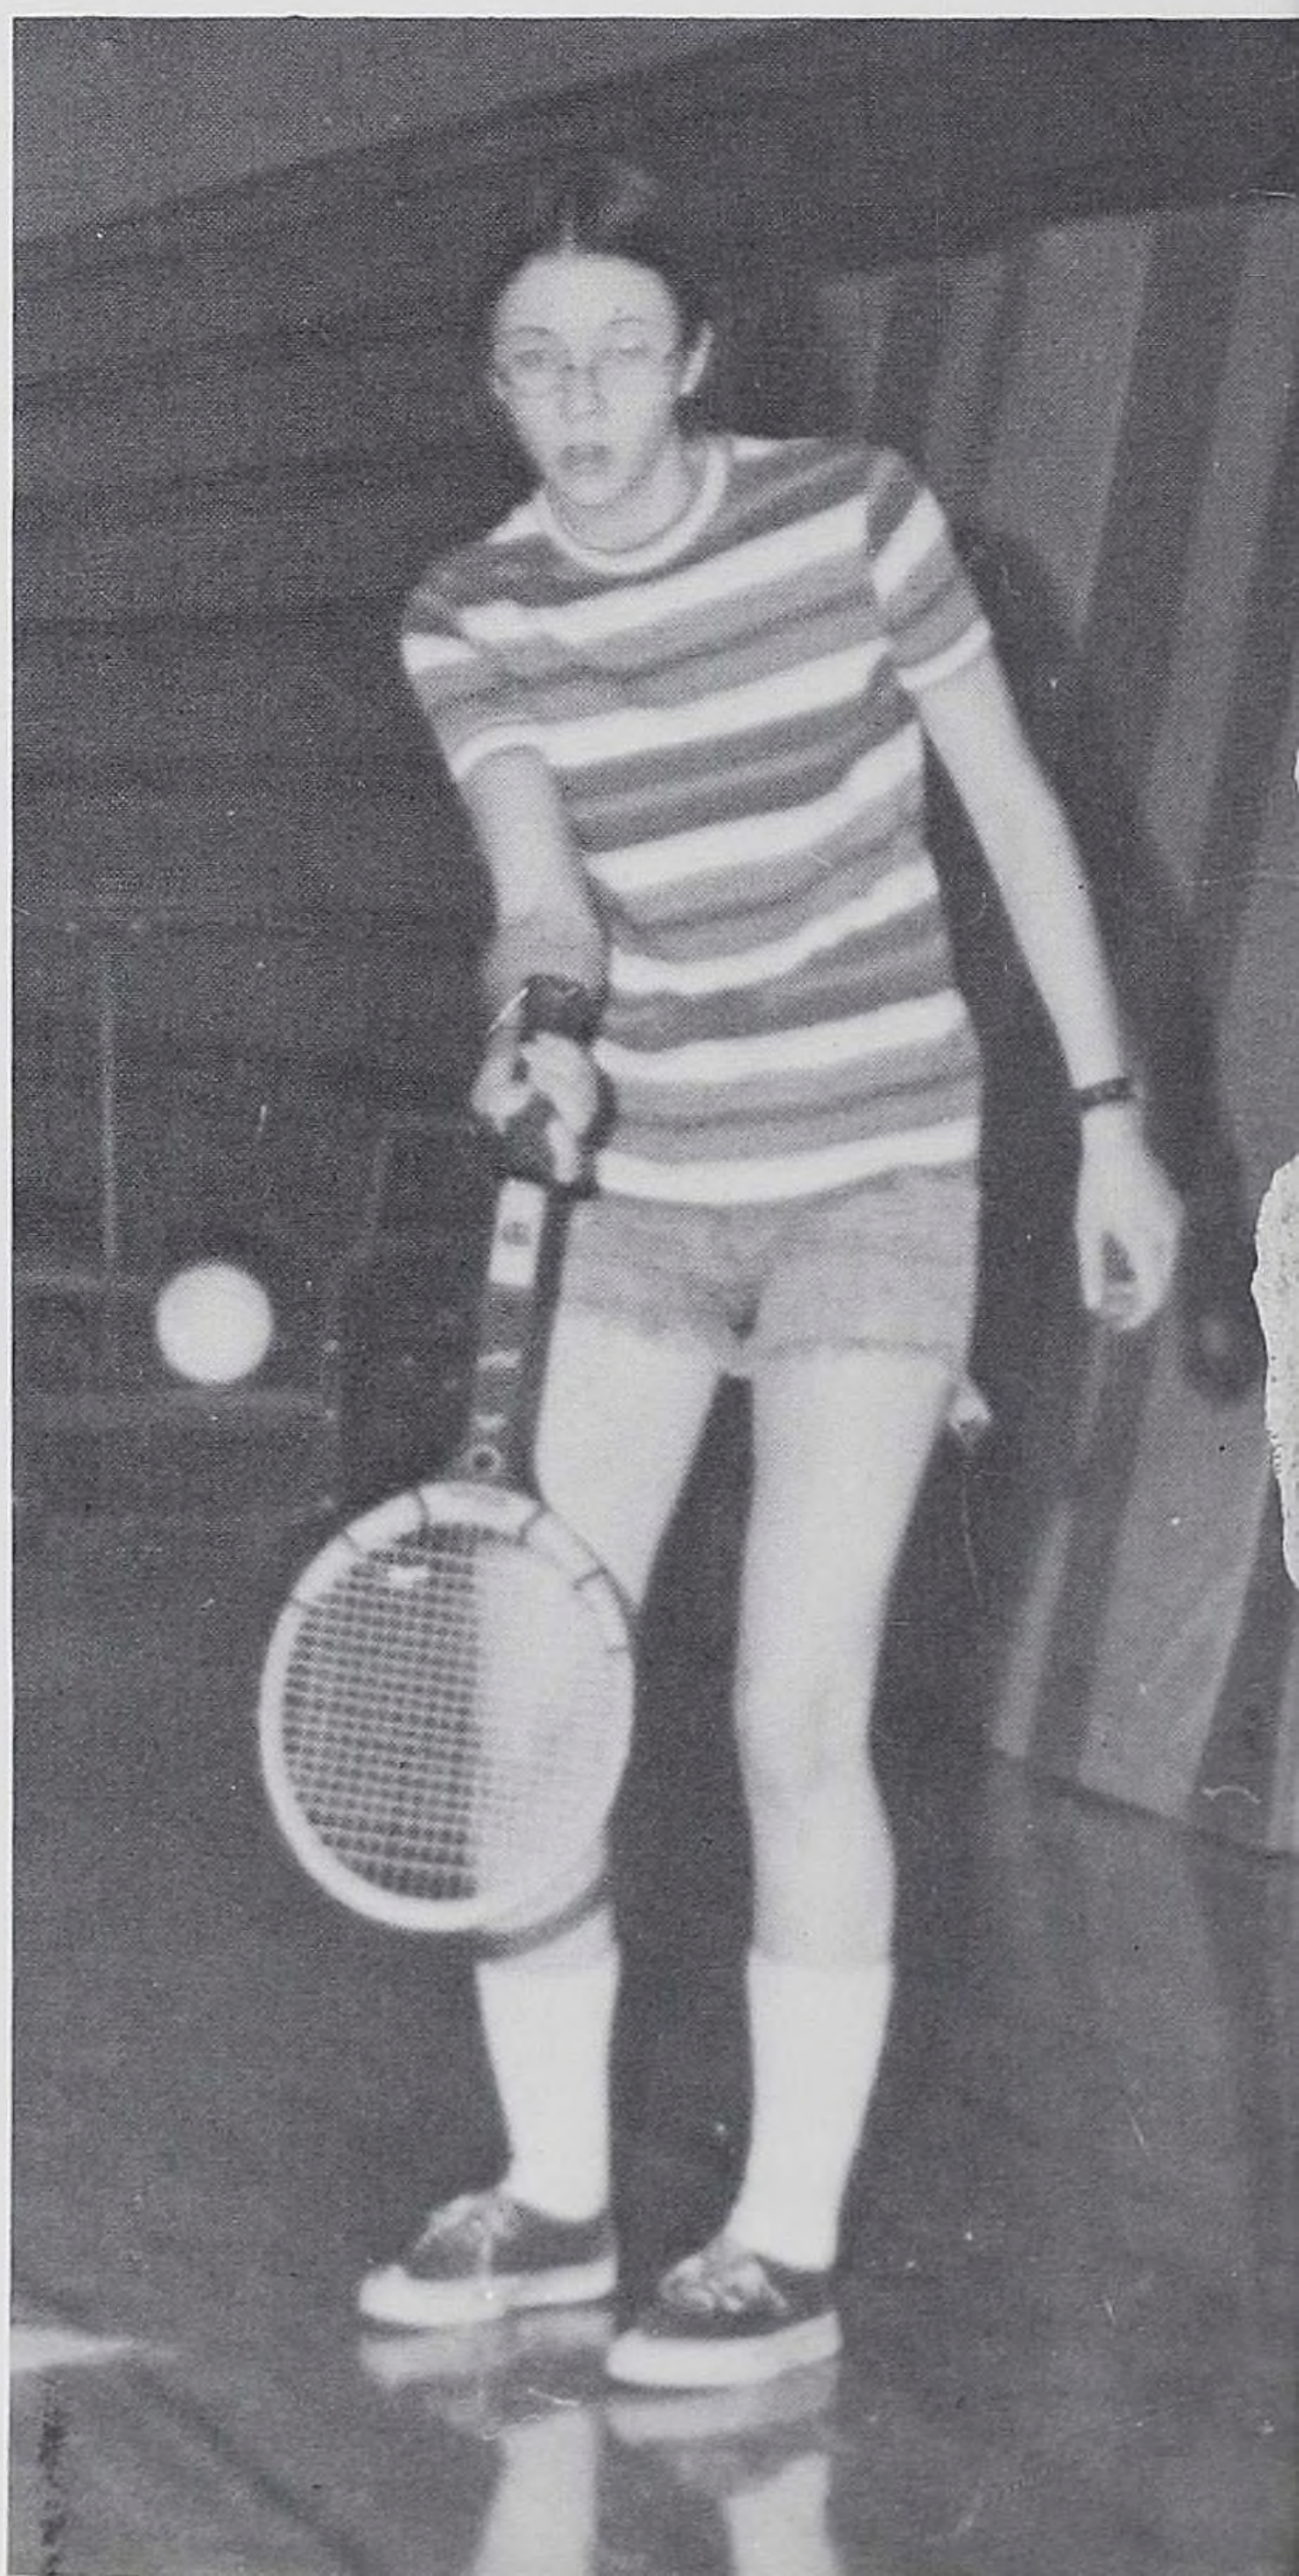

Floyd Trosper, boys' P.E. teacher and head football coach, thinks N.P.H.S. students are energetic and full of spirit. His most embarrassing moment happened when he misspelled "New Prairie" on the team ball presented to former coach, Mr. Mirer.

What's that after-shave you're wearing?

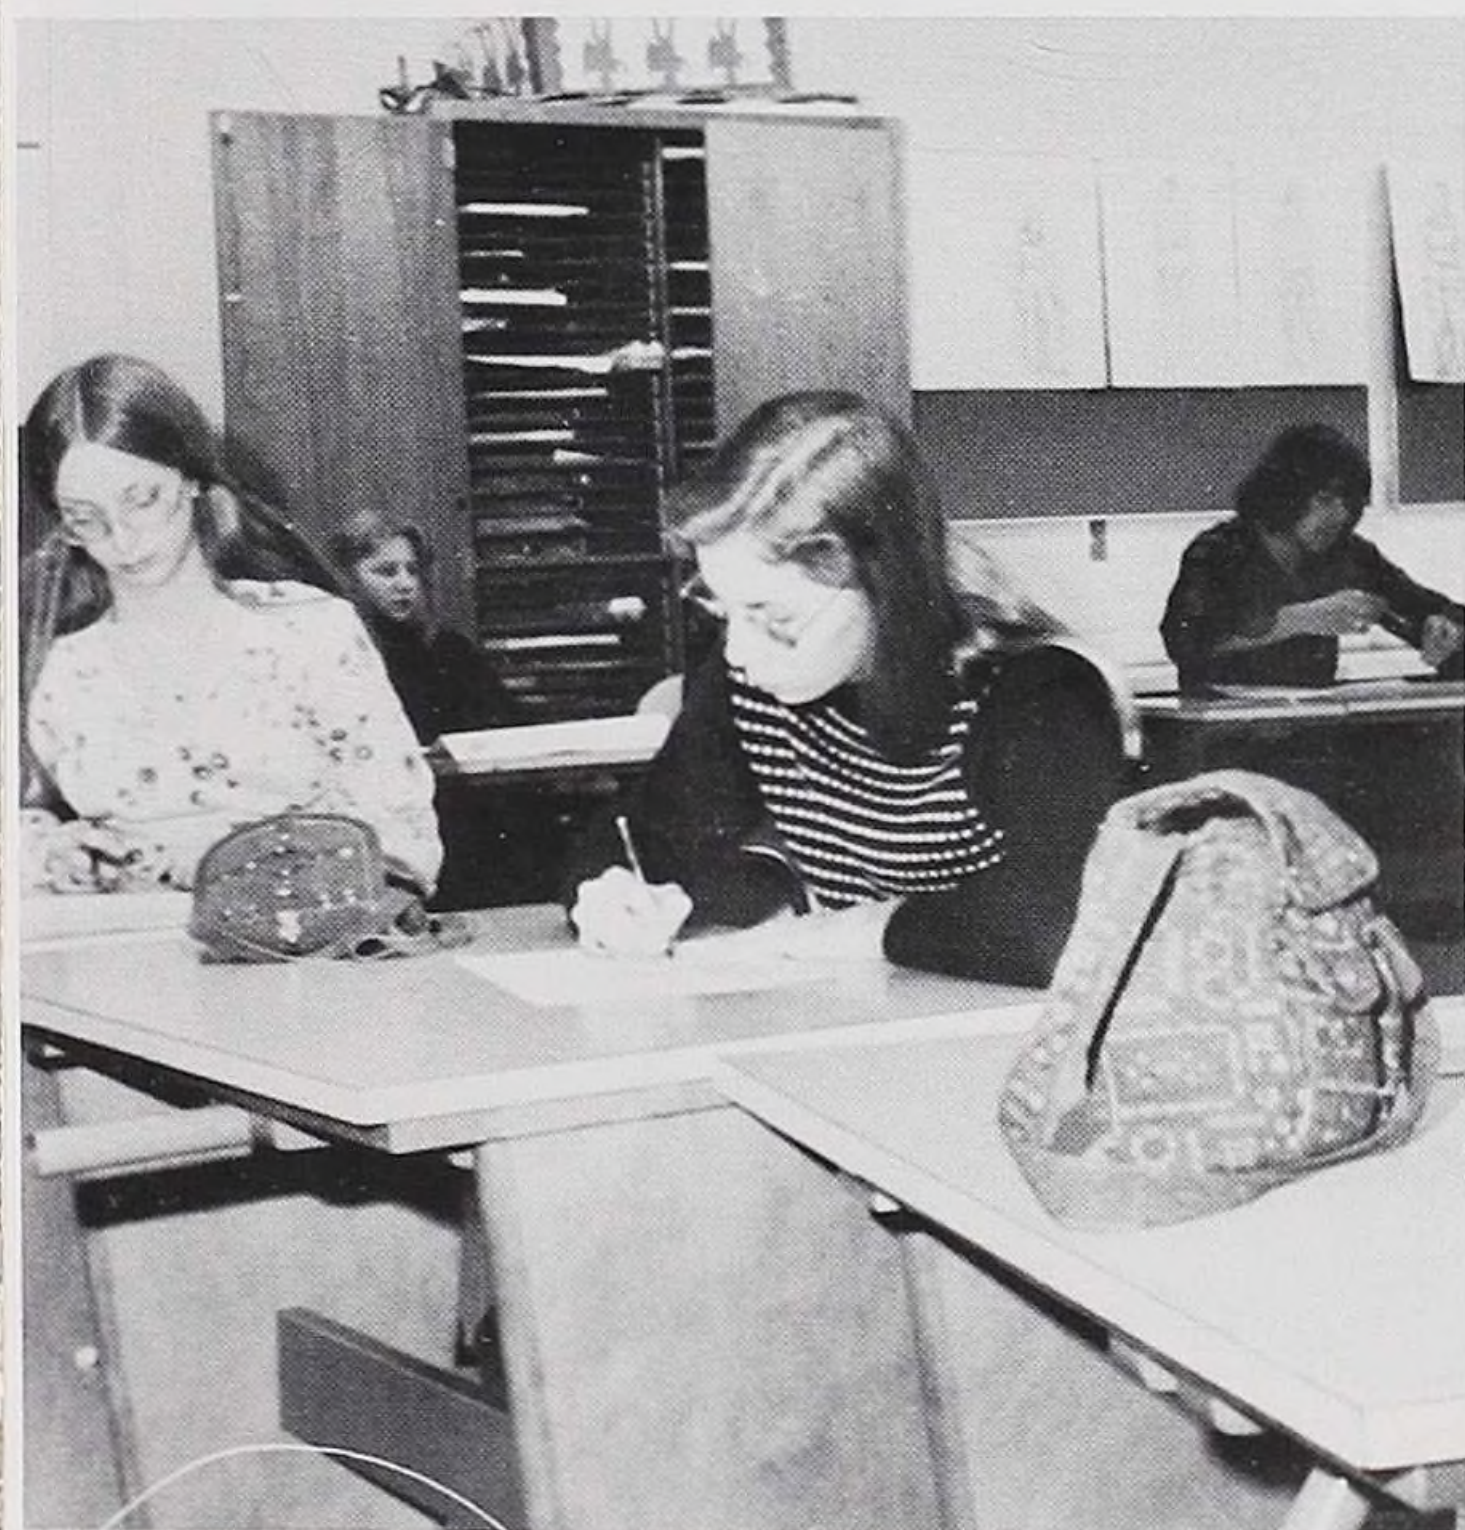

Gym classes are enjoyable but they are not all fun and games. Physical education students participate in almost every aspect of athletics from wrestling to self-defense techniques. Students not only learn the fundamentals of the game, they learn how to cooperate and compete in a sportsmanlike manner.

Chris Burns returns the ball.

Donna McGawn blows her horn.

Cindy Yeater and Brenda Fritzen work at perfecting their artistic abilities.

Fine arts encourage self-expression through the development of talents.

This years art students could choose the area of art that interested them most. Drawing, painting, ceramics, and basic art for freshman were offered.

Band and choir classes spent much time preparing for performances. Enthusiastic band members reorganized dance band this year.

Mrs. Barbara Zivich is a graduate of Herron Art School. She is enthusiastic, creative, and intensely involved in life as she is the sponsor for the Pep Club, cheerleaders, and the art club.

Mrs. Margaret Dickie, Mrs. "D" around the choir room, remember the day Linda Hardiman almost hung herself on the curtain ropes during a rehearsal.

Mr. George Steele, band director, has had 18 years of teaching experience. His hobbies are ice fishing, and golfing. One of the trips to Cedar Point Mr. Steele was acidently pushed in the pool, but he got the band back by making them march in the rain.

Science explores the unknown.

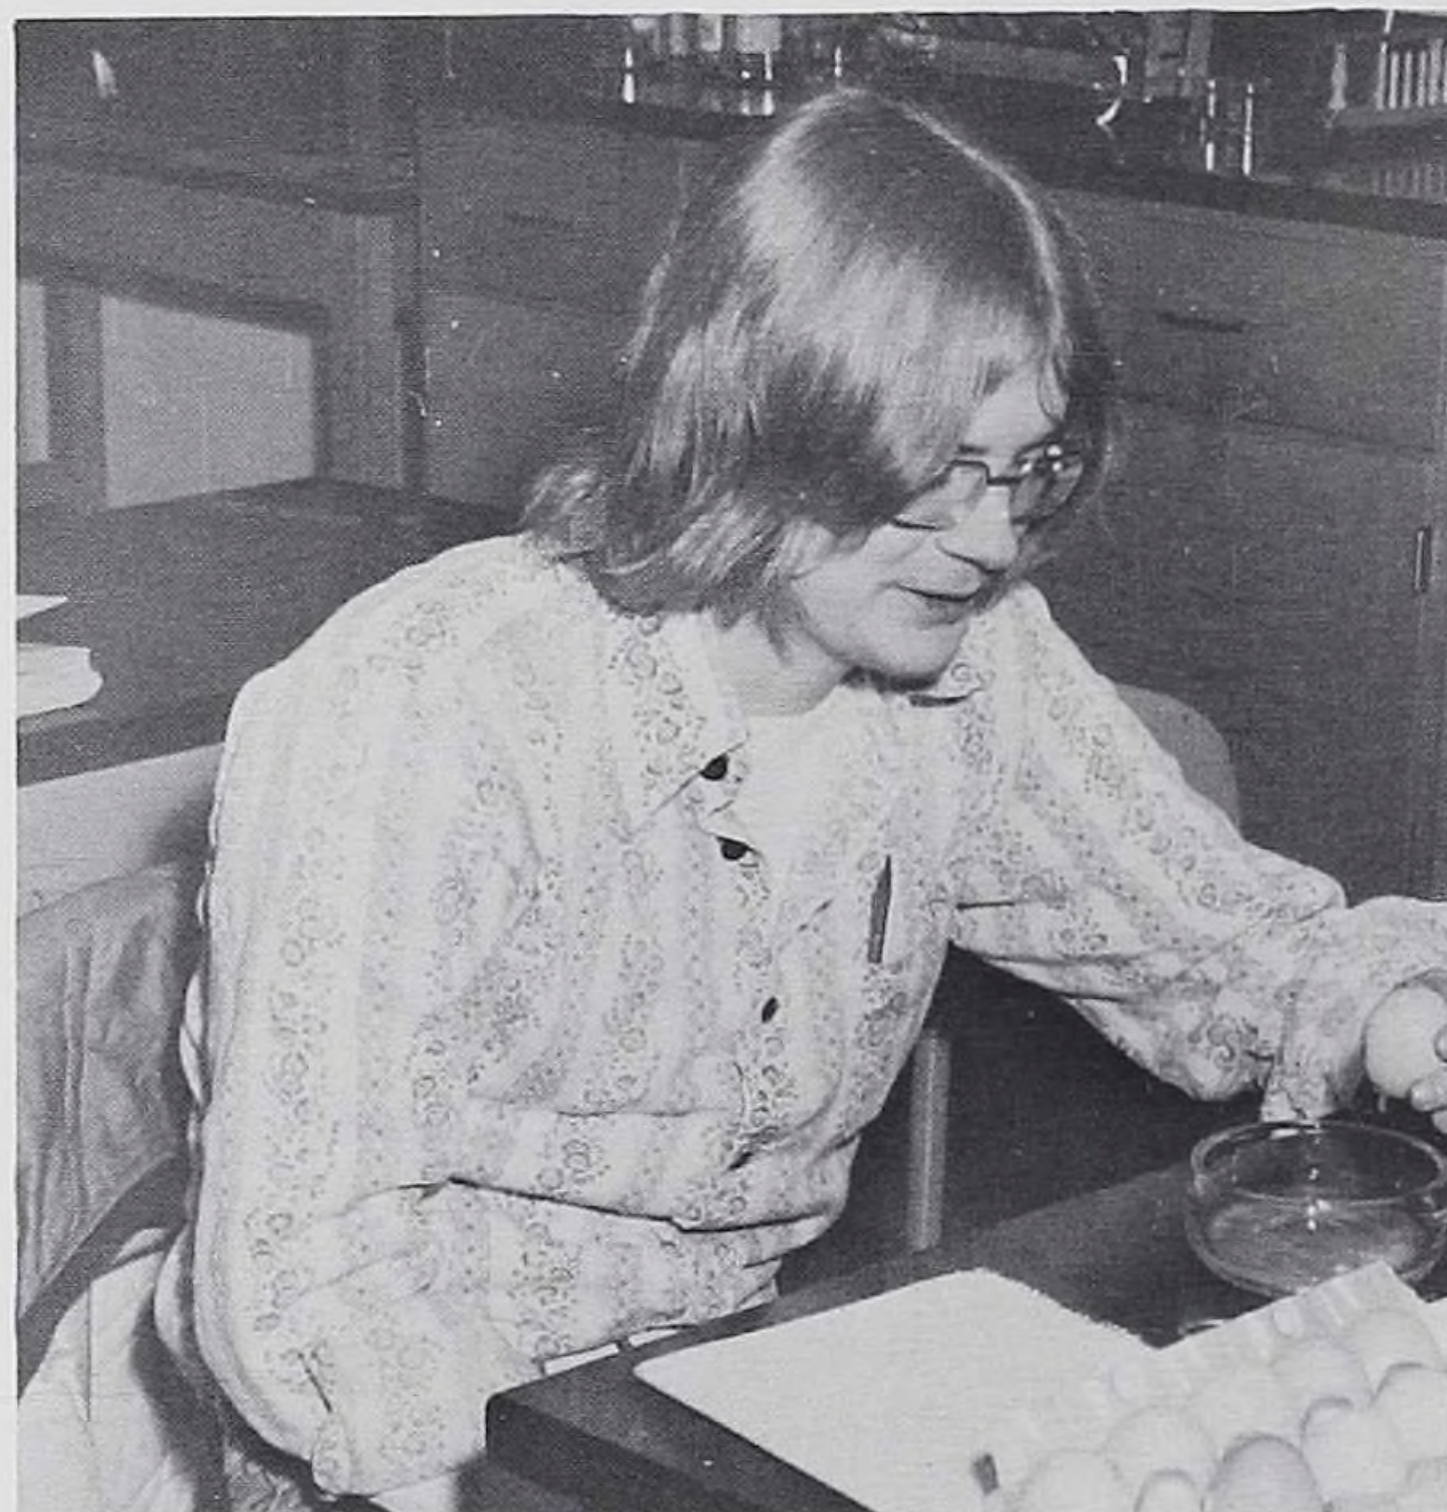

Mr. Keith Kauffman has been teaching biology for four years. One day he was getting ready to show a film in class and pulled the screen down. When he got back to the projector and looked back at the screen, Miss December was hanging there!

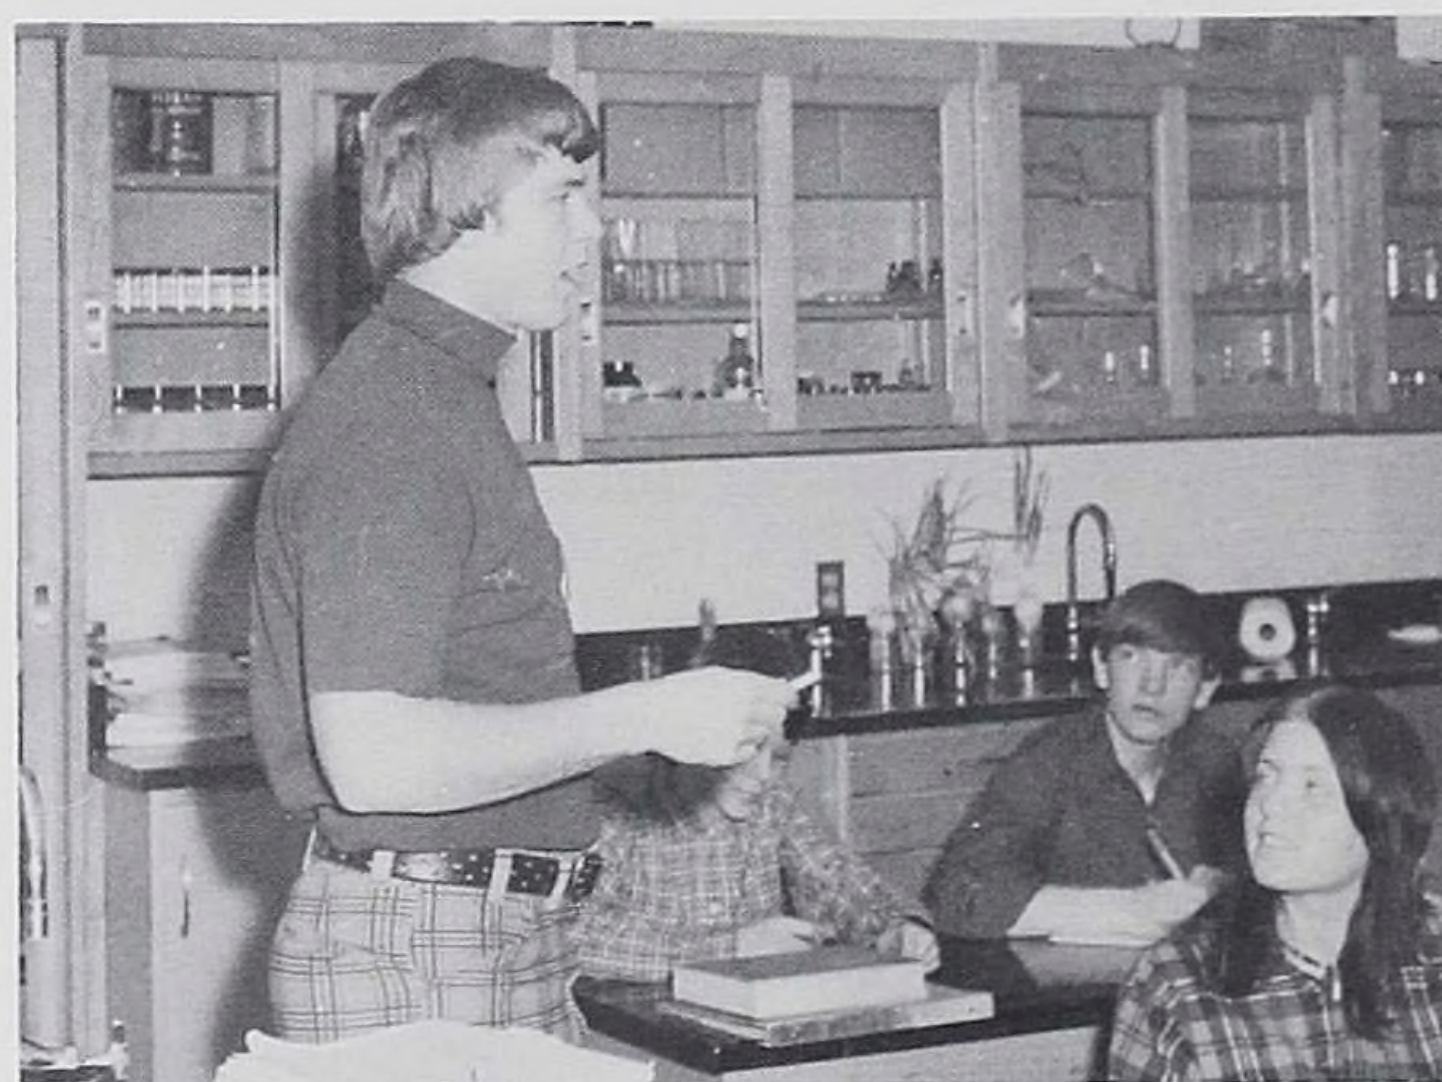

Mr. James Woolsey, earth science teacher, has been teaching for 24 years. As his position might indicate, his hobbies are rock collecting and gardening. One thing that really bothers him is tardiness.

Jeff Reinhold and Marc Pfeiffer exercise mice used in experiments.

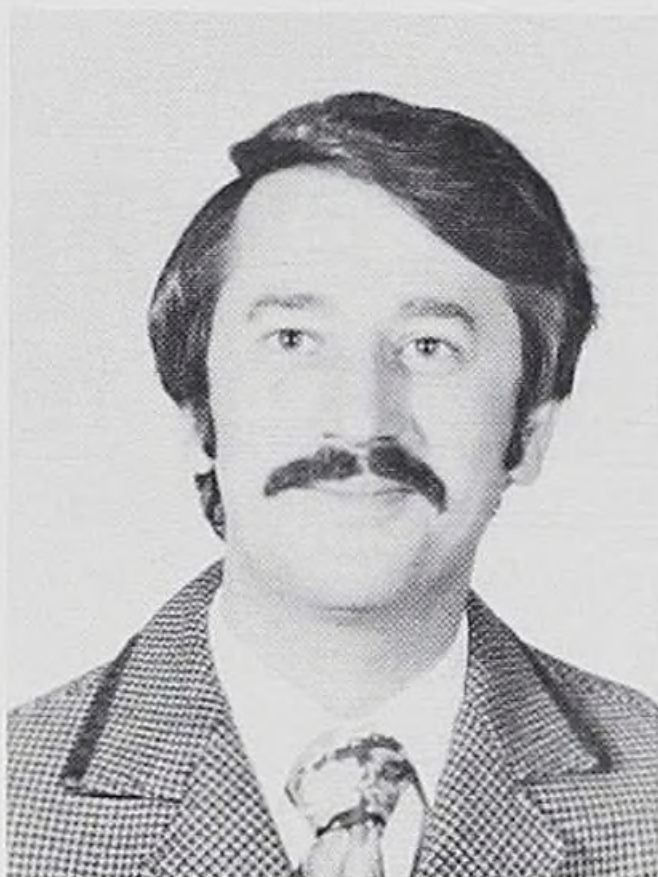

Bob Kleine observes chickens still growing in eggs.

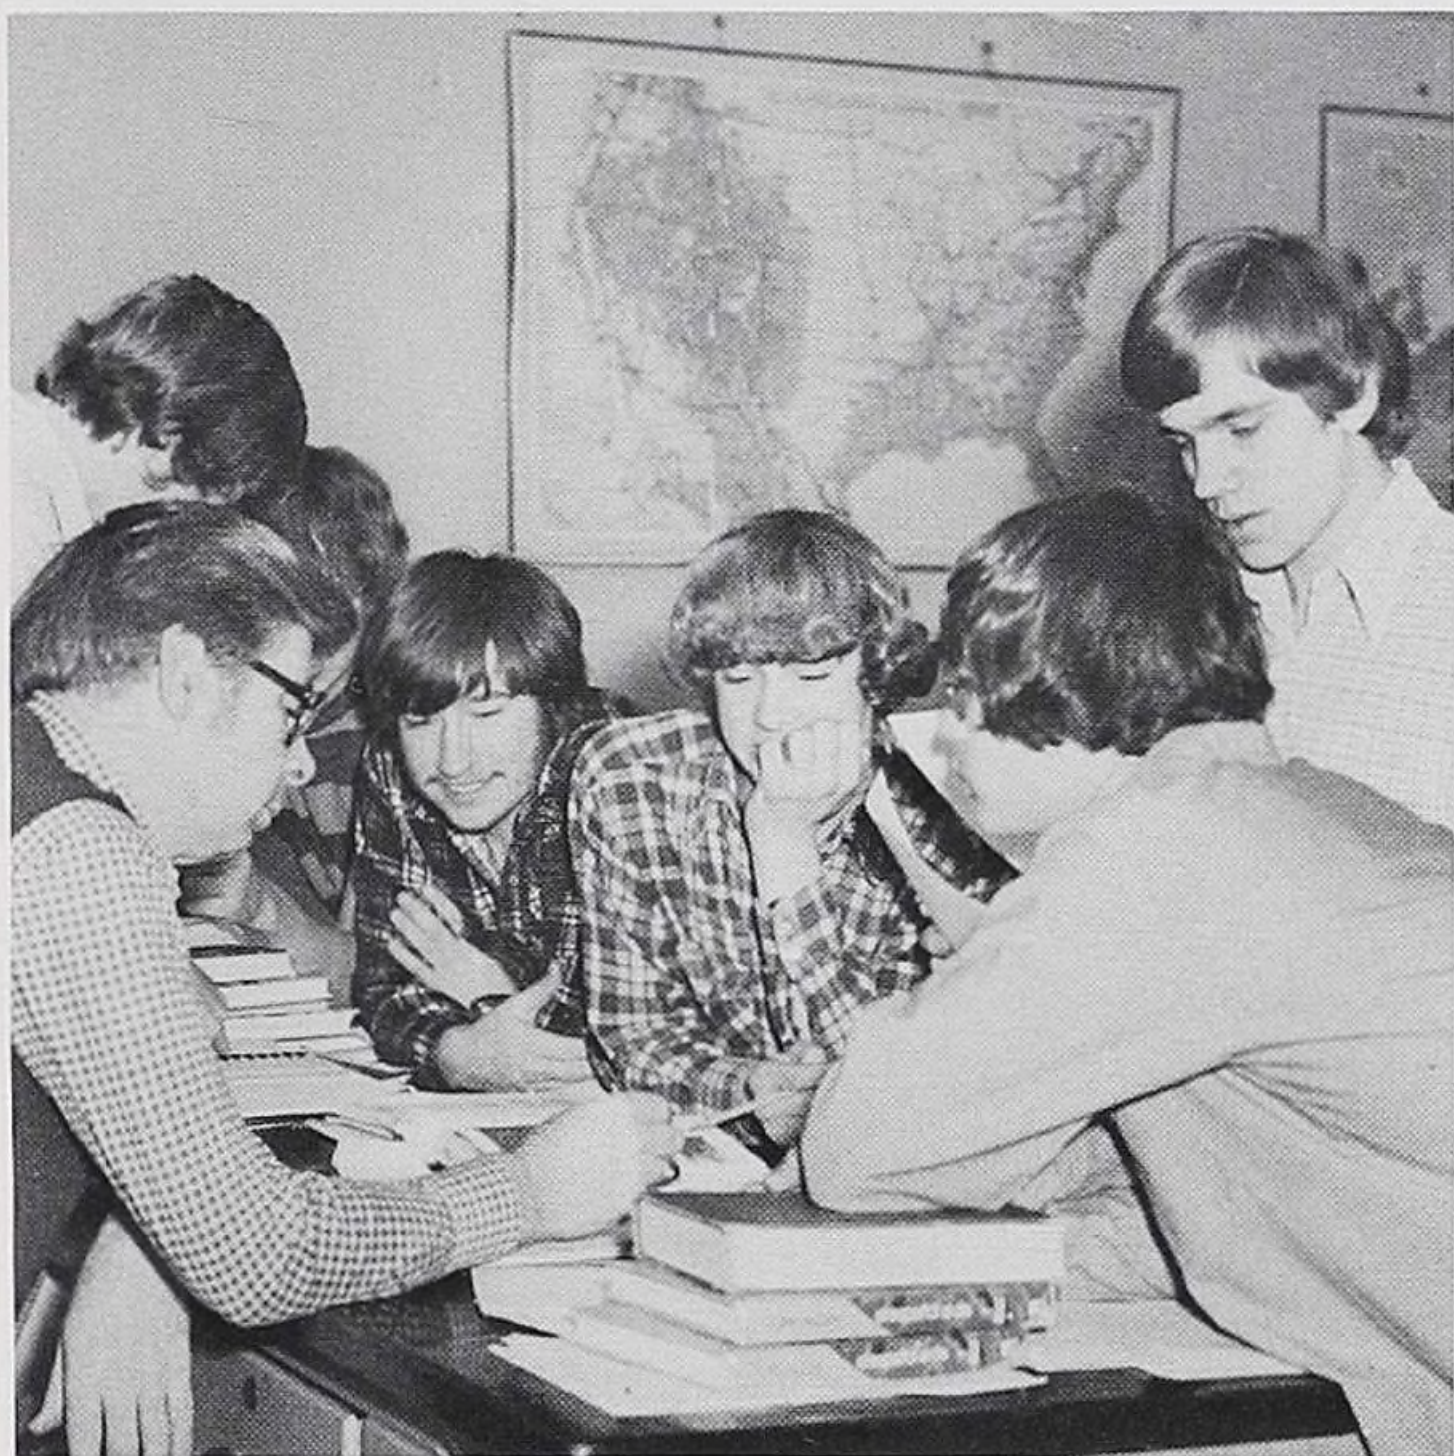

Students take notes while Mr. Kauffman lectures.

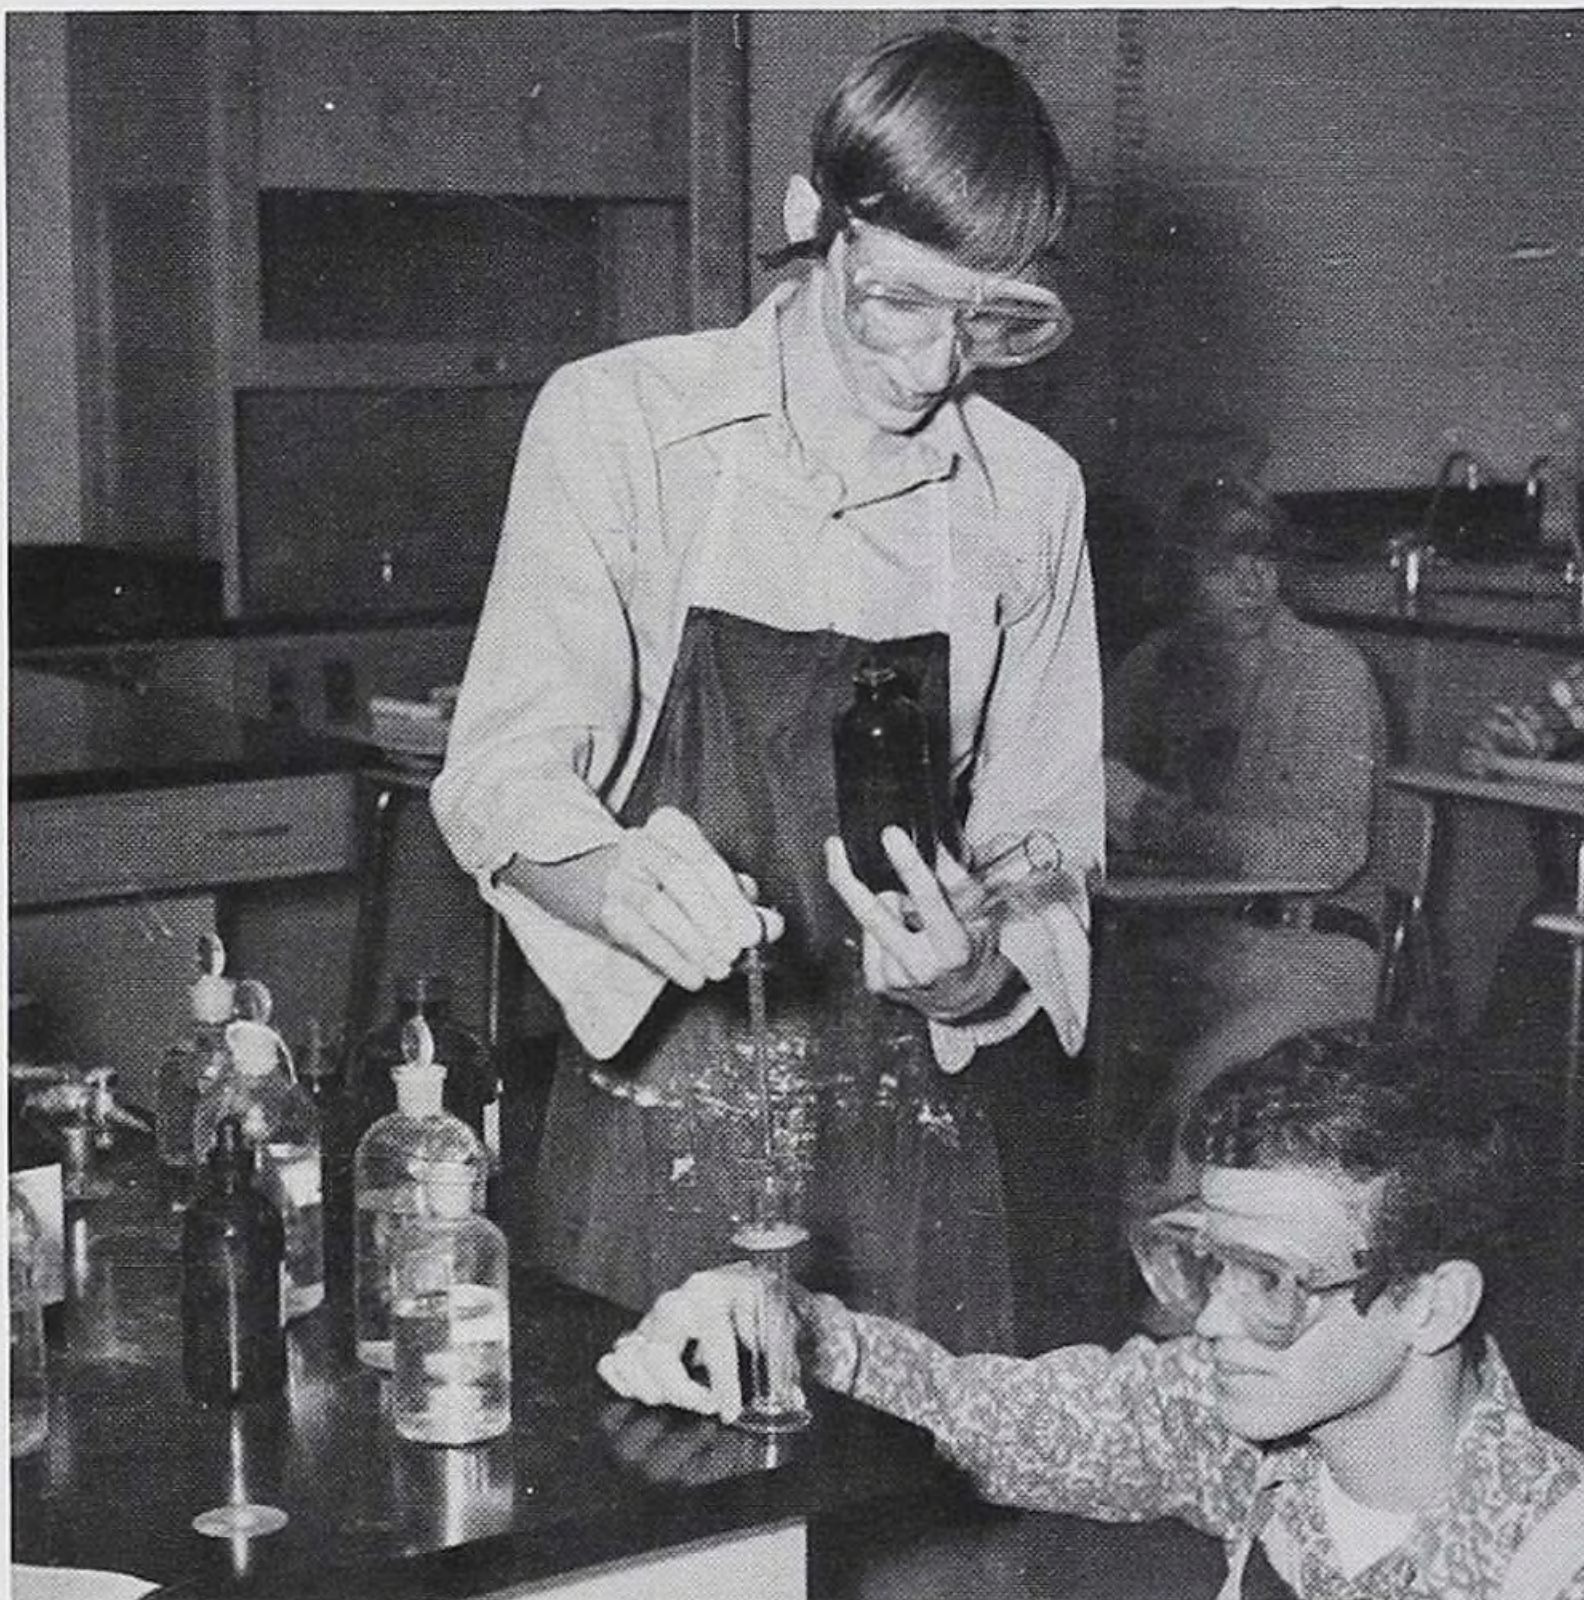

Jack Calhoun has been teaching biology for 22 years. He attended both Purdue and Indiana University to earn his teaching degrees. Mr. Calhoun's interests include hunting and fishing.

Michael Kamal has taught chemistry here for 2 years. As an experiment in class, he tried to make a smoke bomb. The experiment was so successful that they had to move to another room for the rest of the hour!

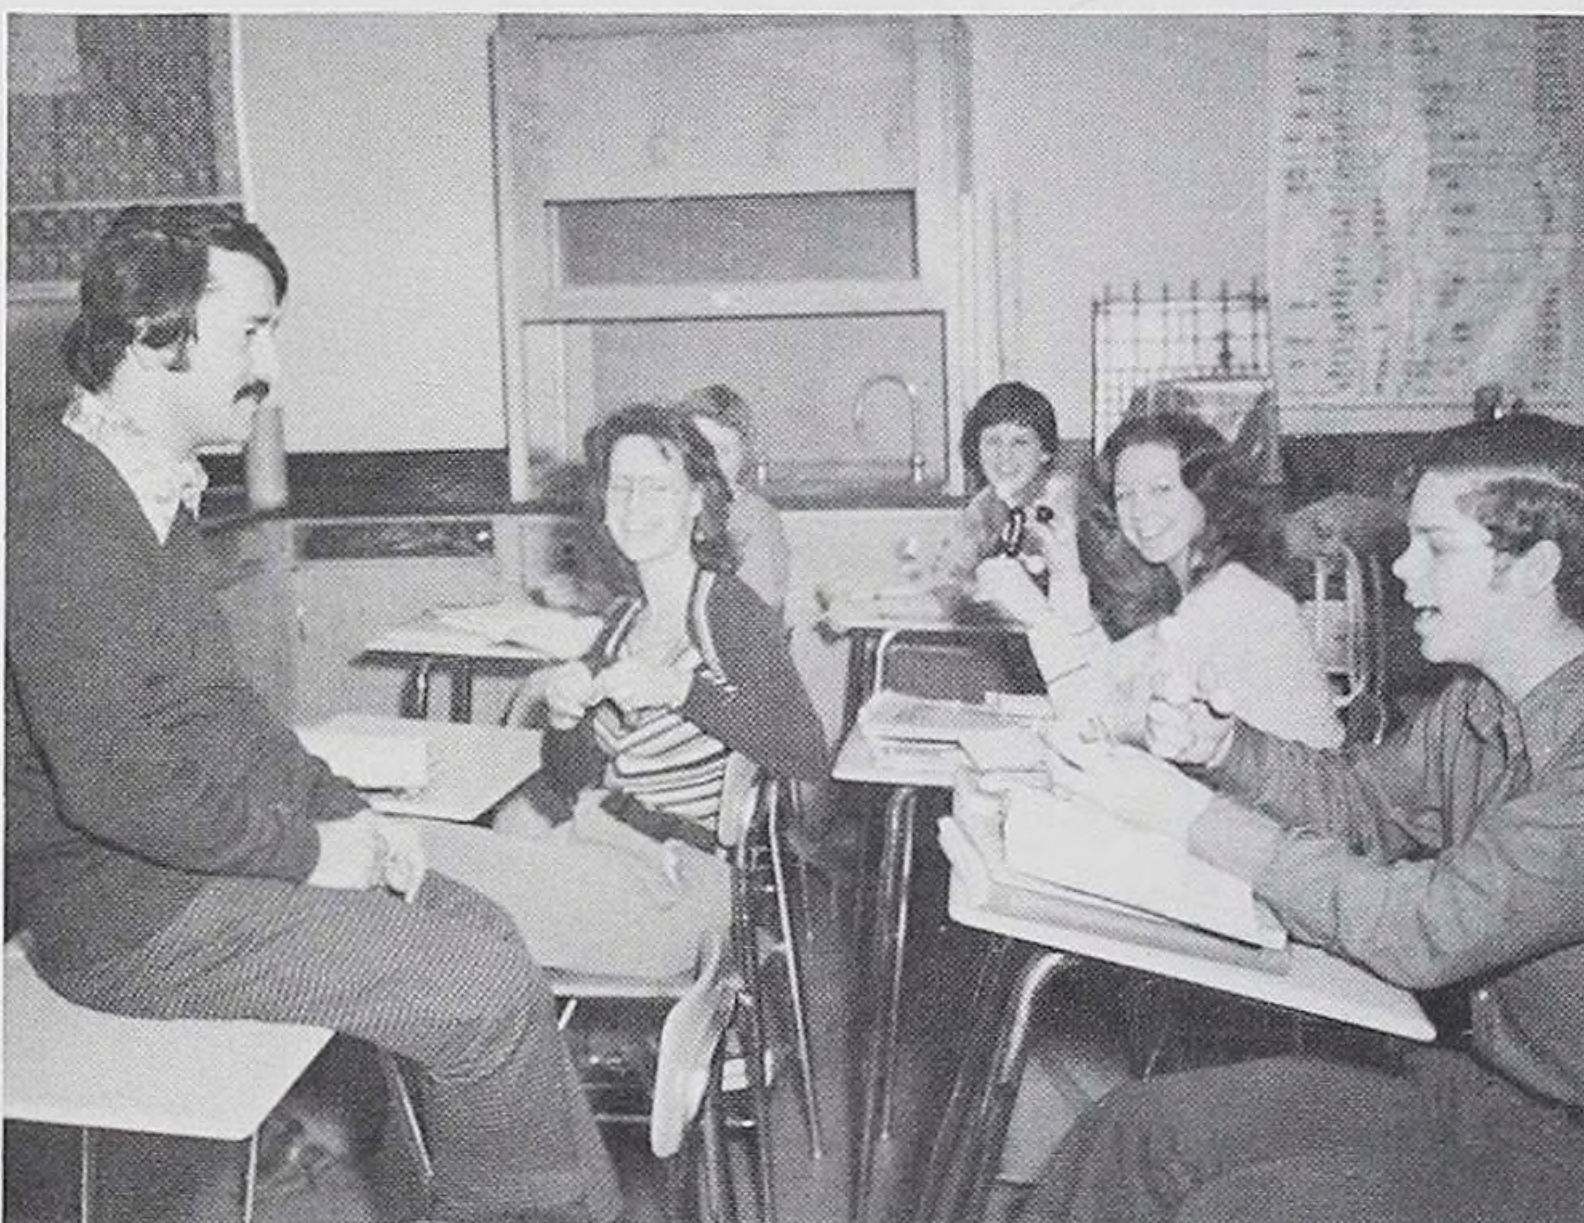

Interested students gather around Mr. Woolsey.

Kent Bozenski and Mike McQueeney are lab partners for chemistry experiments. Below: Cindy Peterson and Doug Fecher examine models of atoms.

Many different forms of science are offered to the students of New Prairie High School. Choices are available to suit every student's desire for knowledge in the scientific world. General science is available to those students who are interested in a universal study of science. For the students who wish to learn about the substances of the earth and its surrounding environments, earth science and advanced earth science are provided. All living things are studied in biology. Chemistry is the study of the elements that make up all matter.

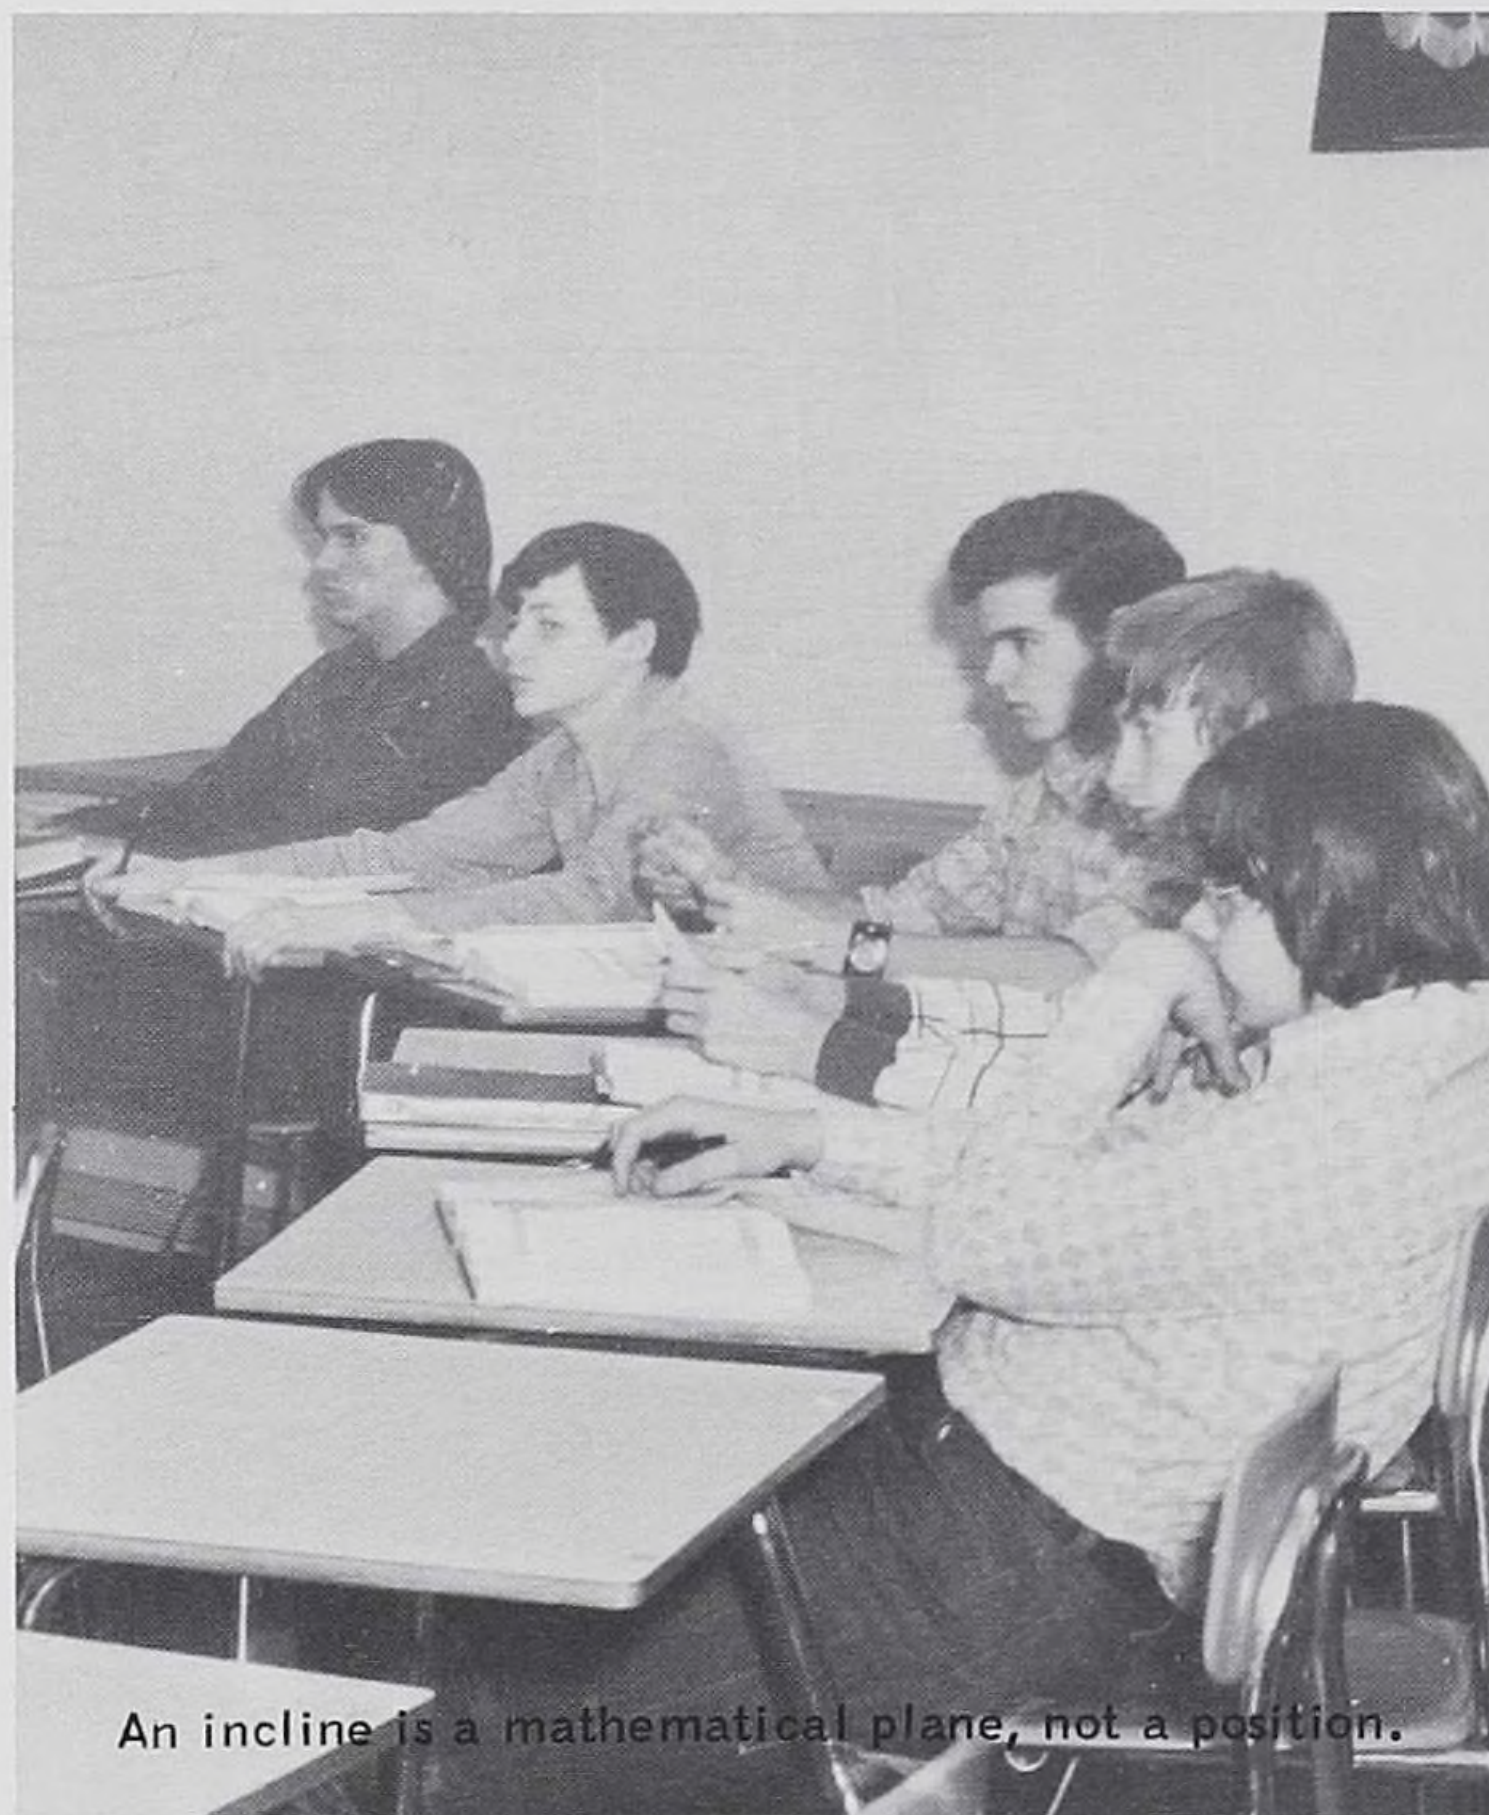

You can always count on a math teacher

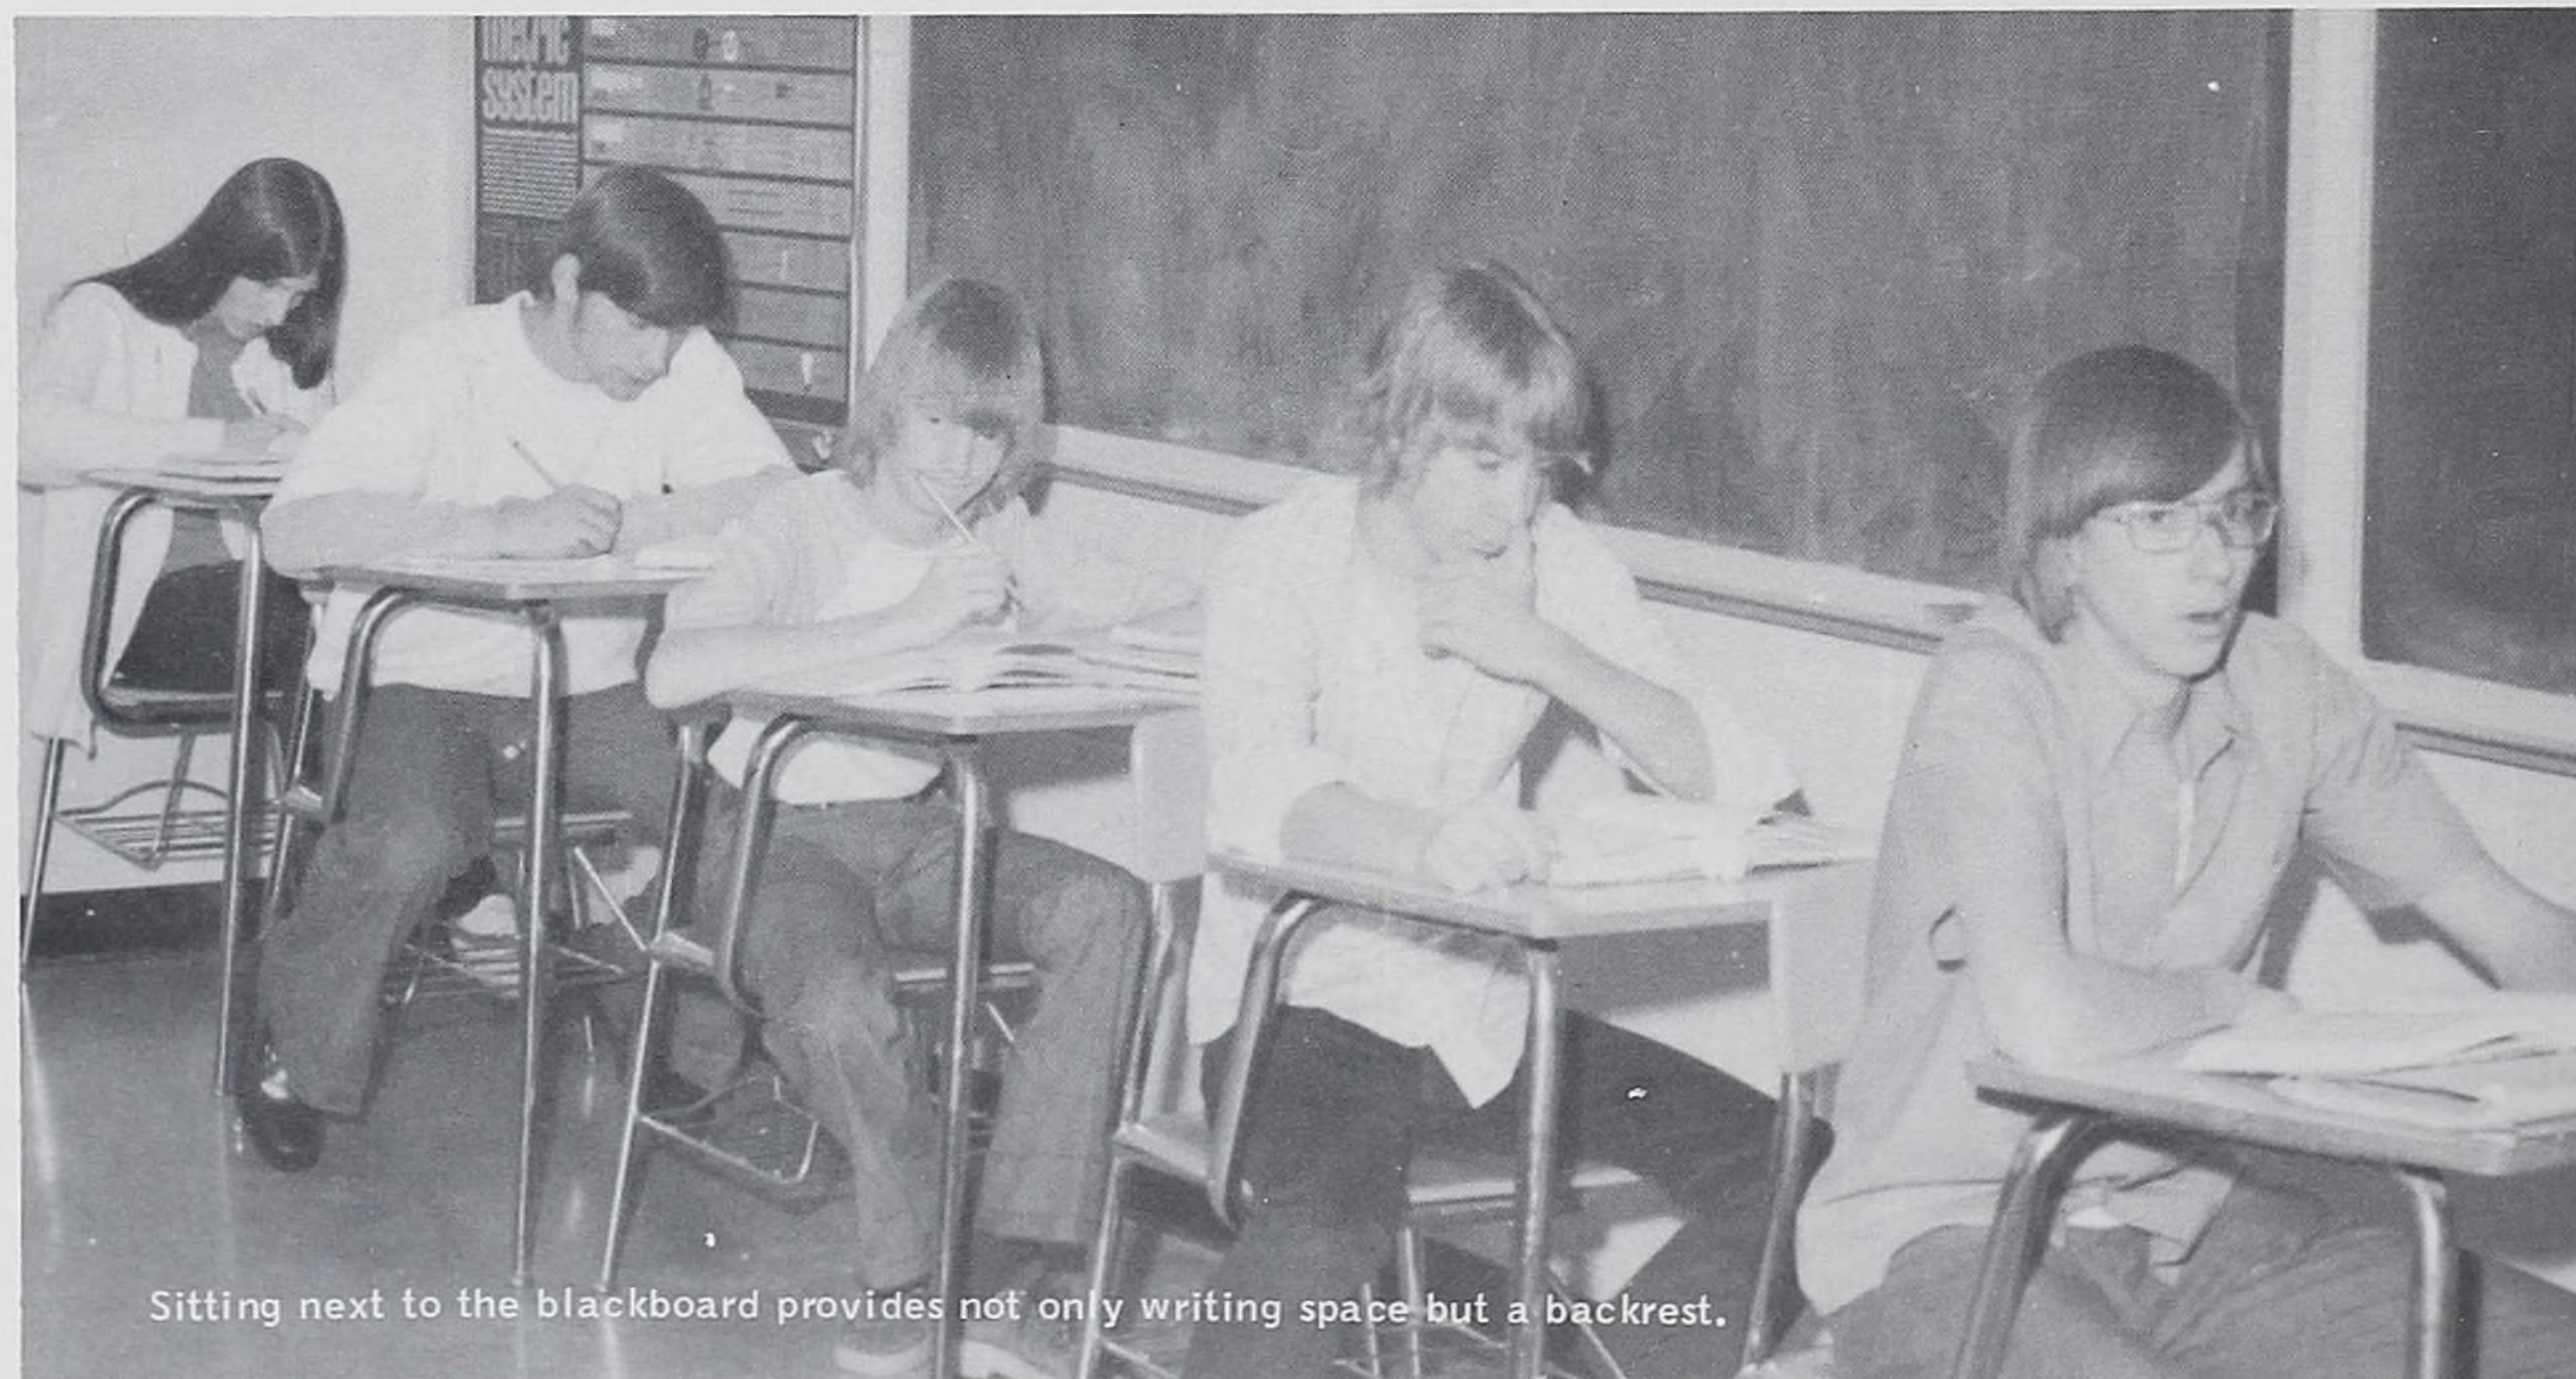

Mr. Robert Schwenk has been teaching for 15 years. He attended Purdue University and Ball State. His hobby is coin collecting.

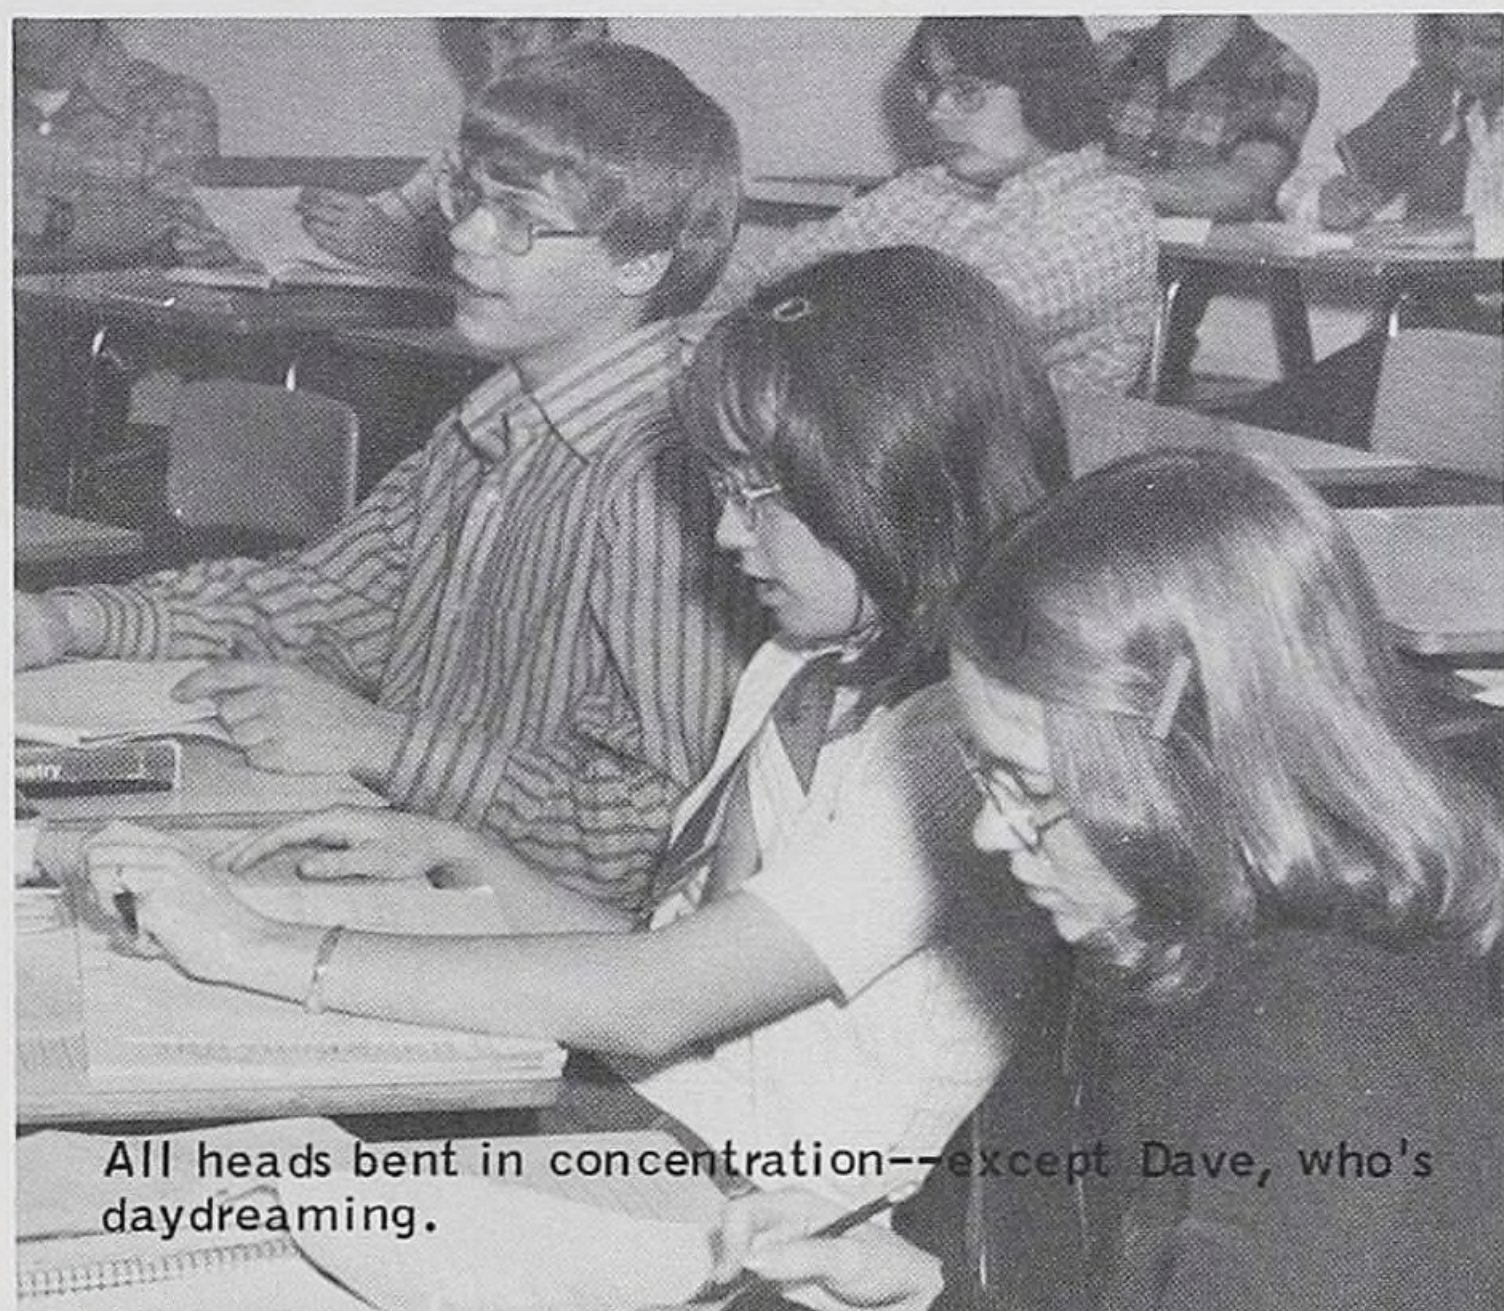

Mrs. Ruth Crouch has been teaching for 35 years. She attended Oberlin College, Indiana University and Purdue. She thinks our students are really great but, she doesn't like students who talk in class and fail to get their work done. Her hobbies are crafts and reading.

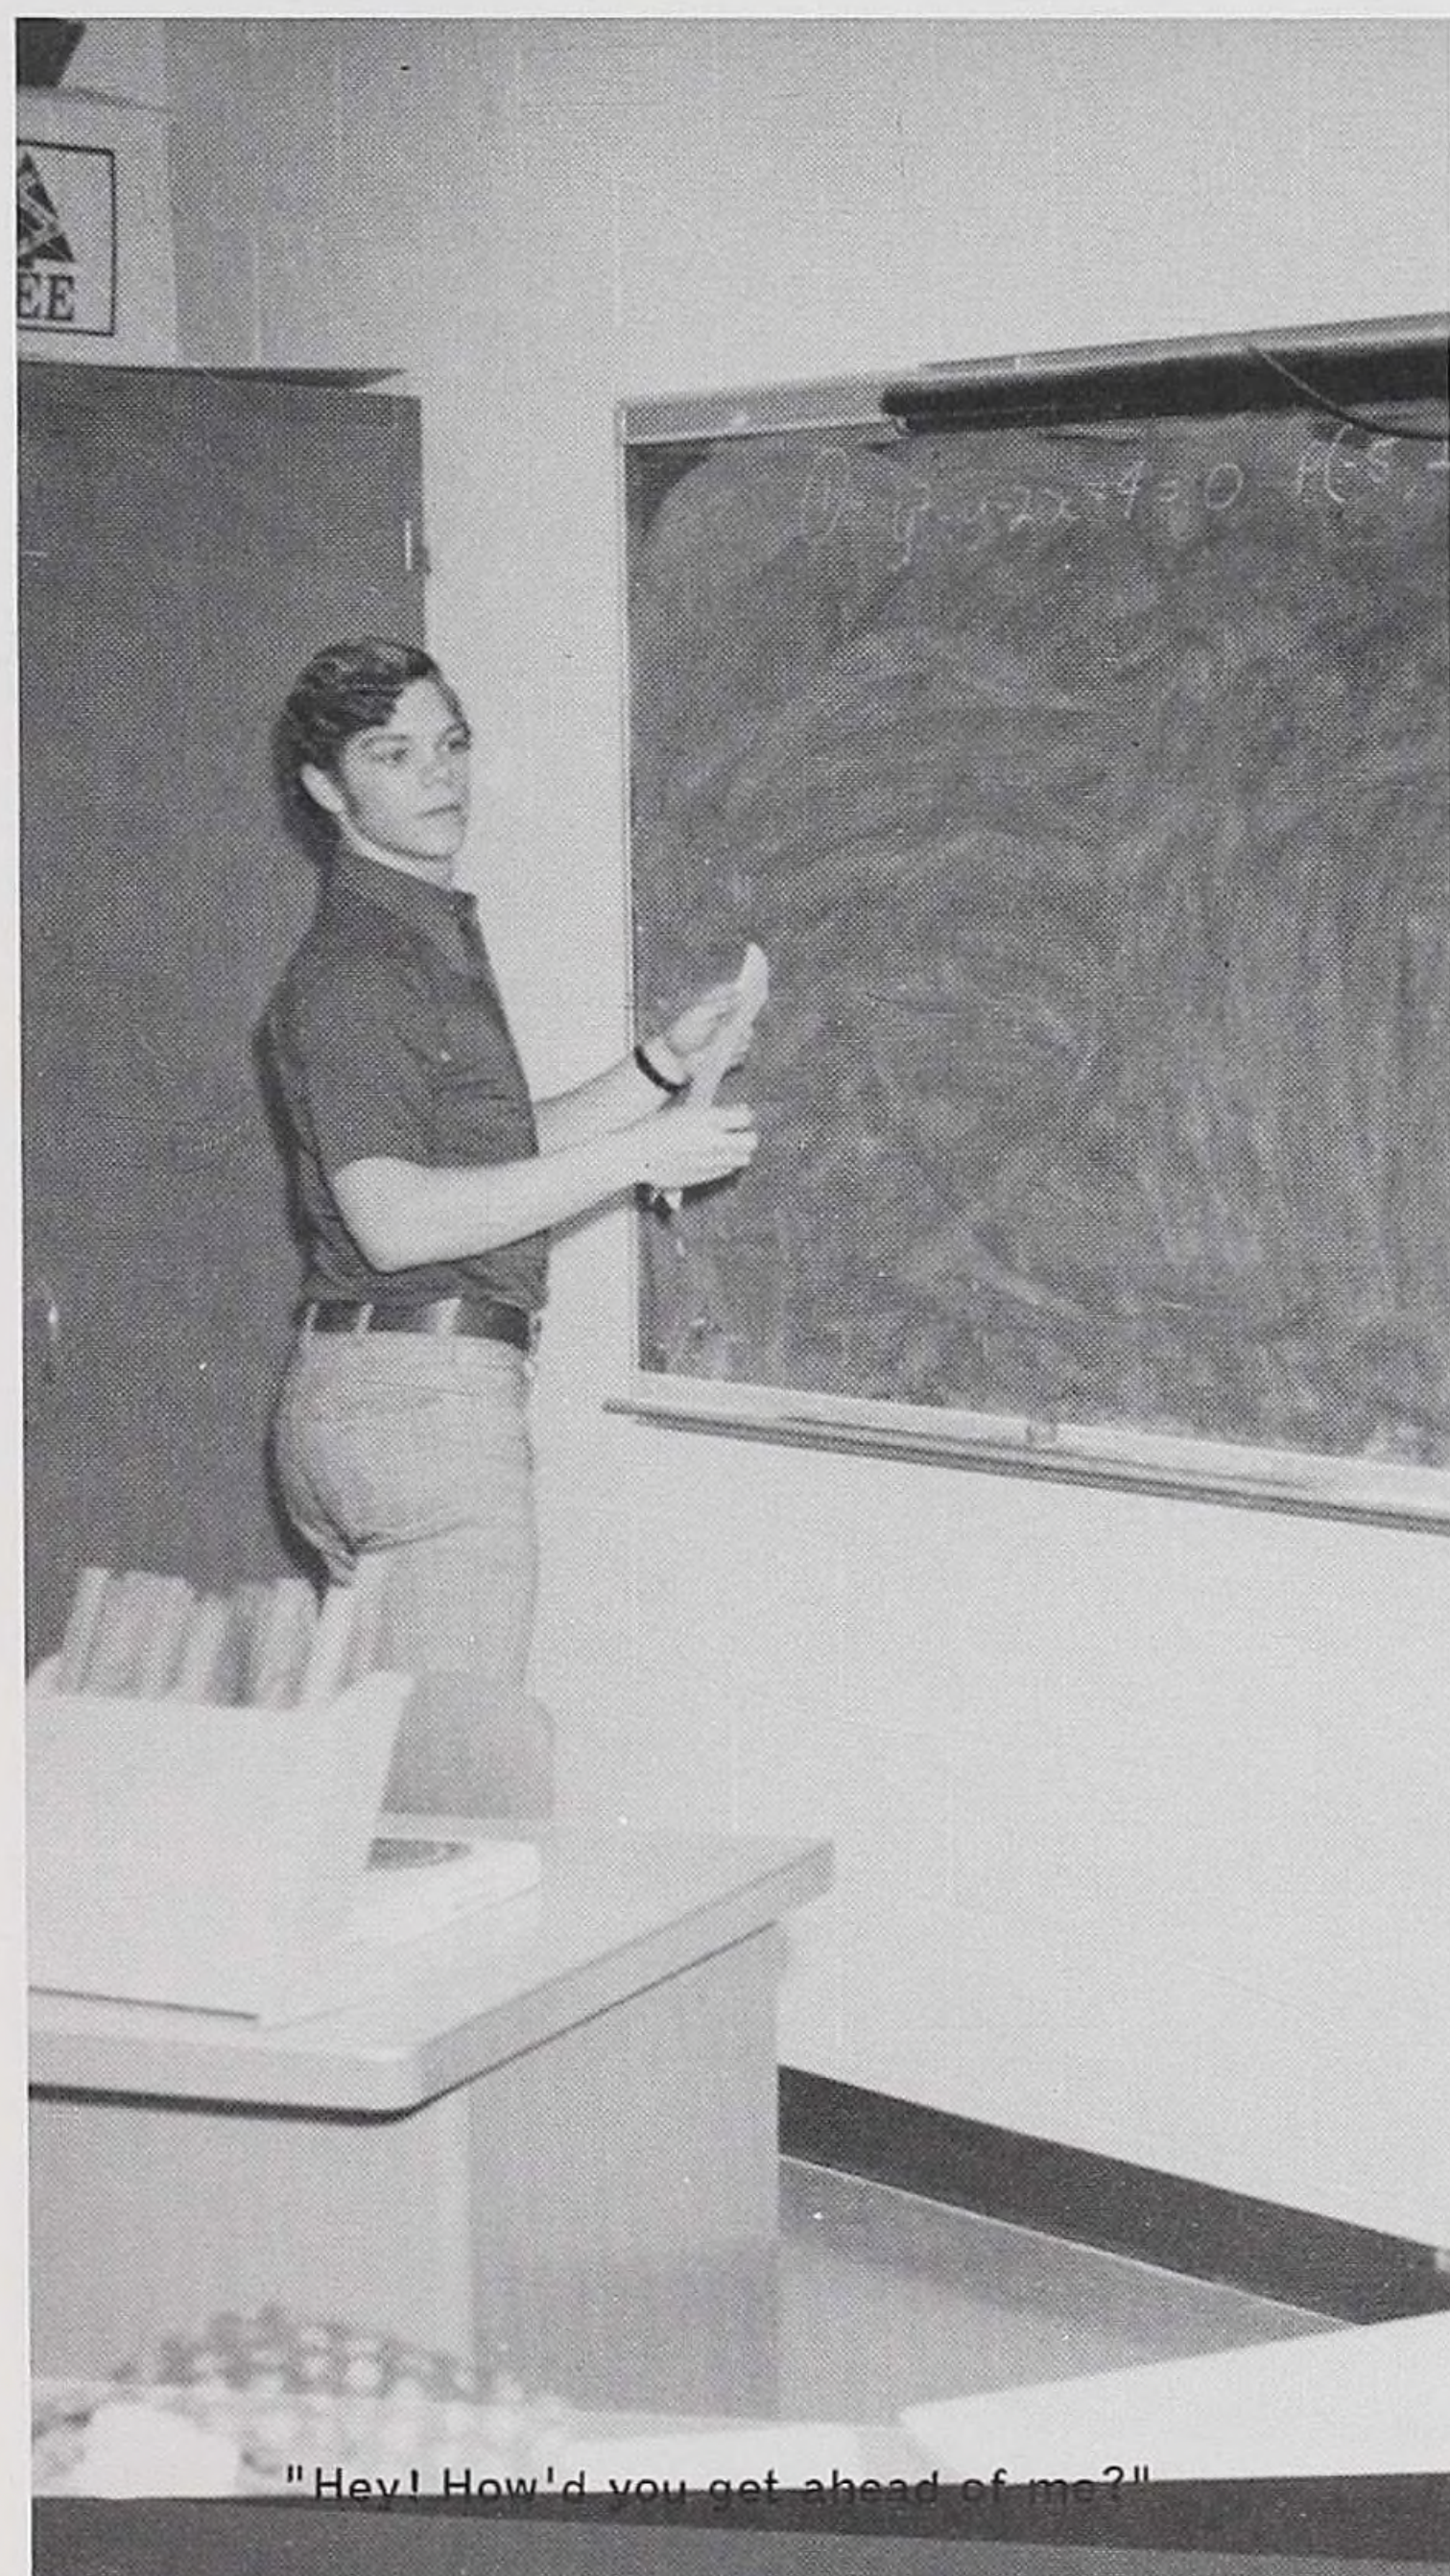

An incline is a mathematical plane, not a position.

Sitting next to the blackboard provides not only writing space but a backrest.

All heads bent in concentration--except Dave, who's daydreaming.

"Hey! How'd you get ahead of me?"

Highly competent educators staff the math department, assuring each student an excellent headstart toward a mathematical future. Courses offered range from fundamental math to pre calculus for the interest of the student.

As in previous years, the math students participated in regional and state contests and received numerous awards.

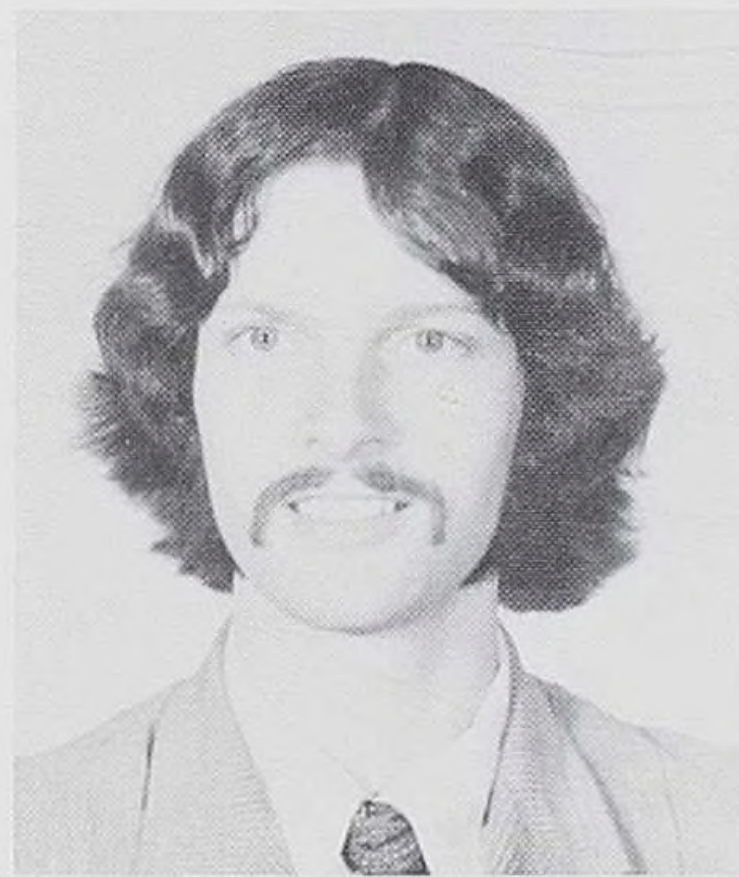

Mr. Dave Washburn is in his first year of teaching math in our school system. He is our swimming coach and also likes sailing and amateur radio.

Miss Ruth Lempke has been teaching in our school system for five years. In her opinion, our students are great as people, but lazy as students. Her hobbies are ceramics and reading best sellers.

Mr. Michael Powers is in his sixth year of teaching. When asked his opinion of our students his reply "a fine group of students." Mr. Powers' interests are: photography, and playing the guitar.

Industrial arts prepares today's youth for tomorrow's working world.

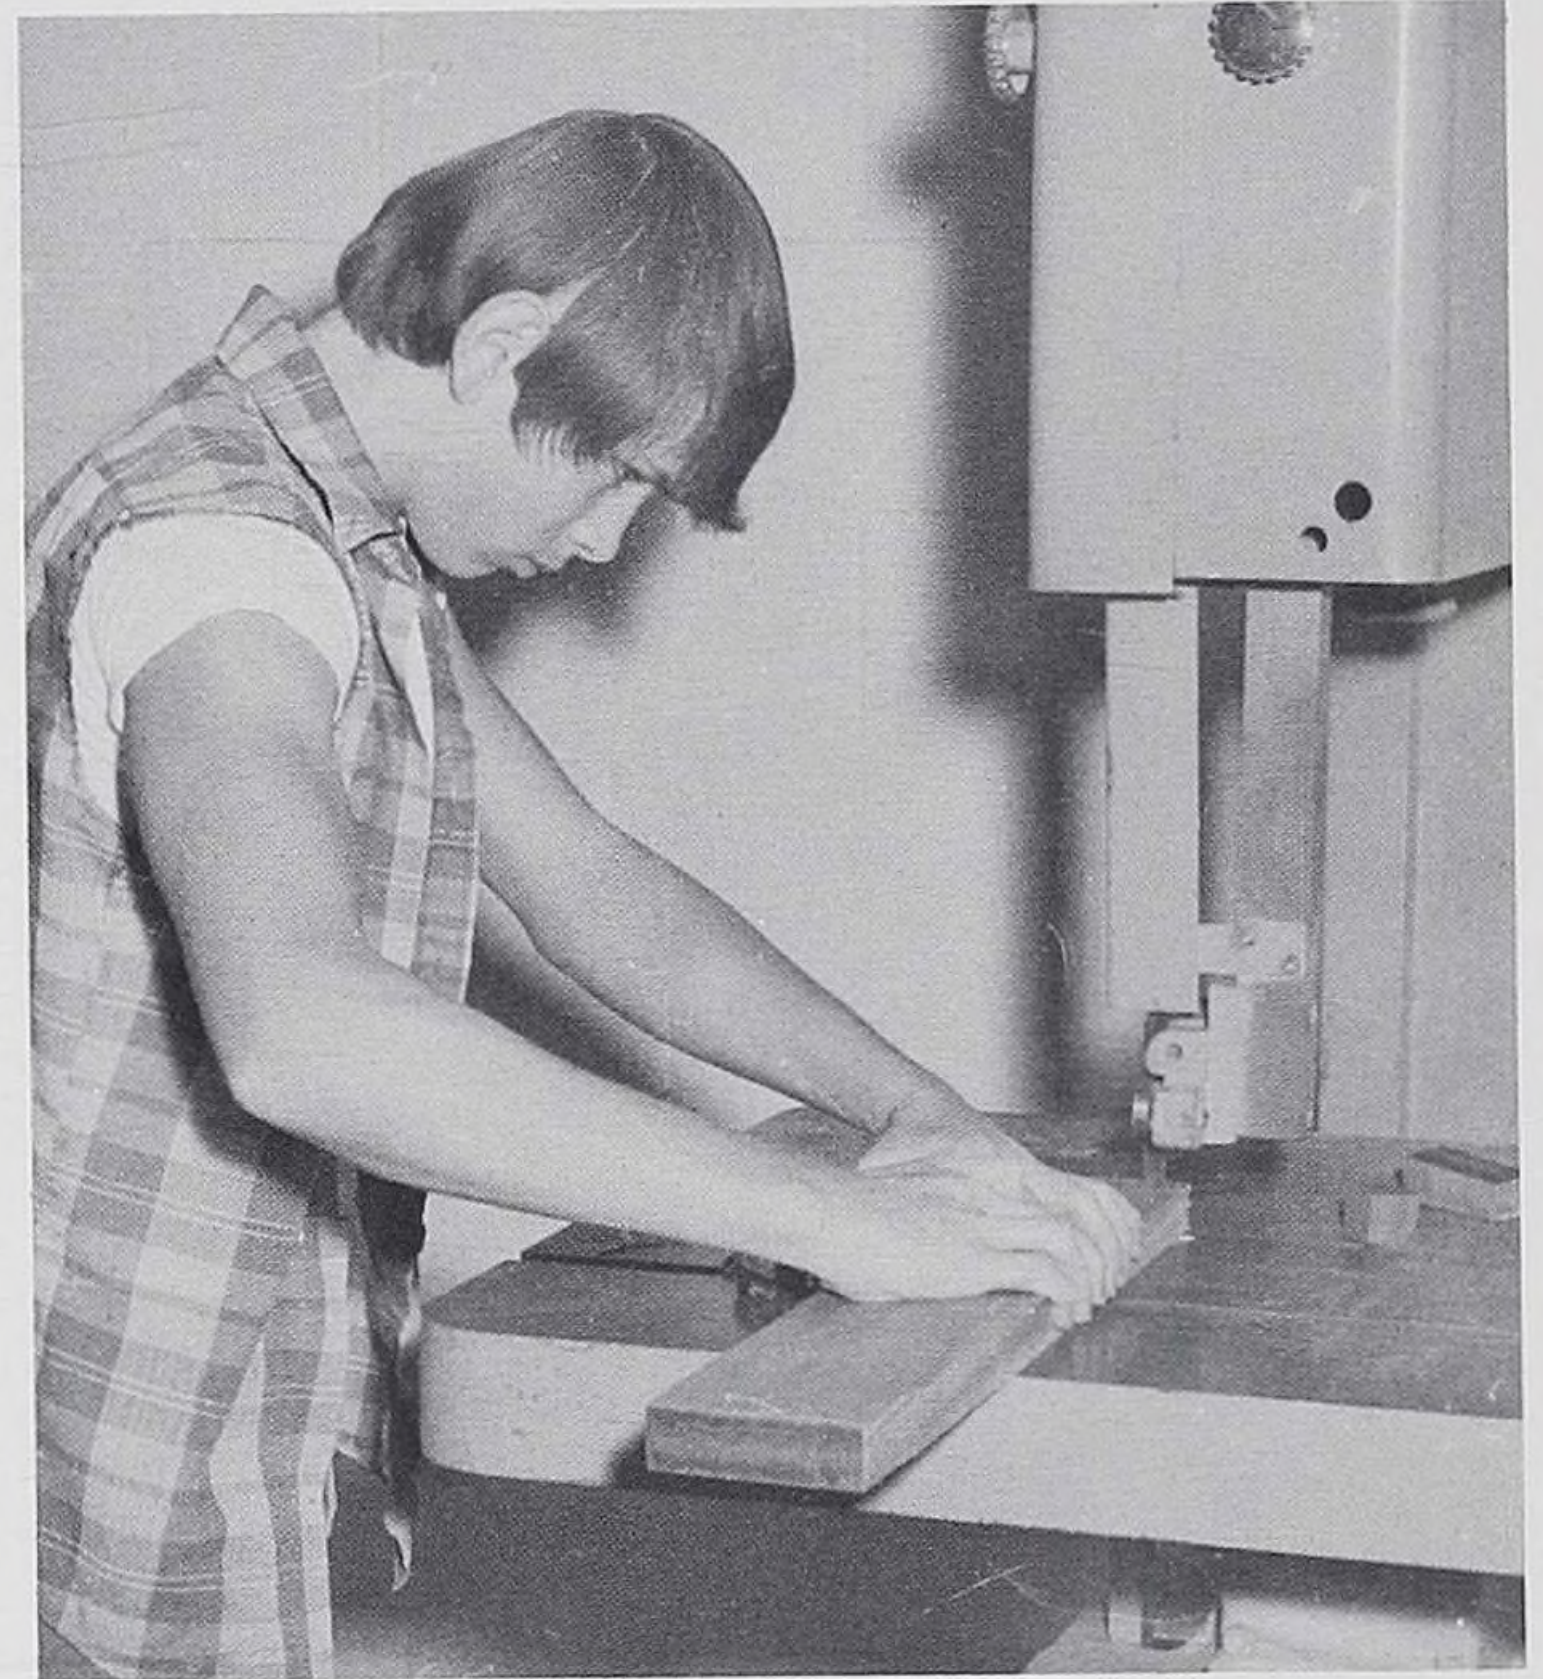

Charlie Evans and Allen Blad are laying out their new homes

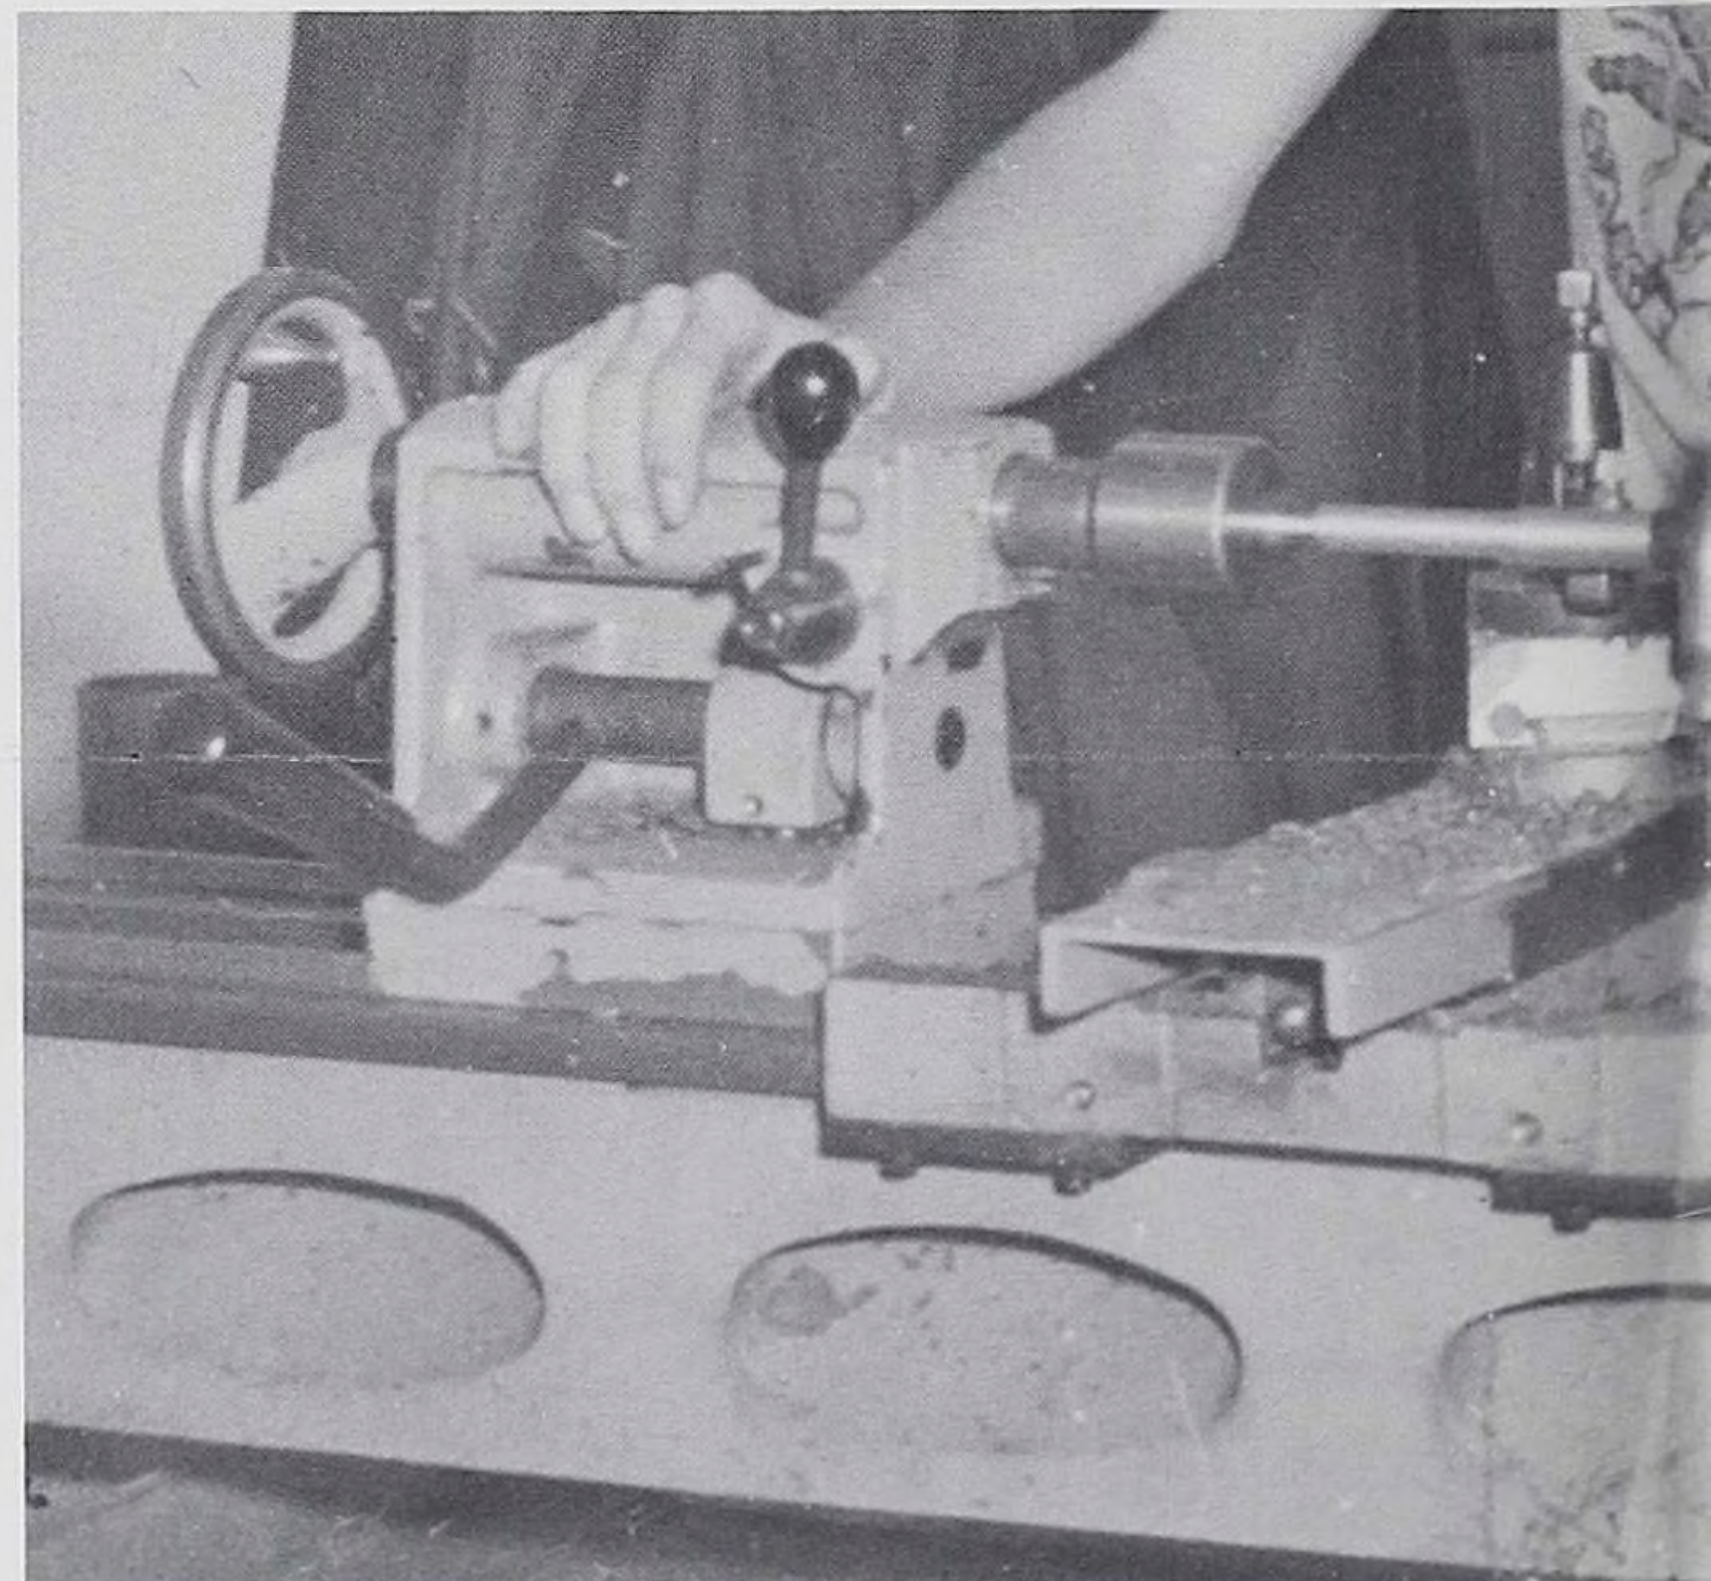

Mr. Bill Friend, Graphic Arts instructor, is a graduate of Indiana State University. After his three years of teaching, Mr. Friend concludes, "New Prairie has a fine bunch of students."

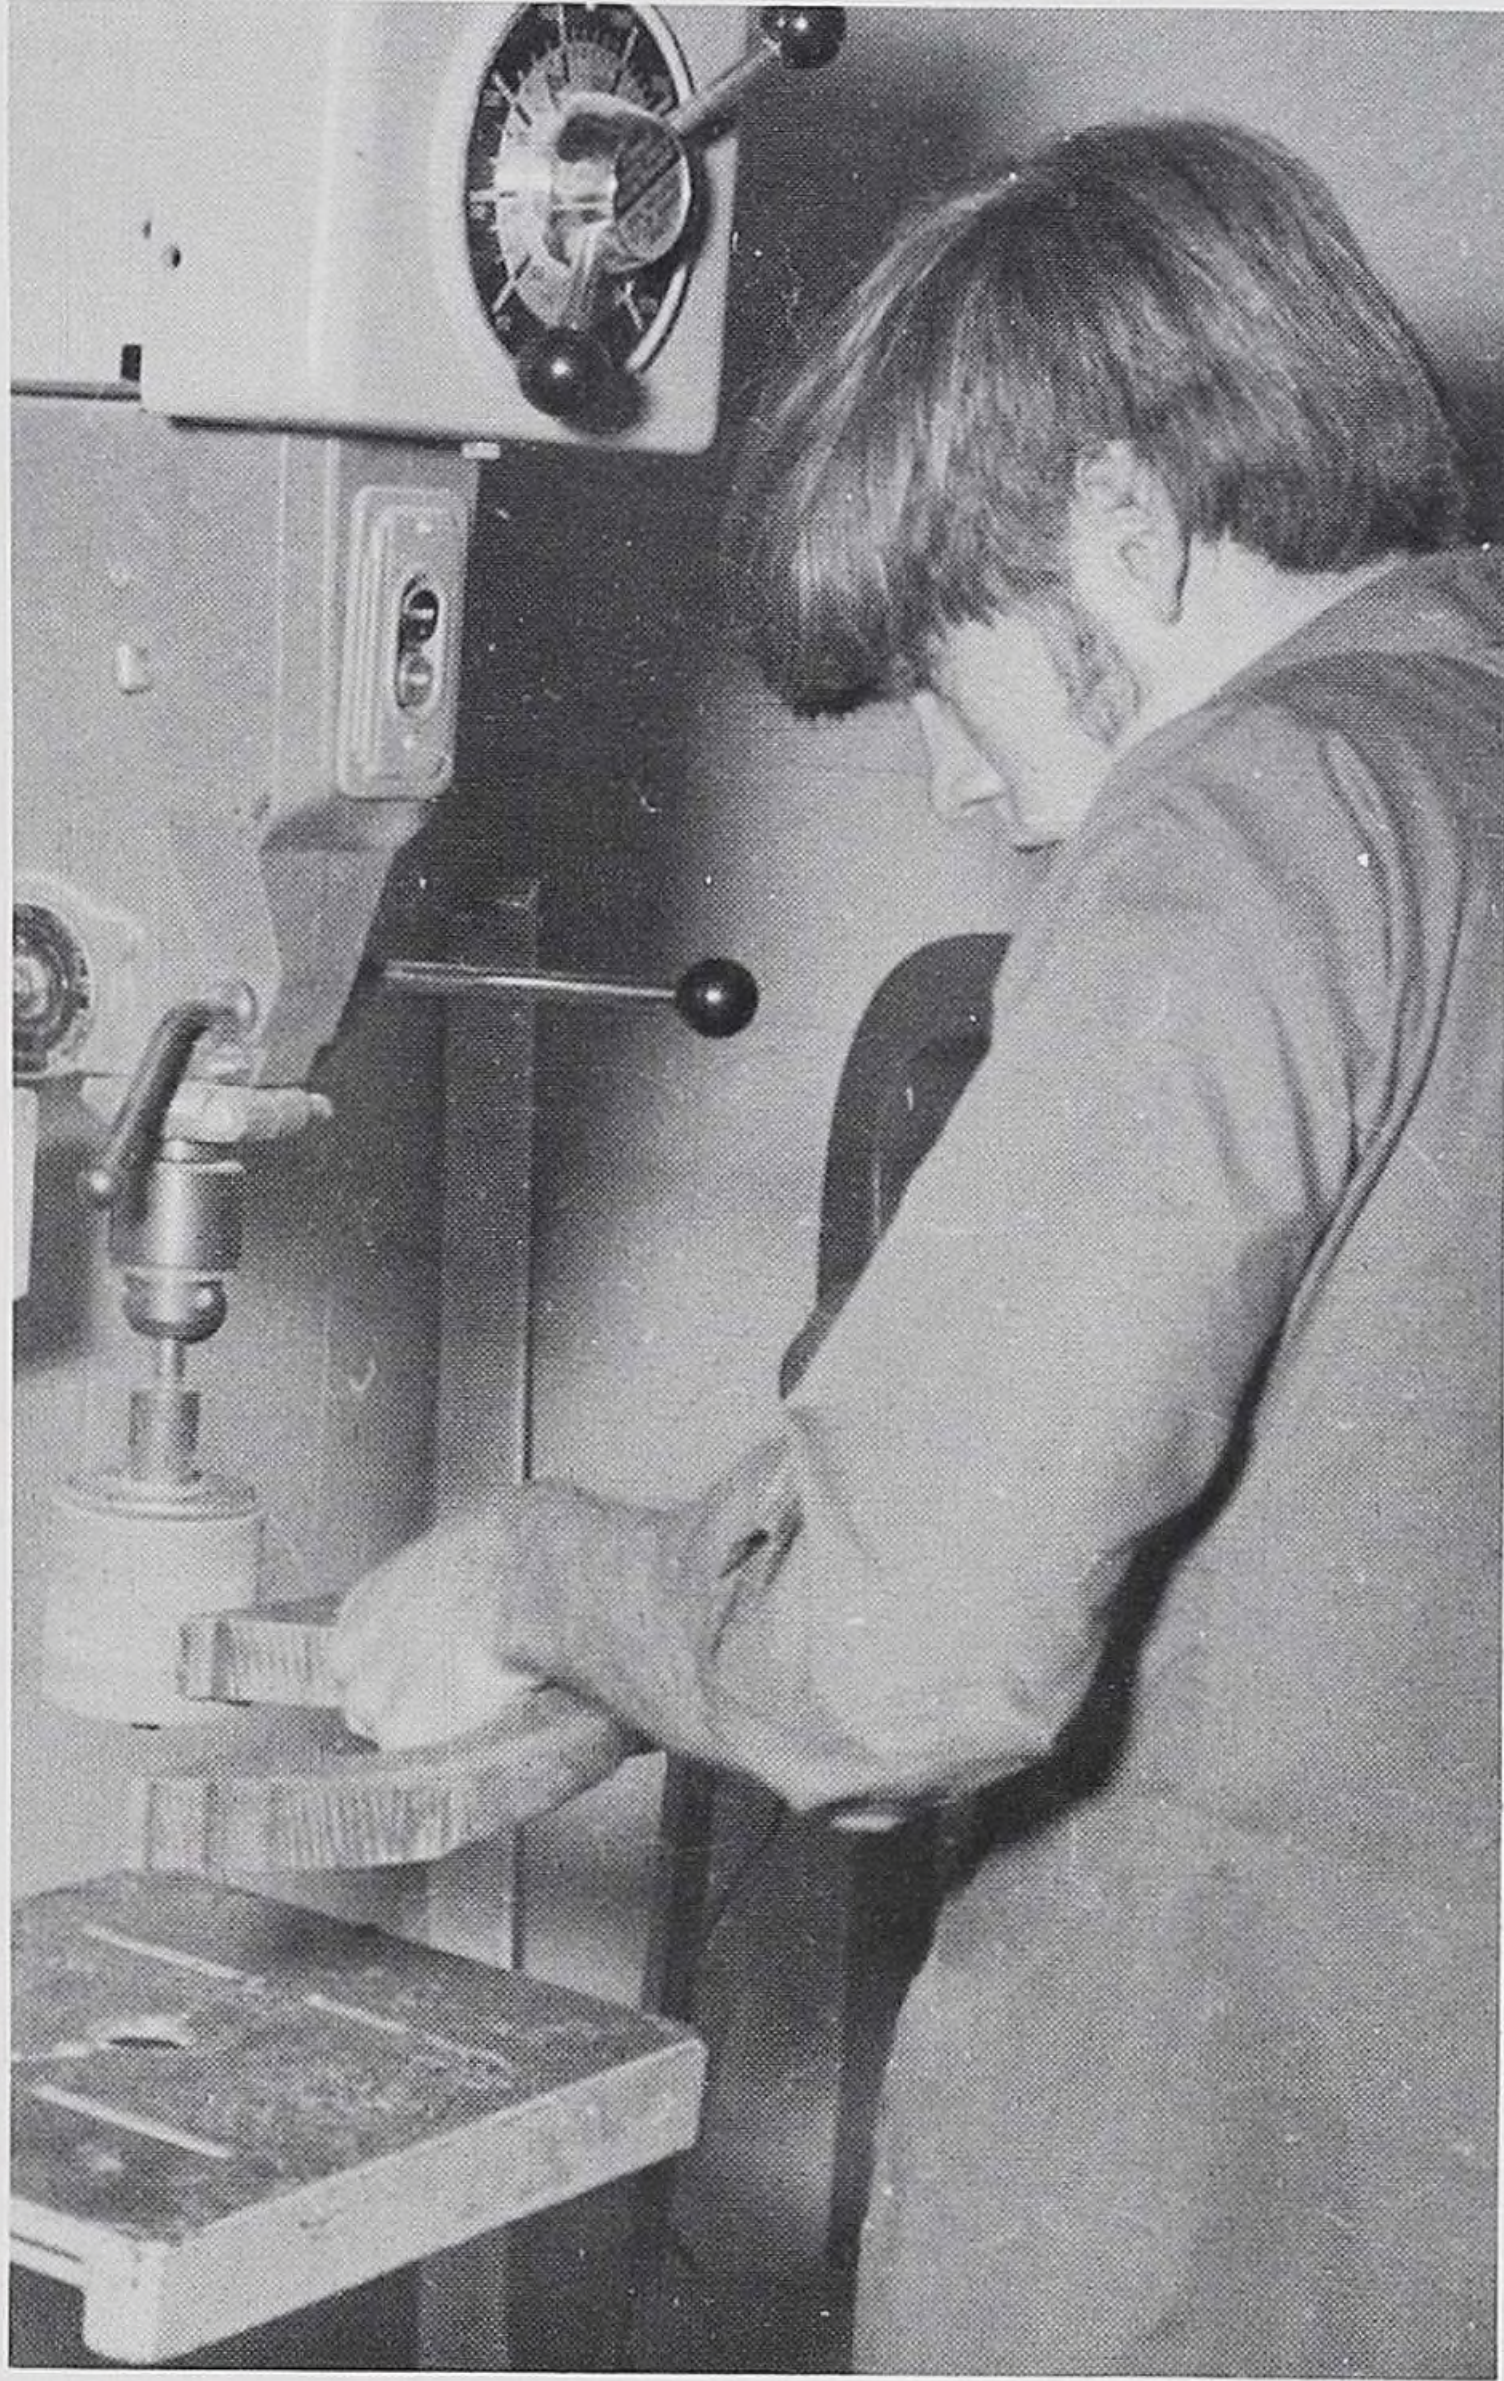

The funniest personal experience in Mr. Don Kane's 20 year teaching career was when he was giving a pep talk to his team and he kicked an empty box for emphasis. The box stuck to his foot, and required assistance in removal.

Hey Bruce, where are your goggles?

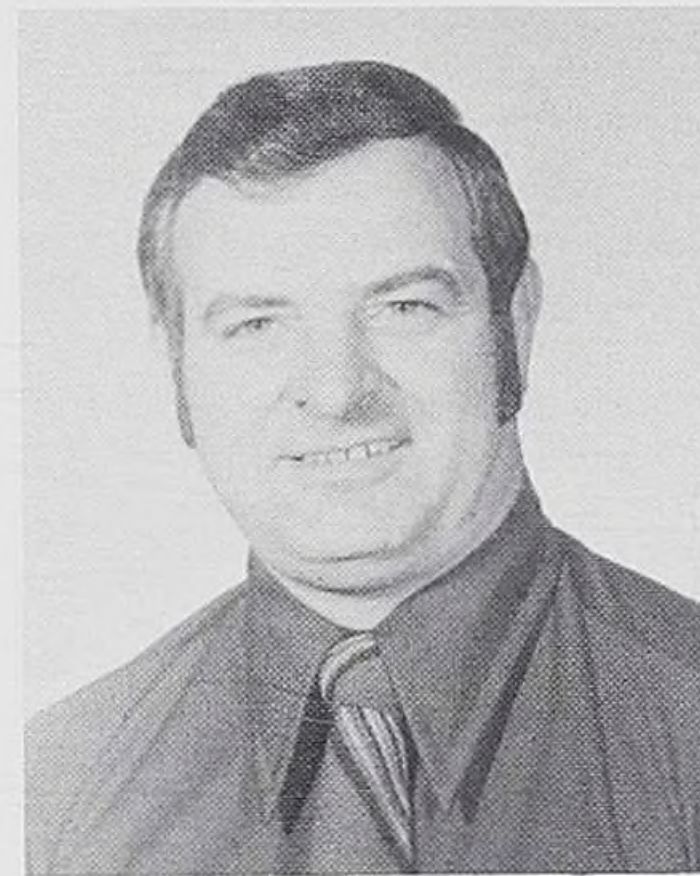

Bill Kelm is seeing what makes the world go round

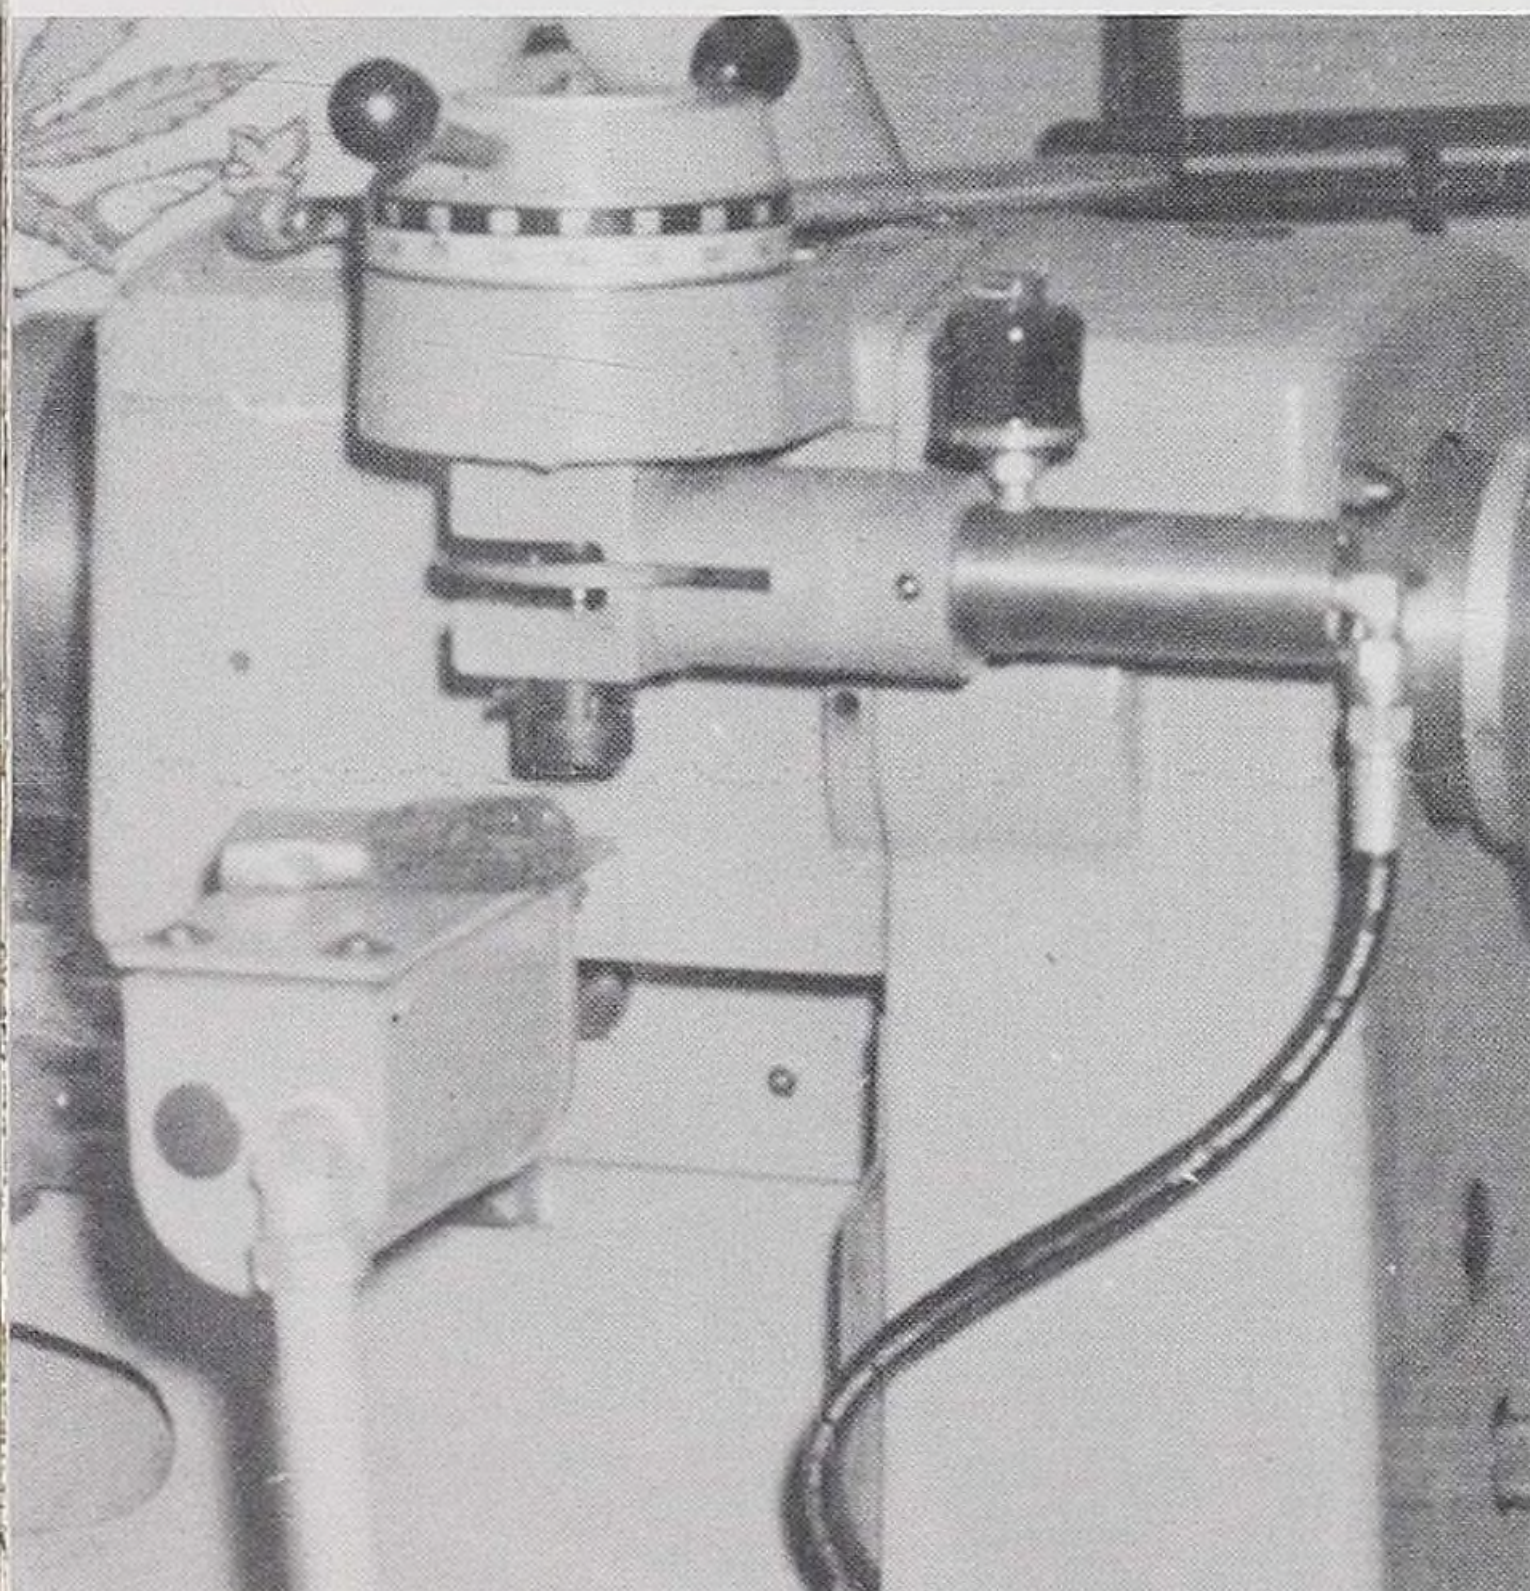

Jeff Beck with the drill press

Mr. Jerry McClanahan, is the Industrial Arts 9 and Wood's 11 teacher. This is Mr. McClanahan's first year of teaching, and the students say, "He is better than the average teacher."

Mr. Harry Tolmen sponsors the Lettermen's Club and coaches the varsity baseball team. He enjoys fishing, wood working, bowling, and canoeing. He has been nicknamed "The Bear" by his students.

The Industrial Arts Department teaches skills which can be used in later life. Courses include Wood and Metal working, Graphics and Mechanical Drawing. The students learn by doing wood working designs, and build sets for the musical and drama productions. The Graphics class prints the "Cougar Reporter" as well as programs for school functions. The Metals class does welding, and Lathe work. And the Drawing class learns how to become draftsmen which will enable them to read specifications and to design and draw cars and machinery.

The world of work requires competency.

Business skills make life easier in today's society. Sooner or later everyone will utilize the skills and knowledges that can be obtained in the business curriculum. Whether doing a research paper, filing a tax return, or financing an automobile, a business background is invaluable.

The curriculum provides opportunities for those who wish to enter the job market immediately after graduation and enables others to postpone their job entry until after college or even after marriage.

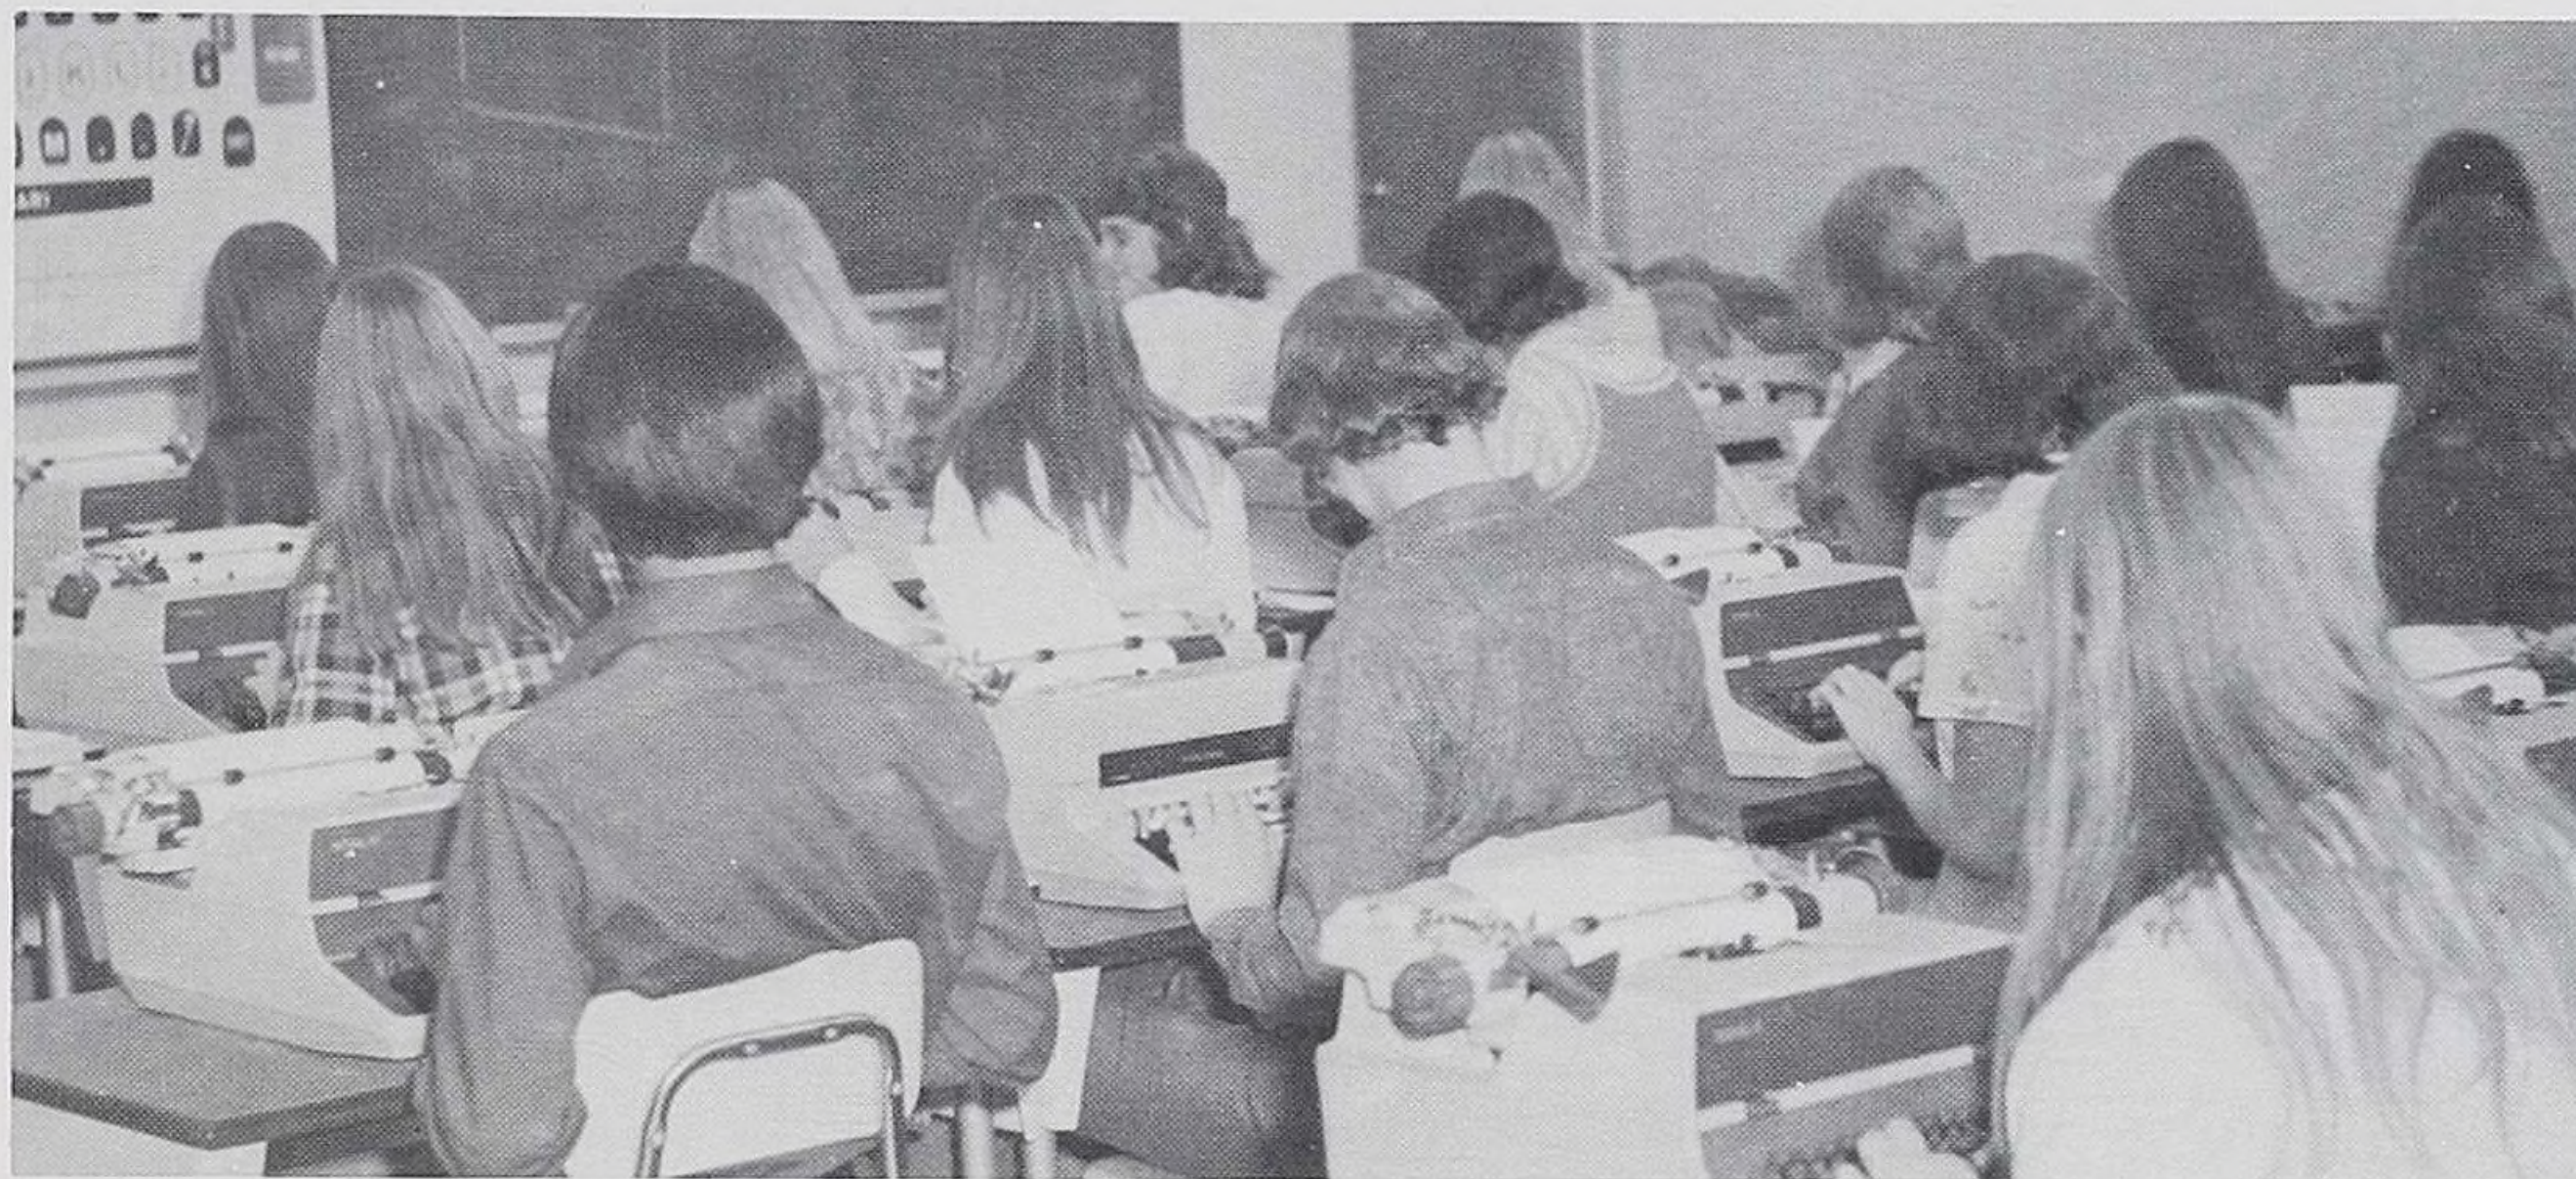

Mrs. Wynella Hughes just completed her twentieth year of teaching. She graduated from Georgia Southern and is working toward her Master's at IUSB. She is sponsor of National Honor Society.

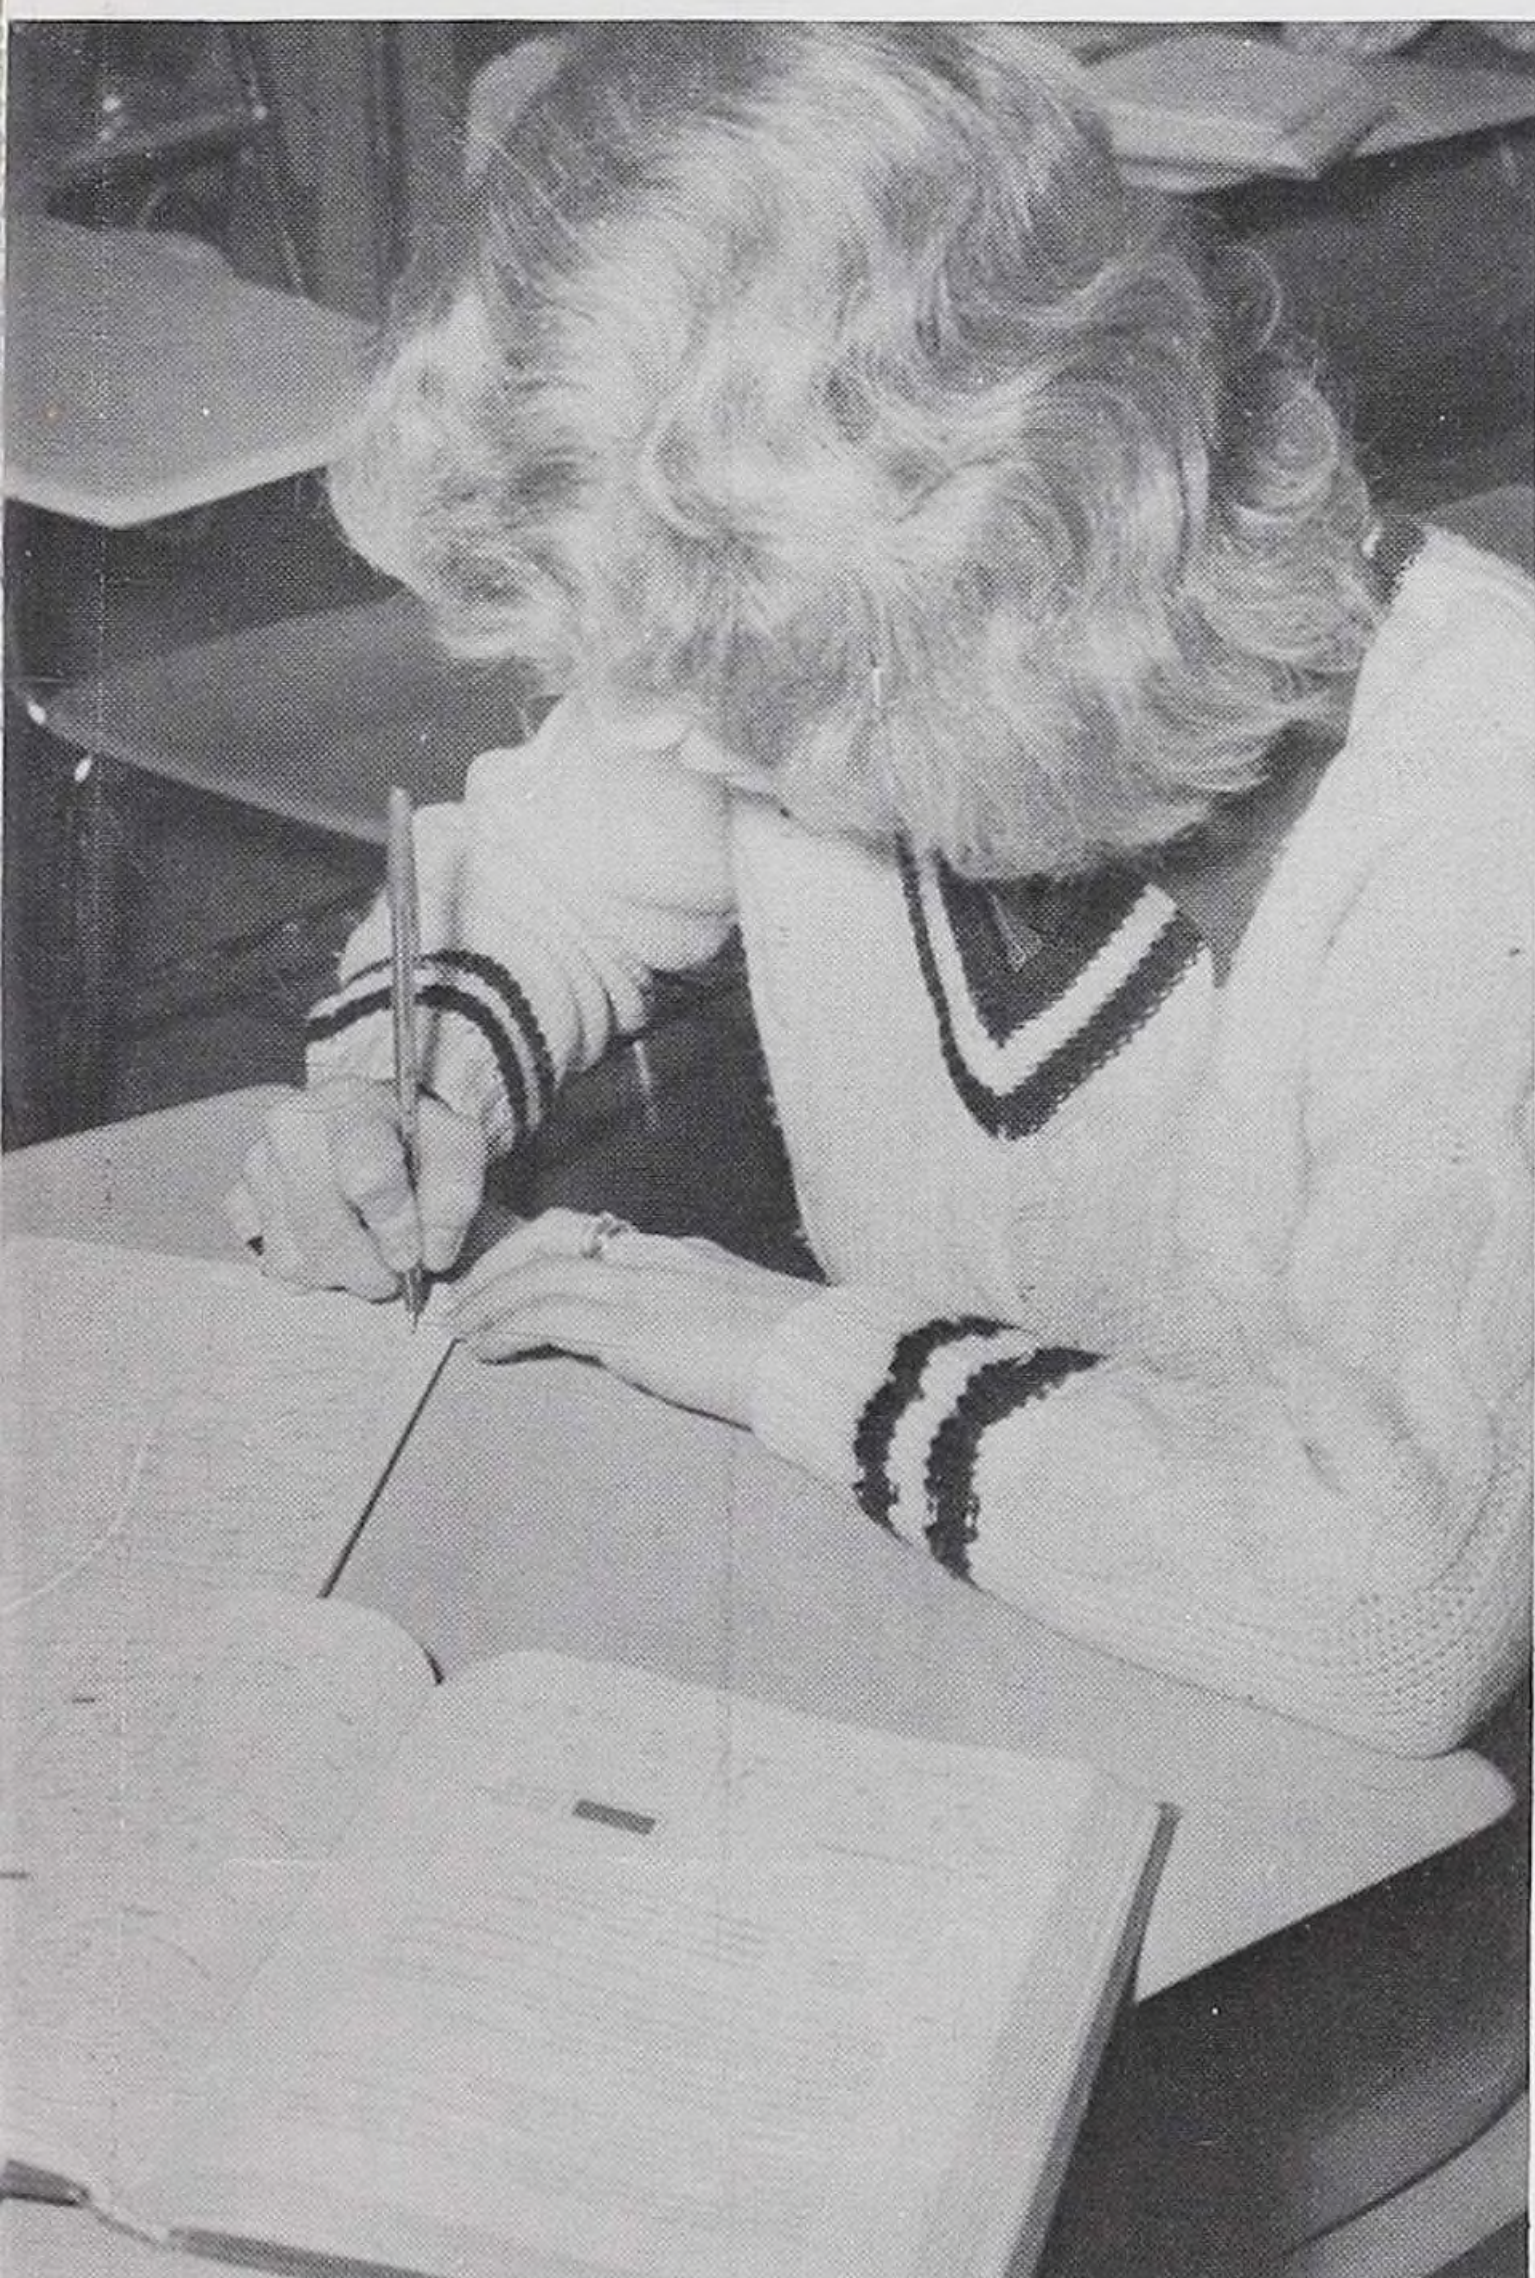

Mr. Ken Gradeless has been teaching for three years after completing his schooling at Ball State, Bethel and Goshen College. He likes sports and is a wrestling coach.

Good Grooming aids future office employees to put their best foot forward.

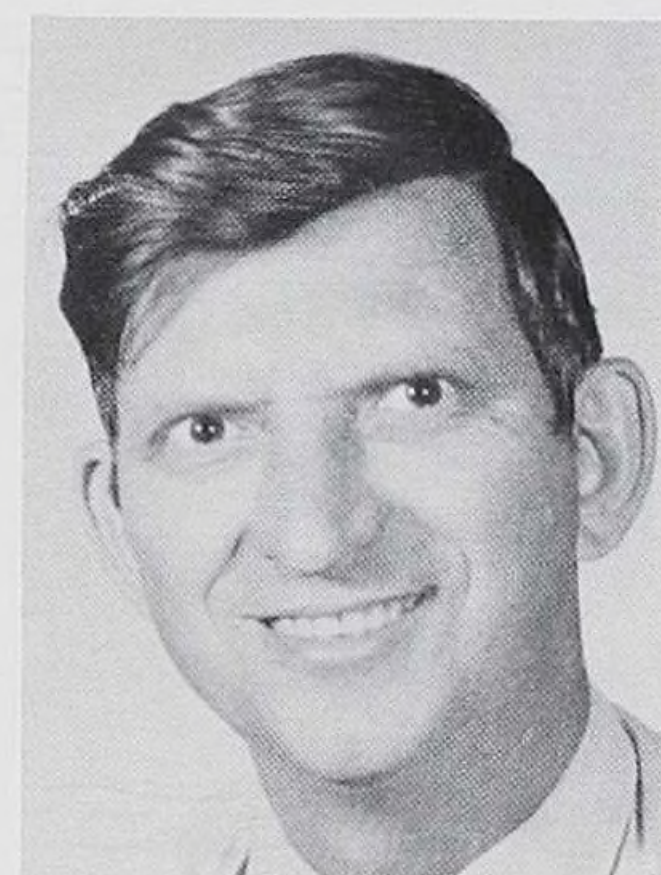

Typing comes in handy for either college or career preparation.

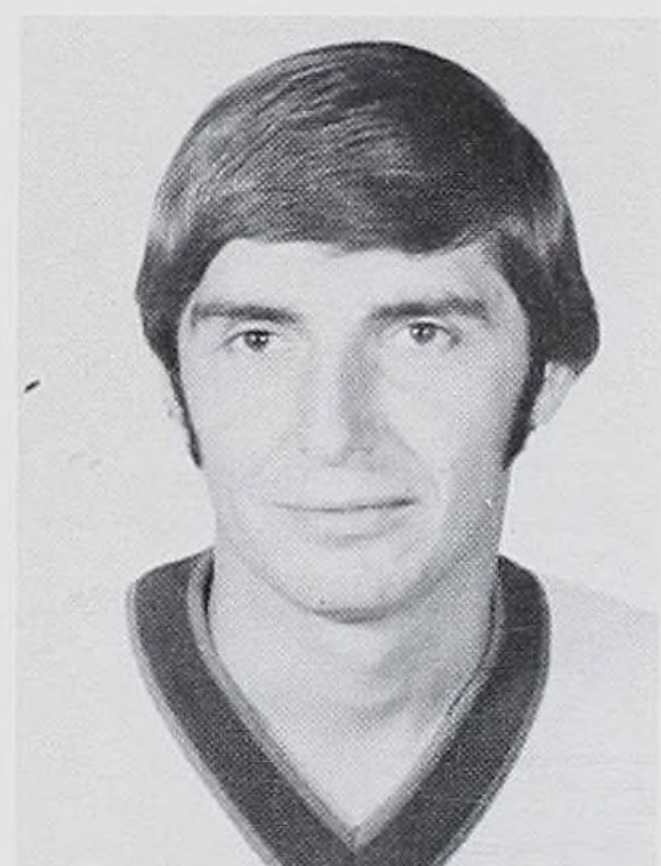

Lisa Jackson develops shorthand skill with many hours of practice and more practice.

Mr. Max Haag teaches a variety of business subjects including the Intensive Office Lab, and is the annual advisor and a photographer. Mr. Haag graduated from Valparaiso University and Ball State.

A former student was asked by her employer to make an envelope--she proceeded to get paper, glue and the scissors to construct it.

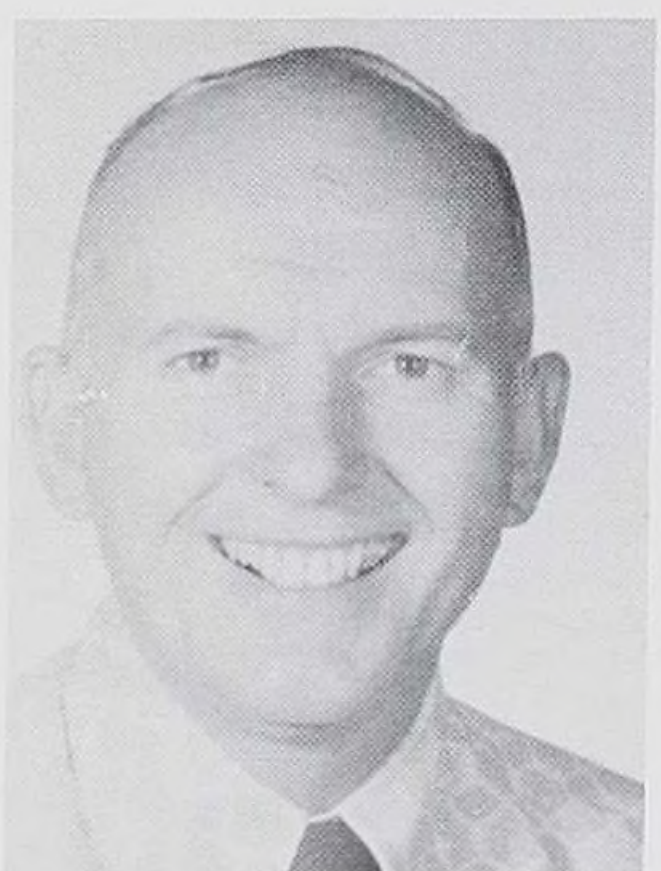

Mr. Tom Moffitt, a graduate of New Carlisle High School, has been at New Prairie for 5 years. He teaches type-writing and business math. Mr. Moffitt graduated from Manchester College and is working toward an M.A. at IUSB. Mr. Moffitt is assistant baseball and football coach. He has recently begun playing the guitar.

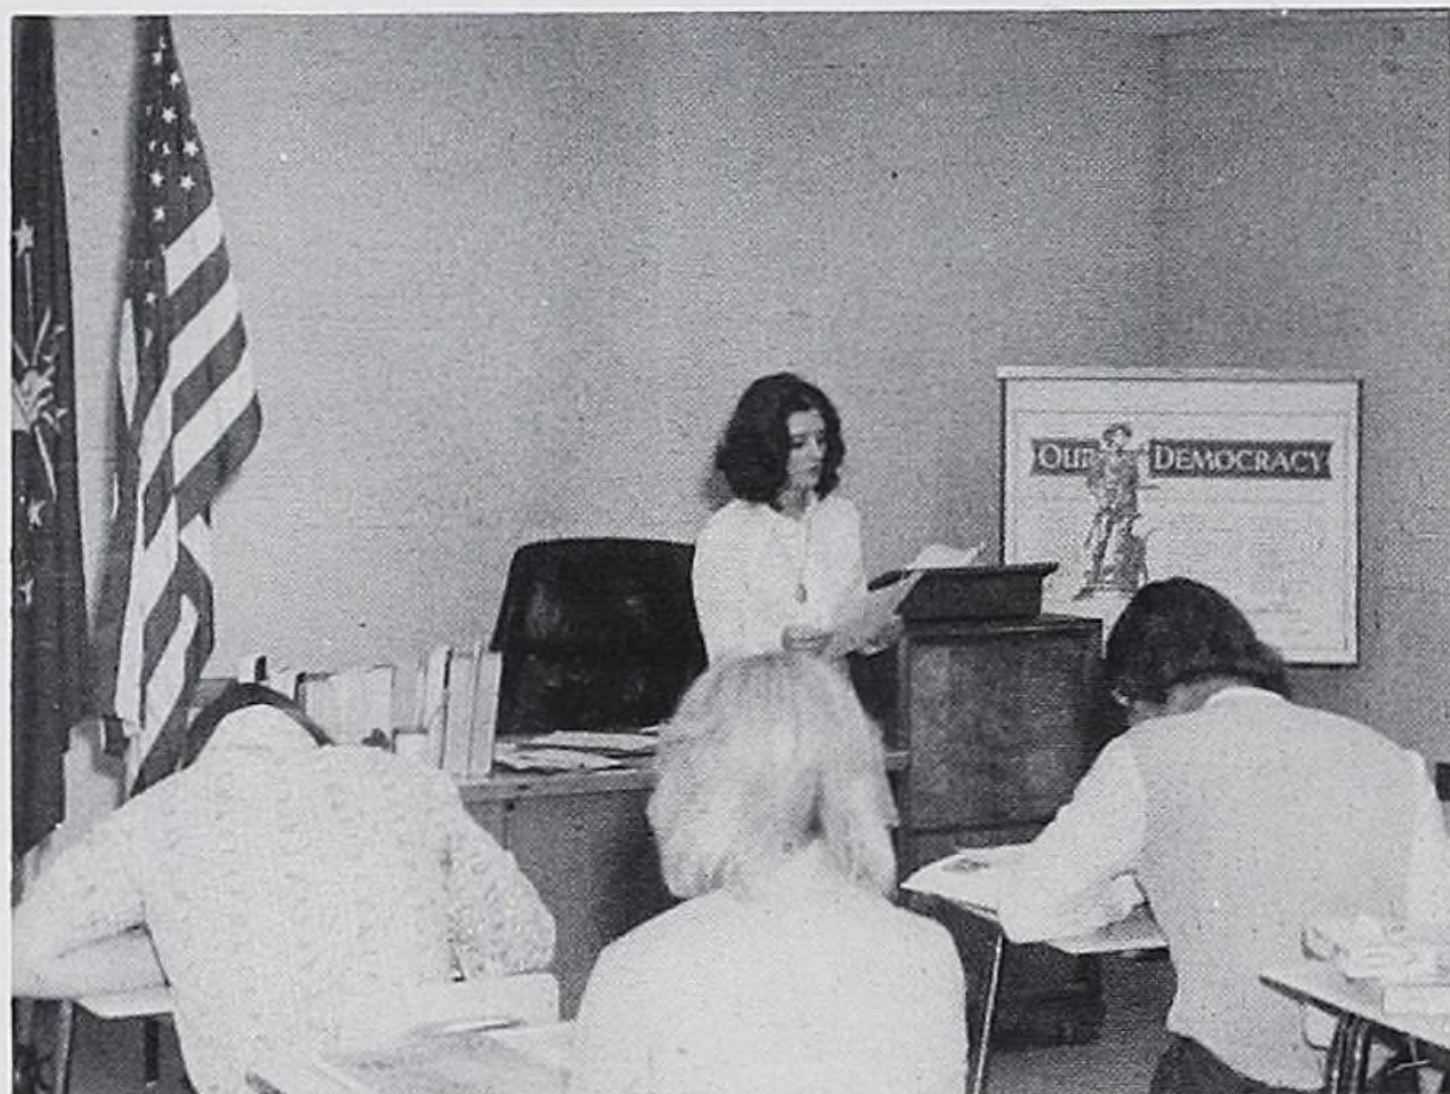

Mr. Ed Hamilton is one of the friendliest teachers and teaches general business. He completed his Masters from Indiana University.

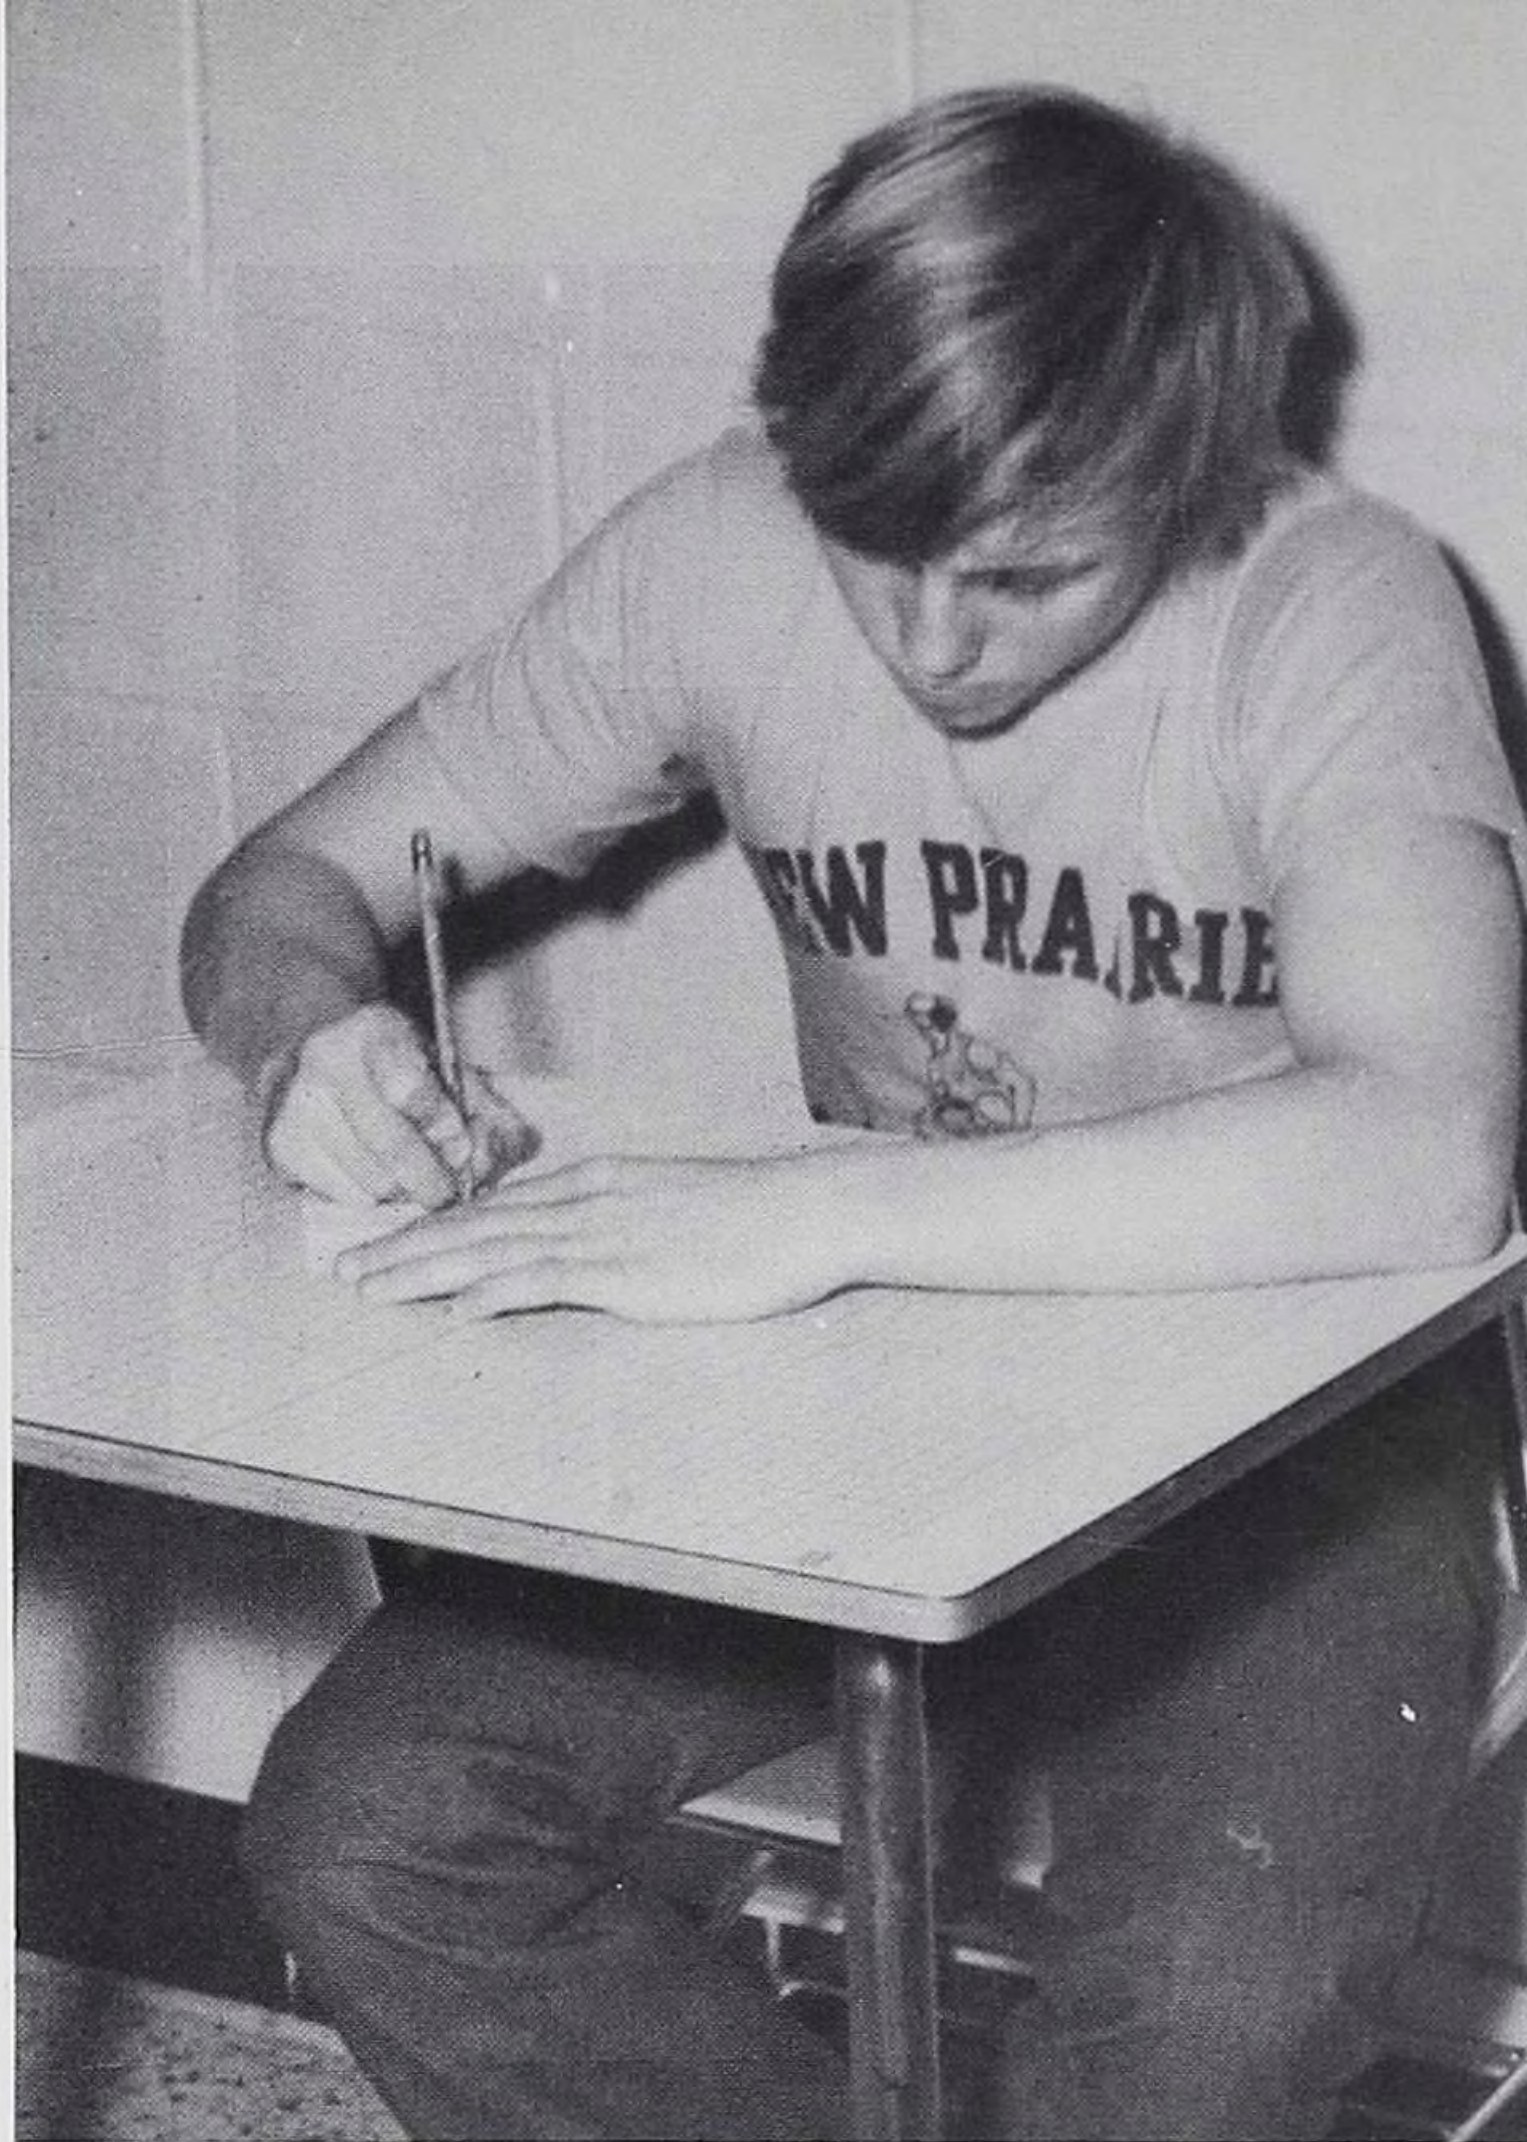

Mr. Hamilton enjoys bike riding, golf, tennis and reading. He also enjoys being involved in donkey basketball games--especially when the donkey doesn't like being involved.

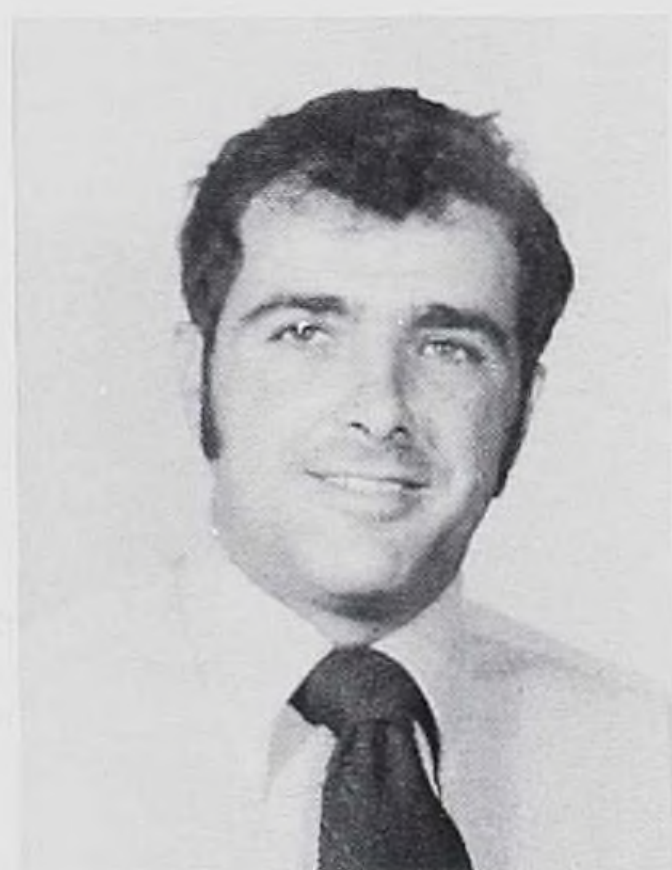

Studying

Mrs. Kelso reads a few pages of notes while the class studies and sleeps.

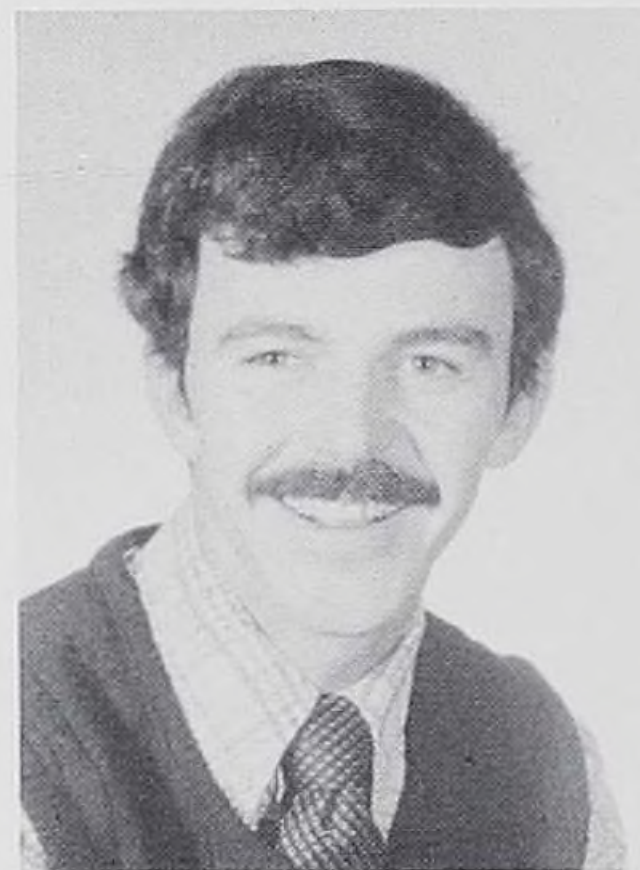

Don doesn't seem to happy about making up a test.

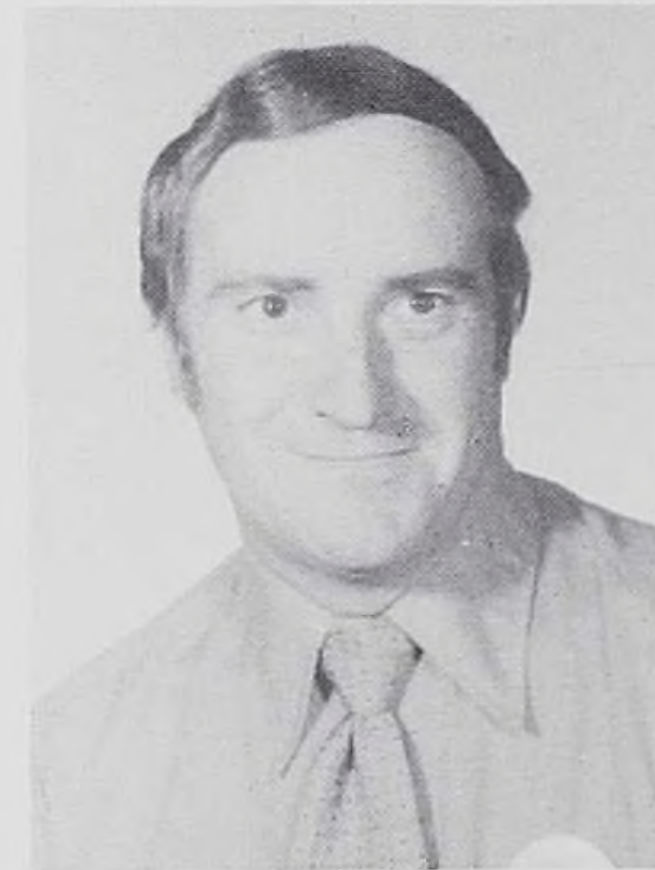

Mr. Ron Colborne collects antiques, especially beer trays. He graduated from Valparaiso University and Ball State. He also likes hunting and fishing.

Mr. Blaine Gamble likes the competitive attitude of students in inter-scholastic events. He is completing 25 years of teaching after graduating from Notre Dame.

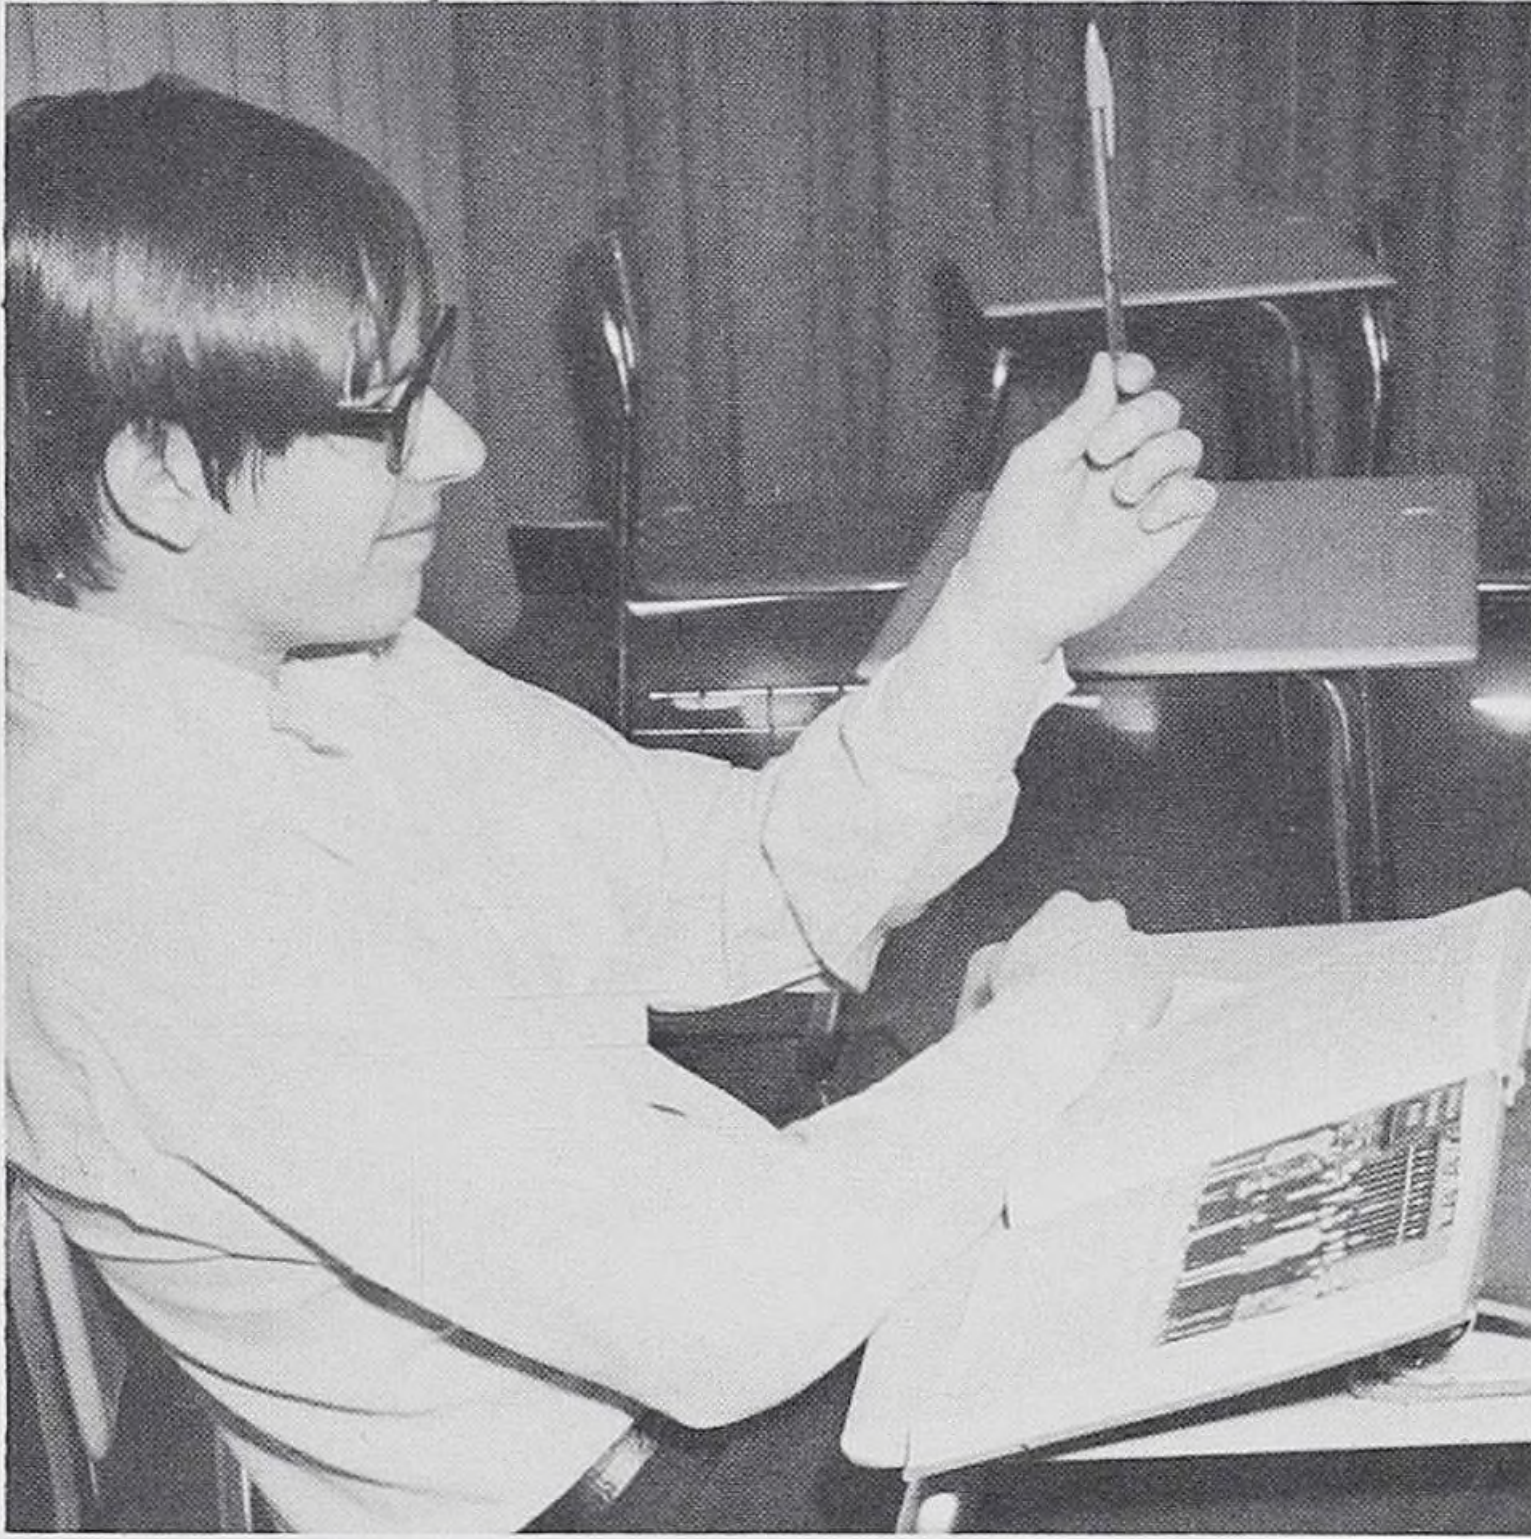

Mr. Ronald D. Higgins attended Wabash College in Crawfordsville, Indiana. He enjoys reading.

Mr. George Olson attended Manchester College and Ball State University. He enjoys sports, and reading factual material.

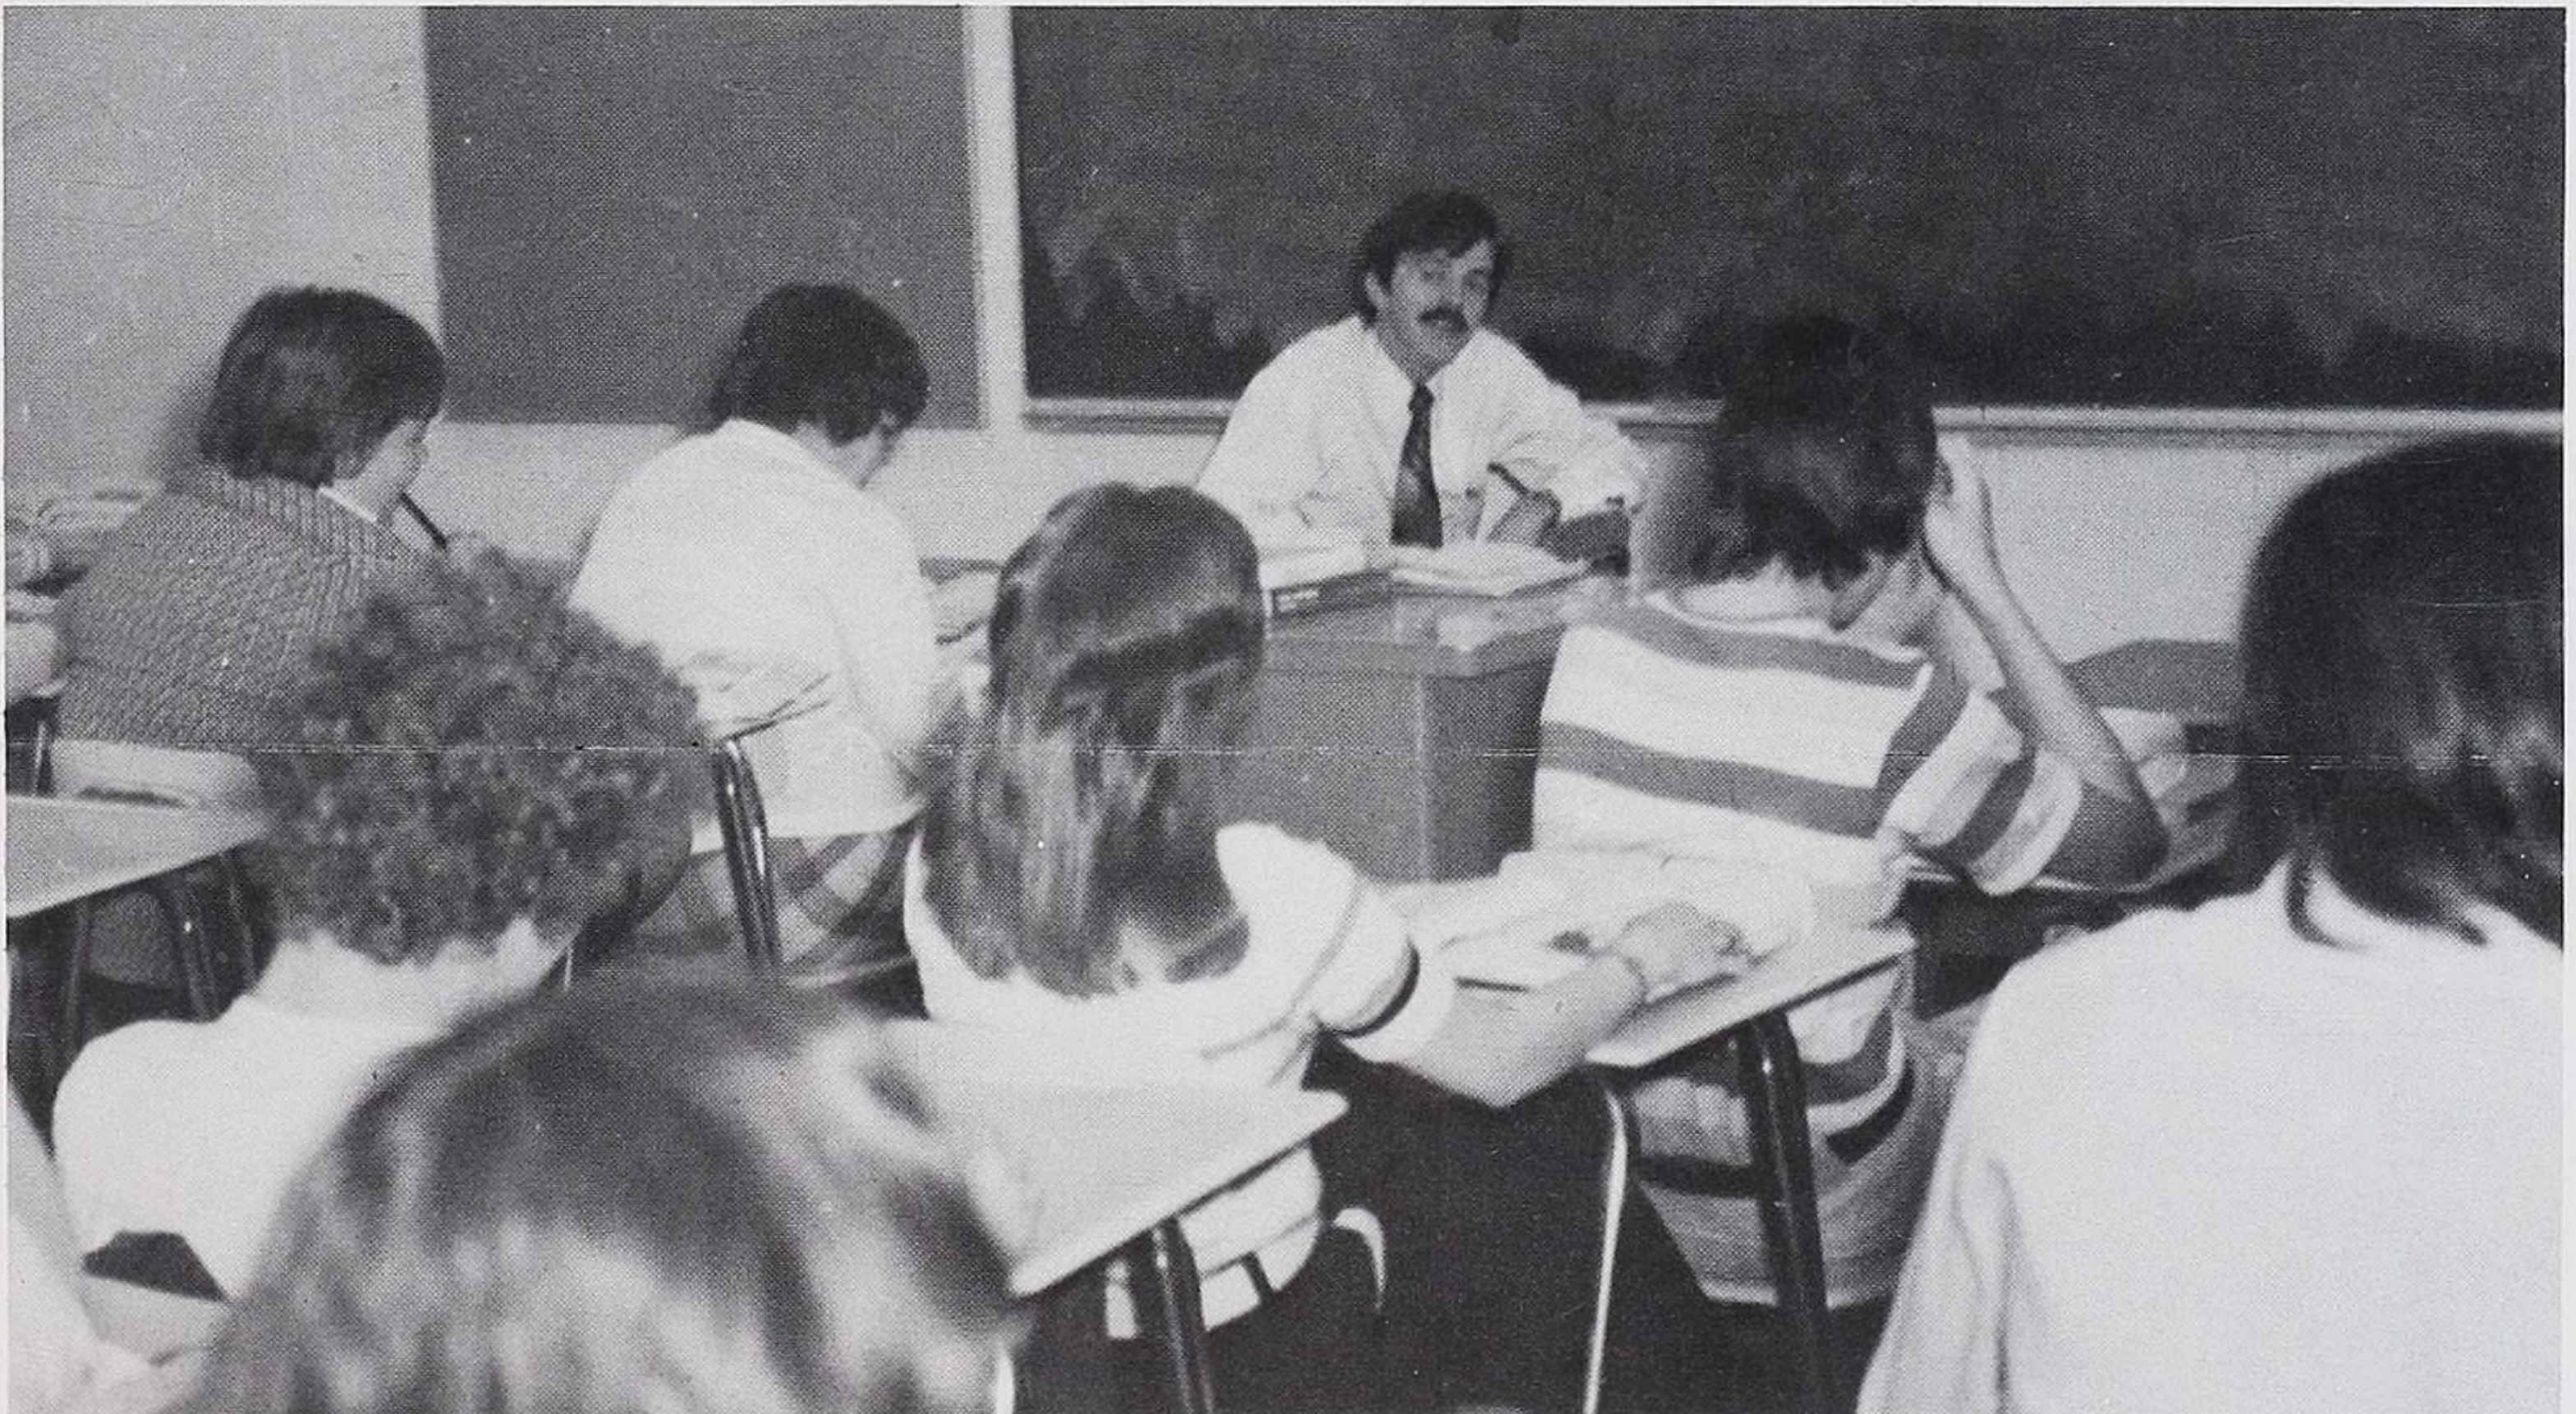

Past present and future

Social studies emphasize the changing times and the need to learn from past mistakes. Economics teaches fundamentals of saving, borrowing, and budgeting money. Psychology and sociology help students understand themselves and others.

Students discussed everything from sex and morality to magic and the influence of superstitions and mythology in our society.

"Do I have enough ink for notes?"

Another day, another lecture!

Home Ec. anticipates common situations

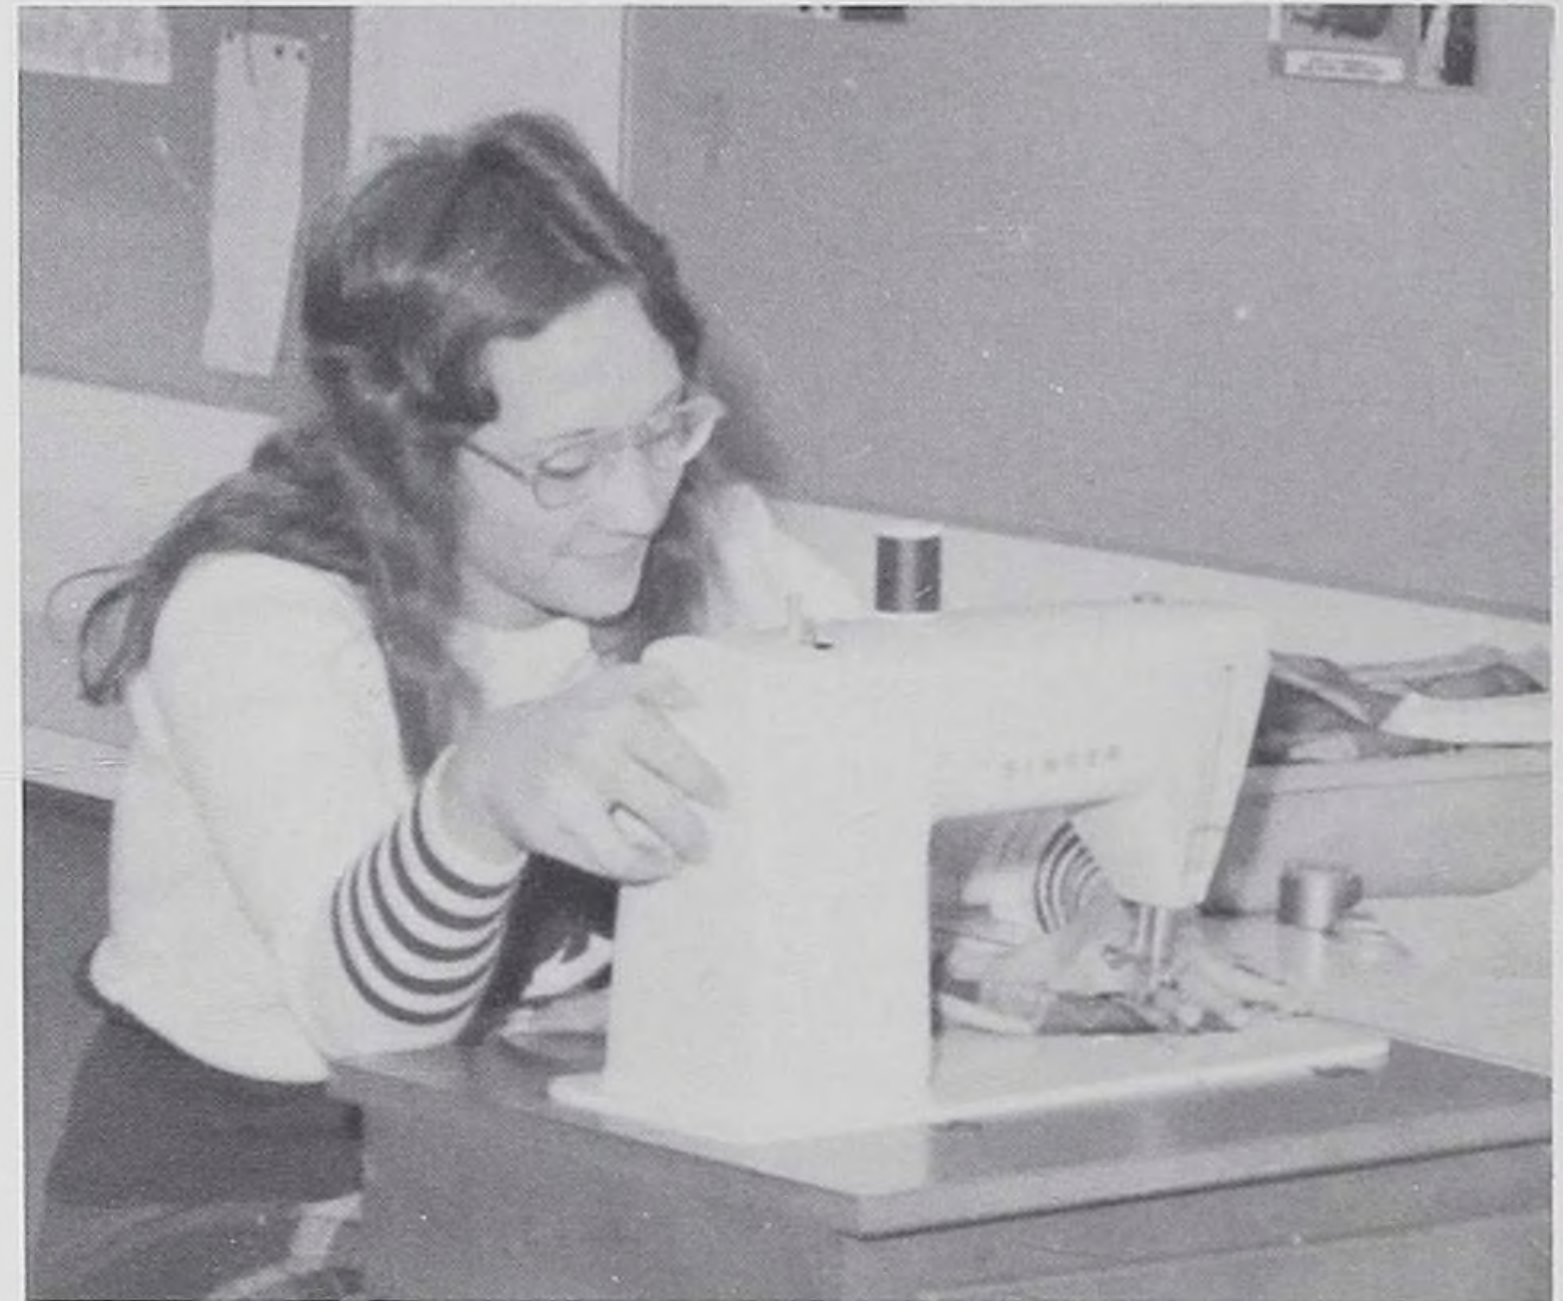

Your mother probably learned to run a household by trial and error. That was okay for Mom, but the homemaker of today can use training. Home Economics classes offer training in everything from sewing clothes to making ice cream and caring for children.

Mrs. Margaret Ekstrom teaches sewing and home management. She has been teaching for 26 years, six at New Prairie. Mrs. Ekstrom has thousands of hobbies, among them being sewing, reading, cooking, hiking, traveling, and her husband. Her funniest moment was when she was at the Congressional building and she went to look over the rail and the seat went up and she sat on the floor and everyone laughed.

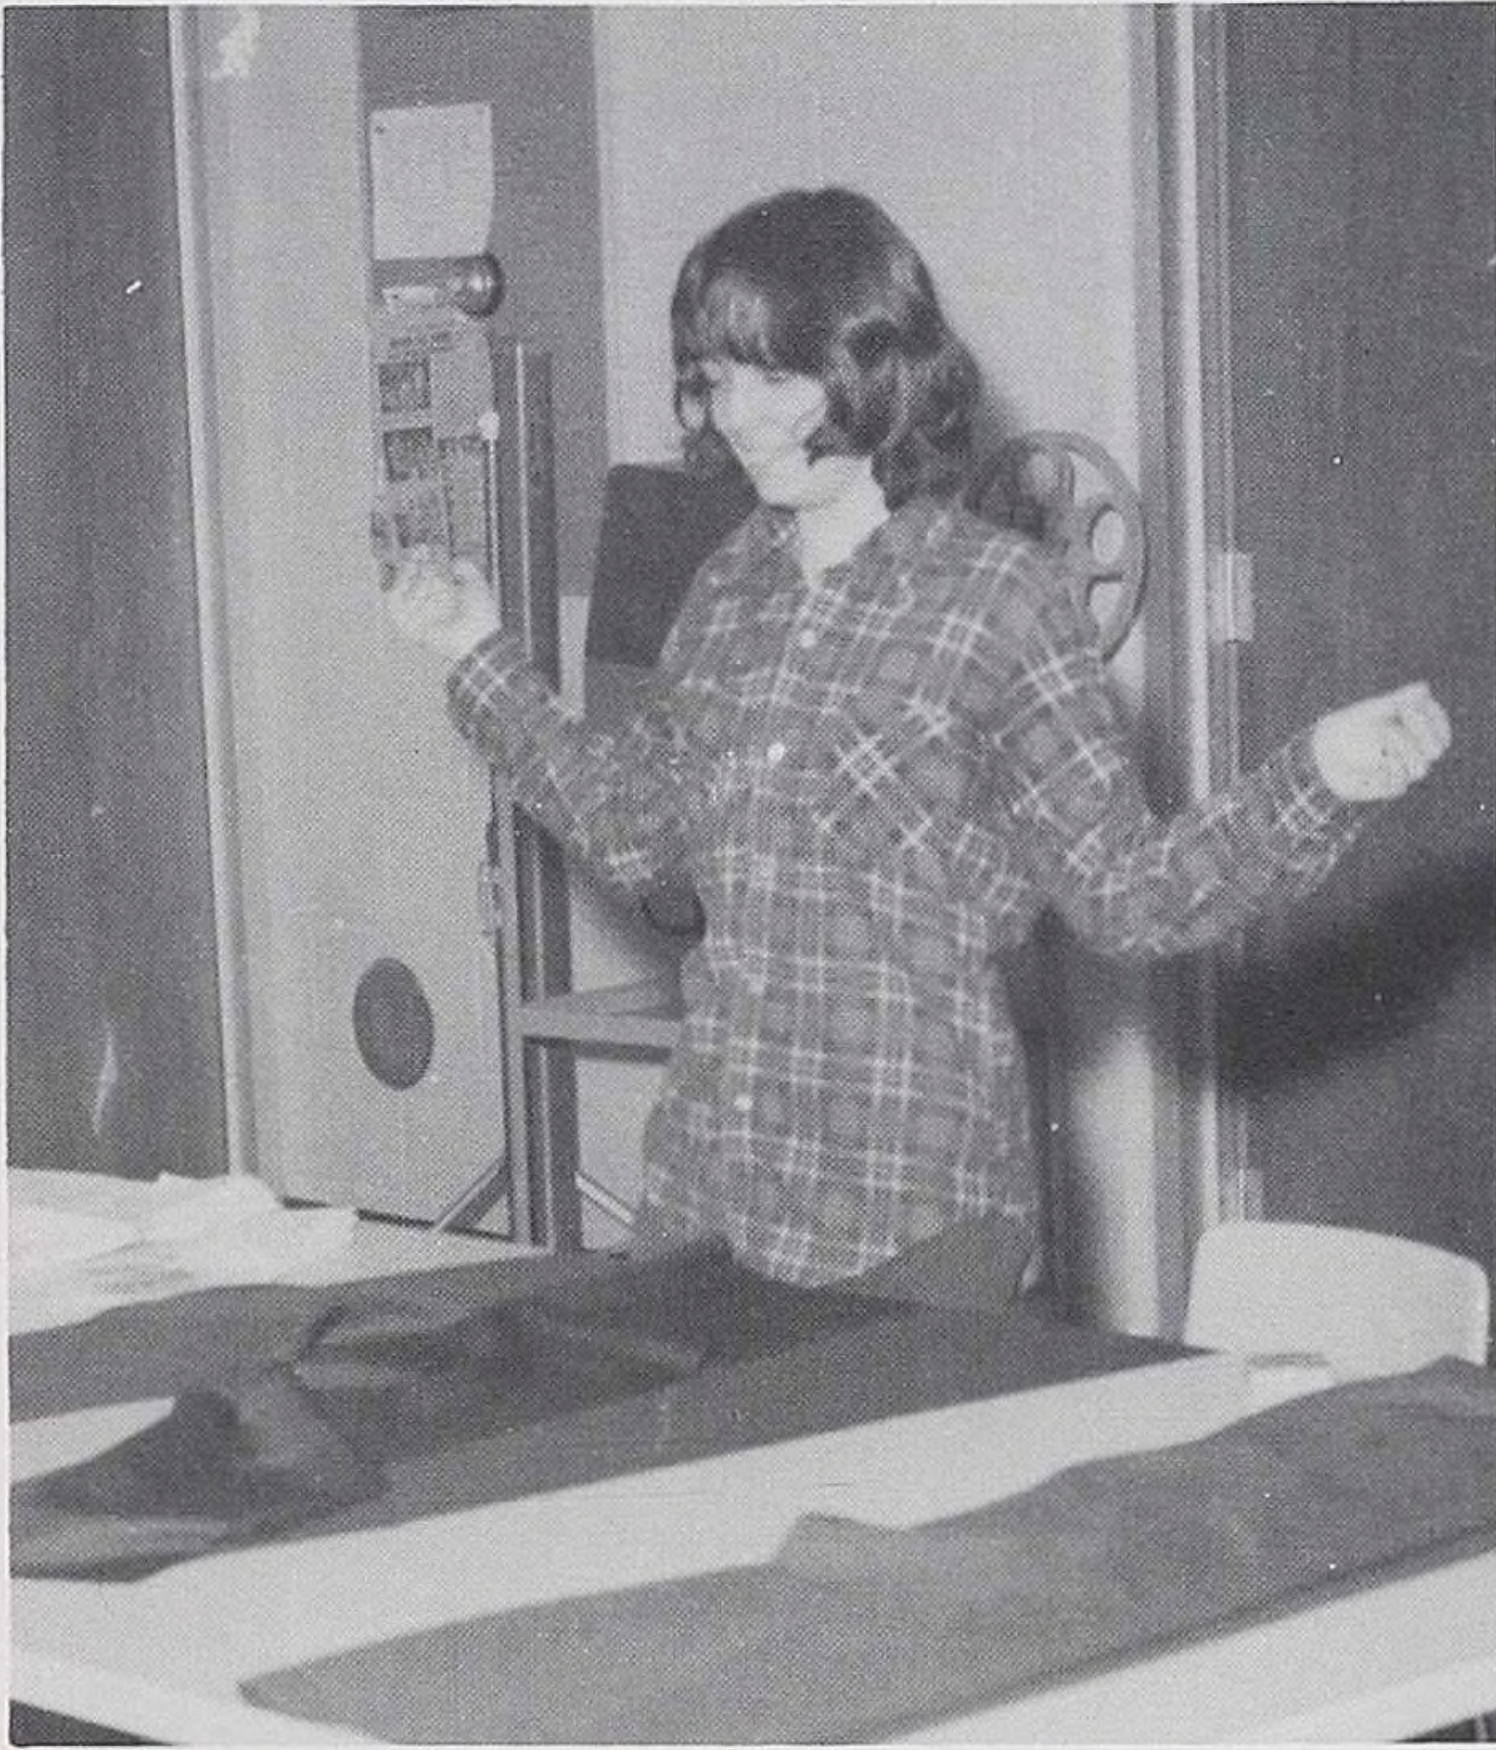

Miss Ann Swingle teaches in the home ec. department. She attended Indiana State University. This is her first year of teaching. Swearing, complaining, and bitterness head her list of pet peeves. Her hobbies are bicycling, camping, sewing, and baking.

"Oh! Oh! I just broke another needle!"

"Hey good looking! Watcha been cooking?"

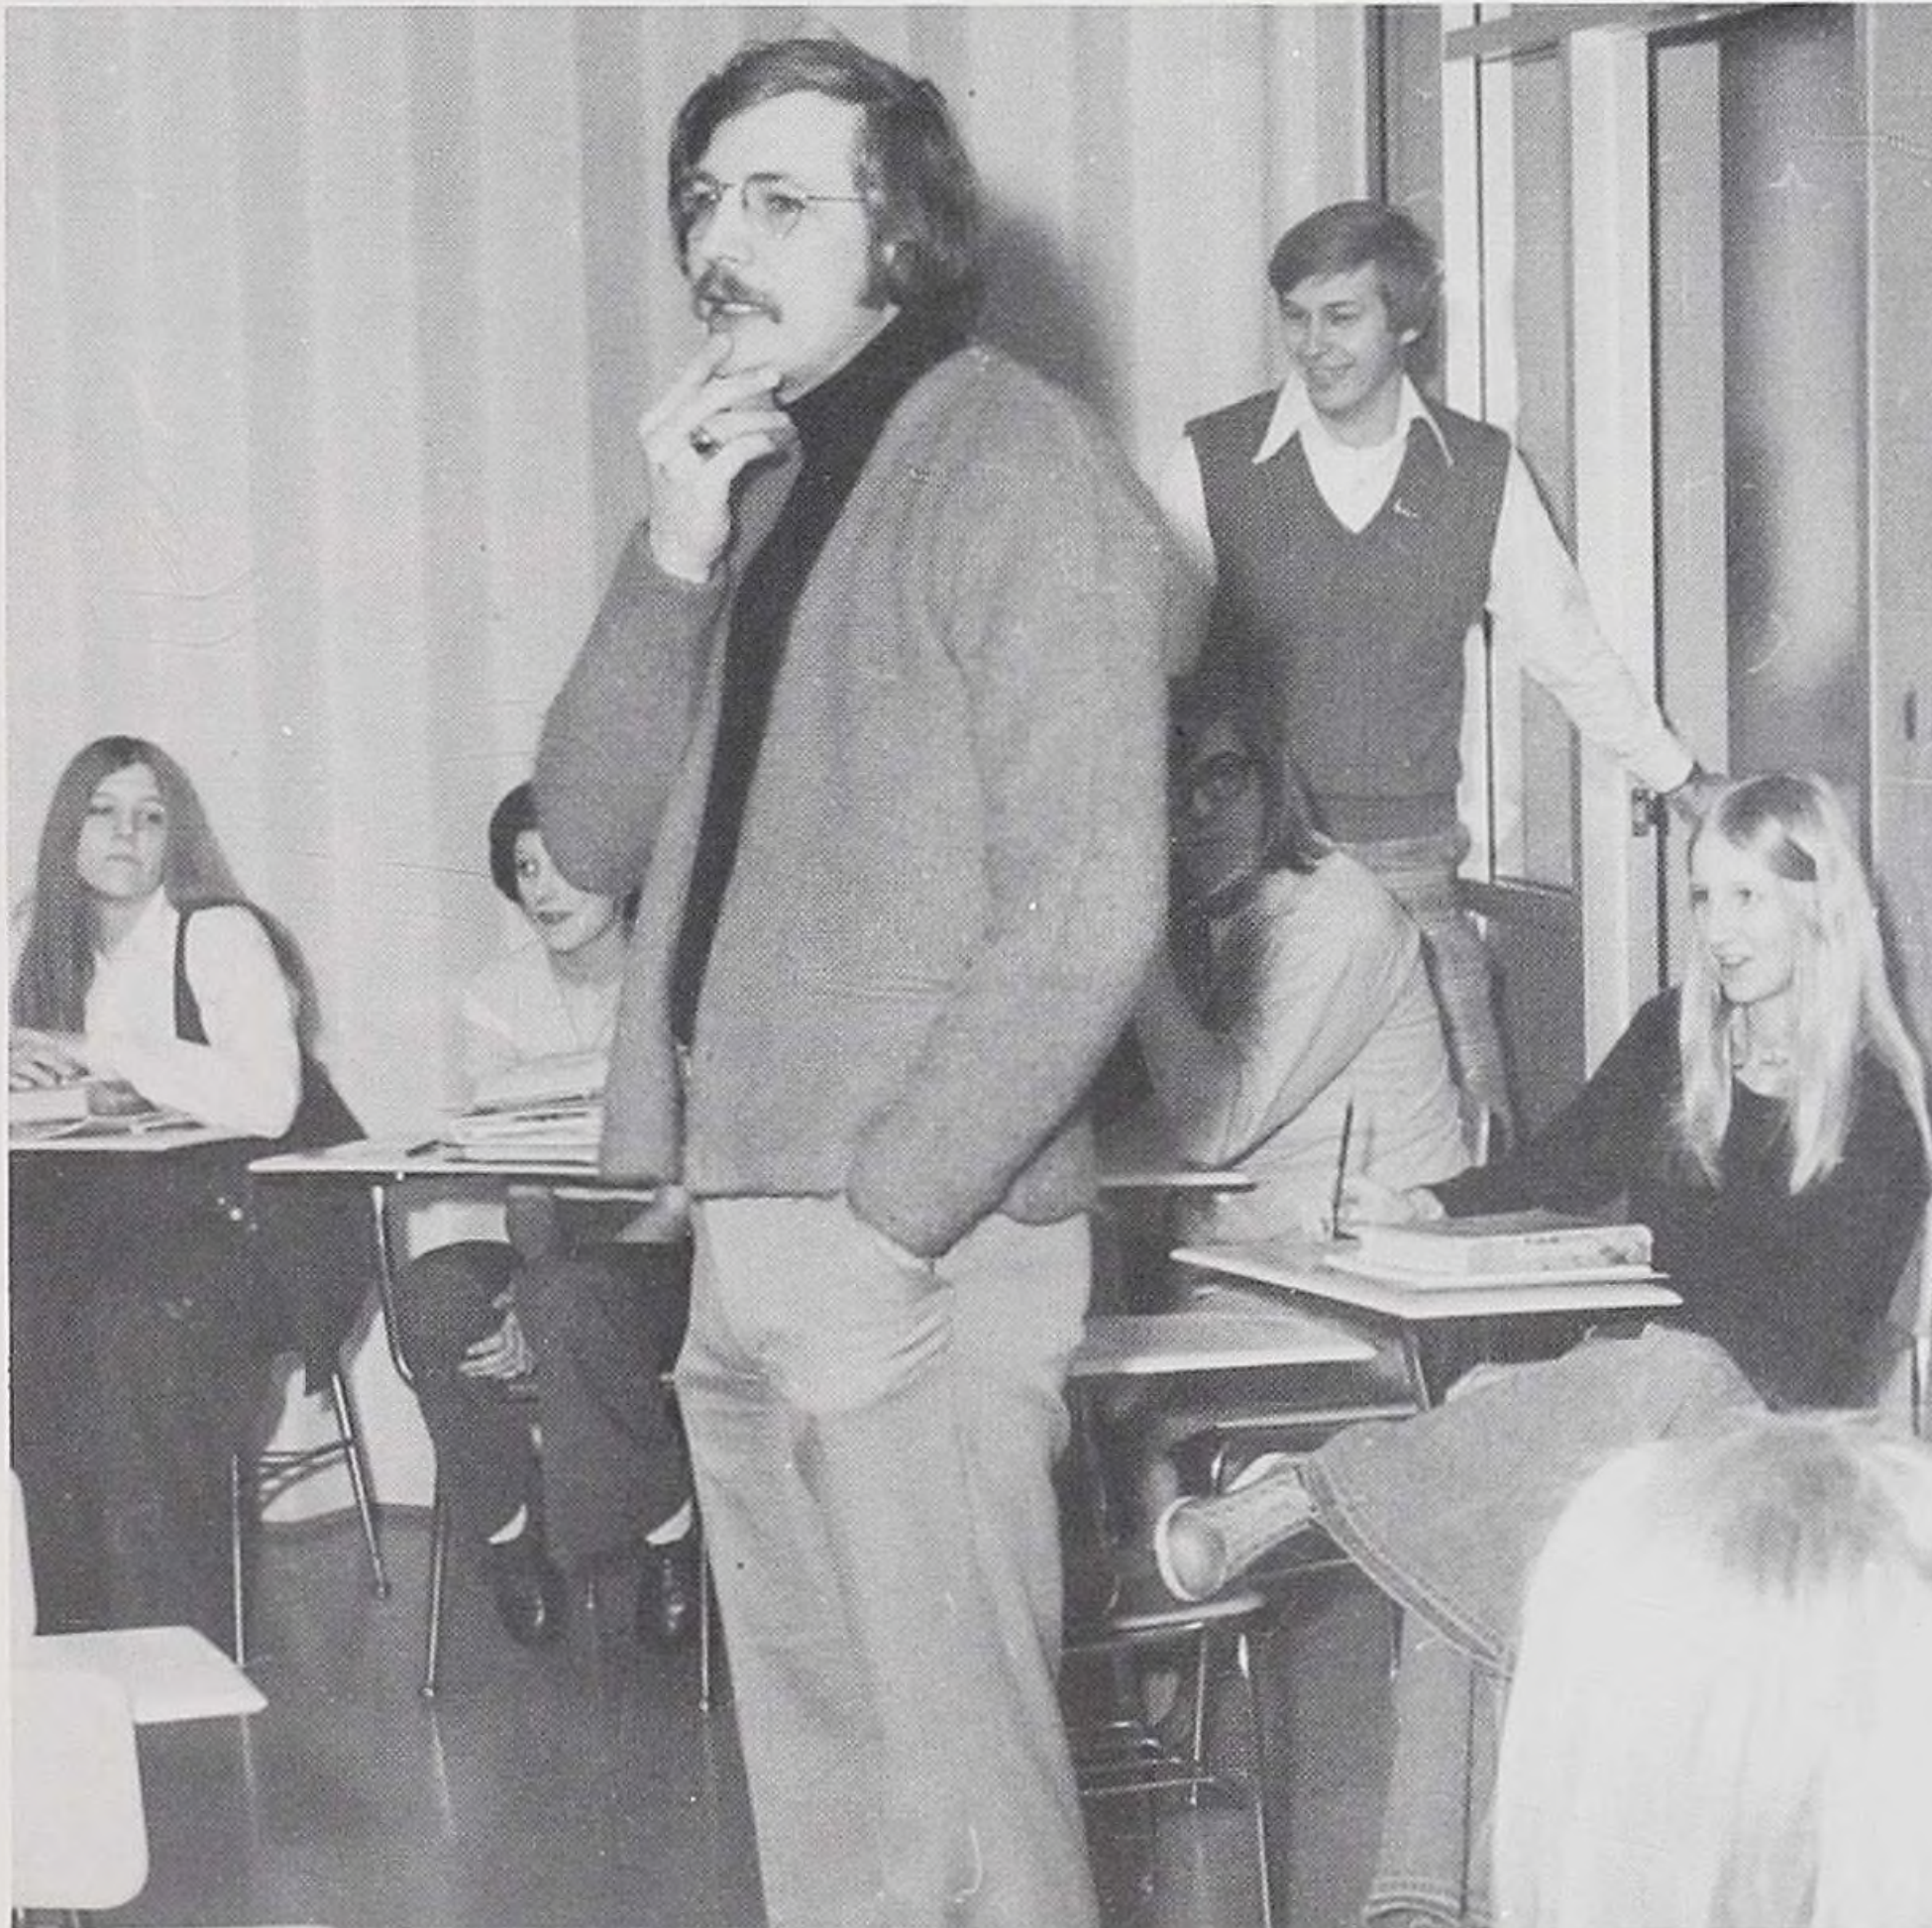

"Wow! I finally finished cutting out this dress!"

Mrs. Patricia Lynch enjoys antiques and owns a candle and antique shop in New Carlisle. She likes days when something is learned by her students, and hates days when nothing is accomplished.

Mr. Richard Witkowski attended DePaul University of Chicago and received a Bachelor of Science degree in education. His opinion of NP students is that they are fun to work with and very well behaved.

Mr. Klema thinks about an answer to a question that was asked.

Did you know that one out of every three people in the U.S. is overweight? This is only one of many health problems that the people in this country face today. Health class attempts to make the student aware of these health problems so as to help him take better care of himself. The student learns what his mind and body need to stay healthy. Basic first aid and actions to take in cases of emergency are also learned by the students.

Catsup--a cure for most cafeteria ills.

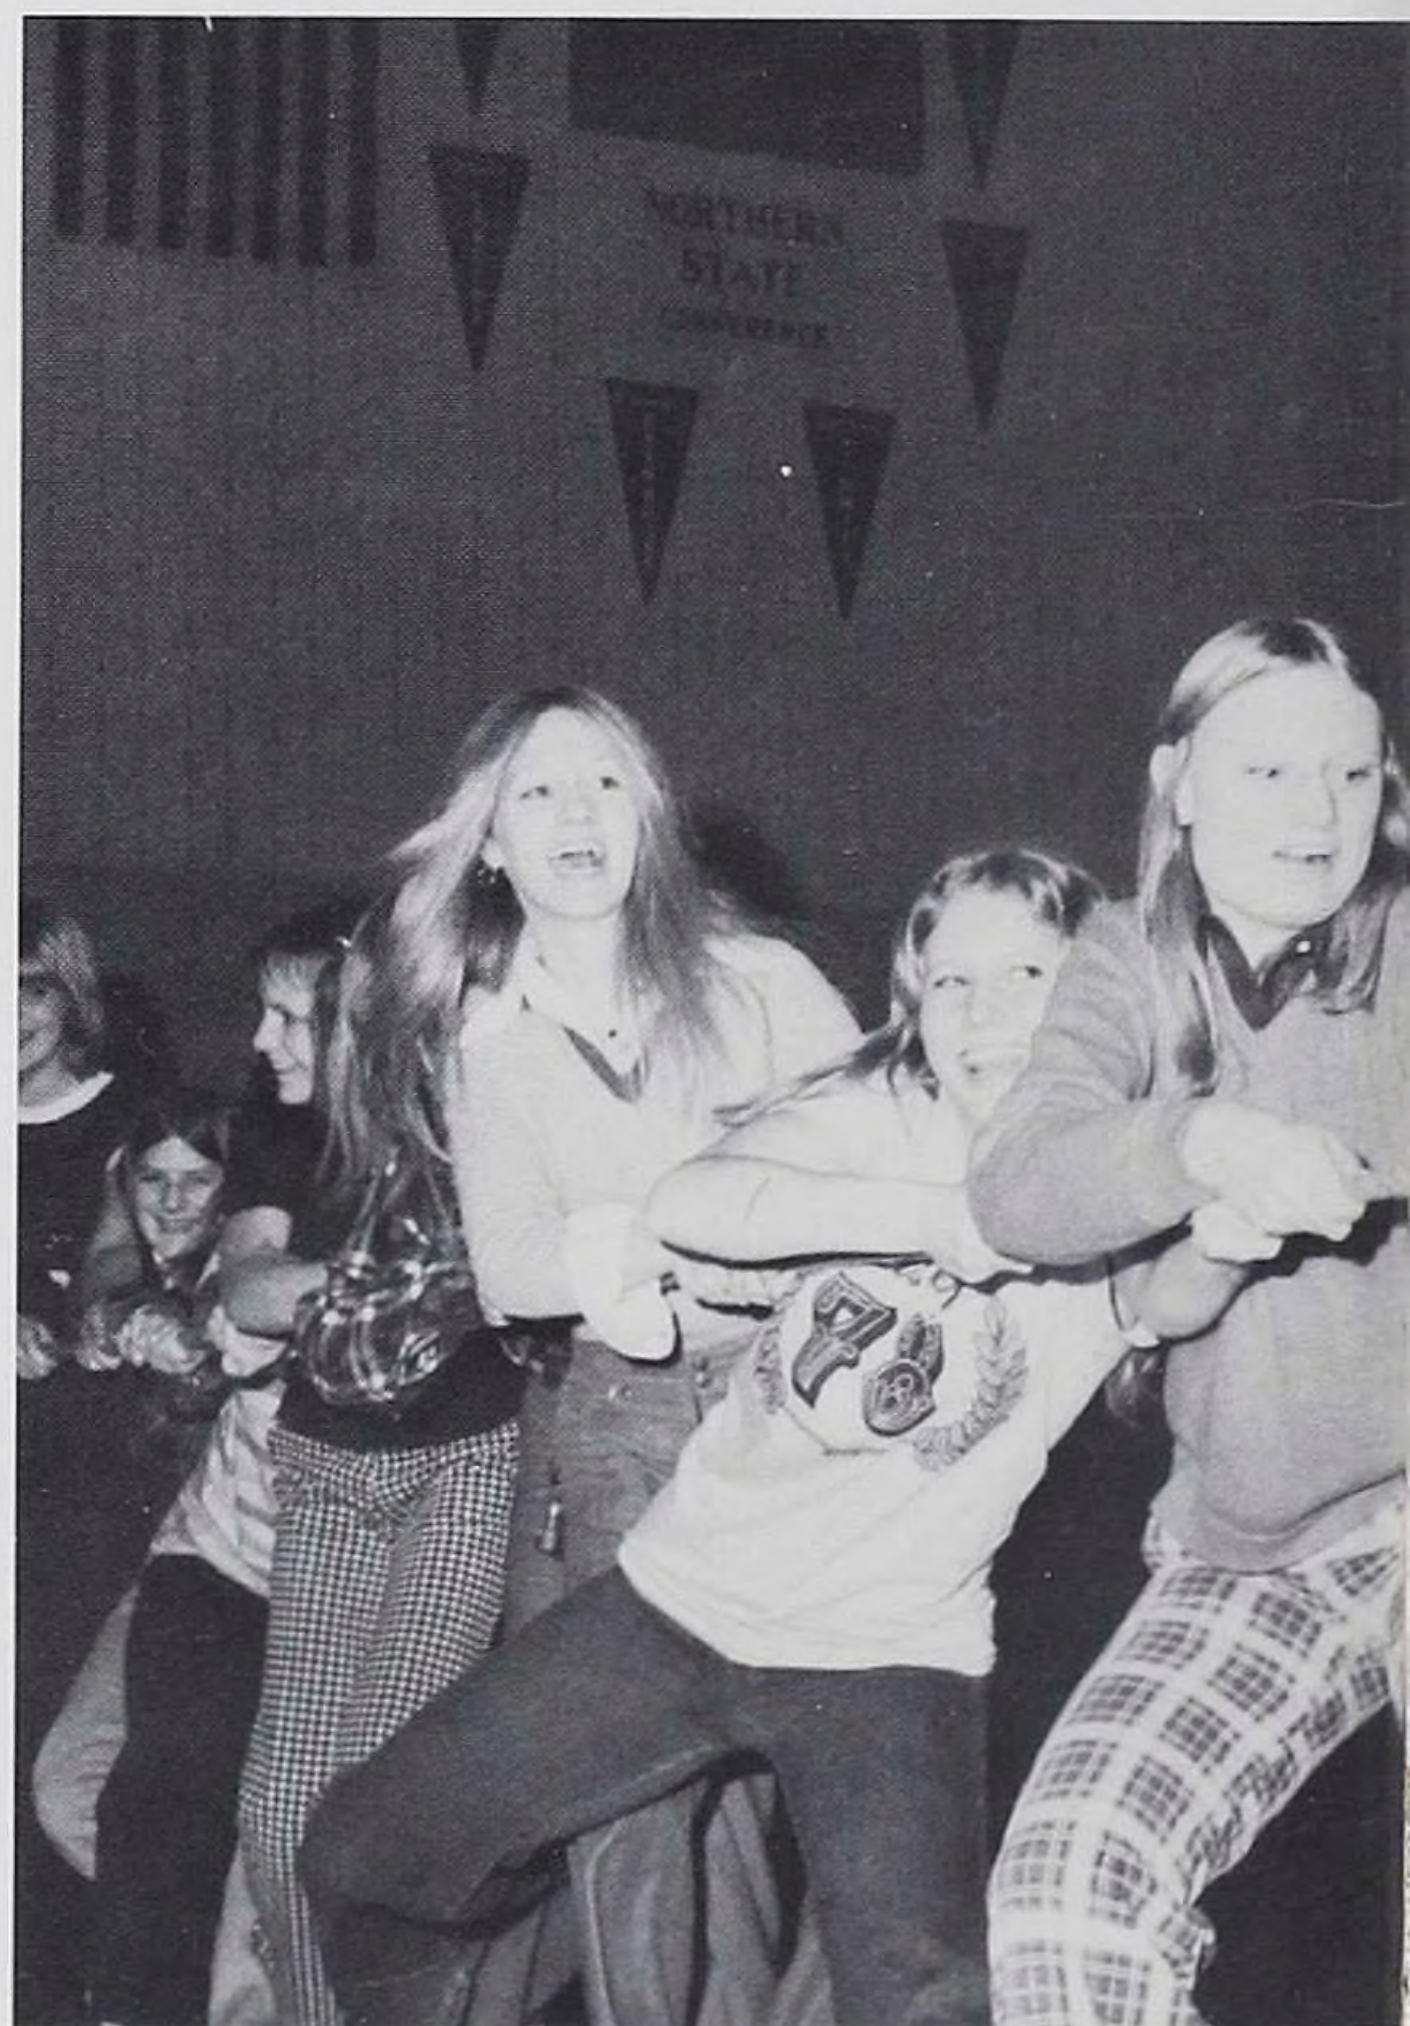

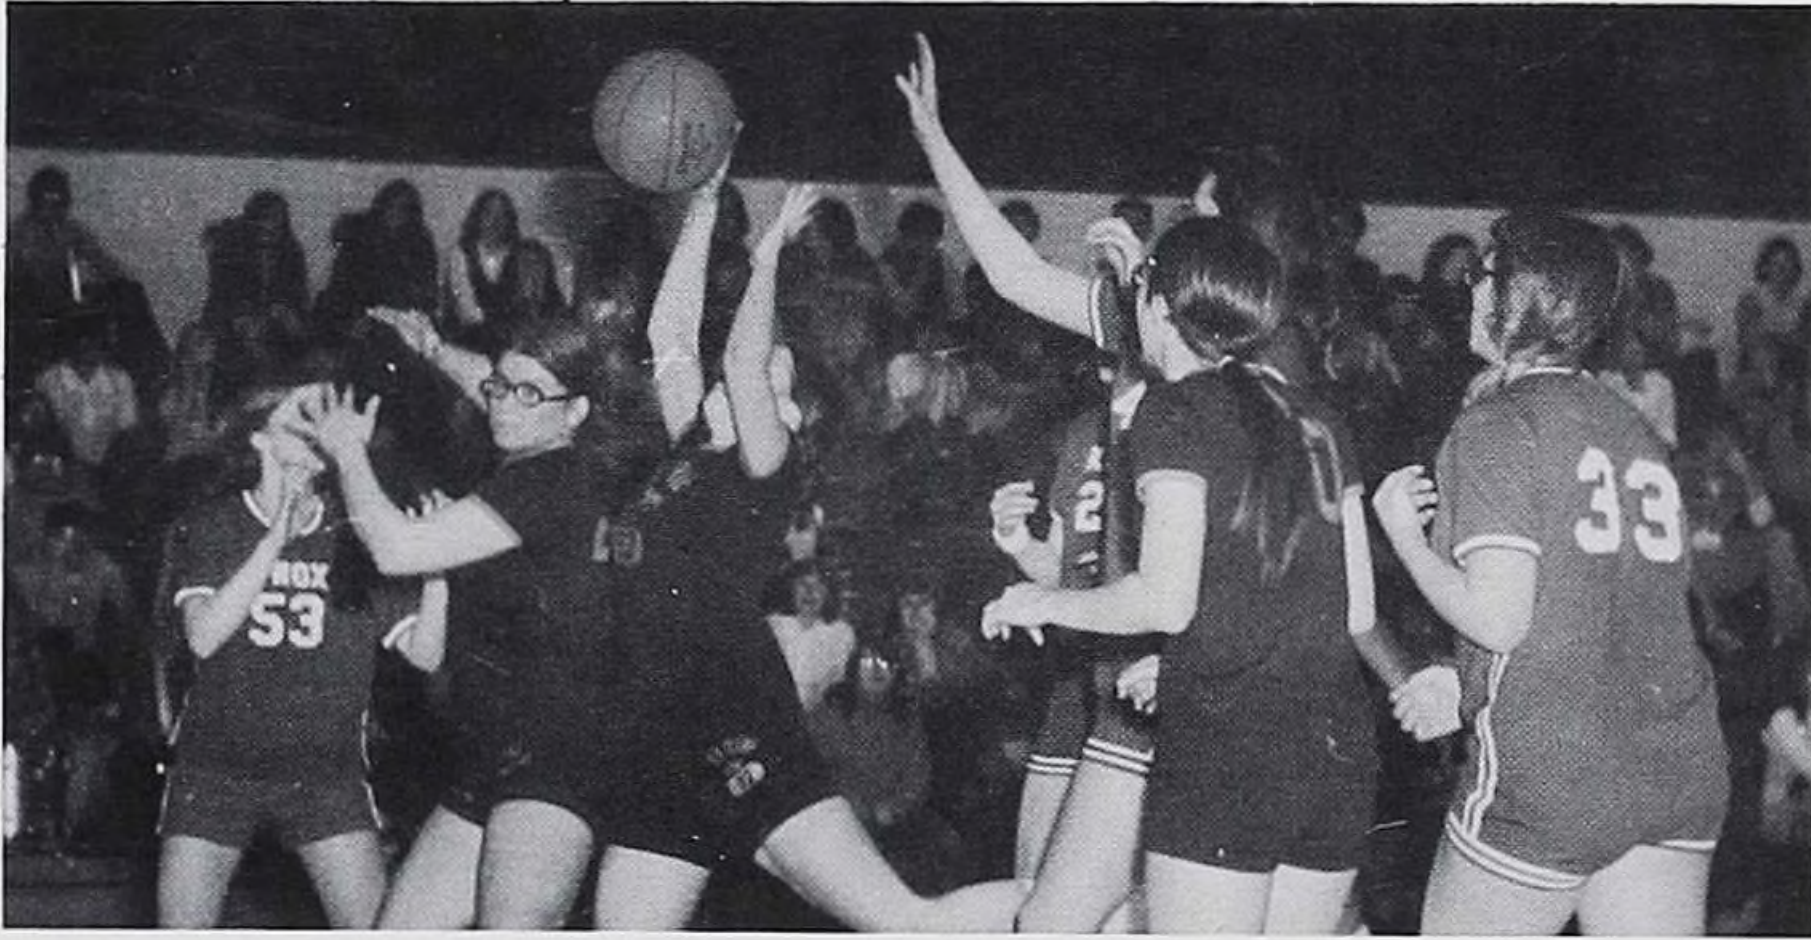

Ping-pong's popularity grew with students tied up for weeks in singles and doubles tournaments.

When asked what his favorite time of the day is, chances are any student will reply "Lunch!" This feeling is evidenced by the many students seen running down the hallway to the lunch lines. Students dine with friends at the spacious tables available in the cafeteria, but finding a chair . . . that's another story! Eating isn't the only thing students do on their lunch hour. Many skip lunch to engage in a lively game of ping-pong or make a trip to the library or just sit on the benches and talk to friends.

Our chaotic, cheerful, comfortable, clean, and crowded cafeteria.

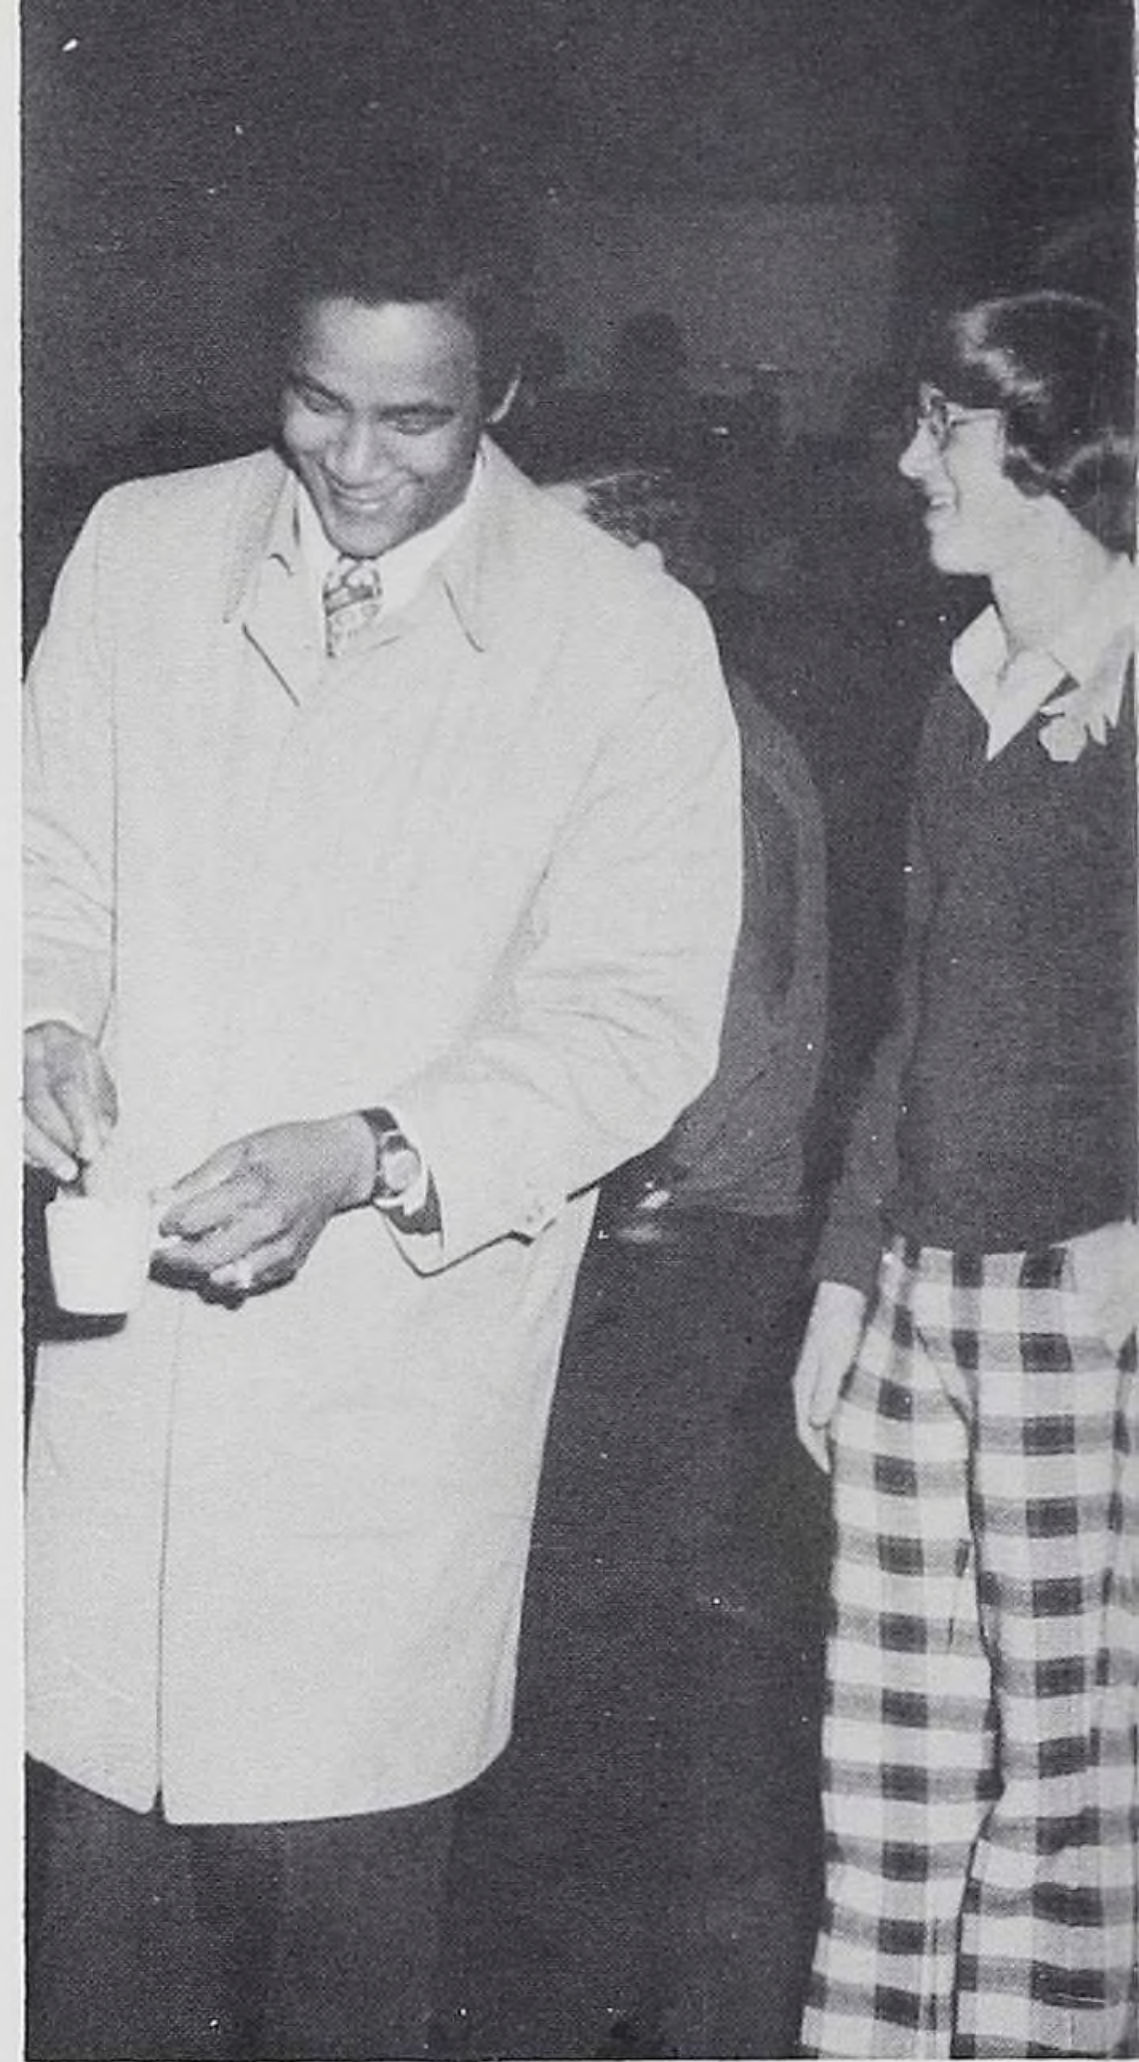

PARTICIPATION

Participation in something that students enjoy indicate an above average student. Participation in clubs and activities of the school, including athletics, encourage students to accept responsibilities of leadership, develop cooperative attitudes, and contribute a portion of themselves to the school-its custom, its heritage, and its tradition.

Deutsche Verein

To further German culture and understanding of German methods in all phases of life, is the philosophy of the German Club.

The activities of the club are accomplished by members who work extra hard to plan, promote, and execute their plans.

Activities of the year are: the Language Department Christmas party and the annual trip to Europe during Spring vacation.

With a new club sponsor, Mr. MacDonald, Spanish Club is having an outstanding year. Members made enough money from cake raffles and concessions to send eight students to Spain. The trip began somewhat shakily with cancellations in Chicago, lost luggage, and an unscheduled stay in New York. But under Mr. MacDonald's care, the group had an enjoyable, educational, and memorable vacation in Spain.

Girls' Service Club

Have you ever marveled at the decorated windows during holiday time and wondered who took the time and the talent to do all that work? Decorating our school for holidays is just one of the many activities of the Girl's Service Club. Serving for athletic banquets, running coat checks for home basketball games, providing hostesses for career day and college night and sponsoring the annual talent show are also on the club's agenda.

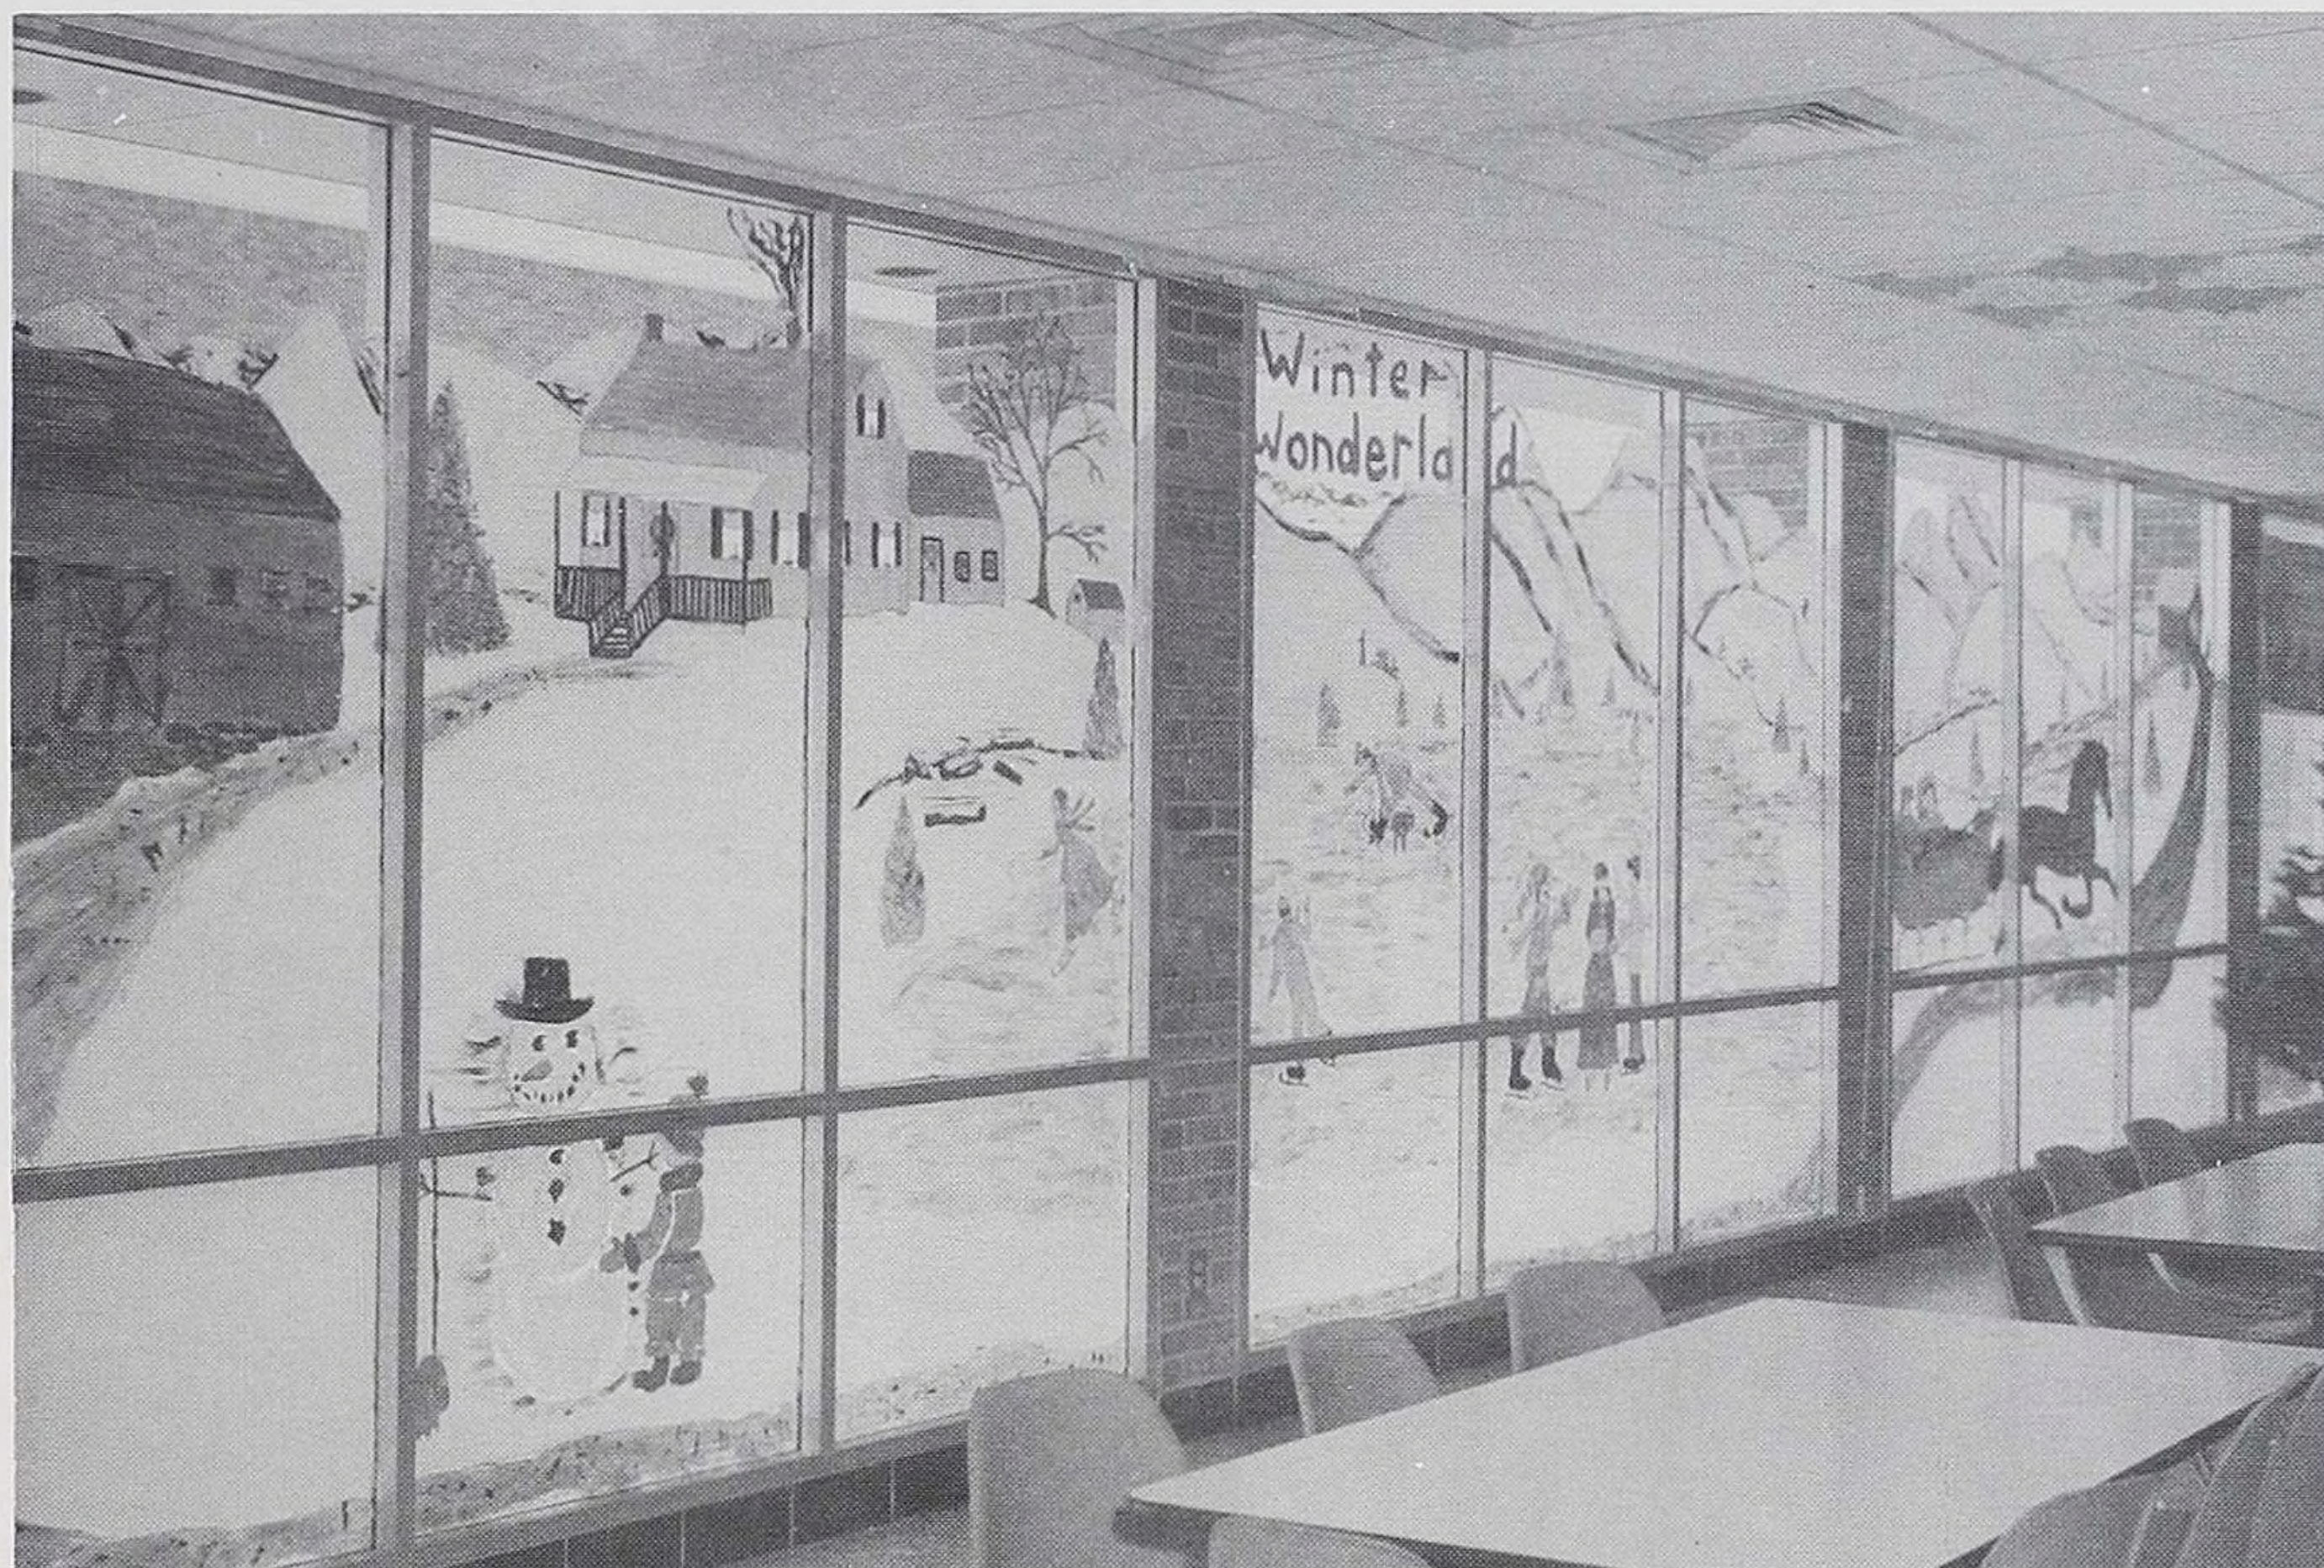

Not only do they provide service for the school, but also for the community as they prepare food baskets for needy families in the area at Christmas time. Some of the girls' highlights of the year are a Christmas dinner, mother-daughter banquet, and awarding of a scholarship to a senior member of the club. The Girl's Service Club is a valuable asset to our school.

Art Club explores Picasso and Rembrandt.

An enlarged membership in the sometimes little recognized Art Club provided the ingredients for interesting exhibits, projects and of course our skit.

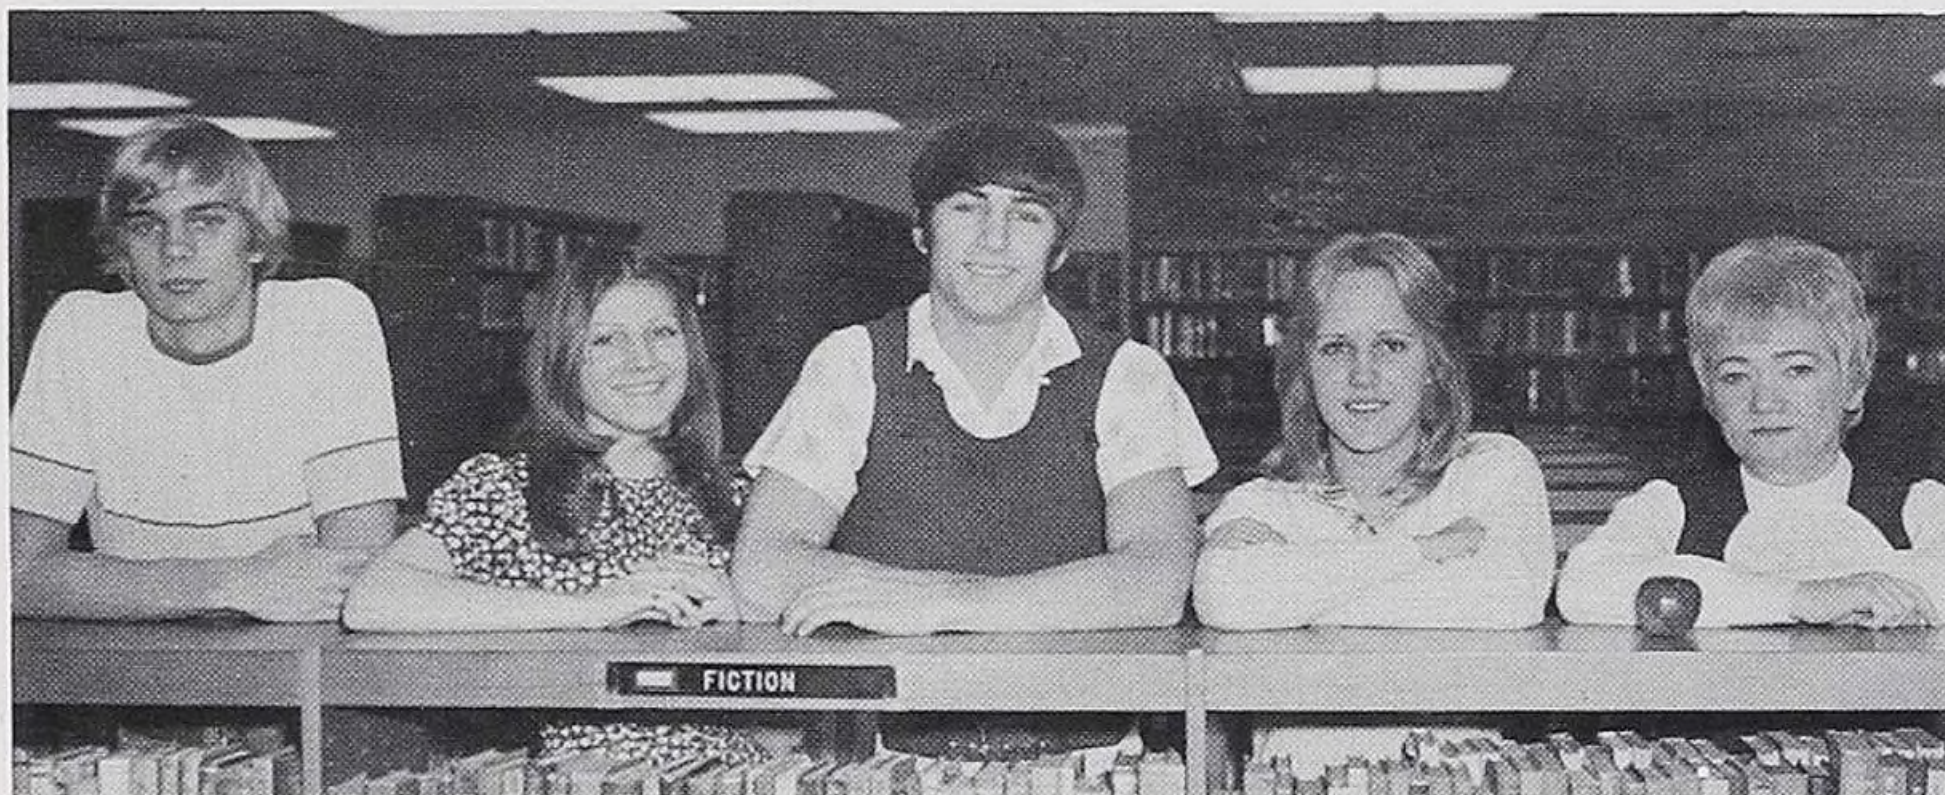

A spring art show provided members with the medium of displaying individual talents. And doing the background for the musical, "Fiddler," gave the members theatrical set experience.

One of the more enjoyable explorations of the organization was a pre-Christmas trip to Chicago. Walking through the Loop, admiring the Picasso statue and the Chagall mosaic provided interest and fun for members.

National Honor Society has traditionally been a small elite group of juniors and seniors. This year the club grew to the largest membership in its brief six years of existence. The membership now totals seventy eight. The years activities were highlighted by the initiation of new members and the annual trip to Chicago. The trip was very memorable because of the five hour trip back home--the bus broke down.

Librarians liberate learning.

Library-AVA provides an essential service to our students. Members learn how to operate media equipment to assist teachers using them in their classrooms. Keeping the library orderly, efficient, and up to date is a big job for the club. Under the direction of Mrs. Guptill, our library is a valuable asset contributing much to the growth of students' knowledge.

Chess Club clobbers opposition.

Sitting: President, Bart Swanson; Publicity, Amy Fritzen; Vice President, Steve Laue. Standing: Sponsor, Mr. Gonzalez; Secretary-Treasurer, Connie Lindborg.

Another successful year has ended for the Chess Club. The tournament team competed in three high school tournaments, finishing with a winning record in each event. Highlights of this year's achievements include the 27-11 pasting of LaPorte in February and the 12-3 victory over the teachers in December.

Senior Steve Laue closed out a stupendous career for the team. Steve wound up with a tournament record of 14-2, a win percentage of .875. He also captured the Chess Club Championships in November with a 6-0 record, and the Indiana State Tournament Qualifications with an 11-2 score.

Brian Miller, Ron Touketto, Alan Wilhelm, and Bart Swanson comprised the rest of the varsity crew. Miller completed the season with a tournament record of 15-5, and Swanson ended with a 13-6 record. Wilhelm also shone with a tally of 14-4, while senior Touketto placed well in several meets. With Swanson, Wilhelm, and Miller returning, the chances for a winning team next year appear very bright.

Showing livestock is one of the many activities of the Future Farmers of America. Traveling from coast to coast for the shows and state and national activities provide the members with the basis for building confidence, leadership ability, and interest in agriculture, and agricultural life.

Cooperation is a major item in the activities of the FFA. Cooperation in judging and in parliamentary activities are necessary for fulfillment of the goals and purposes of the Chapter, and results in the receiving of numerous awards for the projects of the club.

COUGAR REPORTER

New Prairie's award winning COUGAR REPORTER staff carried on the tradition of journalism excellence as they produced nine issues of the school newspaper and distributed it to the student body every month. Mr. Blaine Gambel, journalism teacher, instructed the staff. Editor of the 1974-1975 school year was Julie Saylor. She was assisted by Bart Swanson, assistant editor; Mark Adnson,

sports editor; Bob Beck, page layout; and Terry Whitman, page editor. The above students, including Deidre Hertzberg, reporter, were elected to Quill and Scroll Society, a national honor society for journalists. The COUGAR REPORTER is actually the entire school's project. Mrs. Hughes, Mr. Haag, and Mr. Friend all contributed their talents. The student body's ideas have also helped to make the school newspaper a part of New Prairie.

Cougar Olympics provided the impetus for the student body to deviate from daily routine in order to promote enthusiasm for the up-coming sectional. Tevye and Golde chat.

At six a.m. rehearsal originated the difficult task of preparing the production of "FIDDLER ON THE ROOF." Long hours of dilligent efforts by the cast, the pit band, and the directors came to a climax on April 11, 1975 with the presentation to the public.

The leads of the musical were Glen Woodle as Tevye; Jean Boyts as Golde. Their daughters, Tzeitel played by Roberta Scott; Hodel, Amy Saltzgaber; Chava, Kim Zigler; Shprintze, Trudy Dittmar; Beilke, Tammy Williams. Motel, the tailor was played by Larry Dodd, Perchick, the student Jeff Neuman; Lazar Wolfe, Kurt Ackerman; Fruma-Sarah, Mary Ekovich. The fiddler was played by Jerry Firebaugh; Grandma Tzeitel, Becky Boarders; the rabbi, Tom Clark. The Constable, Charlie Evans; Shaindel, Motel's mother, Julie Saylor.

The pit band, under the baton of Mr. George Steele, did an excellent job of playing the music for the show.

Band makes beautiful music

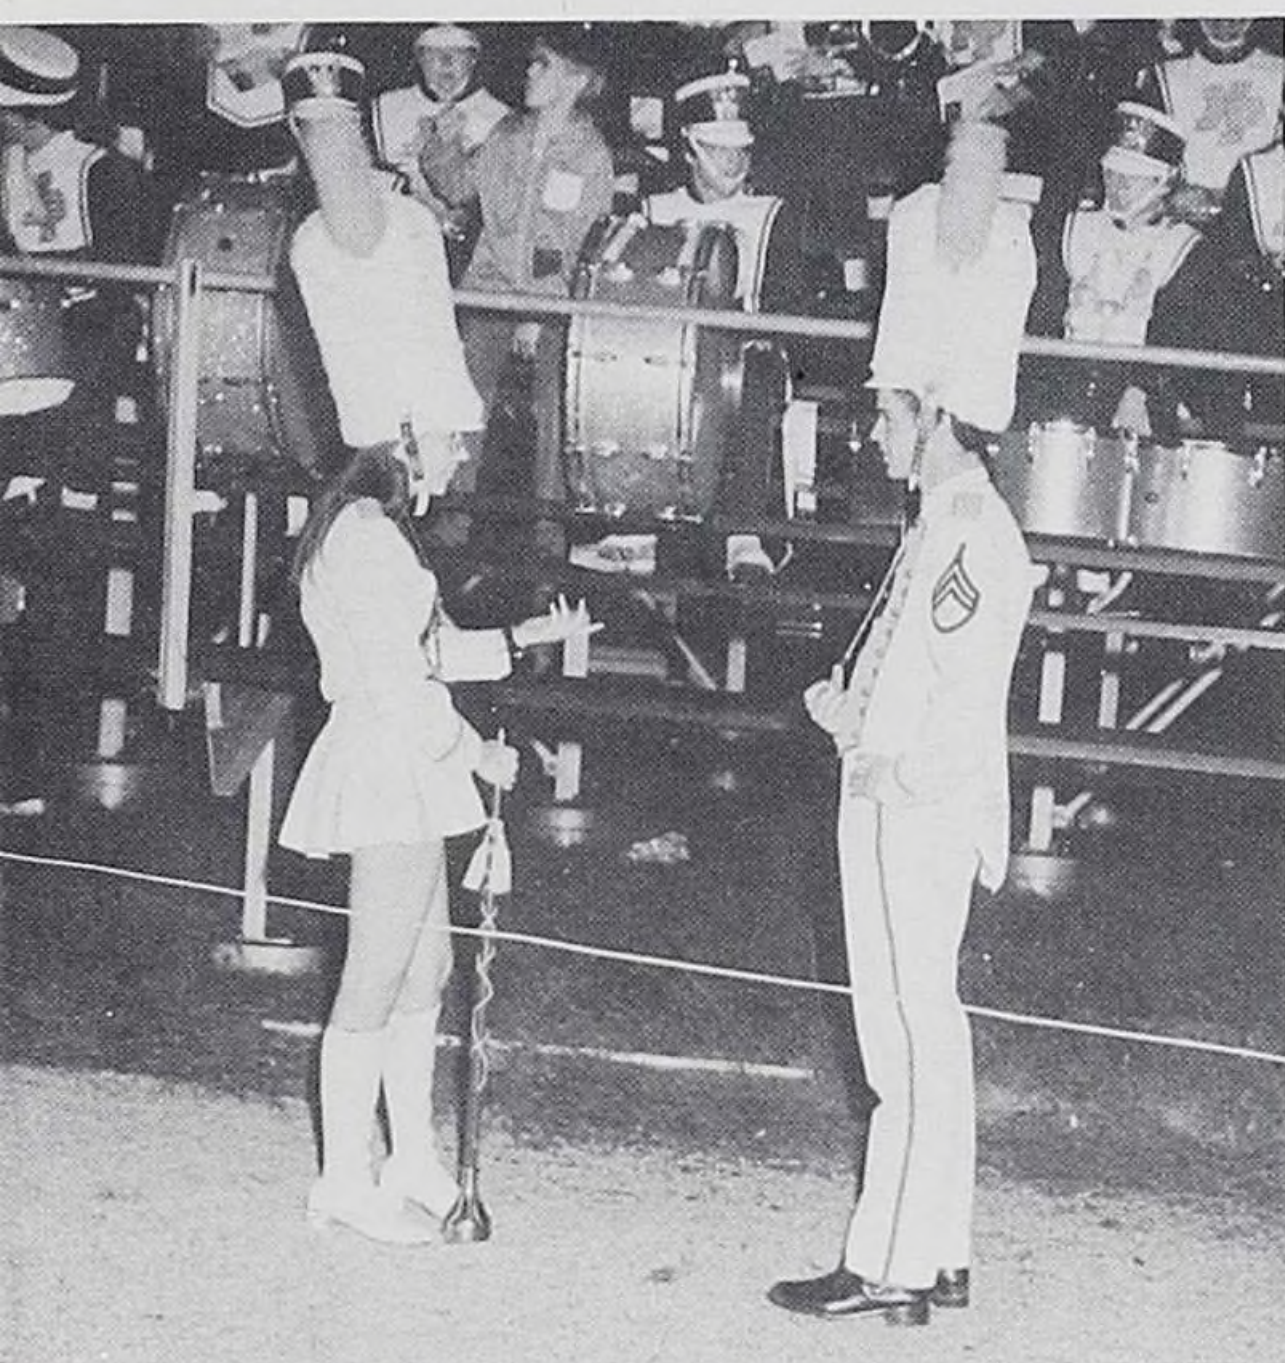

"Marching in half-time."

Freshmen received their initiation in the high school band in a parade on a hot and humid July 4 in La Porte. The dedication of a marching Cougar came through as, during the year, the band played in rain, snow and heat. From snappy tunes like "Blues Rock" played at football games to "Russian Christmas" at the Christmas Concert, Mr. George Steele directed the members of the band to outstanding accomplishment.

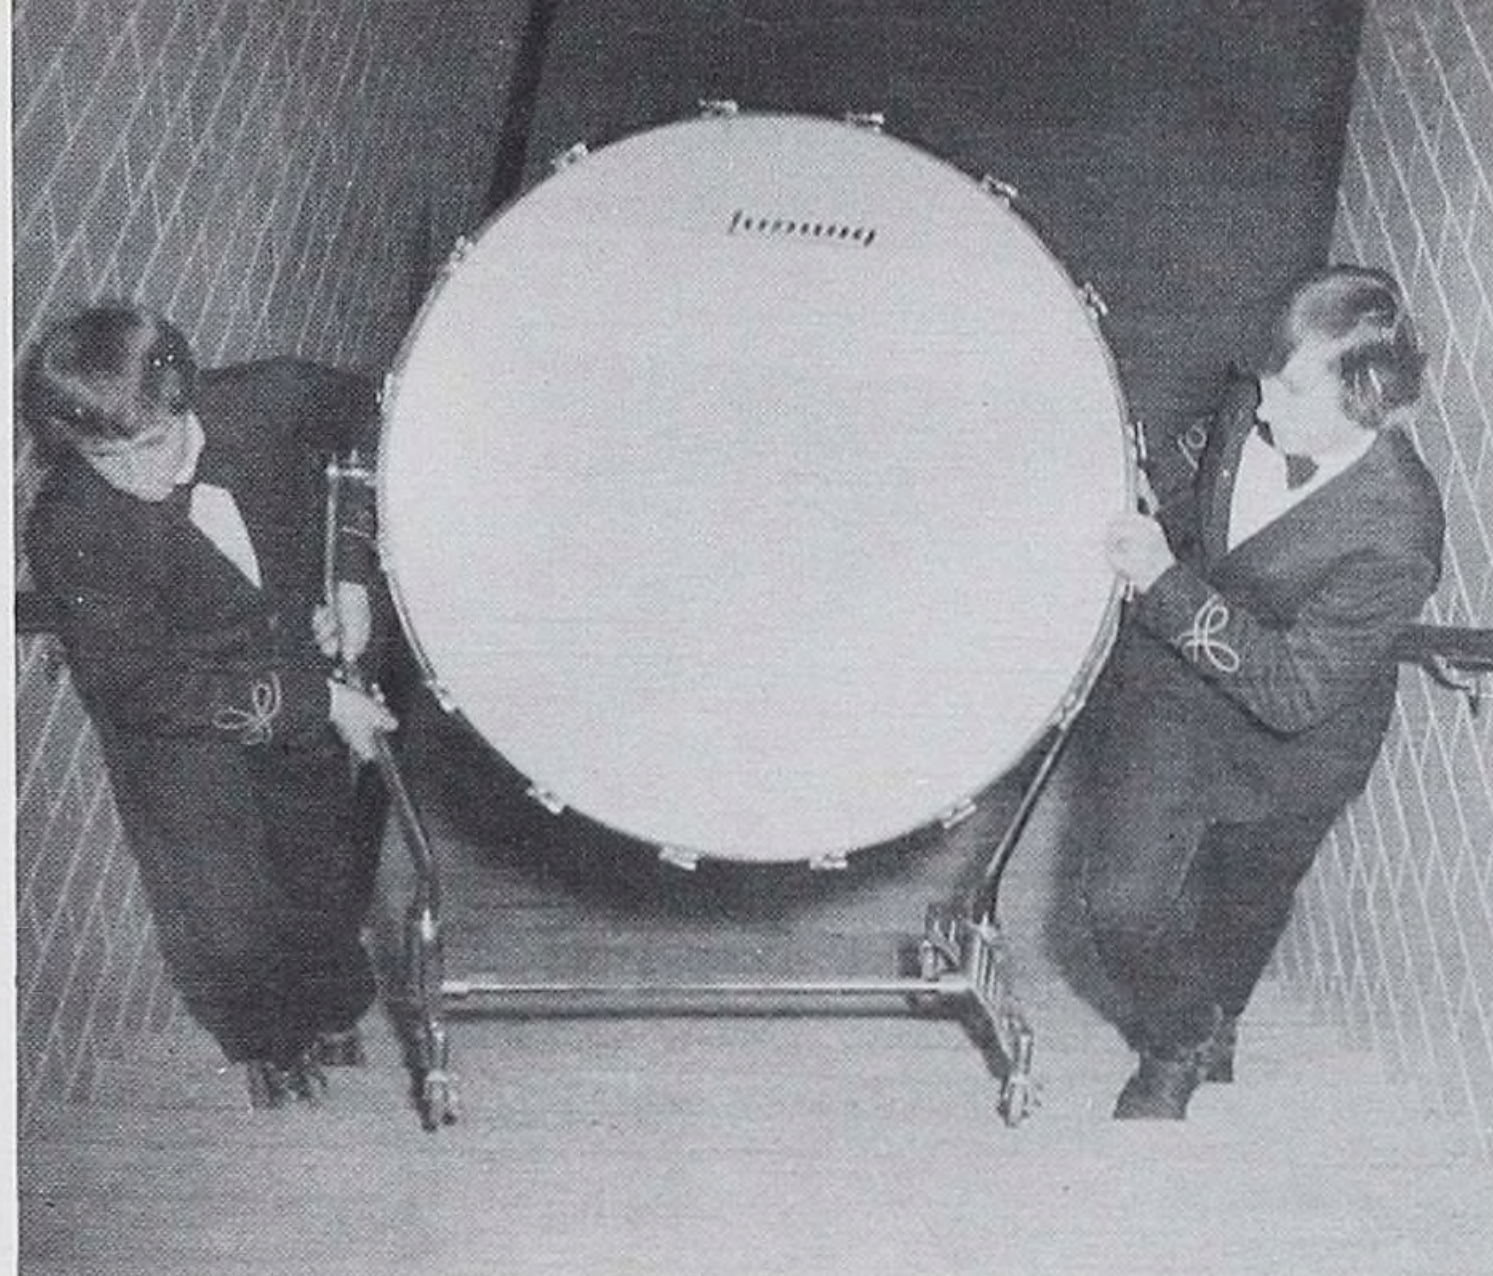

Through thick and thin, flat and sharp, the high school band continued through the year culminating in the spring concert and a final selection of "Pom and Circumstance" for commencement.

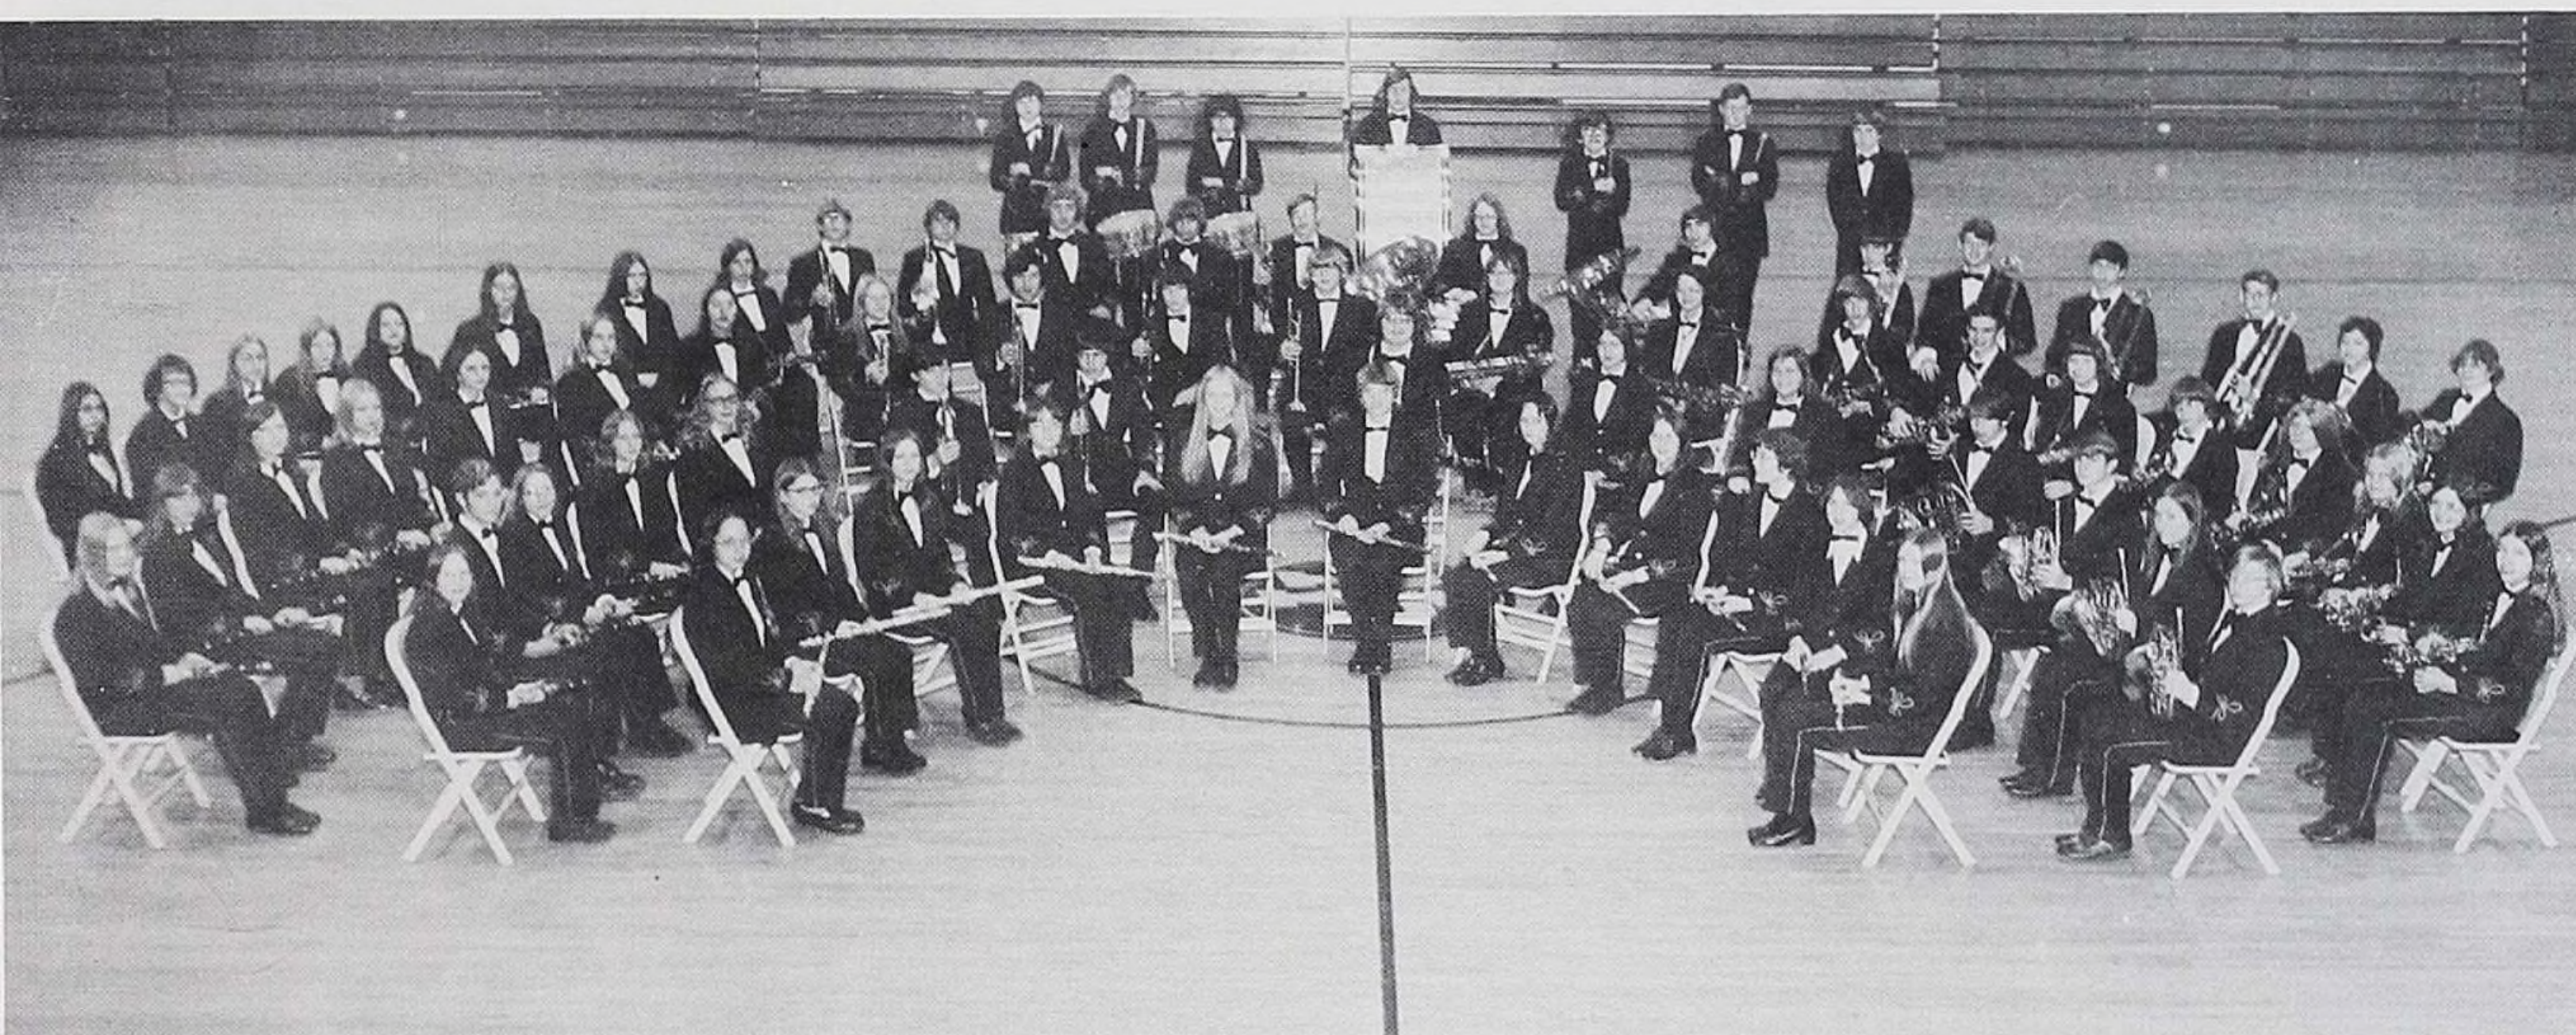

"Take a deep breath and really blast out."

Directing the band at home football games is part of the responsibilities of Chris and Mike.

Pictures of the band on the gym floor give Scott and Charles a basic problem.

Choir — the expression
of feelings through song

A premier appearance on WSBT-TV highlighted the efforts of the A Capella Choir.

The annual Christmas concert and Spring concert provided experience and relaxation after the tension of the TV program.

At the Spring concert, awards were presented for participation in the choir. Three and four year members were given trophies. The Mental Attitude Award was presented to Glenn Woodle. The highest award, the Arion Award, was presented to Larry Dodd.

Choir officers: Director, Mrs. Margaret Dickie; Treasurer, Tina Alvarado; President, Larry Dodd; Vice-President, Dave Miller; Secretary, Gail McPherson.

Girls Allegro Choir

The best volunteers for Girls' Allegro and Concert choir are chosen to become members of the A Capella Choir. Membership is judged on the singing of scales, tone quality on both chromatic and achromatic scales, the ability to read music, and the capacity to sing without accompaniment. The difficult testing for this elite choir provide the choir with the best available in musical talent.

Another first down for the fighting Cougars!!

Coach Floyd Trosper acquired the first victory in a promising career as Jim Gadacz scored on a 76-yard draw play to spark New Prairie to a surprising 8-6 win over Michigan City Rogers.

All the ingredients necessary for a colorful sporting event were present when Coach Trosper returned home to the field where he performed as a high school athlete and as head mentor of his own team. On the opposite of the turf was a band of Readskins guided by Coach Ken Mirer, Coach Mirer was Trosper's high school coach and had just returned to Goshen after directing the Cougars for the past three years. The result was a 19-7 victory by the Cougars and Coach Trosper. Jim Gadacz broke the school record for a single season rushing 1388 yards; career rushing records with 2412 yards and accumulated a total of 3046 yards.

Special awards were received by Jim Gadacz as the most valuable back, Frank Robinson as the most valuable lineman, and Steve Engel with the most tackles. The Attitude award was received by Jay Loucks.

Most improved back was Andy Wolfe while Allen Lake was the most improved lineman.

Captains for the season were Frank Robinson, Jim Gadacz and Pat Kane. Jim Gadacz was also named as the most valuable play of the Northern State Conference.

Girls win first sectional.

Varsity - Coach Sue Keenan, Peggy Kizer, Cindy Kuta, Jenny Kane, Lisa Smith, Tammy Kizer, Chris Sherbun, Yvonne Weir, Denise Cortier, Shai Kincaid.

Girls' volleyball provided honors for New Prairie when they became the first sectional winner at New Prairie. This winning season assisted the netters in becoming the Conference Champions and Sectional winners.

Cross Country tests endurance and stamina.

Our cross country team was paced to an interesting season by the "Big Three", Steve Moore, Bill Gamble, and Doug Fraser. Hampered this year by a lack of depth, the harriers were unable to record an unblemished season. However, turned in good team scores because their power runners usually finished out front.

Injury to Senior John Saylor contributed to the woes throughout the year.

The team finished third in the Northern State meet at John Glenn, and landed in the top ten in the Sectional--the best showing New Prairie history.

Highlight of the season was the seventh annual New Prairie Invitational. Fifty-three teams participated in this event, which has developed into the largest cross country meet in Indiana. Gail Strefling was named the most improved.

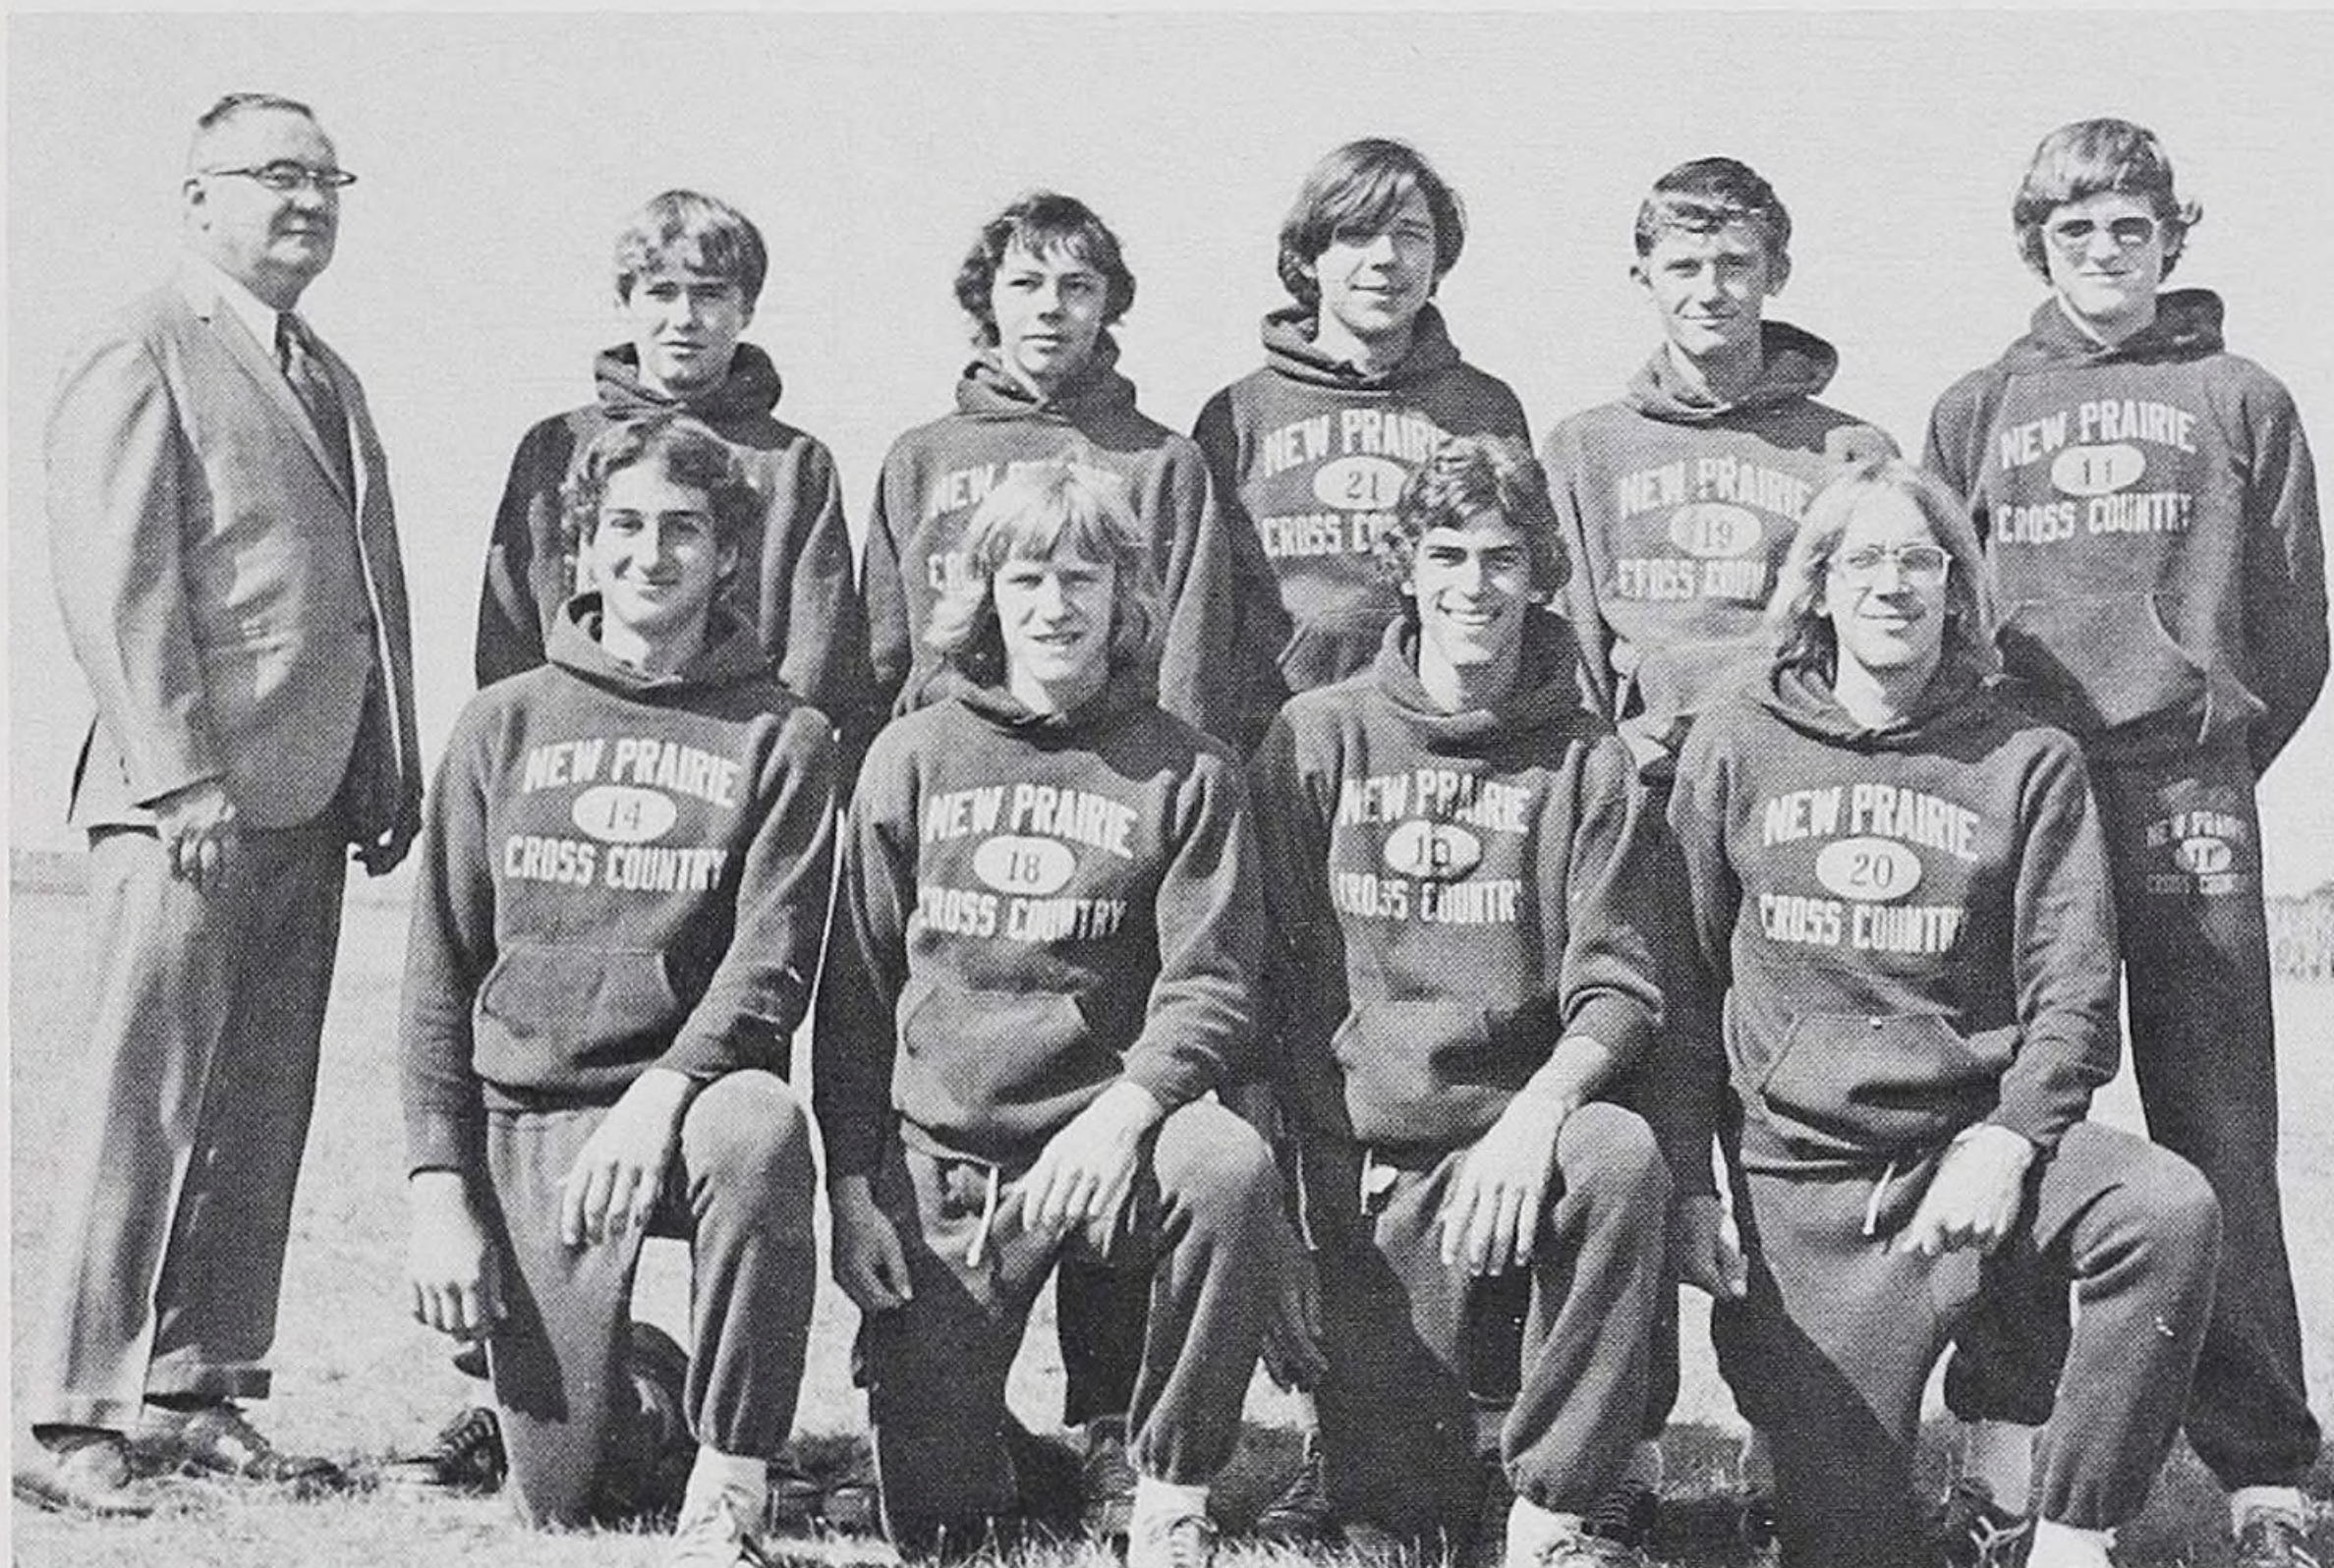

Stopping in the woods for a breather.

Among the hundreds of runners who charged up "Agony Hill" was Rudy Chapa of Hammond. He must have smoothed it out as he ran a blistering 10:09 which not only outdistanced the field, but carried him to a new course record.

A season of 11-3 was the result of the excellent stroking by the golf team. The team broke the school record with a total of 147 for the nine-hole Oak View Hills Golf Course. They finished second in the conference golf tourney, with Todd Stockton Medalist. Captain was Mark Adnson and Todd Stockton received the Most Valuable player award.

A season of 5-5 was the result of the fine stroking by the girl's golf team. Nancy Bealor was the team captain and was voted the most improved medalist three times. Leslie Kring was the most improved and is a medalist for the fifth time. The Sweater awards went to Betty Mills and Nancy Kurdel. Chevron awards went to Kathy Shoue. This year's letter winner was to Marsha Thomas.

Loosing four of five top netters due to graduation, the boys tennis team rebuild and finished the season with the first winning season in our tennis history.

Only one player will be lost and the results could be a tennis dynasty in the making. Mark Adnson set a school record for the most wins with a season of 19. Mark and Chris Rybicki captured conference singles crowns.

New Prairie's girl racqueteers chalked up a 3-5 season record. The netters showed improvement throughout the season and was prominently shown to spectators as they shut out LaVille.

Individual season records were at first singles Chris Sherbun 4-4, second singles Lisa Smith 5-3 and third Peggy Kizer 5-3.

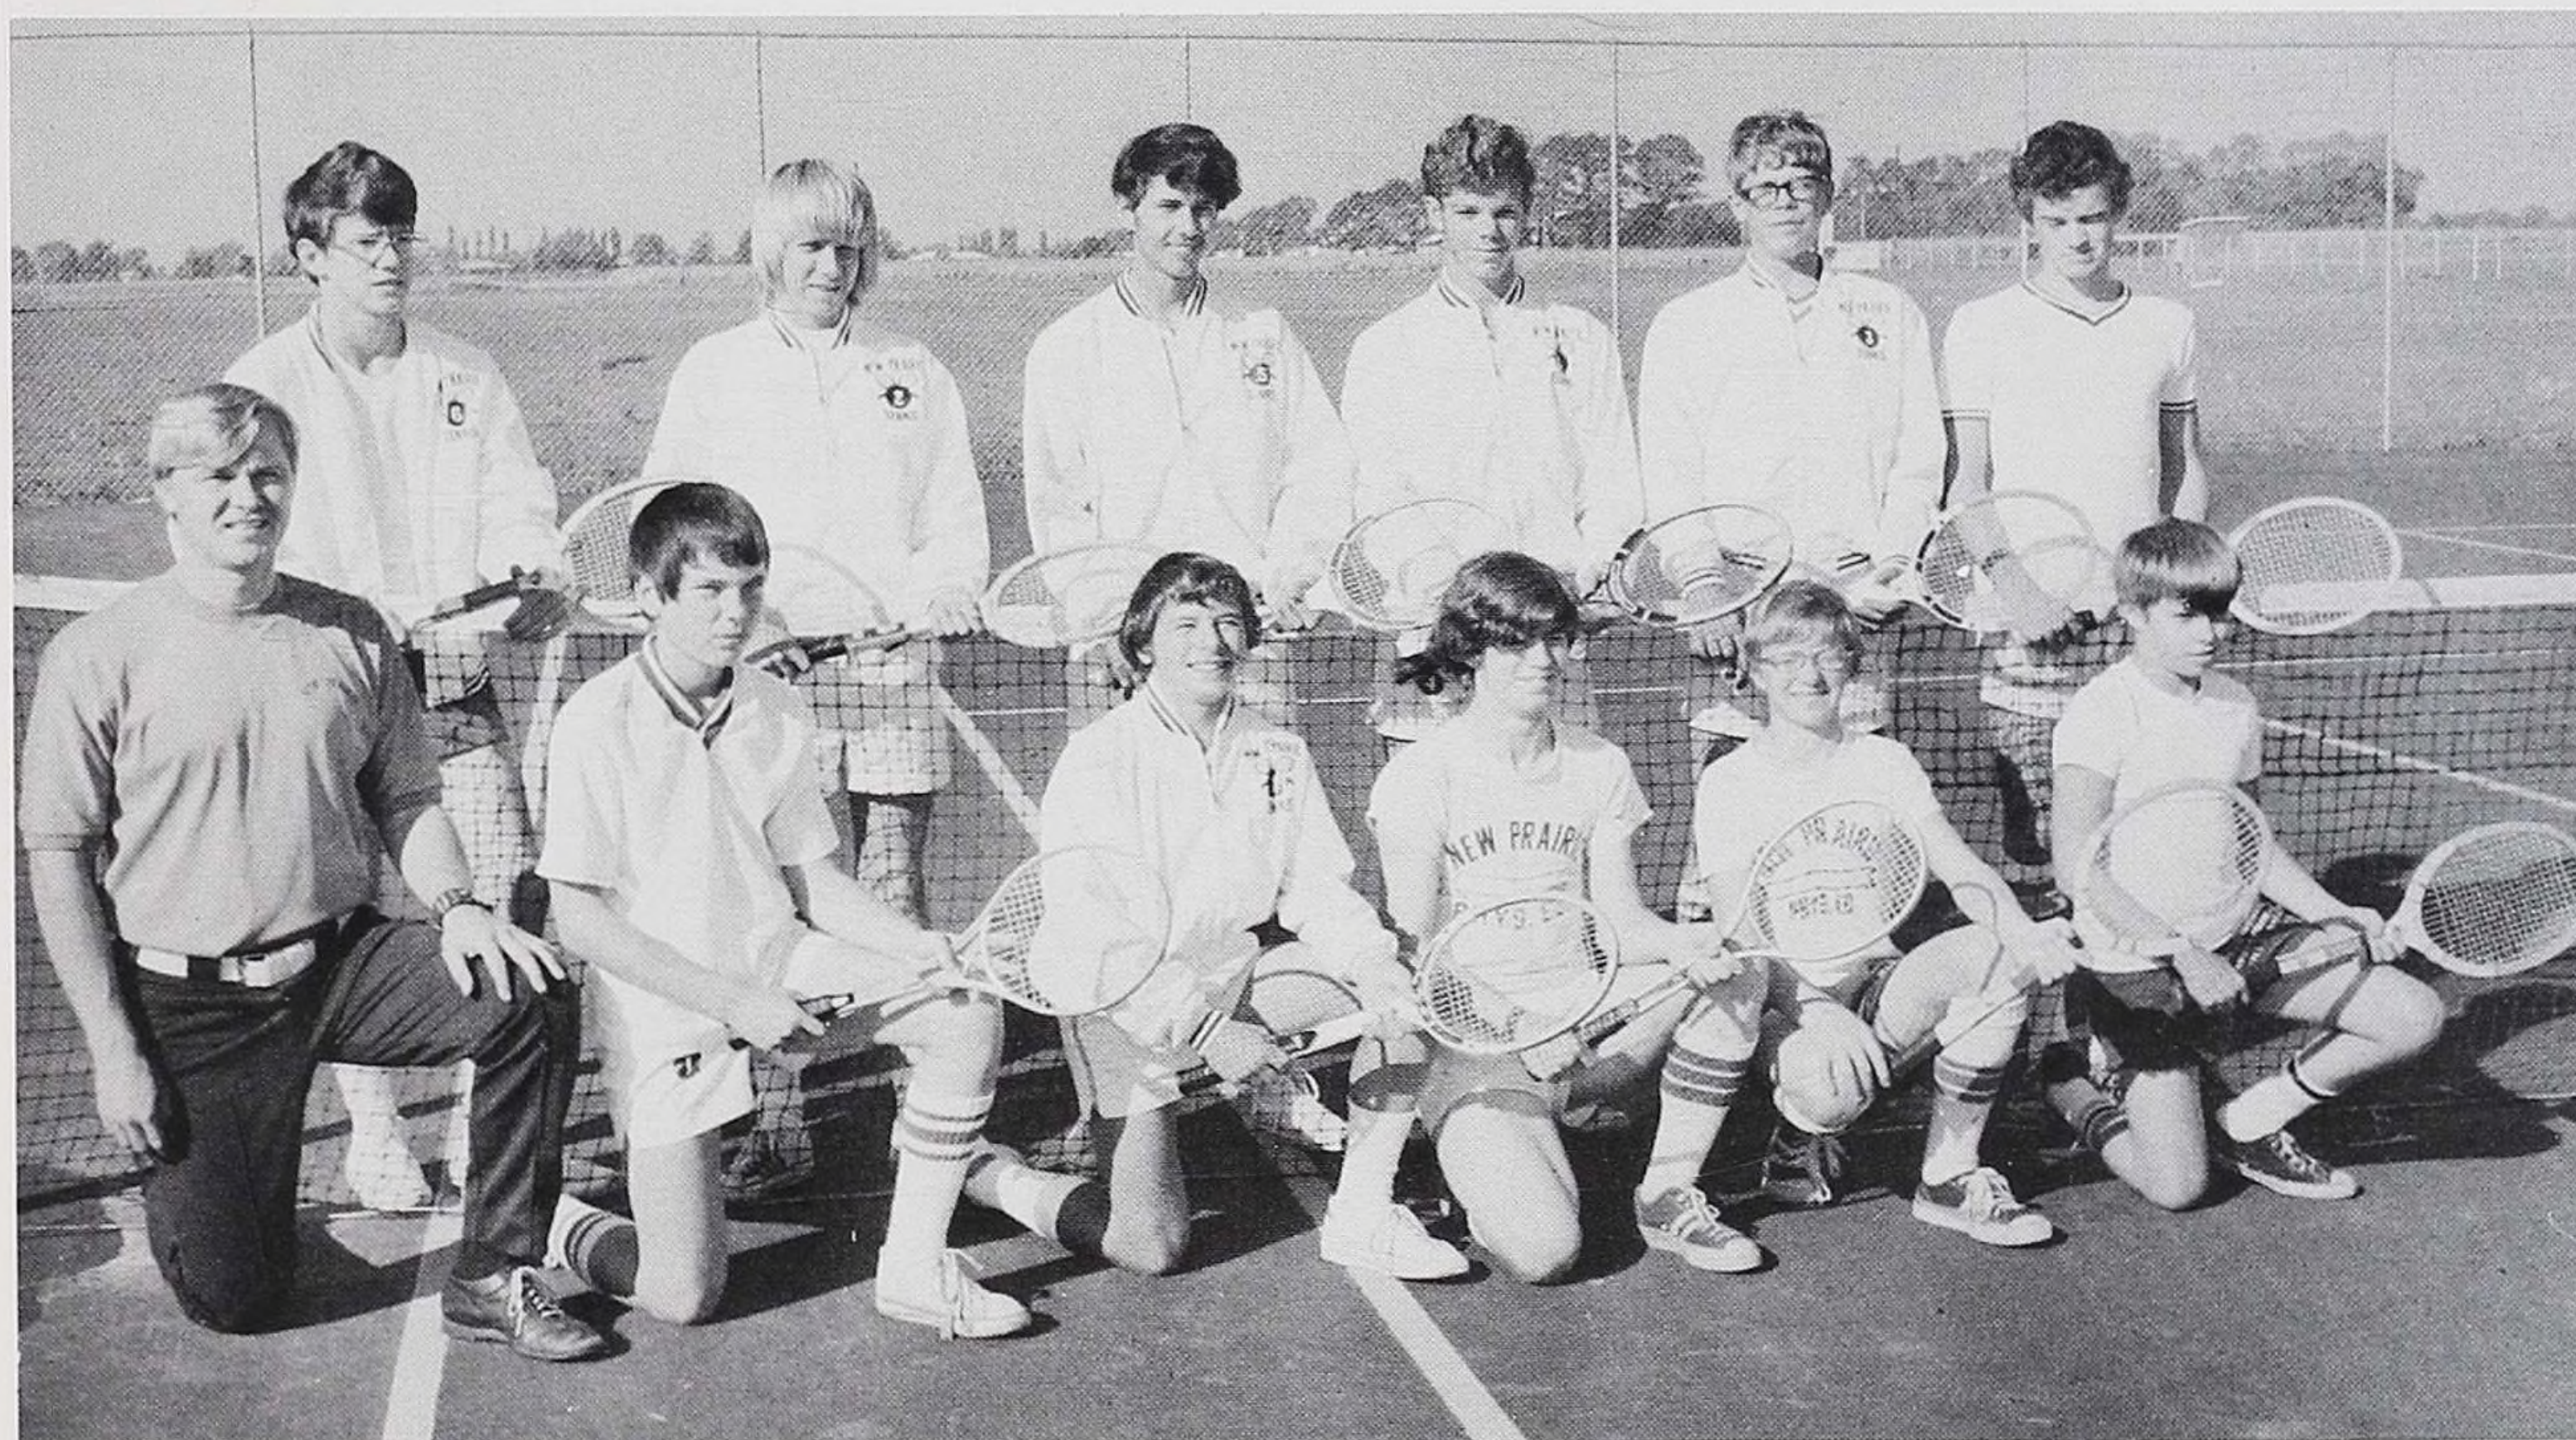

Anticipation is good for next season as a majority of the netters will return.

Cougarettes beat arch rival

A victory over arch rival LaVille highlighted New Prairie's Cougarette cage season. This conference win added to an impressive decision over Fairfield gave Miss Sue Keenan's quint a respectable finish in Northern State standings.

Most valuable on the team was Cindy Kuta, who was named to this honor by vote of her teammates. Another Senior, Chris Kulasa, was selected as captain.

Deb Singleton, a real scrambler on the court, won the trophy for being the most improved.

Leslie Kring swished in 18 points in one game to take top honors in that department. She hit her season high against La Ville.

I Got it!

Cagers swish to victory without a foul-up.

Three perennial cage powers greeted beginning coach Rich Witkowski and his eager Cougars as they opened their '74-'75 season. After losses to South Bend St. Joseph, Michagin City Rogers, and La Porte, NP settled down and played an interesting brand of ball.

They gained momentum during the season and put together a five game winning skein to tab them as a steadily improving ball club.

Bi County tourney action was highlighted by team play and some herculean individual effort. The Cougars polished off a good Argos team in the first round with Ken Shead providing the herocis.

Bremen succumbed in the semi-final game as our boys held off as physical a team as they faced all year. John Glenn took the crown, however, as the all-veteran squad maintained its poise over players.

Wrestlers make this their best season . . .

Coach Don Kane's Cougar grapplers achieved a "best-ever" season with a 9-2-1 record. The highlight of the season was an exciting dual meet victory over LaVille, the long time dominant team in Northern State wrestling. The team also won the Conference trophy at Jimtown, defeating all competitors by a sizeable margin.

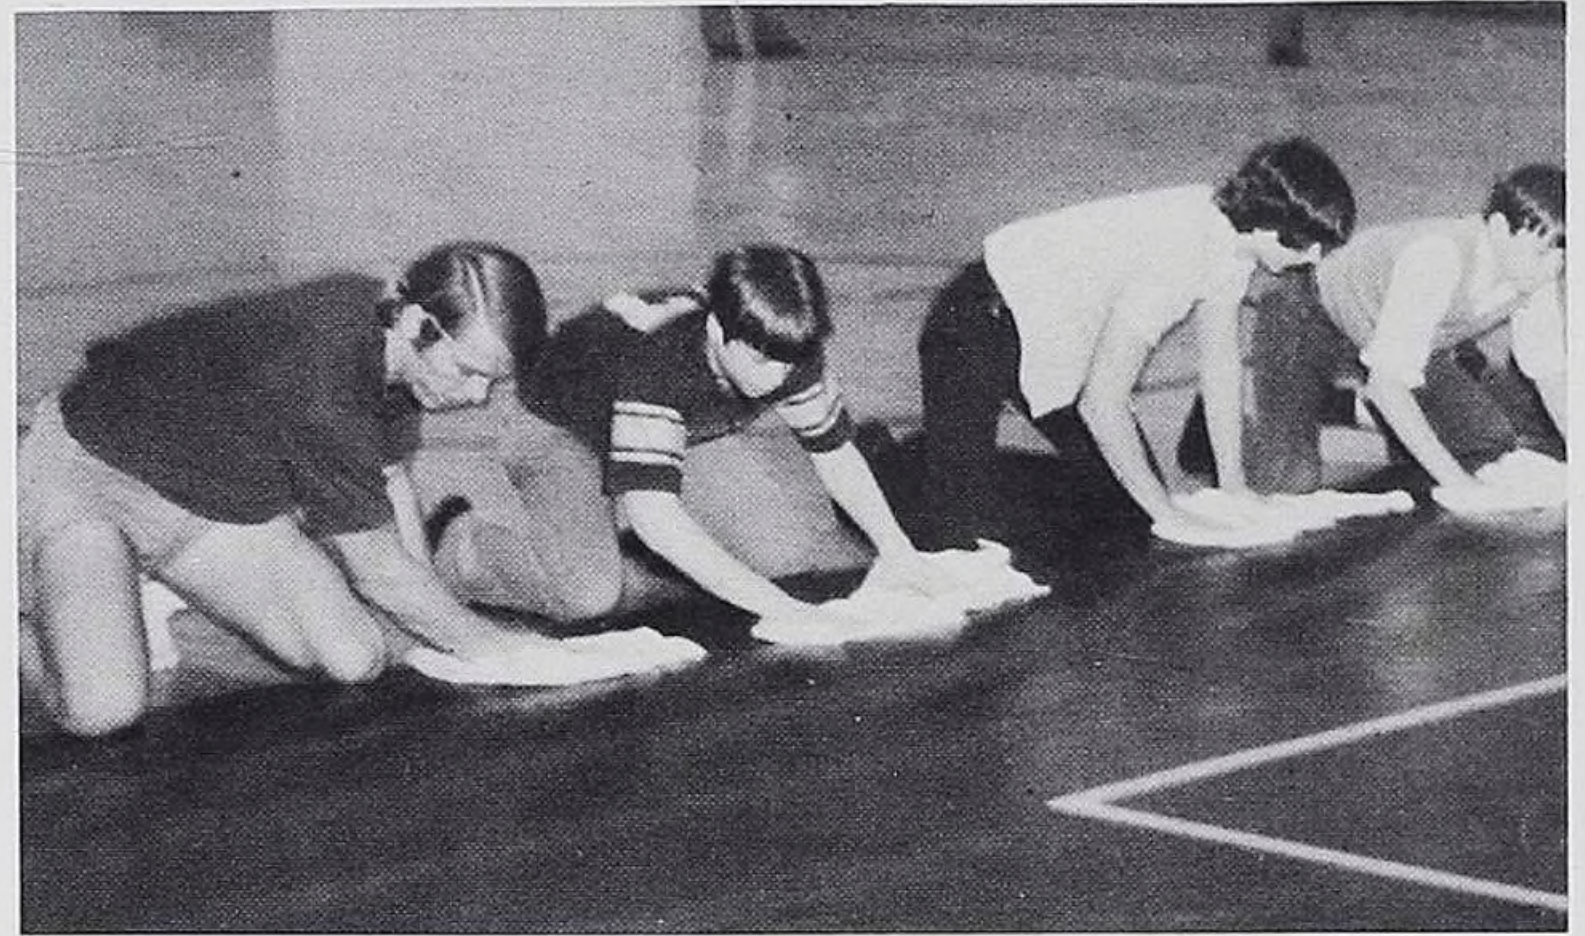

Tri-captain seniors, John Saylor, Frank Robinson, and Pat Kane, led the team throughout the year. Frank Robinson was delegated most valuable, and Darryl Schell most improved.

In the Bremen Tourney, New Prairie had five firsts won by John Saylor, Bob Garoutte, Pat Kane, Dave Swank, and Garth Lane. Third place finishers were Greg Behrens, Darryl Schell, and Ty Layman. Conference Championships were won by John Saylor (21-1), Bob Garoutte (17-3-1), Steve Engel (14-3-2), Pat Kane (16-3), and Frank Robinson (15-3-1). Don Toth took a fourth place, Dwayne Uminski a third, and seconds by freshman Dave Swank and sophomore Don Bode.

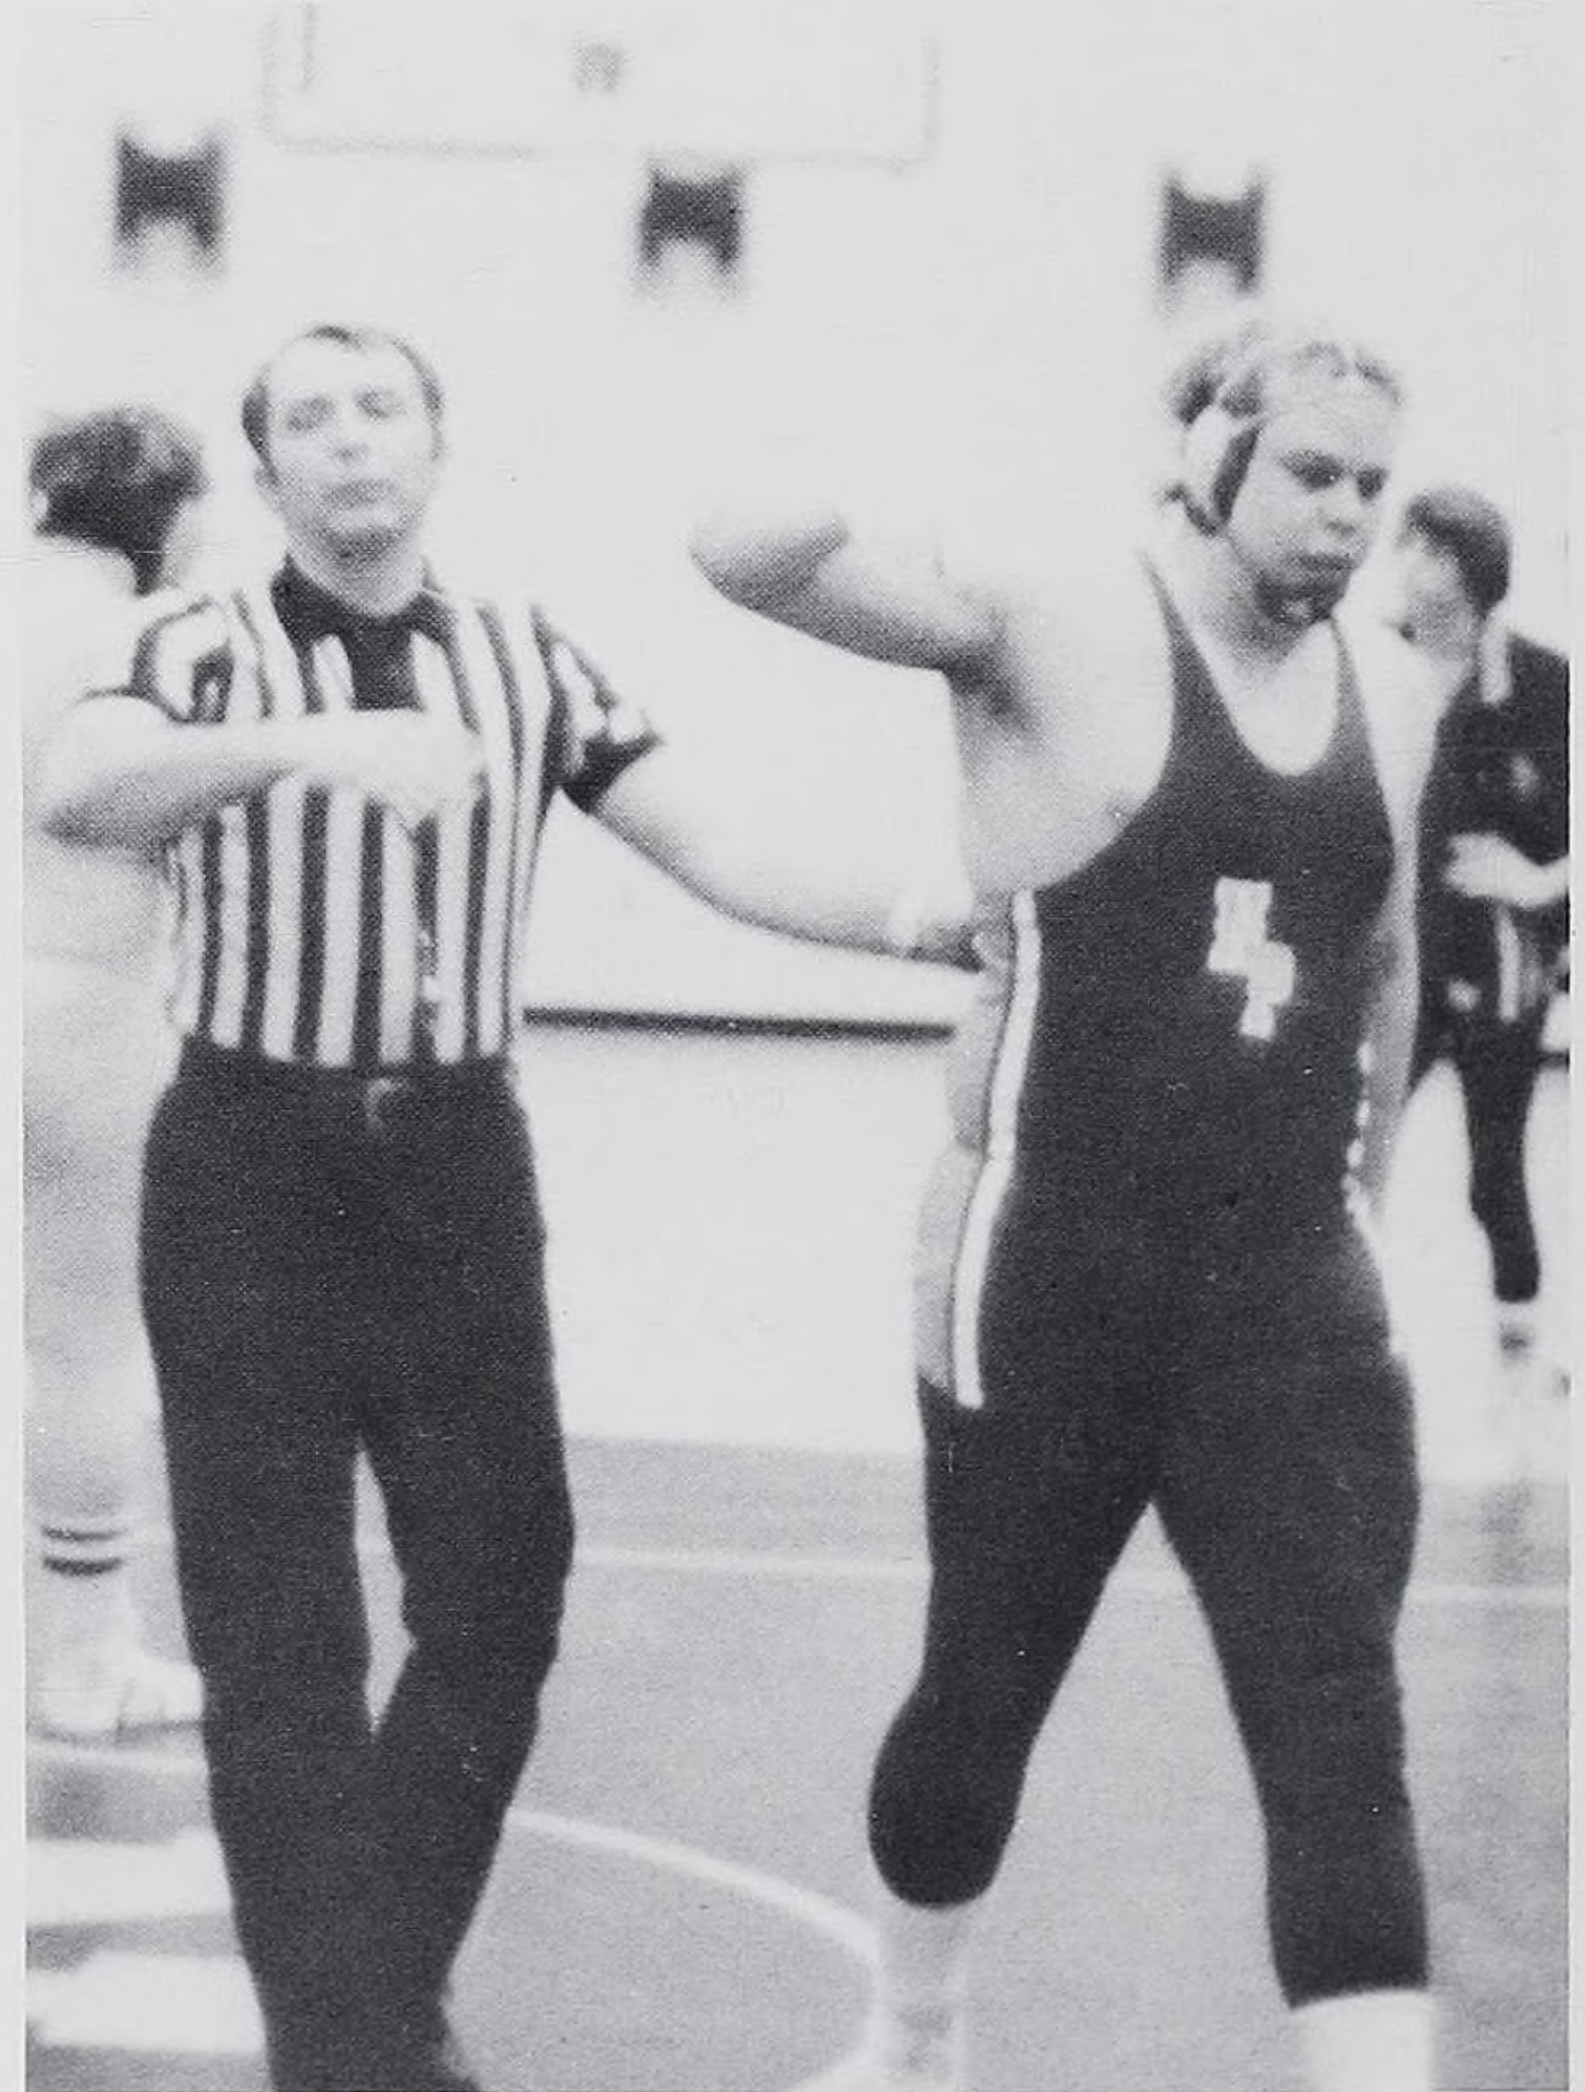

In the sectional matches, New Prairie placed two grapplers in the regional. John Saylor placed first for his third consecutive sectional crown in his high school wrestling career. Frank Robinson received a second place at the sectional, but qualified for the regional.

At the regional, Frank Robinson was defeated in the first round pairings. John Saylor undefeated, went into the finals of the regional before being defeated by John Hall of Mishawaka for the first time in 22 matches.

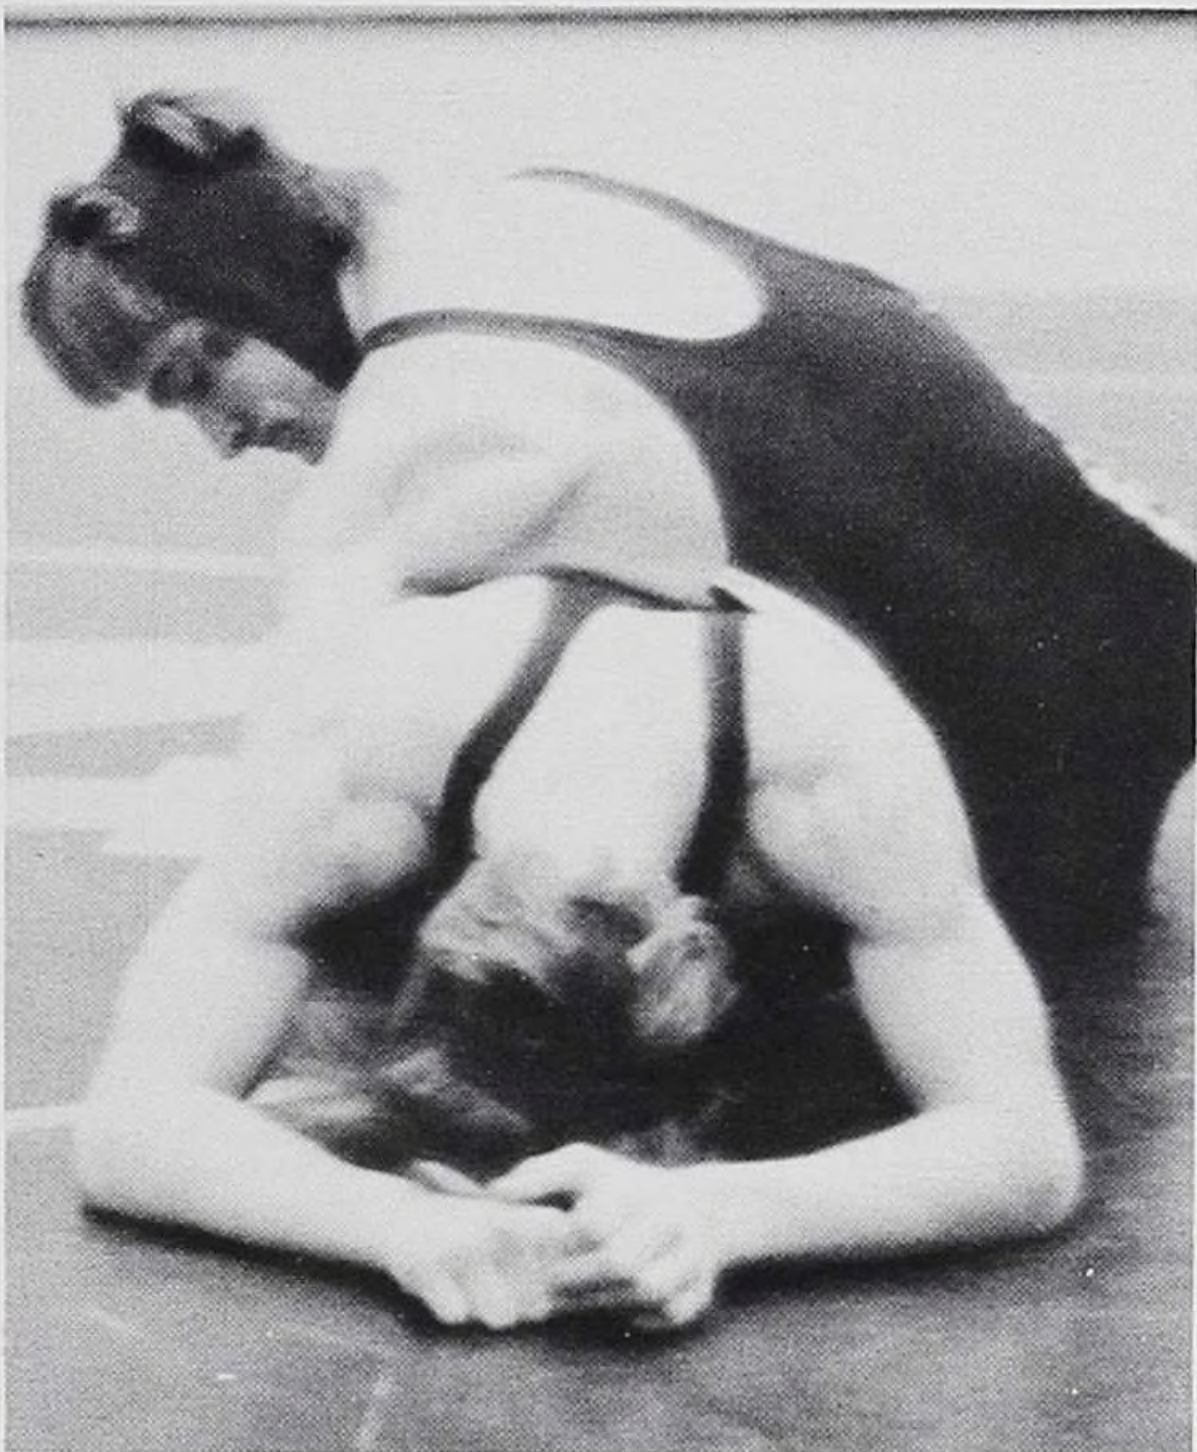

Throughout the year, the team was assisted by Floyd Trosper and Ken Gradeless who served as assistant coaches. Mat maids Deb Shock, Julie Saylor, Shar Fox, Donna Fox, and Karen DePoy.

"Will I ever break that 4-minute mile!"

Distance aces Cheri Carr and Cindy Kuta qualified for the Regional meet to cap a spectacular year for the girls' track team. Coach Chris Bromley's speedsters blitzed to a 9-2 season record and practically rewrote the individual record book, establishing eight new marks during the season; only two old records remain.

Five seniors performed for the team this season. Cheri Carr paced the scoring with 134 points. Other reliable tracksters who are lost by graduation are Chris Kulasa, shot put and softball throw; Cindy Kuta, 880, hurdles and relay; Cheryl McEathron, relay and 220 Beth Woolsey, high jump and 440. The departing seniors were members of the team when the track program was initiated at New Prairie under Coach Bromley.

Four school records were established as our tracksters enjoyed another winning season. They were 4-1 in Conference dual action. Senior John Saylor soared to record breaking heights in the pole vault with a 12'3". Saylor also successfully defended his NSC crown.

Senior Steve Moore lowered the mile time to 4:42.7 with his good showing in the Goshen Relays. The old record was 4:49.5 set by Rob Pravecek.

Captain Jim Gadacz was a reliable point getter all season as he led the Cougars in individual scoring. He sprinted to a first place in the 100 in the prestigious Brandywine Invitational.

Coach Tolmen celebrates 100th

Kneeling: Manager Paul Hebner, Bart Strong, Ken Shead, Charlie Evans, Curt Swank, Jim Bunton, Steve Deutscher, Dan Gilpin, Bruce Cox, Chris Countryman Manager. Standing: Coach Harry Holmen, Lenny Hall, Darrel Olsen, John Zolman, Dave Bush, Ed Livinghouse, John Baldwin, Jeff Lenard, Coach Tim Moffitt.

Let's go home.

Dan Gilpin and Steve Deutscher pitched back-to-back no hitters, standing with Coach Tolmen.

A year of firsts--that was the year of 1974-1975 New Prairie baseball team. The year provided spectacular play by the six seniors, six juniors, and three sophomores who composed of the team.

Among the unusual events of the season were the back to back no hitters pitched by Steve Deutscher and Dan Gilpin. This was a first in New Prairie baseball history. New Prairie won its one hundredth game, played with Jimtown. The team won the NSC title. The team is coached by Harry Tolmen who has been the coach during its illustrious history.

UNDERCLASSMEN

Tradition has dictated that a gap exist between upper and lower classmen (and classwomen). Seniors can remember when they were freshman and could not sit upon the "Senior Bench," in the student lounge. But the system has fallen by the wayside.

Classes are more integrated than in any previous year. Seniors are not looked up to as they once were. Freshmen do not have the respect and awe for the upper classes. Yet the competition between the classes continue--with Spirit Week, the Spirit Stick, Homecoming floats, and at pep sessions.

The future years will change some of the traditions at NPHS because the members of the classes will be different, and the ideas and feelings are different. Future traditions will be . . .

Freshmen fare fine — for first time!

We are new to New Prairie, New Prairie is new to us. We are the Freshmen. The first week of school we are seen running frantically through the halls trying to locate our classrooms. Learning to adjust to our first year of high school is difficult, but soon we are settled down to a routine and breeze through the halls with the same ease as the upperclassmen. No doubt we Freshmen found many responsibilities placed on our shoulders, but we accepted them along with the pleasures. We come to New Prairie with new ideas, hopes, and desires for the future. That is what make us Freshmen, and we are proud to be a part of New Prairie High School.

Class rings and magazine sales

We've got one year experience behind us, and two more years ahead of us. We're not new to N.P., but we're still learning a lot about high school. We are the sophomores. We've made a beginning in our high school career, but it's just a start, with a lot of hard work ahead of us. This is one of our most important years in high school, one of the busiest and most exciting. We, the class of '77, are doing all that we possibly can to better our learning and athletic abilities and make the most out of our second year of high school.

Debbie Dunning and Doris Layman pool their resources in health class.

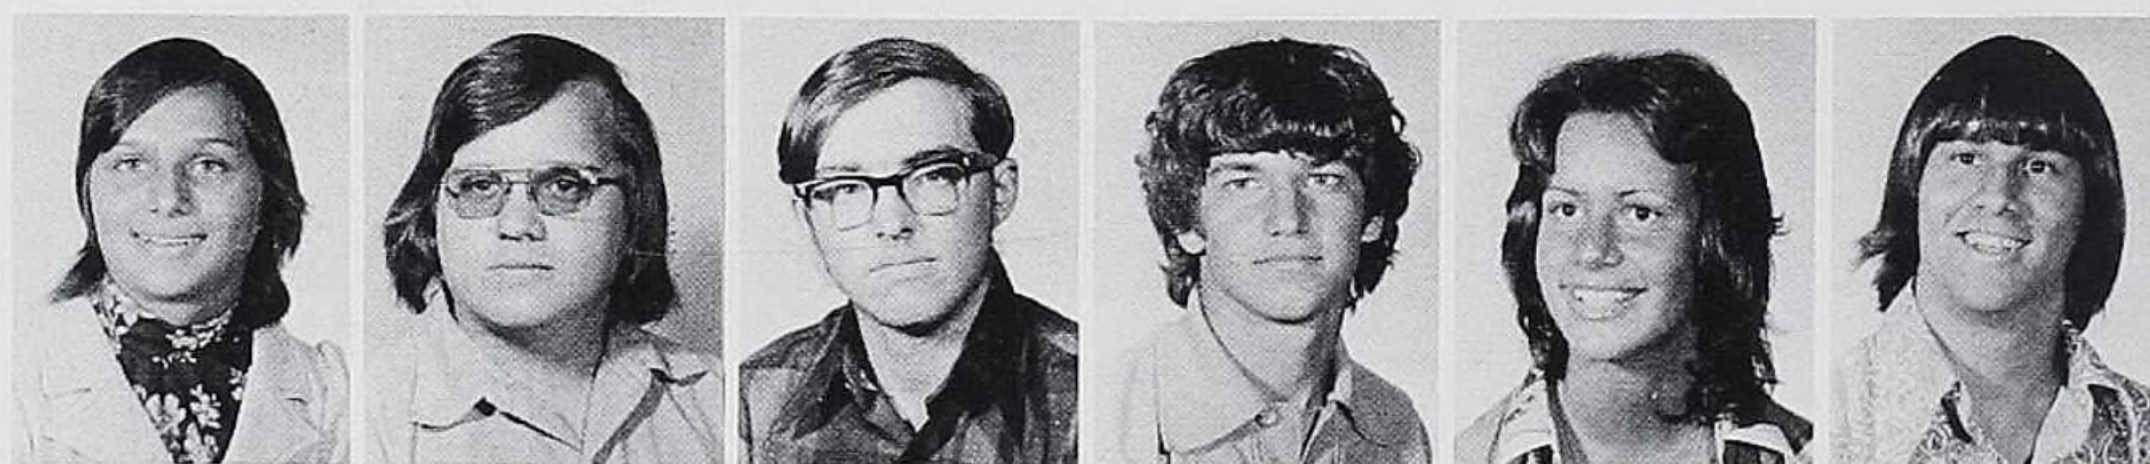

Juniors show true spirit of '76.

Our class of '76 anxiously awaits our chance to become Seniors. With only one year of high school left, we set out to make it one of our best. Along with the excitement of school, we had to start thinking of the future. Planning for the prom is the most hectic part of our high school years.

As we look back on our past three years, we see fond and lasting memories. Our year ahead holds in store even more confusion and competition. We go forth with confidence that our last year will be one well remembered by N.P.H.S.

Curt Ackerman becomes first graduate of the Class of 1975.

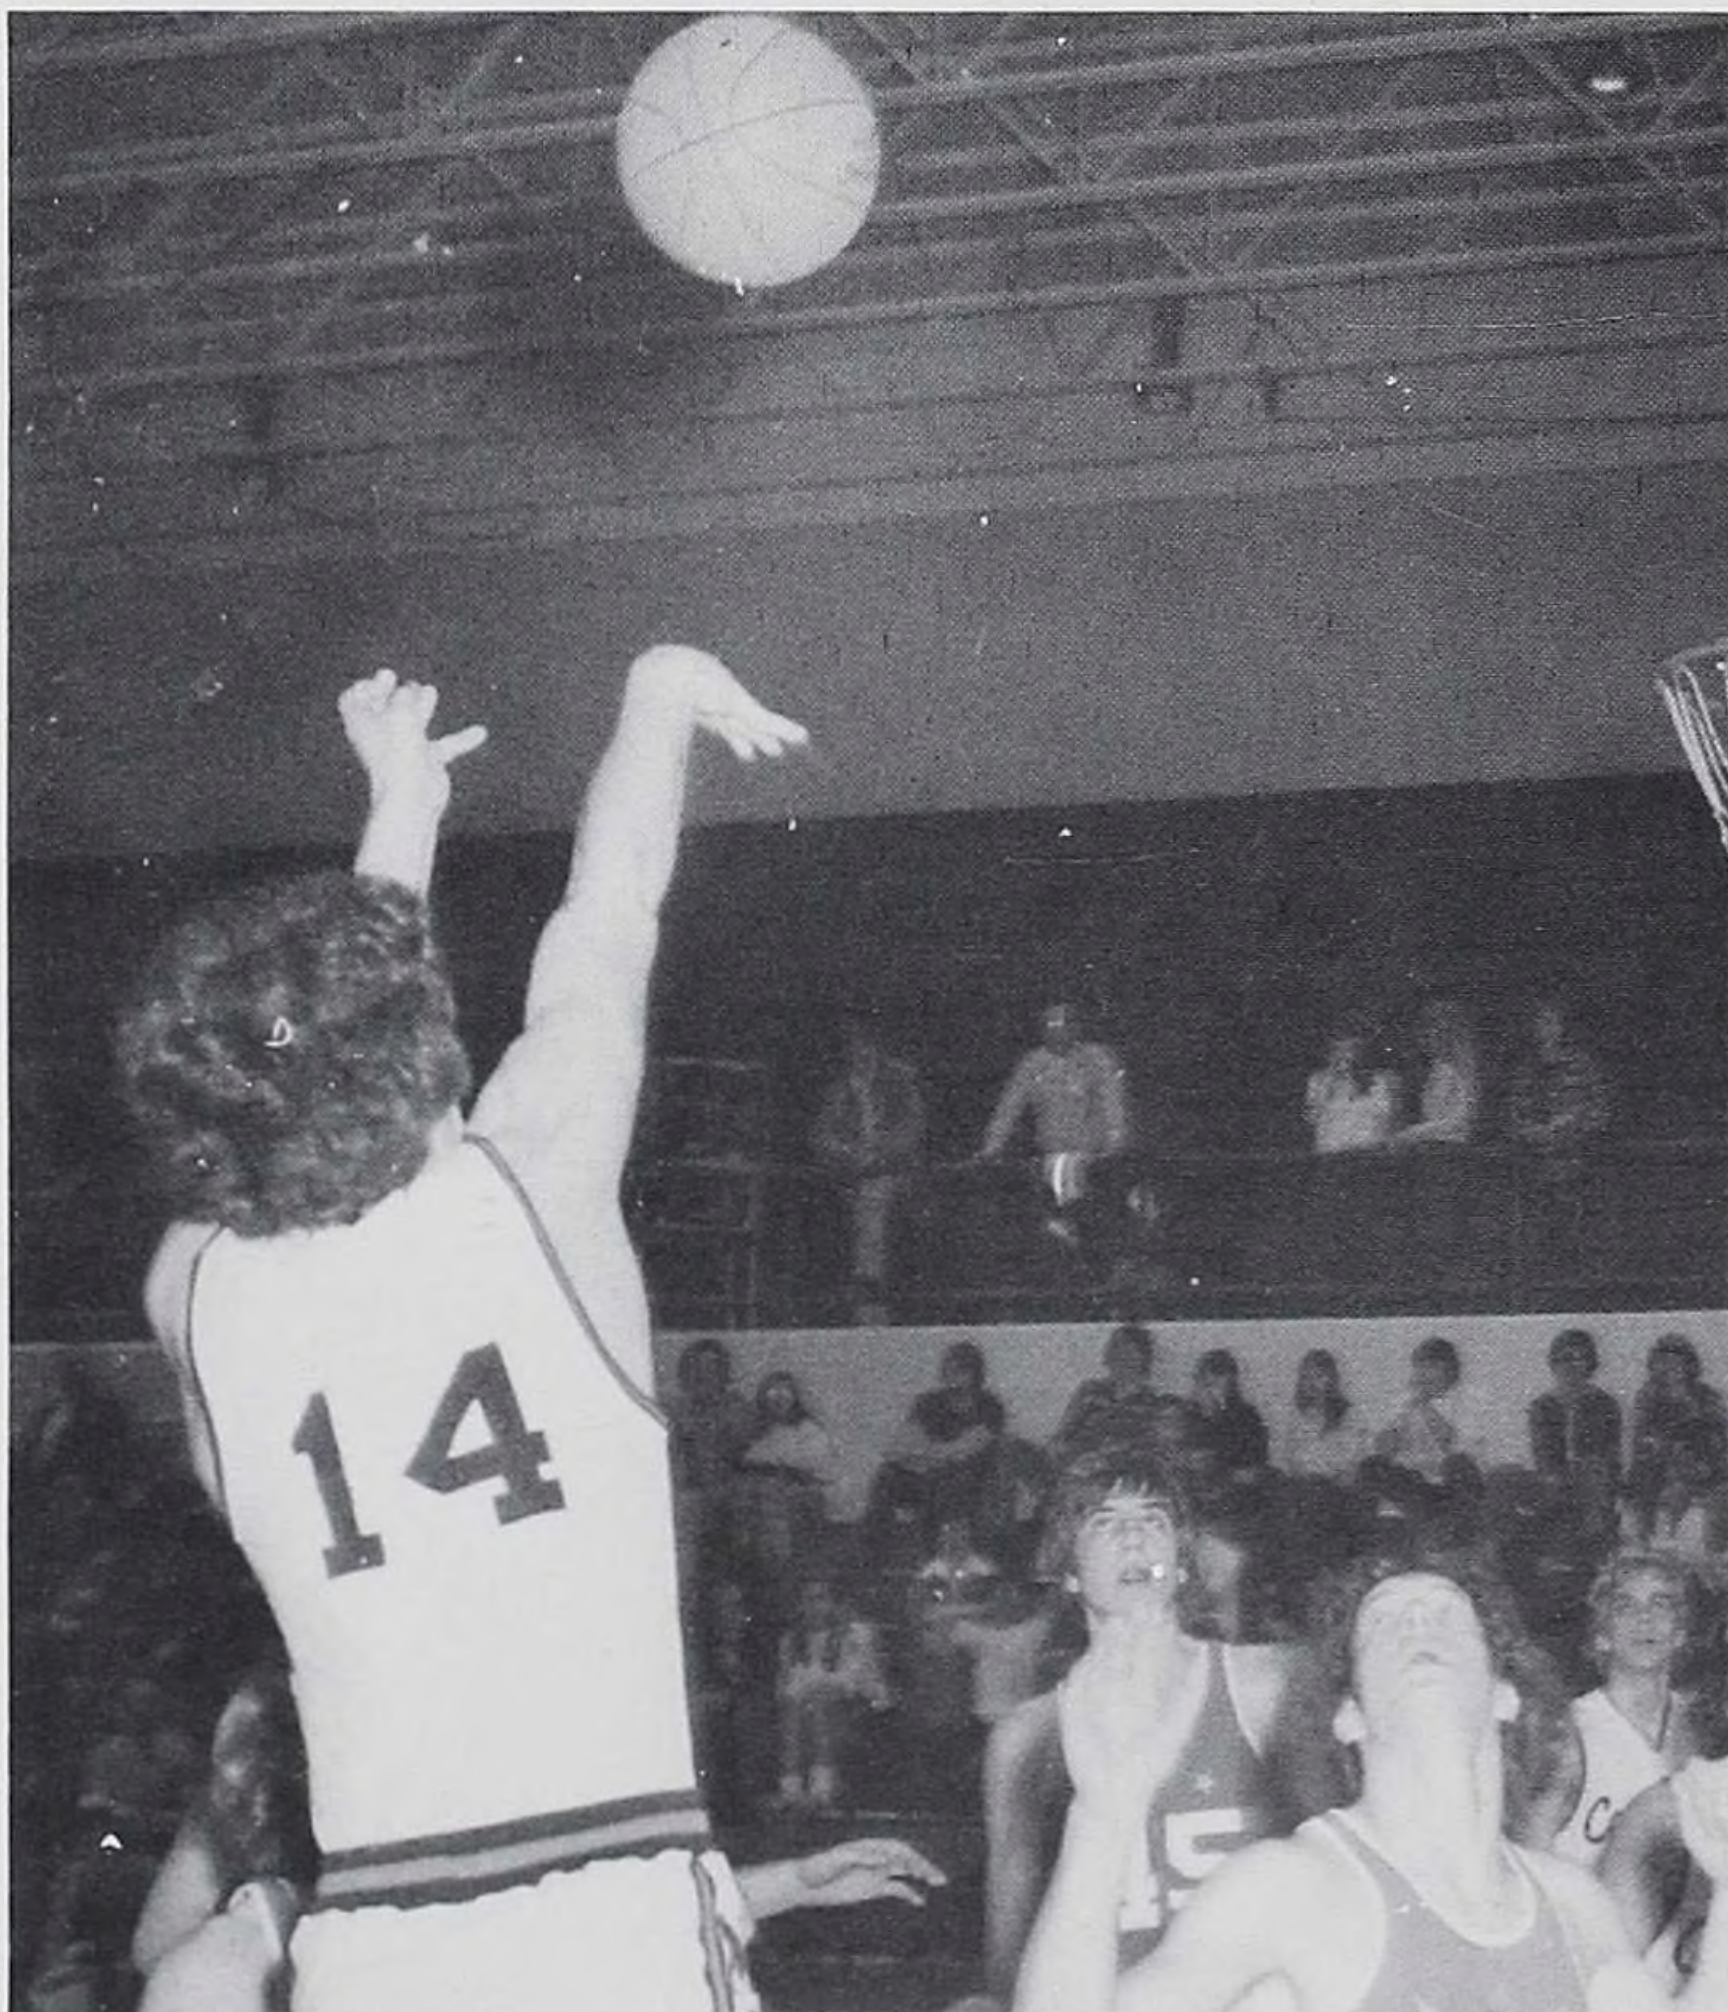

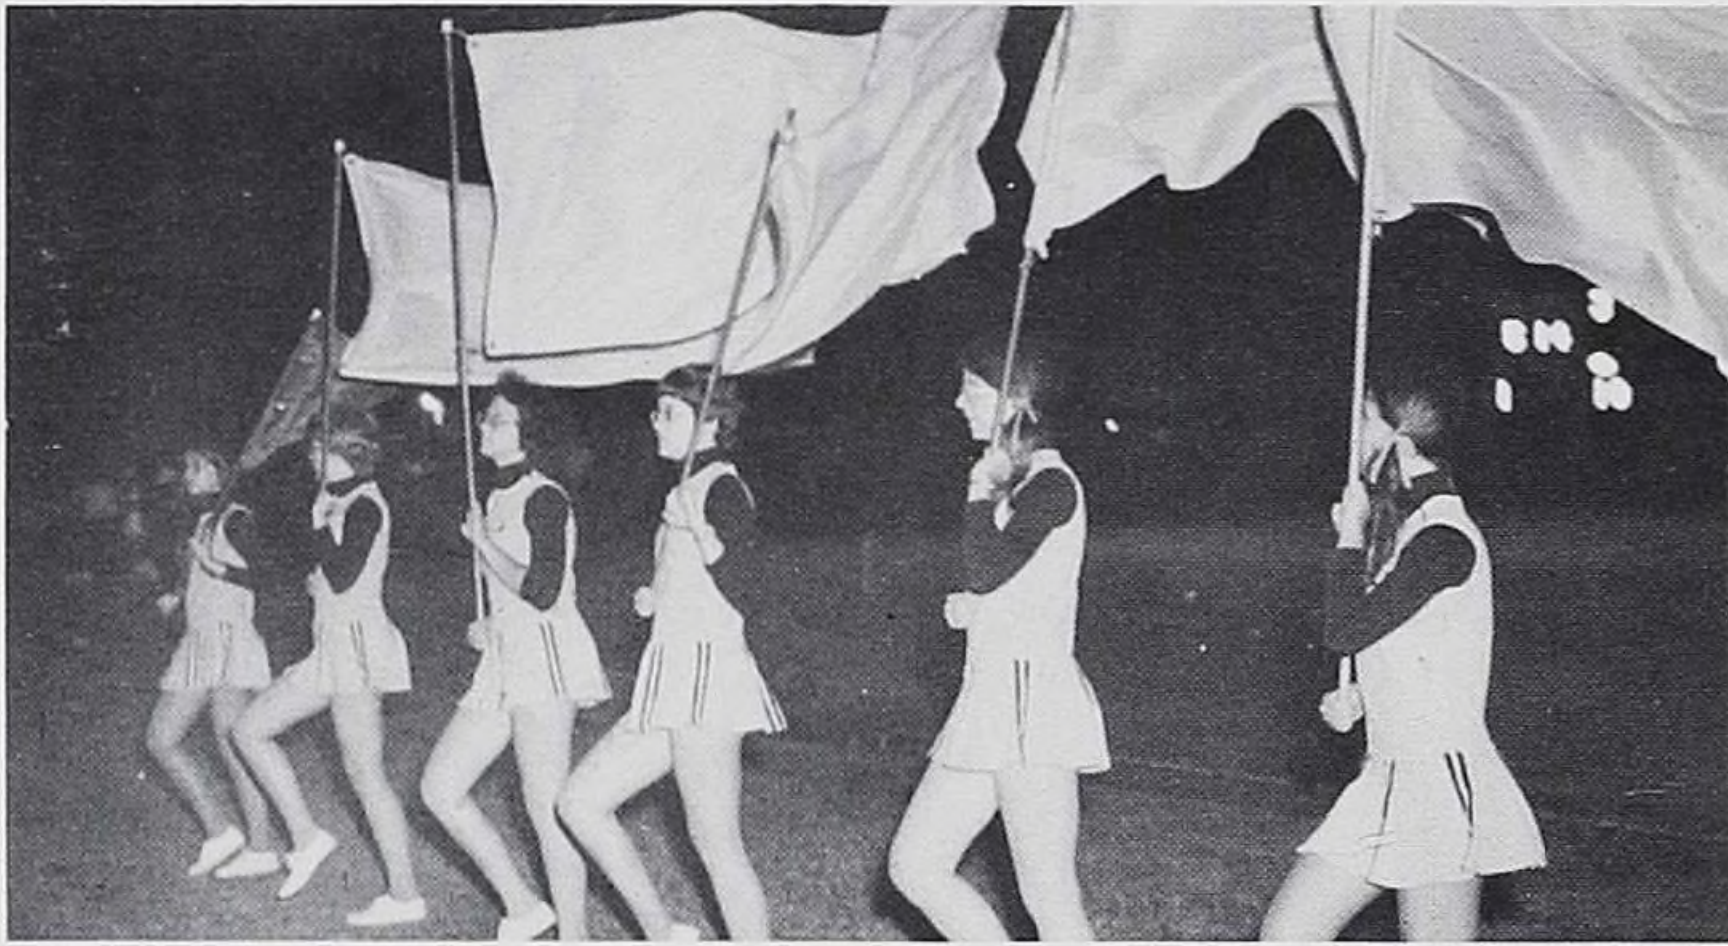

Culmination of graduation is the traditional moving of the tassel to the right side.

Shelley Colston proudly shows her diploma to her father--who is also a member of the Class of 1975, from Laporte High School.

Seniors do not always end their high school activities with graduation. Graduates who are members of the Cougar Cadettes and Band march in the New Carlisle and Rolling Prairie Memorial Day Parades.

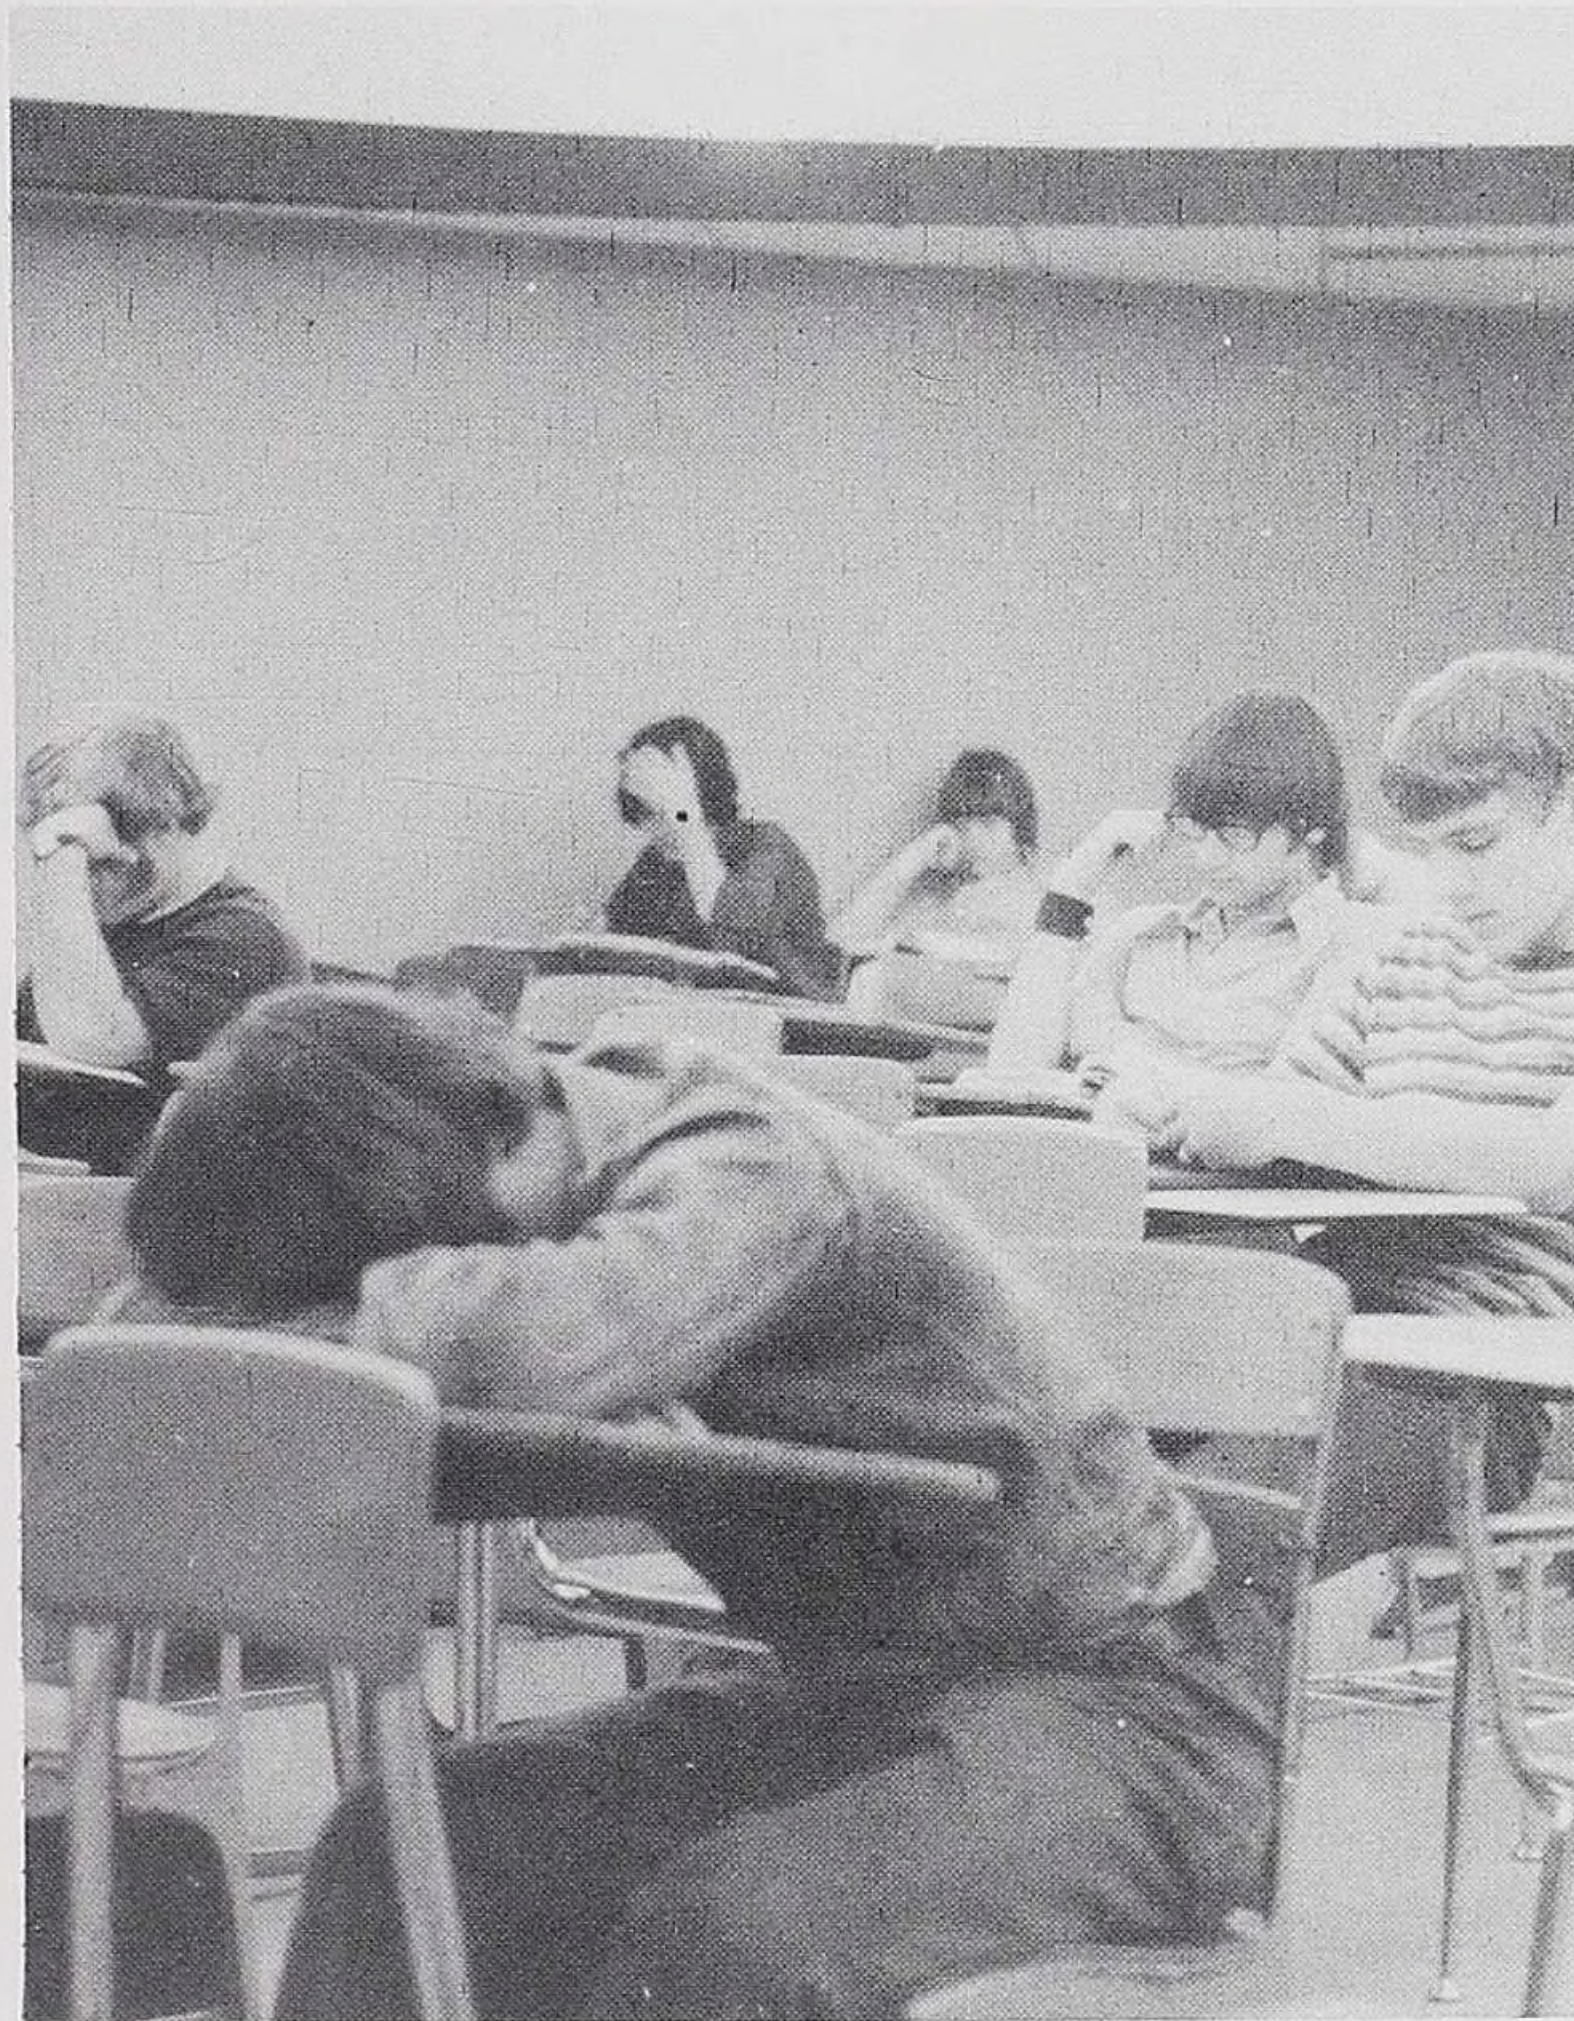

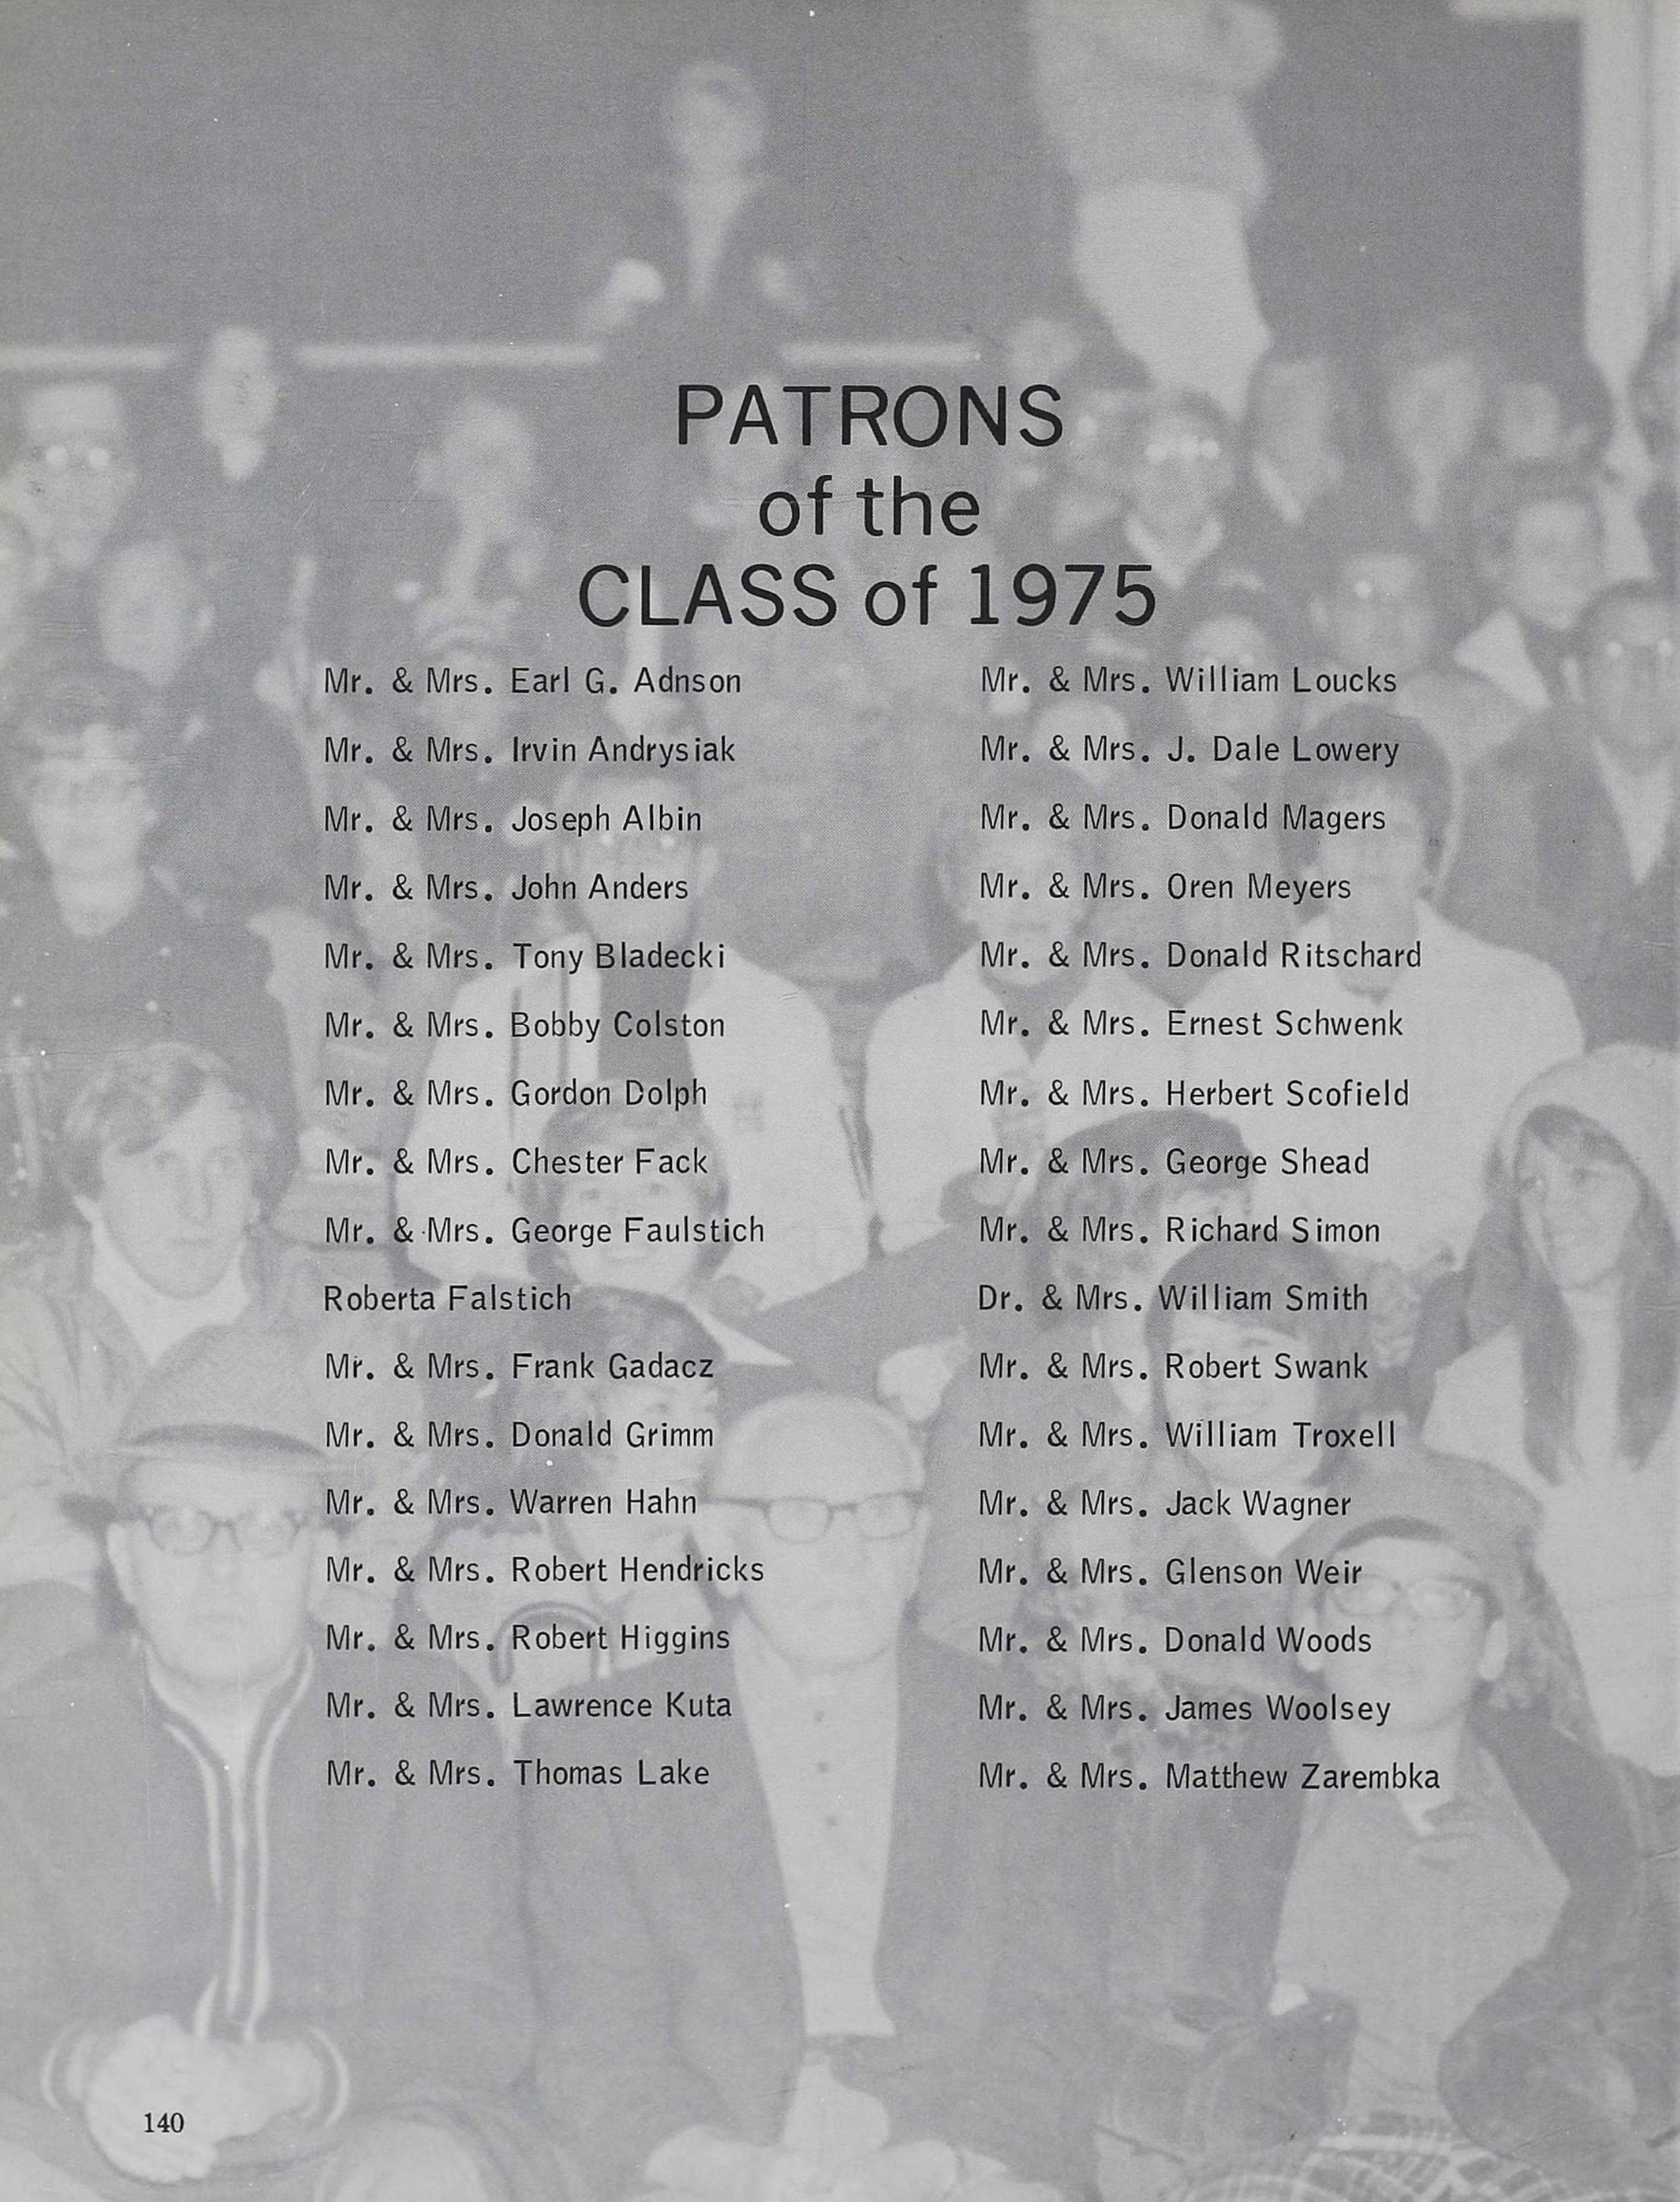

ADVERTISING

Advertising is designed to inform consumers of the many products available on the marketplace. Today the selection of a product to meet the need of the individual consumer requires study-much study by the consumer. Advertising, which gives the consumer facts is most beneficial to him, to the nation and to the economic system.

The year is not over-- and you are reading the pages of the 1975 Prairie Life. You will remember the trials and tribulations--the confusions during some days and the serenity of others.

You will remember being a slave, to a course, a club--and even the yearbook. Yet, the ac-

complishments of the staff members who put this annual together have many to thank--the faculty, the student body, the photographer (Tony), the advertisers, and many others.

We had our mind boggling days, and now that the book is complete, we hope you enjoy the memories.
